How To Live 365 Days A Year

2002-08-20 John A. Schindler, M.D. One of the great self-help books of all time, How to Live 365 Days a Year has sold more than 1 million copies and has been translated into 13 languages. Author John A. Schindler, M.D. introduced the powerful concept of EII, or "emotionally induced illness," long before most physicians were aware of the connection between emotions and physical health. Our new edition of this 195556 New York Times bestseller, a classic of the genre, has updated health and nutrition information by a leading health and fitness expert. Dr. Schindler's original research explains how prolonged unhappiness sets off negative responses in the nervous and endocrine systems, producing symptoms of disease, and offers techniques for coping with EII. His landmark advice on positive lifestyle, exercise, and nutrition speaks volumes to today's self-aware readers. Topics include achieving emotional satisfaction, attaining sexual maturity, dealing with stress in the workplace, and meeting the challenge of the aging years. John A. Schindler, M.D. co-founded the distinguished Monroe Clinic in 1939, where he advanced his revolutionary theories on psychosomatic medicine. His 1949 radio broadcast, titled "How to Live a Hundred Years Happily," was so well received that transcripts of the show were printed and sold by the thousands. This led him to write the highly influential bestseller How to Live 365 Days a Year. Dr. Schindler died in 1957.

Whale Done!

2003-02-03 Kenneth Blanchard A compendium of straightforward techniques on how to accentuate the positive and redirect the negative, increasing productivity at work and at home. What do your people at work and your spouse and kids at home have in

common with a five-ton killer whale? Probably a whole lot more than you think, according to top business consultant and mega-bestselling author Ken Blanchard and his coauthors from SeaWorld. In this moving and inspirational new book, Blanchard explains that both whales and people perform better when you accentuate the positive. He shows how using the techniques of animal trainers -- specifically those responsible for the killer whales of SeaWorld -- can supercharge your effectiveness at work and at home. When gruff business manager and family man Wes Kingsley visited SeaWorld, he marveled at the ability of the trainers to get these huge killer whales, among the most feared predators in the ocean, to perform amazing acrobatic leaps and dives. Later, talking to the chief trainer, he learned their techniques of building trust, accentuating the positive, and redirecting negative behavior -- all of which make these extraordinary performances possible. Kingsley took a hard look at his own often accusatory management style and recognized how some of his shortcomings as a manager, spouse, and father actually diminish trust and damage relationships. He began to see the difference between "GOTcha" (catching people doing things wrong) and "Whale Done!" (catching people doing things right). In Whale Done!, Ken Blanchard shows how to make accentuating the positive and redirecting the negative the best tools to increase productivity, instead of creating situations that demoralize people. These techniques are remarkably easy to master and can be applied equally well at home, allowing readers to become better parents and more committed spouses in their happier and more successful personal lives.
