The scholars contend that in spite of its sometimes aimless appearance and apparently unstructured material, casual conversation is a highly structured undertaking and plays a crucial role in the social construction of reality. The book goes through real instances of casual conversations including participants varying in age, gender, ethnicity, and socio-economic class¹². Drawing on understandings from sociology, linguistics, and critical semiotics, the publication furnishes readers with the examinative skills to depict the strata of structure and critical interpretive structures to clarify the ‘social work’ that goes on through chat.
