**Sailing into History**

2017-01-01 Frank Boles The Great Lakes create a vast transportation network that supports a massive shipping industry. In this volume, seamanship, cargo, competition, cooperation, technology, engineering, business, unions, government decisions, and international agreements all come together to create a story of unrivaled interest about the Great Lakes ships and the crews that sailed them in the twentieth century. This complex and multifaceted tale begins in iron and coal mines, with the movement of the raw ingredients of industrial America across docks into ever larger ships using increasingly complicated tools and technology. The shipping industry was an expensive challenge, as it required huge investments of capital, caused bitter labor disputes, and needed direct government intervention to literally remake the lakes to accommodate the ships. It also demanded one of the most integrated international systems of regulation and navigation in the world to sail a ship from Duluth to upstate New York. *Sailing into History* describes the fascinating history of a century of achievements and setbacks, unimagined change mixed with surprising stability.

The Seven Seas Calendar 2017

2016-08-23 Ferenc Máté There are still hidden places in the world that combine majesty with solitude, sailing adventure with beauty. Last year's Seven Seas Calendar had us cruising through the tropical paradise of the Windward Islands with its deserted beaches, crystalline waters, and warm and gentle Trade Winds. This year, besides our world wide travels, we will be sailing half-a-world away both in longitude and latitude to the wild coasts of British Columbia and Alaska, arguably the most dramatic and mysterious cruising grounds on the planet. Stretching from the romantic old-England harbor of Victoria to the port of Skagway, are chains of majestic mountains and evergreen islands. It is a breathtaking seaway. And most of it within the protected waters of the fabled Inside Passage. The route is less than 800 miles as the crow flies but the mariner will weave among glaciers, fjords, ancient native villages and over 1,200 islands, which combined, yield over 40,000 miles of coastline to explore and discover. Your companions will be eagles, cormorants, sea otters and bears. And the fishing is the very best. Buon Voyage. - Ferenc M t

**Gender at Sea**

---

2022-12-14 Marleen Reichgelt e.a. For centuries seafaring people thought that the presence of women on board would mean bad luck: rough weather, shipwreck, and other disasters were sure to follow. Because of these beliefs and prejudices women were supposedly excluded from the maritime domain. In the field of maritime history too, the ship and the sea have predominantly been perceived as a space for men. This volume of the Yearbook of Women's History challenges these notions. It asks: to what extent were the sea and the ship ever male-dominated and masculine spaces? How have women been part of seafaring communities, maritime undertakings, and maritime culture? How did gender notions impact life on board and vice versa? From a multidisciplinary perspective, this volume moves from Indonesia to the Faroe Islands, from the Mediterranean to Newfoundland; bringing to light the presence of women and the workings of gender on sailing, whaling, steam, cruise, passenger, pirate, and navy ships. As a whole it demonstrates the diversity and the agency of women at sea from ancient times to the present day.
