Our Father Who Aren’t in Heaven 2015-03-02 Robert S. Turner The Lord’s Prayer holds an honored place in the worship and devotional practices of countless Christians around the world. People of every ethnic background, denominational affiliation, and theological leaning pray to “Our Father who art in heaven.” But what if there’s more to it than we think? Our Father Who Aren’t in Heaven takes a decidedly this-worldly approach to the prayer, and seeks to understand what Jesus meant to teach his original disciples--and us--through this radical manifesto of the kingdom of God. In these pages, Robert S. Turner presents a political reading of the prayer and explores how we can encounter through it a God who has left the divine hammock empty and cast God’s lot with humanity and the rest of creation. A renewed understanding of the prayer may have the capacity to transform the world. These subversive reflections on the Lord’s Prayer may have the capacity to transform the reader as well.

Hallowed Be This House 2012-10-01 Thomas Howard Thomas Howard shows us that every room of your house--the living room, the kitchen, the bedroom, and even the bathroom--is a holy place where God’s grace awaits you, if only you know how to recognize His presence there. With a rich awareness of God’s all-encompassing love, Howard takes you on a spiritual tour through your own home and shows you how everything in it can lead you closer to God. In each room, Howard shows you the surprising ways you can meet God there. With wonderful insights, he reveals how, even in your daily activities you can meet the same God who came to Israel in the terror, smoke and fire in the Tabernacle, and the God who died for us on Cross. But they’re by no means confined to a lofty spiritual plane: Howard sees chances to love and serve God, and sees His gentle hand, in the most seemingly dull and ordinary of places and actions. So take up this book to find out how cooking and cleaning, having family dinners together, and all the other commonplace actions that make up the fabric of your daily life can actually disclose God’s presence to you. Your daily life as well as your devotional life will be forever transformed by this unusual look at how lovingly God awaits us even in the smallest things.

Where I Am 2015-09-29 Billy Graham The Final Chapter From Billy Graham While his earthly vision dims, the glory of heaven is illuminated as Billy Graham, the beloved evangelist, shares from his past, and his present, the reality of eternity. Although Billy Graham may no longer preach from the stadiums of the world, in this book you will sense his heart still beats strong with the resounding assurance that he will spend eternity with Jesus Christ, the Savior of the world. In Where I Am, Mr. Graham invites and strongly encourages all of us to contemplate our eternal hope. When asked, “Where is Heaven?” Mr. Graham has wisely replied, “Heaven is where Jesus Christ is, and I’m going to Him soon.” The greatest promise ever given to the human race came from the lips of our Redeemer when Jesus said, “Let not your heart be troubled; you believe in God, believe also in Me...I go to prepare a place for you. I will come again and receive you to Myself; that where I am, there you may be also” (John 14:1–3). Just after his ninety-fifth birthday, Mr. Graham proclaimed with resolve, “When I die, tell others that I’ve gone to my Lord and Savior Jesus Christ—that’s where I am.” Flap Copy: As our nation and world travail in the midst of political, economic, and cultural uncertainties, we can find comfort in the hope that comes from the unchanging truth of God’s Word. Whether talking with a US president, a world leader, or the common man or being interviewed on network television, Billy Graham has always begun his answers with “The Bible says...” In Where I Am, Mr. Graham shares what the Bible has to say about eternity from all of its sixty-six books; messages of truth, warning, love, and the certainty of the future, all gleaned by a man who would like to be remembered solely as a preacher of the Gospel of Jesus Christ. Each short chapter examines the reality that each of us chooses where to spend life after death: Heaven or Hell. From the Old Testament writer who composed “Show me Your ways, O Lord” (Psalm 25:4) to the New Testament writer who penned the words of Jesus, “Whoever believes in [Me] should not perish” (John 3:16), there is hope for anyone who puts his or her faith and trust in the One who gives us the promise, “Where I am, there you may be also” (14:3).

Reflections of Me 2023-01-03 Sarah F. Wilburn “Reflections of Me- Living Life Experiences” is a collection of short stories written in poetry style. It is written as narrative poetry. Narrative poetry is one of the most common poetic forms. This poetic form is very much like a novel. Narrative poetry includes a series of events, including actions and dialogues. It uses a number of poetic methods such as rhyme, meter, and rhyming scheme. Usually, a narrative poem has a single speaker who is known as the narrator. The narrator recites the entire story from beginning to end. I am the narrator of these short stories/poems. The short stories in this narrative poetry are about life experiences such as; looking in the mirror, self-image, blind fate, family reunions, “isms” of the world, friendships, my way of thinking, testing the trials of life, communications, betrayal, beware of the snares, math problems of everyday life, “As Is” and more of life experiences that everyone can relate to at some point and time in their past, as they look in the mirror and reflect upon their life. These are some of the short stories/poems titles that you will find inside this book.

Imagine Heaven 2015-10-13 John Burke It’s obvious from the bookshelves and the big screen that heaven is on everyone’s mind. All of us long to know what life after death will be like. Bestselling author John Burke is no exception. For decades, he has been studying accounts of people who have had near-death experiences (NDEs). While not every detail of individual NDEs correlate with Scripture, Burke shows how the common experiences shared by thousands of survivors clearly point to the God of the Bible and the exhilarating picture of heaven he promises. Imagine Heaven is an inspirational journey through the Bible’s picture of heaven, colored in with the real-life stories of heaven’s wonders. Burke compares gripping stories of NDEs to what Scripture says about our biggest questions of heaven: Will I be myself? Will I see friends and loved ones? What will it look like? What is God like? What will we do forever? What about children and pets? This book will propel readers into an experience that will forever change their view of the life to come and the way they live life today. It also tackles the tough questions of heavenly reward and hellish NDEs. Anyone interested in NDEs or longing to imagine heaven more clearly will enjoy this fascinating and hope-filled book.

Heaven Touching Earth 2021-01-25 Michele Mason In Heaven Touching Earth, the author draws the reader into her world, through personal experiences which are humorous, heart-breaking, and every-where in between. Organized as a daily devotional, each of the 40 days has a Bible verse specifically related to the story of the day as well as a reflection. In meditating on the Bible verses, reading the stories, and reflecting on their own personal experiences, the reader can be brought into a deeper relationship with God and learn to recognize their own everyday encounters with the Lord. Following is an excerpt from Day 11, Experiencing God Through Children: The Bible verse for that day is, "Let the children come to Me, and do not hinder them; for to such belongs the kingdom of God." Luke 18:16 "When I was younger, I knew I was an impatient person, so I prayed to God for patience. Of course, I was expecting God to suddenly and drastically change me into a patient person. In my mind, it went something like this, 'Voila, one patient person coming up!' Well, I soon discovered that God doesn't work like a magical genie. No, instead of making me instantaneously patient, God gave me something infinitely better. He gave me many, many opportunities to practice patience by placing in my care 13 children. Be careful what you pray for!"

God Prods 2019-10-17 Betsy Wise GOD PRODS encourage, lift up your spirit, and bring conviction through Holy Spirit nudges. In this Christian personal growth book, there are 30 reflections about Christian living to help you live a Christian lifestyle and go deeper with God. Excerpt from GOD PRODS. "If you want to store up treasures in heaven but you have dust bunnies under your bed, what do you do? Do you pick a place where you can guard your stockpiled treasures so you won't sneeze? The Bible offers better advice. "Do not store up for yourselves [material] treasures on earth, where moth and rust destroy, and where thieves break in and steal. But store up for yourselves treasures in heaven, where neither moth nor rust destroys, and where thieves do not break in and steal; for where your treasure is, there your heart [your wishes, your desires; that on which your life centers] will be also" (Mathew 6:19-21, AMP). At any moment, our earthly treasures could tumble out of closets, overtake table tops, or fall from hangers. Walk inside most homes and you'll see a TV and trinkets on shelves taking up a whole wall. Jesus knows you and I are stuff gatherers because we like creature comforts. By now we should be experts on how to hoard heavenly treasures, but are we? (End of excerpt) Christian personal growth doesn't come easy. Instead of doing an about-face on your faith, GOD PRODS deal with life's difficulties, overcoming sin, spiritual disciplines, virtues, and other topics. These gentle PRODS direct you to GOD and answer questions about how to grow your faith.

Reflections of the Soul 2008-04 Don Bradley Why do people who call themselves Christians not act like it? How do I find meaning for my life? How does God feel about homosexuals? What's so great about church? Does God really love me or even know I exist? Where have all the good men gone? Who is Jesus Christ and why is He important? If you've ever wondered about or asked about any of the above, then this book is for you. Reflections of the Soul serves two purposes. First, it takes a look at some of the hard questions of the Christian faith and attacks them head on. Second, it challenges those of the faith to live up to the name of Christ. It is time that those who call themselves Christians to either start living up to their name or change it. The Bible says that judgment starts at the House of God. Christians are commissioned to be changers of the world not reflections of it.

Reflections of God's Love 2012-06-22 Keith Furlong As a Christian, I learned at an early age the importance of God in my life. Over the years, I have been mocked and scorned because of my faith, yet I have never doubted my faith in God and the Lord Jesus Christ. I worked, for many years, as a hill shepherd in the beautiful Lake District in Cumbria and fully appreciated the beauty of Gods creation. The chapters of this book contain poems that reflect part of my life, and I hope and pray they help you in your daily walk with Jesus.

Reflections 2021-10-06 Dr. Phillip McClendon If you've been around as long as I have, you probably remember the songs of singer-songwriter Jim Croce. He grew up in South Philly, watching performances of Fats Domino and the Coasters on TV's American Bandstand. He looked like a tough guy, but everyone who knew him said he has a big, warm fun-loving heart. Jim Croce spent the first decade of his adult life toiling in a series of day jobs: teaching emotionally disturbed children, working in a hospital, driving trucks, operating a jackhammer at construction sites. At night, he would sing and play guitar in coffeehouses. He wasn't waiting for his big break--he was hustling for it. When he was twenty-nine, Jim Croce finally landed his first recording contract. His first album, You Don't Mess Around With Jim, was completed quickly, many of the songs being recorded in just one or two takes. Once the album was released, Croce's music, an acoustic blend of folk and rock, caught on fast. The first two singles released from that album quickly became number one hits on AM radio, and Jim Croce became a star. His long- delayed dream had finally come true. His first two hits were upbeat roack ballads. His record company decided to release a third song from the album--a soft plaintive song called "Time in a Bottle". It was about how precious each moment of life is and how quickly those moments pass, never to come again. The song wistfully recounted the things Croce would do if only he could keep time in a bottle and pour out extra hours whenever he needed them. Before "Time in a Bottle" could be released, Jim Croce proved that the words of that song were truer than he realized. On September 20, 1973, after performing in a concert at Northwestern State University in Natchitoches, Louisiana, Croce boarded a small chartered plane along with a flight crew and members of his band. The heavily loaded plane clipped a tree as it took off. Like Croce's career, the plane had barely gotten off the ground before it crashed. Jim croce was dead at age thirty. We can't save time in a bottle, and we never know how much time we have left. We tend to think about the rest of our lives in terms of years and decades. The truth is the rest of our lives might be measured in hours or even minutes. So we need to make the most of each moment we have.

On Earth As It Is in Heaven 2005 Lee Woofenden Heaven and Hell has always been Emanuel Swedenborg's most popular book-and for good reason. Yet here we all are living on earth, not in heaven. What good is talking about heaven if it doesn't make a difference for our lives here on earth? Jesus responds with: "On earth as it is in heaven." You can think of this book as a commentary on that one line from the Lord's Prayer. What does it mean for God's will to be done on earth as it is in heaven? What is God's will, anyway? And how do we do it here on earth? Another way of asking these questions is: How do we make earth more like heaven? In eleven reflections originally preached as sermons in the fall of 2003 at the New Jerusalem Church in Bridgewater, Massachusetts, the Rev. Lee Woofenden explores this question, drawing on Jesus' Parables of the Kingdom from the Gospel of Matthew for inspiration, and using Swedenborg's spiritual classic Heaven and Hell as a guide. You are invited to delve into these pages and seek out many pearls of wisdom about the kingdom of heaven and its practical meaning for our everyday lives on earth.

Reflections Of God's Work 2017-03-29 Jerri Broglin The book is a collection of different lessons that people can go through such as going through losses. There are many examples of the deep-seated dysfunctional habits that we all hold close to our hearts and how we overcome adversity. There are lots of joy in the different ways God comes through to us as He pries us away from these terrible habits. These enlightening words may be familiar to you as you experience your different lessons in life but still allows you to be able to relate to others. These lessons that are taught are through different avenues, but we all come out with the same positive outcome. We all go through many different lessons but are part of one body of Christ as we are learning similar traits to be closer to God. This shows how it's a learning process, always progressing into new territory as we each are learning at our own rate and have different tests that we are going through. We learn to be close to others as we go through our unique lessons. We become more positive in God's ways together. God has put us through the lessons that bring out the best in each person. This book has expressed what brought a magnitude of lessons to us that brings such success in the great change in our attitudes. Otherwise, without them, we would never been taught about the greatest gifts ever that comes from God. It shows the powerful lessons that we as individuals can learn from as we trudge along and go through our ups and downs that God so delicately planted into our lives. God is the most magnificent being that created each individual to become mature through His ingenious purpose He has for us. He allows us to meet others at just the right time and place that can bring us the greatest lessons in relating with others. This will teach us the most as we are searching dearly for our soul's purpose. I believe this a great eye-opener for those searching for answers as we are finding the answers that are so deep in our hearts. God has the true path through our lives that allow us the strong and wise choices that we need to make. That keeps us from falling again once we learn the lessons deep in our heart. It shows the great joy that we go through as we learn these great lessons.

As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

What typically happens when you go to an acupuncturist?

When you go to an acupuncturist, you would typically first be asked about your medical history, how you're feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturist's diagnosis.

Different fields of study make use of certain terms that are not easily understood by others. If you're an accounting student or a professional accountant, you know the different terms used in accounting. One very popular term is profit & loss.

So, do you know what the term means? To start with, you have to determine what profit means. Profit can be referred to as net earnings or net income. Businesses can either sell services or even products. Profit will come from the sales of these services and products. If the costs of running a business are controlled, it can add up to the profits.

Profits are also called ROI or return on investment. However, this term is often limited to securities like bonds or stocks. But still, some companies use ROI to mean short or long term business outcomes. Taxable income is another term for profit.

Self motivation is extremely necessary in losing weight. Because obesity is more a family problem and not an individual problem, the whole family can switch to eating healthy food and exercising regularly. This can make the weight control program a success. Parents can play a major role by boosting the self esteem of their children by concentrating on their strengths and encouraging them, instead of targeting the weight problem. The whole family should eat meals together, instead of eating individually while watching a movie. This helps all the members to focus on the food and the quantity being eaten. If the teenager isn't getting support from his family members, he/she can join support groups which can help towards the goals.

After the adolescent has lost weight, it is very important that he/she maintains it. In majority of the cases, people shift back to their old eating habits after losing weight. That is the reason why obesity is more of a lifetime issue. So the main aim of any weight loss program must be to make the adolescent like healthy food. He/she must also be made to exercise regularly, irrespective of the weight.

If you are thinking about trying acupuncture but are wondering if it is safe or if it's the right treatment for you, the following information may aid you in making a more informed decision.

Description and Origin

Acupuncture is the practice of inserting fine needles into specific points in the body for therapeutic purposes. According to theory, these specific points called "acupuncture points" lie along pathways of the body along which one's vital energy is said to flow. The needles are used to promote free-flow of energy in areas of the body that circulation may have stagnated. Although acupuncture is practiced in many Asian cultures such as Japan, Tibet, and Korea the practice is commonly known to have originated in China.

Acupuncture in the Western World

One of the most debated issues between the East and the West is the use of acupuncture as a western means of medical treatment. Even though this form of medicine has been used as an effective method for over five thousand years in China, there is no concrete evidence from scientific research studies that have proven the healing properties of acupuncture.

Skeptics shrug off the positive effects of acupuncture as merely placebo effects. Believers in acupuncture, however, say that the benefits have simply not yet been proven. Believers promote that the treatment is harmless and can be used as a complement to western medicine.

Anemia in Adolescents

To understand what is anemia one should begin with breathing. The oxygen that is inhaled simply doesn't stop in lungs. It circulates though out the body and fuels the brains also. Oxygen travels to all parts of the body though bloodstream and to be precise in the RBCs I.e. red blood cells. Now, these RBCs are produced in the bone marrow of the body and they serve as boats carrying oxygen in the bloodstream. RBCs have something called hemoglobin, a protein which holds oxygen. To make adequate hemoglobin body requires iron in plenty. The iron is supplied by the foods that we take along with other nutrients. When these RBCs are fewer in number than what is needed anemia occurs in the body. There can be 3 primary reasons: RBCs are lost due to some reason, the production of RBCs is slower than what is needed and lastly the body is destroying the RBCs. Different types of anemia are linked to at least one of these causes.

Teens get anemia as they grow rapidly the amount of iron intake may not be enough to keep up with the pace of the growth as it needs more nutrients in this process. In the case of girls they need more iron after puberty and are at risk due to heavy blood loss during menstrual periods. In some cases pregnancies also leads to anemia. Also, teens who diet excessively to lose weight may also be at risk of having iron deficiency. Meat eaters especially red meat eaters are at less risk compared to vegetarians as meat has rich iron in it.

Asthma in Adolescents

Most of the teenagers who have asthma are also allergic to many things. The asthma can get severe even if the people with asthma are exposed to allergens of low grade. Allergies play an important role in asthma cases which are undiagnosed. Other factors that also trigger childhood asthma include upper respiratory infections like colds, second hand smoke, and certain climate conditions like cold air and due to emotional physical expressions like laughing, crying or yelling. However, it is not the end of the road for asthmatics as they can live active and healthy if they manage asthma properly by avoiding asthma triggers, regular intake of prescribed medications, being alert of the warnings and be aware of the ways to deal with an asthma attack.

The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent's attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship.

Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

But in cases where considerable amount of blood flows in small amount of time as a result of an injury due to a serious example for instance, it may not be possible for bone marrow to replace RBCs so quickly resulting in anemia. Also, losing small amounts of blood over long periods of time may also lead to anemia. Example of this situation can be seen in girls who get heavy periods attributed mainly to deficiency of iron in the diet.

Anemia due to iron deficiency is the most common kind of anemia in the United States. It occurs mainly due to lack of iron in a person's diet. A teen with iron deficiency would have lower hemoglobin production and consequently lower RBCs. When the production of RBCs is low the person is regarded as anemic. The signs of anemia are paleness and tiredness. There can be other reasons as to why enough RBCs are not produced in the body. Folic acid and Vitamin B-12 are also essential to produce RBCs. Getting these in adequate quantities is this important too. There can be a problem with bone marrow's working too resulting in anemia.

Hemolytic anemia occurs when a person has RBCs whose lifespan is shorter. The bone marrow may not be able to produce new blood cells if the blood cells die too early. This can result due to many reasons including person having disorders like sphenocytosis or sickle cell anemia. In some cases the immune system of the body may itself destroy the RBCs. In some cases certain antibodies can form in the blood as a result of reaction to certain drugs or infections and may attack the RBCs.

The reason why tongue acupuncture is being experimented with is because there is a connection between the tongue and the heart through the meridians that spread to all the organs in the body. It is believed that the points on the tongue can influence the state of the other body organs thus giving relief to the one suffering from autism.

Acne in Adolescents

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions.

Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

High Blood Pressure in Adolescents

High blood pressure is a condition where the blood pressure is more than normal. It is also known as hypertension. Heart pumps out blood, so that oxygen can reach to different parts of the body via blood. The pressure with which heart pumps blood is known as blood pressure. The blood pressure comprises of two measures, the systolic pressure and diastolic pressure. Systolic pressure is the larger figure and represents the pressure within the artery of the heart, when contractions take place which pump blood to different parts of the body. Diastolic pressure is the pressure within the artery of the heart, when the blood is filling in the heart and it is at rest. Both the pressures are measured in millimeters of mercury or mmHg. High blood pressure is abnormal increase in systolic pressure or diastole pressure.

Blood pressure is measured by putting a blood pressure cuff on the arm and placing a stethoscope on the chest. There can be very little variation in blood pressure depending upon the time, emotional moods, age, gender, weight, height, physical activity, stress and other illness such as heart disease and kidney disease. Children and adolescents become anxious when they visit the doctor. This is also an important factor which affects the blood pressure and the readings taken get tampered because of it. That is the reason why many blood pressure readings are taken in order to determine whether the adolescent has high blood pressure or not. The nurse may even ask the adolescent to calm down while taken the readings. Time gap is given between each reading, so as to give time to the adolescent to calm down. Emotions can also affect the blood pressure reading.

How does sticking needles into your body help manage the stress?

In traditional Chinese medicine, much of the treatments depend on an understanding of the balance in our bodies and its internal organs. The sicknesses we sometimes develop are seen to be caused by imbalances in our lifestyles and environment. Stress is also affected by this imbalance. That is why when there is something wrong with your body, youd typically have less of an ability to deal with stress. Youd get more irritable and find it really to difficult to relax.

By sticking these very thin needles past the surface of our skin, the acupuncturist stimulates nerves in our body. These nerves send signals to our brain and scientists believe that the brain then releases its natural painkillers into our system. This immediately causes a feeling of relaxation for many people.

The needles could also help your body by stimulating its circulation. With the circulation between the organs of the body improved, a lot of the bodys wastes could be cleansed properly. Your organs would also receive the full benefit of the oxygen from your lungs making its way into the cells of your body without any blockages. This makes your organs much healthier and leaves you feeling much better in the long term as well.

Such feedback will let the specialist know what needs to be modified in the future to help you with your problem.

This is the same substance that makes quitting a big challenge for most smokers. The nicotine that you get from smoking will attach itself to the pleasure areas in the brain, making it hard for you to stop. People who have undergone acupuncture treatment reported that they no longer find cigarettes as tempting or as satisfying.
