Io e te in viaggio in oltre 1000 storie per la prima e la seconda infanzia
2022-09-02 Giovanni Greci In un'epoca come quella nella quale viviamo, dominata dall'influenza nella vita individuale e sociale delle tecnologie digitali che prediligono la semplificazione alla complessità, diventa ancora più importante tenere presente che non esiste un'unica verità interpretativa anche delle storie letterarie e delle altre forme della creatività. Vi sono invece verità parziali e punti di vista soggettivi da mettere in relazione con il maggior numero di adulti che svolgono, in diversi ambiti, una funzione educativa e formativa. E tutto ciò è ancora più importante quando il tema riguarda la prima e la seconda infanzia, sulle quali Giovanni Greci si sofferma in questo saggio con l'obiettivo di contribuire a un arricchimento collettivo, grazie a un'analisi imperniata sull'ascolto e sul confronto in relazione alle varie fasi di sviluppo del bambino, nella consapevolezza che ogni storia condivisa è anche fonte di una contaminazione e di una crescita reciproca. Giovanni Greci è stato responsabile dal 1985 al 2018 della Biblioteca "C. Pavese" del Comune di Parma, rivolta prevalentemente ai minori e agli adulti che con varie funzioni si occupano di loro. In merito all'educazione alla lettura e alla letteratura giovanile ha pubblicato varie opere, ultima delle quali: "Su onde d'acqua, di sabbia e di terra: Vite di migranti... nella letteratura per ragazzi da fine '800 ai giorni nostri" (Albatros, 2021). Sempre in merito a dette tematiche ha tenuto conferenze in Italia, in Europa e negli U.S.A. Per quanto riguarda la letteratura 0/6 anni ha scritto sulla rivista Bambini (Ediz. Junior) dal 1985 al 1998 e tenuto corsi di formazione professionale a educatori e insegnanti. Si sottolinea, contemporaneamente, la sua attività in campo fotografico con diverse esposizioni anche all'estero e con la pubblicazione di opere, per ultimo: Oltre a ciò, vedi (Silvana editoriale, 2022).

Under the Same Sky 2017-04-26 Mojgan Shamsalipoor After fleeing their homeland, Australian refugee policies threaten to tear this young couple apart. An unforgettable story of love, hope and a quest for freedom. At seventeen, all Mojgan Shamsalipoor wanted was to be safe from physical and sexual abuse, go to school, and to eventually marry for love. In Iran, she was denied all of this. Milad Jafari was a shy teenage boy who found his voice as a musician. But the rap music he loved was illegal in his country. All Milad's father, a key maker, builder and shopkeeper, wanted was for his family to live free from the fear of arrest, imprisonment or execution. To do that they all had to flee Iran. Mojgan

and Milad met in Australia. But in the months between their separate sea voyages, the Australian government changed the way asylum seekers were treated. Though Milad is recognised as a refugee and will soon become a proud Australian citizen, Mojgan has been told she cannot stay here even though the threat of imprisonment and further abuse, or worse, means she can't return to Iran. UNDER THE SAME SKY, is a powerful insight into the human face of asylum seekers and the the way history has shaped the lives of these two young people. It also shows the compassion alive in our suburbs. For Mojgan and Milad, their love keeps their hopes alive.

The Penguin who was Cold 2022-11-01 Philip Giordano A poignant and non-didactic exploration of difference, self-acceptance, the power of friendship, and inner strength. Milo is a penguin who, unlike the other penguins, does not like the cold. When he takes a chance and goes on a trip to a faraway place where it's warm, he finds friends who accept him, and with their support he learns to accept himself. When he returns home, he is even able to befriend others who are different. The Penguin Who Was Cold is an endearing tale of a young penguin named Milo who does not want to dive into the icy water of the pack ice to catch fish. Unlike his comrades, he stays put, standing alone at the edge of the ice and contemplating the cold sea. When a whale appears and offers to take him on a trip, Milo readily accepts. It is the beginning of a fabulous journey. In the faraway South Seas, Milo is amazed by the colors, the warmth of the water and the air, and most of all the friendly welcome he receives from the tropical animals who accept him for who he is and then give a precious and symbolic gift.

Guido Tonelli, the acclaimed, award-winning particle physicist and a central figure in the discovery of the Higgs boson (the "God particle"), reveals the extraordinary story of our genesis—from the origins of the universe, to the emergence of life on Earth, to the birth of human language with its power to describe the world. Nests 2021-10-07 Susan Ogilvy An exquisitely illustrated, one-of-a-kind celebration of the hidden beauty of nature and the ingenuity of birds Susan Ogilvy started painting bird nests almost by accident. One day, while tidying up her garden after a storm, she found a chaffinch nest - a strange, sodden lump on the grass under a fir tree. She carried it inside and placed it on a newspaper; over the next few hours, as the water drained out of it, the sodden lump blossomed into a mossy jewel. She was amazed, and dropped everything to make a painting of the nest at exact life size. This was the start of an obsession; Ogilvy has since painted more than fifty bird nests from life, each time marvelling at its ingenious construction. Every species of bird has its own vernacular, but sources its materials - most commonly twigs, roots, grasses, reeds, leaves, moss, lichen, hair, feathers and cobwebs, less usually, mattress stuffing and string - according to local availability. Ogilvy would, of course, never disturb nesting birds; instead she relies upon serendipity, which is why all her nests have either been abandoned after fulfilling their purpose, or displaced by strong winds. Although Nests showcases the specimens she has found near her homes in Somerset and on the Isle of Arran, its subject matter is by no means only British, since these same birds can be found all over Europe, Scandinavia and as far afield as Russia, Turkey and North Africa. This wondrous book is all the more special for its rarity. Few modern books exist specifically on the subject of bird nests; the most recent among the author's reference works was published in 1932. Exquisitely designed and packaged, Nests will be an essential addition to the libraries of all nature lovers.

A team of sled dogs sprinting directly at the viewer. And the miracle of the Northern Lights, shimmering like a silk rainbow through the star-filled night. National Geographic writer Carol Kaufmann brings the reader along on a voyage to the North and South Poles, and writes a lively and informative essay for each image, including vital statistics for each animal, such as their size, range, habitat, and more.

Sadhana 1984-09-01 Anthony De Mello Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, Sadhana has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

Eight Myths About Acupuncture

There are a lot of myths with regards to acupuncture. Some of these are true; others are silly while the rest only have a half truth. As you read on, you will learn which ones are worth believing.

The first myth is that acupuncture is painful. This is not true because those who have tried it claimed they only experienced a tiny prick while others did not feel anything at all. There is no tissue damage when the needle is inserted into the skin or pulled out and only in very rare cases are there traces of bruising.

The second myth is that you can get hepatitis or AIDS from acupuncture. This is true only if the needles used are not sterilized. In the US, this will never happen

because acupuncturists are required to use disposable needles thus you are not at risk from these two diseases.

But you have to remember that acupuncture is not permanent. It merely starts something that you have to finish on your own. Some smokers who go 2 or 3 times a week to the clinic will need to come back for follow up sessions in the future.

At the same time, you have to find ways to prevent yourself from picking up a cigarette. You can do this by staying away from people who smoke since you will be tempted to ask for a stick. You can create your own personal mantra which you repeat to yourself every time you have an urge.

Remember that this craving is only short term and will last only for a few minutes. You have worked so hard to leave this behind so stick to the path and stay smoke free.

tra i ghiacci con i pinguini ediz-There are basically 14 pathways throughout the body where chi flows continuously. These are called the meridian points. In order for chi to course through the body unobstructed, there has to be a balance between the strengths of yin and yang. In ancient Chinese philosophy, yin and yang represent the forces of the universe- yin is for feminine, while yang is for masculine. Every single thing in the universe is believed to contain both yin and yang for harmony.

When the yin and yang are not balanced, chi cannot stream through the body liberally. Therefore, the meridian points through which chi courses through need to be stimulated. This is done by the insertion of hair-thin, disposable needles in specific areas on a person's body to induce bodily harmony and bring about healing. A certified and trained acupuncturist will be able to carry out an excellent therapy session for the patient. Trainings for acupuncturists are given in order for them to obtain their licenses. Children and adolescents become anxious when they visit the doctor. This is also an important factor which affects the blood pressure and the readings taken get tampered because of it. That is the reason why many blood pressure readings are taken in order to determine whether the adolescent has high blood pressure or not. The nurse may even ask the adolescent to calm down while taken the readings. Time gap is given between each reading, so as to give time to the adolescent to calm down. Emotions can also affect the blood pressure reading.
