## *I Never Called It Rape*

1994-07-08 Robin Warshaw The classic book that broke new ground by thoroughly reporting on the widespread problem of date and acquaintance rape has now been completely updated to include recent studies, issues, current events, and controversies.

## **South of Forgiveness**

2017-05-09 Elva Thordis One ordinary spring morning in Reykjavik, Iceland, Thordis Elva kisses her son and partner goodbye before boarding a plane to do a remarkable thing: fly seven thousand miles to South Africa to confront the man who raped her when she was just sixteen. Meanwhile, in Sydney, Australia, Tom Stranger nervously embarks on an equally life-changing journey to meet Thordis, wondering whether he is worthy of this milestone. After exchanging hundreds of searingly honest emails over eight years, Thordis and Tom decided it was time to speak face to face. Coming from opposite sides of the globe, they meet in the middle, in Cape Town, South Africa, a country that is no stranger to violence and the healing power of forgiveness. *South of Forgiveness* is an unprecedented collaboration between a survivor and a perpetrator, each equally committed to exploring the darkest moment of their lives. It is a true story about being bent but not broken, facing fear with courage, and finding hope even in the most wounded of places. Personable, accessible, and compelling, *South of Forgiveness* is an intense and refreshing look at a gendered violence, rape culture, personal responsibility, and the effect that patriarchal cultures have on both men and women.

## **Living for Today**

2010-01-01 Erin Merryn *Silence Broken and Stigmas Shattered -- Help for Incest Survivors Is Here* Fans of Erin Merryn's heart-wrenching debut memoir *Stolen Innocence* were left wondering at the end what would become of an emotionally fragile Erin after her confrontation with the reality of being a child of incest and molestation. In *Living for Today*, readers find that Erin cultivated the strength to face her abuser and eventually facilitated and experienced relief from years of emotional restlessness, while also igniting the beginnings of a new fearless journey. *Living for Today* chronicles that journey, which began with the unearthing of private shame and releasing of ugly memories and letting go of guilt and becoming the mouthpiece of millions of her generation. Through her compelling narrative, readers will learn how they, too, can: Learn to look forward, in spite of an abusive past Block off any impending guilt from outing an abuser Deal with interfamily strife as a result of incest and molestation Shake off the "victim" tag and replace it with one that reads "survivor" *Living for Today* is Merryn's contribution to an audience that has felt victimized, ashamed, isolated, and silenced by its abusers and offers a roadmap for self-discovery, forgiveness, and empowerment to help readers rid the stigma they have attached to their trauma and live fully and fearlessly for today.

## *Whatever Gets You Through*

2019-04-16 Jen Sookfong Lee Personal stories of surviving after the trauma of sexual assault. In the era of #MeToo, we've become better at talking about sexual assault. But sexual assault isn't limited to a single, terrible moment of violence: it stays with survivors, following them wherever they go. Through the voices of twelve diverse writers, *Whatever Gets You Through* offers a powerful look at the narrative of sexual assault not covered by the headlines—the weeks, months, and years of survival and adaptation that people live through in its aftermath. With a foreword by Jessica Valenti, an extensive introduction by editors Stacey May Fowles and Jen Sookfong Lee, and contributions from acclaimed literary voices such as Alicia Elliott, Elisabeth de Mariaffi, Heather O'Neill, and Juliane Okot Bitek, the collection explores some of the many different forms that survival can take. From ice hockey to kink, boxing to tapestry-making, these striking personal essays address experiences as varied as the writers who have lived them. With candor and insight, each writer shares their own unique account of enduring: the everyday emotional pain and trauma, but also the incredible resilience and strength that can emerge in the aftermath of sexual assault. Contributors: Gwen Benaway Juliane Okot Bitek Elly Danica Amber Dawn Alicia Elliott Karyn Freedman Heather O'Neill Elisabeth de Mariaffi Lauren McKeon Soraya Palmer Leah Lakshmi Piepzna-Samarasinha Kai Cheng Thom

## **Silenced No More**

2021-12-07 Sarah Ransome For the first time ever, a survivor tells the shocking inside story of her time trapped in Jeffrey Epstein and Ghislaine Maxwell's sex trafficking ring. Sarah Ransome moved to New York at the age of 22 with hopes for a better life, an education, and a career in fashion. Her dreams were destroyed almost overnight when she met Jeffrey Epstein and was invited to an island paradise disguising her personal hell. "By sharing my testimony... I hope to see both minds and laws changed. More than anything, I want to encourage a culture in which women, even if they haven't led the perfect lives, even if they're not proud of every one of their choices, still feel the right to stand in their truth." This story is her day in court.

## **Light Shines in the Darkness**

2019-01-29 Lucille F. Sider Clinical psychologist and clergywoman Lucille F. Sider adds her voice to the chorus of women in the #WhyIDidntReport and #MeToo movements. This is Lucille's story of resilience and hope as a survivor of sexual abuse. She explains the challenges of finding her way out of a fear-based spirituality into one that is full of grace, hope and forgiveness. The unique richness of her book is that she wrote it to spark healing discussion. As she describes her experiences in these pages, she also steps back and offers helpful analysis as both a psychologist and a clergywoman. At the end of the book, she includes a complete study guide with questions for reflection for individuals, small groups and classes. "The book is arranged to be a valuable tool in the hands of persons in the helping professions, such as clergy, social workers, psychologists," writes the Rev. Jo Anne Lyon, General Superintendent Emerita and Ambassador of The Wesleyan Church. "This writing is so powerful, yet gentle, that people will be able to add their own words to combat the pain. Lucille's credentials enhance the power of the story. Truly a book for these days!" Lucille was just 6 years old when she was abused both physically and sexually by a hired man on the family's farm. Lucille's inner conflict about these experiences, propelled her into a childhood of guilt and shame. While Lucille was an outstanding student, singer and athlete, she lived with an underlying fear, loneliness and mild depression. A second sexual abuse by her brother-in-law, when she was just 15 years old, added to Lucille's fears. When she tried to tell her parents about this, their response was only to pray for her—so, she kept these painful events secret for years. Many years later, her brother in law was arrested for molesting a 15-year-old girl. Lucille and others, including his own daughter, testified against him and he was incarcerated. Raised in a conservative household and faith, Lucille went to college and seminary to search for a theology that was full of grace and forgiveness. She found this especially at Yale Divinity School, though she always lived with a mild depression. Her struggle to understand both her faith and psyche led her to earn a PhD from Northwestern University in psychology and religion. She became a clinical psychologist and pastoral counselor and later the Executive Director of The Samaritan Pastoral Counseling Center in Evanston, Illinois. At age 50, when her husband suddenly divorced her, Lucille was cast into darkness and despair which resulted in major depression. Lucille became dysfunctional and had to step down as Executive Director of her counseling center. Years of therapy led her to new ways of offering and sharing her gifts, which included writing stories and ministering to seniors, especially those suffering from dementia. In *Light Shines in the Darkness*, Lucille F. Sider shares her unique story of sexual abuse and severe mental illness, including depression and PTSD. She describes her legal battle in fighting for justice and her ongoing persistence in finding ways to remain stable. She calls these her mental health and spiritual practices and they include: counseling, medication, meditation, healthy diet, exercise, daily prayer and church attendance. In sharing her story, Lucille now is helping others along their journeys from sexual abuse to stability—to find their own hope and their own light that shines through the darkness. "Timely, compelling and courageous, this autobiography lays bare the trauma of both child and adolescent abuse," writes Carol Schreck, Professor Emerita of Pastoral Care and Counseling at Palmer Theological Seminary. "This book deserves to be read by any adult who, living in a culture where 80 percent of females have experienced some form of sexual abuse by the age of 18, are no longer content to keep their proverbial head in the sand."

## *Kill the Silence*

2015-08-25 Monika Korra In 2009, college sophomore and track star Monika Kørra was grabbed by three men on her way home from a party and brutally raped. Within hours of being released, Monika resolved that she would not be a victim – she was going to be a survivor. Monika had

traveled from her home in Norway to Southern Methodist University in Dallas, determined to acclimate to life in the States and excited for the opportunity of a full scholarship to do what she loved. As an athlete and Olympic hopeful, Monika already knew how to train against extreme fatigue, soreness, and distraction. She was used to overcoming adversity, using obstacles like stepping stones to achieve her goals. Persistence and patience had always been her greatest tools. She would now have to use these same qualities to regain her self-identity and find a "new normal". Stripped of her sense of security, she slowly rebuilds her life with the help of her friends, family, and her own unflappable spirit. Monika shares the inspiring combination of mental and physical work that gave her the strength to win her greatest fight yet: the court case against the three men who had attacked her. She testifies against them with confidence and a fierce determination that these men would never be able to hurt anyone else, securing a life sentence. Two of them received life, one with parole and one without parole for the worst of the three. A large percentage of sexual assaults - upwards of 80% for female college students, like Monika was - go unreported, and 15 of every 16 rapists go free. By sharing her story, Monika hopes to inspire others to come forward and tell their own stories without shame or fear. Kill the Silence is about one woman's journey to recover from trauma and a call to arms to break the stigma that surrounds violence against women.

### After Silence

2010-09-22 Nancy Venable Raine "Silence has the rusty taste of shame. The words shut up are the most terrible words I know. . . . The man who raped me spat these words out over and over during the hours of my attack--when I screamed, when I tried to talk him out of what he was doing, when I protested. It seemed to me that for seven years--until at last I spoke--these words had sunk into my soul and become prophecy. And it seems to me now that these words, the brutish message of tyrants, preserve the darkness that still covers this pervasive crime. The real shame, as I have learned, is to consent to them." After Silence is Nancy Venable Raine's eloquent, profoundly moving response to her rapist's command to "shut up," a command that is so often echoed by society and internalized by rape victims. Beginning with her assault by a stranger in her home in 1985, Raine's riveting narrative of the ten-year aftermath of her rape brings to light the truth that survivors of traumatic experiences know--a trauma does not end when you find yourself alive. Just as devastating as the rape itself was the silence that shrouded it, a silence born of her own feelings of shame as well as the incomprehension of others. Raine gives shape, form, and voice to the "unspeakable" and exposes the misconceptions and cruelties that surround this prevalent though hidden crime. With formidable power and in intimate detail, she probes the long-term psychological and physiological aftereffects of rape, its tangled sexual confusions, the treatment of rape by the media and the legal and medical professions, and contemporary cultural views of victimhood. For anyone, female or male, who has suffered from or witnessed the shattering effects of rape, After Silence inspires and points the way to healing. This landmark book is a stunning literary achievement that is a testimony to the power of language to transform the worst sort of violation and suffering into meaning and into art.

### Crash Into Me

2011-01-04 Liz Seccuro A haunting personal account by the woman at the center of the highly publicized "12-Step Apology" rape case describes how her attacker's written apology and her own struggles to heal prompted their e-mail correspondence, disturbing realizations about other attackers, and her eventual decision to prosecute. A first book.

### Hush

2008-09-01 Nicole Braddock Bromley Childhood sexual abuse is running rampant, yet it's the best-kept secret in our nation today. Its victims grow into adulthood with their little child's heart trapped in the pain and torment of their past. Nicole Braddock Bromley shares her own story and the steps to moving from silence to healing. Hush exposes the harsh realities of childhood abuse, explains the pain it causes, examines the false beliefs it creates, and empowers survivors to begin a personal journey toward healing by breaking the silence. With words of understanding and comfort, Nicole tells the real-life stories of those whose voices would otherwise never be heard. She is straightforward enough to pierce the hearts of those in a survivor's circle of influence,

Acupuncture can do more than just helping patients deal with arthritis or migraine. Clinical tests have shown that it can help obese people lose weight and those who are suffering from insomnia.

In some countries, acupuncture has even been used to replace chemical anesthesia prior to surgery as there are some patients who are not able to tolerate regular anesthesia. Another field which acupuncture has proven to be effective is helping patients deal with their addictions such as alcohol, drugs and smoking. One study of smokers revealed that the average patient will cut down by half the number of cigarettes they consume after just one treatment. Just imagine the potential after a few more sessions!

Fifth, medical doctors do not believe in the potential of alternative medicine. This is not true because there are more doctors these days that are open to the idea that there are other ways to help patients aside from conventional medicine. In fact, some of them even recommend an acupuncturist if they know that what they have done is not effective.

Another myth is that every patient will undergo the four needle technique. This is not true and it will only be used when the specialist feels that the energy of the patient is virtually not moving as a last resort.

The seventh myth is that it is better for a medical doctor to perform acupuncture. This is wrong because the training is much different than that taught in medical school. Students who have an acupuncturist license train for 3,000 hours before they are allowed to practice this profession. So between an acupuncturist and a medical doctor, you should go with someone who has learned about this much longer.

### **For Free after silence rape and my journey back-A Quick-Start guide to Acupuncture**

Using needles to adjust bodily functions to optimum levels is the principle behind acupuncture. Both ancient Chinese and modern Western practitioners have used this technique to relieve many sufferers of chronic disease. Needling is a relatively safe, beneficial treatment strategy that can be used to reduce pain, improve healing, and increase general well-being. But exactly how is this procedure done and what sort of benefits can be obtained?

#### Procedure for Needle Puncture

There are two broad categories of acupuncture practice today, traditional Chinese medicine (TCM) and medical acupuncture. Both have their merits, so the choice is individual. The decision for most people hinges upon which philosophy appeals more to them and which technique holds the least apprehension.

### **Orthopedic Problems in Adolescents**

Physical health problems encountered during adolescence can affect the development of the body, if not treated. There are few anatomic regions, such as spine, knee and ankle, in adolescents which can get orthopedic problems such as Osgood-Schlatter disease, and Slipped Capital Femoral Epiphysis.

Osgood-Schlatter disease is caused due to injury or overuse of the knee which causes swelling and pain in the area below the knee, above the shin bone. The patellar tendon and the soft tissues surrounding it gets inflamed, because of the constant pulling of the area where the tendon joins the below knee. Usually, adolescents who participate in sports actively and are athletic, such as football, basketball, soccer, ballet and gymnastics, tend to get the Osgood-Schlatter disease. Boys of age eleven to fifteen and girls of age eight to thirteen are at greater risk. The reason why adolescents get this problem is that their bones grow faster when compared to the tendons and muscles in this age and because of this the muscles and tendons stretch and become tight.

*Review after silence rape and my journey back,*As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

### **What typically happens when you go to an acupuncturist?**

When you go to an acupuncturist, you would typically first be asked about your medical history, how youre feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturists diagnosis.

Apart from studying the medical history of the patient, the doctor will recommend diagnostic procedures such as bone scans, X-ray, magnetic resonance imaging and blood test. The bone scans will determine the arthritic changes and degenerative changes in the joints, which helps to detect tumors & bone diseases and the cause of pain and inflammation. The X-ray will give the inside picture of the bones, tissues and organs. The magnetic resonance imaging provide detailed image of the structures within the body with the help of large magnets. It is best if slipped capital femoral epiphysis is determined in the early stages, so that the femur bone's head doesn't slip off any further. The adolescent may need to undergo a surgery along with physical therapy.

### **Consulting with a Professional Acupuncturist**

There are a number of acupuncture practitioners in existence nowadays, offering a host of services. If you are considering this form treatment for your weight management, make sure that you settle with no less than a trained and professional acupuncturist. A poorly trained acupuncturist may not be able to pinpoint the specific meridian points and worse, may cause unnecessary bodily pain and discomfort.

Moreover, your acupuncturist may require an herbal supplement for your treatment, to encourage a longer-term effect. Your sessions need not be maintained for an extensive period; however you may be required to visit your acupuncturist during the entire course of the sessions.

There are other means for losing weight successfully, and this does not include crash dieting and strenuous work outs. If carried out by trained professionals, acupuncture can be the answer for effective weight management. While it is far from being a cure-all, it may just be the right weight loss solution for you.

### **Analysis after silence rape and my journey back;Obesity in Adolescents**

Obesity and overweight are the second most major reasons of preventable deaths in America. Stagnant lifestyle and junk food is to be blamed for more than three hundred thousand deaths per annum. The sad thing is that this problem is on the rise. Obesity is a chronic disease which poses serious health risk to the health of an individual. Also, obesity is the easiest recognizable medical problem, but is very difficult to deal with.

People usually confuse obesity with overweight. Overweight is gaining of a few extra pounds. A person is considered obese when the total body weight is minimum ten percent more than the recommended weight for his/her body structure and height. According to an estimate every year hundred billion dollars are spent on the obesity problem. It is very important to treat the problem as early as possible. Obese children between the age of ten and thirteen have eighty percent chances of growing into obese adults, unless they change their ways and adopt a healthier lifestyle. The obesity problem starts from the age of five and continue till adolescence.

Before this person does anything, you will first have to answer a few questions. You will then be given a physical exam to check your pulse and observe the shape, color and coating of your tongue. Other things that are checked will be the color and texture of the skin and your posture as this will give clues to your health.

Only then will you be told to lie down on a padded examining table and the needles are inserted to the skin. The difference with this kind of needle is that they twirl and jiggle each time they are pushed further into the body.

You may not feel them at all and if you do, it will only be a twitch that soon goes away. Once they are in place, this will be left there for 15 to 60 minutes that may make you feel very relaxed and sleepy that you may even doze off. Once the session is complete, the needles are removed and you will be on your way.

The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to ¼ or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

According to a research, youngsters who have participated in sex education programs which gave them knowledge about contraception methods, abstinence, sexually transmitted diseases and youngsters who involved in discussions in order to get a clear picture, used contraceptives and condoms effectively without any increase in sexual activity. The Center for Disease Control & Prevention has said that the solution for unwanted adolescent pregnancies and STDs are barrier contraceptive use and abstinence.

#### **Allergies in Adolescents**

Allergies are reactions by immune system that are abnormal in nature to stuff that are usually harmless to majority of the people. When somebody is allergic to something the immune system of that person gets confused and thinks that the substance is detrimental to the body. The substances causing allergic reactions are known as allergens.

The examples of allergens are dust, food, plant pollen, medicine etc. The body produces antibodies to protect itself from these allergens. The antibodies make certain cells present in the system to let chemicals to mix with the bloodstream and one of them is histamine. This chemical then acts on nose, eyes, skin, lungs, gastrointestinal tract and results in allergic reaction symptoms. Exposure to the same chemicals in future triggers same response to the antibodies again meaning every time one comes in contact with the same allergen, allergic reaction is produced in the body.

**History after silence rape and my journey back**-In TCM, practitioners adhere to the concept of Qi, or energy flow, and the meridians in which they travel. They use longer needles and insert them deeper in order to reach the acupuncture points. Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years.

In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

Conditions for Puncture Application

There is a broad and extensive list of ailments which can be treated with acupuncture. The conditions run the gamut from asthma to constipation, anxiety to weight loss. Most TCM practitioners believe that any health condition results from an imbalance in Qi flow, therefore amenable to needle therapy. Western acupuncturists tend to have a more limited list of indications, the most common of which is undoubtedly control of pain.

Cholesterol screening helps to determine the cholesterol and fat levels in the blood. Children and adolescents with normal cholesterol level is a thing of the past. Because of the changing lifestyle and junk food trend, even they have a high risk to develop high levels of cholesterol which also increases the risk of developing heart diseases which can affect the blood vessels and the coronary arteries. The main cause of this change is obesity, junk food high in fat, fast food diets, sedentary lifestyle and high cholesterol level in family history. Keeping the blood cholesterol levels at normal is a good way of avoiding high blood pressure and coronary artery diseases.

The blood cholesterol level can vary from individual to individual. Healthy levels of LDL is less than one hundred and thirty milligrams, HDL is greater than thirty five milligrams. If the HDL is less than thirty five milligrams then the adolescent is at a higher risk of developing heart diseases. And LDL more than one hundred and thirty milligrams is dangerous. But a high level of LDL cholesterol is a problem in many citizens of America. And there is an expected increase in number, the figure is unknown, of adolescents who have a family history of high cholesterol levels.

An adolescent or a child who has a parent having high levels of blood cholesterol and family history of heart diseases at an early age, should take cholesterol test from the age of two. Adolescents who are obese also should have lipid test along with cholesterol test. The lipid test shows levels of kinds of fats in blood such as triglycerides, LDL and HDL.

#### **How to Look For a Good Acupuncture School**

Since 1982, acupuncture has found its way to the US. There are currently 50 schools that teach it and 3,000 licensed practitioners all over the country. Do you think you can be a licensed professional? Here are a few things to help you look for a good acupuncture school.

You should now that the 50 schools mentioned are all accredited by the National Commission for Acupuncture and Oriental Medicine. It is recognized by the Department of Education and some of these schools even have a masters program.

Most of these schools can be found online so you can give them a call and ask certain questions about the school. You can find out the cost of tuition, the teacher student ratio, if the school offers consultation services to students and the alumni and if they have an extensive library which focuses on traditional Chinese medicine.

*Instruction after silence rape and my journey back*-Should there be a school near where you live, you should probably take it so you don't have to worry about boarding and lodging as this is just added cost to this long term investment.

If you like the school but cannot afford the cost of tuition, find out if they offer scholarships or if they have a grant in aid program. If there are none, then check with the federal government because they should have one and they will give it to deserving students who plan to enroll in a school accredited by the National Commission for Acupuncture and Oriental Medicine.

Some states do not require you to get a license once you graduate from the program. However, if you plan to practice this elsewhere, you should prepare yourself for the state board exam as this is a requirement.

### Transformation after silence rape and my journey back, **Acupuncture Closely Revealed**

The foundation of acupuncture rests on the relevance of an individual's chi in maintaining bodily and mental health. It is believed that chi is present in every living creature, and flows through specific pathways in the body. Health problems arise when the flow of chi on the body is blocked. As a result, a person may feel persistent headaches, muscle pain, fever, weakness, or in the worst case, becomes afflicted with more serious health conditions.

A Deeper Explanation of Acupuncture

Acupuncture has its origins in ancient Chinese philosophy and practice. More than ten thousand years ago, during the Old Stone Age of China, stones were fashioned into knives for medical purposes. After several years, during the New Stone Age, these stones were eventually made into needles intended for the same therapeutic end. These accounts are further evidenced by unearthed stone needles found to be of the same types used during the New Stone Age.

#### **Acupuncture in the Western World**

One of the most debated issues between the East and the West is the use of acupuncture as a western means of medical treatment. Even though this form of medicine has been used as an effective method for over five thousand years in China, there is no concrete evidence from scientific research studies that have proven the healing properties of acupuncture.

Skeptics shrug off the positive effects of acupuncture as merely placebo effects. Believers in acupuncture, however, say that the benefits have simply not yet been proven. Believers promote that the treatment is harmless and can be used as a complement to western medicine.

**Happiness after silence rape and my journey back**-There are many premenstrual syndrome symptoms which can be broadly classified as neurologic & vascular symptoms, psychological symptoms, gastrointestinal symptoms, fluid retention, eye problems and respiratory problems. The cause of premenstrual syndrome are fluctuations in the levels of progesterone & estrogen, hypoglycemia, hyperprolactinemia, psychogenic factors, changes in carbohydrate metabolism, excessive aldosterone, progesterone allergy and water retention by kidneys. The good thing is that premenstrual syndrome can be prevented by exercising regularly, eating balanced diet and sleeping adequately. Dysmenorrhea is feeling intense menstrual pain and cramps. Depending on the severity, dysmenorrhea is stated as primary dysmenorrhea or secondary dysmenorrhea. Primary dysmenorrhea symptoms are felt from the onset of the menstrual periods and are felt life-long. Because of abnormal uterine contractions due to chemical imbalance, severe menstrual cramping is experienced. Secondary dysmenorrhea starts in the later stages. The causes are different for primary and secondary dysmenorrhea. Secondary dysmenorrhea can be blamed on medical conditions such as endometriosis, uterine fibroids, pelvic inflammatory disease, tumors, infections, and abnormal pregnancy.

Dysmenorrhea symptoms are lower abdomen cramping & pain, lower back pain, nausea, diarrhea, vomiting, fatigue, fainting, weakness and headaches. Females who are overweight, smoke, and have started to menstruate before turning eleven are at a higher risk of developing dysmenorrhea. Females who drink alcohol during menstrual period experience prolonged pain. After studying the health conditions, age, cause of dysmenorrhea, and extent of condition of the individual, corresponding treatment will be recommended. Regular exercise, abdominal massage, hot bath, vitamin supplements, and dietary modifications can help overcome dysmenorrhea.

Revenge after silence rape and my journey back;The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a

company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

The treatment is finished after an hour and when the needles are removed, you are advised to wear ear magnets so your session continues even when you leave the clinic.

While acupuncture itself is a painless procedure, some smokers have claimed that they felt a prick or get sleepy.

Most smokers will have to come to the clinic 4 to 6 times before seeing any significant results. Just to give you an idea, one study shows that the respondents reported a decrease in the number of cravings to smoke just after one or two sessions. Seven out of 10 of the respondents were able to kick the habit after 5 or 6 sessions.

Because the number of test subjects is small, there are some who doubt the effectiveness of acupuncture. This is because although there are positive signs with regards to the short term effects of this technique, its effects were not sustained. This is why some medical journals have stated that it is unclear what acupuncture can do in smoking cessation.

One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

Heat cramps are the mildest of all heat related injuries and constitute aching muscle cramps and also spasms that occur during intense exercising and also after intense exercising and also sweating in high heat. The symptoms of heat cramps include cramps that are painful in the legs. Flushed and moist skin is also symptoms of heat cramps. The symptoms could also include mild fever generally below 102 degree Fahrenheit. Teens suffering from heat cramps should move to a cool place and take adequate rest. Remove any excessive clothing and wear or put cool clothing on skin or cool skin using air conditioner or fan. Sports drinks which are cool and which contains sugars and salts can also be taken. Stretching out cramped muscles slowly and steadily also helps reduce heat cramps.

On the other hand heat exhaustion is more serious and severe compared to heat cramps and occur due to heavy loss of salt and water from the body. Extreme heat conditions, inadequate fluid intake and excessive sweating results in this conditions. Also, heat exhaustion occurs as a result of inability of the body to maintain the body temperature below the normal which can deteriorate further and also result in a heat stroke which is even worse. The symptoms of heat exhaustion are: muscle cramps, moist skin, pale skin, nausea, fever above 102 degree Fahrenheit, diarrhea, vomiting, fatigue, headache, weakness, anxiety and faint feeling. Teens suffering from heat exhaustion should stay in cool surrounding and take enough rest. Removing excessive clothing, putting on cool clothes and sitting in fan or air conditioning also helps the situation. Intake of cold sports drinks which contains salts and sugars are also advisable. If a teen doesn't show any signs of improvement even after taking all these measures a physician should be consulted immediately.

In the state of California, one governing body that gives the person the title is the California Acupuncture Committee.

If they get this from another organization, a copy of their license must always be clearly displayed in the practitioner's office. One example is the National Certification Commission for Acupuncture and Oriental Medicine.

When choosing an acupuncturist, there are a few things you should ask aside from their credentials. You should know what styles of acupuncture is used as there are some techniques that do not use needles to treat a patient.

**Transformation after silence rape and my journey back**—The imbalance in the Qi may go one way or the other because of Yin and Yang. The person can only be normal if there is harmony between the two which is what acupuncture is trying to achieve. This can only be restored by stimulating these acupuncture points so your Qi can be adjusted, balanced and harmonized.

Apart from using needles, practitioners also use friction, heat, impulses of electromagnetic energy and pressure to stimulate these points in order to balance the movement of energy in the body to reduce one's health.

An example of this is sonopuncture where an ultrasound device that transmits sound waves is applied to these points in the body. Some use a tuning fork and other vibration devices.

**Miracle after silence rape and my journey back:** In some cases, acupuncture is more effective when the needles are first heated. This technique is known as "moxibustion." Here, the acupuncturist lights a small bunch of the dried herb called moxa or mugwort and holds it above the needles. The herb, which burns slowly and gives

off a little smoke and a pleasant, incense-like smell, will never directly touch your body.

Another variation is electrical acupuncture. Here, electrical wires are hooked up to the needles and a weak current runs through it which may cause no or little sensation at all.

It is also possible that herbal medications will also be prescribed by the acupuncturist for your treatment to be successful.

If the church doesn't want to hire a skilled force of financial experts, they can simply make use of the church accounting software. Accounting experts designed the software and it can assist church officials in managing finances. The software engineers are already well-acquainted with the church's various needs and so they can easily tailor-fit a certain church's software according to its particular requirements.

The church accounting software is quite different from other software. Ordinary accounting software is designed to suit the needs of modern businesses. The church accounting software on the other hand focuses mainly on the necessities of the institution. The church has no ambition or any financial interest. Remember, the church is not being taxed by the government and so its expenditure and resources takes a different curve altogether. Aside from that, the church has several expenditure and income account heads.
