Dionysos 2020-06-16 Carl Kerényi No other god of the Greeks is as widely present in the monuments and nature of Greece and Italy, in the sensuous tradition of antiquity, as Dionysos. In myth and image, in visionary experience and ritual representation, the Greeks possessed a complete expression of indestructible life, the essence of Dionysos. In this work, the noted mythologist and historian of religion Carl Kerényi presents a historical account of the religion of Dionysos from its beginnings in the Minoan culture down to its transition to a cosmic and cosmopolitan religion of late antiquity under the Roman Empire. From the wealth of Greek literary, epigraphic, and monumental traditions, Kerényi constructs a picture of Dionysian worship, always underlining the constitutive element of myth. Included in this study are the secret cult scenes of the women's mysteries both within and beyond Attica, the mystic sacrificial rite at Delphi, and the great public Dionysian festivals at Athens. The way in which the Athenian people received and assimilated tragedy in its immanent connection with Dionysos is seen as the greatest miracle in all cultural history. Tragedy and New Comedy are seen as high spiritual forms of the Dionysian religion, and the Dionysian element itself is seen as a chapter in the religious history of Europe.

Prometheus 2020-06-30 Carl Kerényi Prometheus the god stole fire from heaven and bestowed it on humans. In punishment, Zeus chained him to a rock, where an eagle clawed unceasingly at his liver, until Herakles freed him. For the Greeks, the myth of Prometheus's release reflected a primordial law of existence and the fate of humankind. Carl Kerényi examines the story of Prometheus and the very process of mythmaking as a reflection of the archetypal function and seeks to discover how this primitive tale was invested with a universal fatality, first in the Greek imagination, and then in the Western tradition of Romantic poetry. Kerényi traces the evolving myth from Hesiod and Aeschylus, and in its epic treatment by Goethe and Shelley; he moves on to consider the myth from the perspective of Jungian psychology, as the archetype of human daring signifying the transformation of suffering into the mystery of the sacrifice.

Archetypal Images in Greek Religion 2015-03-08 Carl Kerényi What did Zeus mean to the Greeks? And who was Hera, united with Zeus historically and archetypally as if they were a human pair? C. Kerenyi fills a gap in our knowledge of the religious history of Europe by responding to these questions. Examining the world Zeus and its Greek synonyms theos and daimon, the author traces the origins of Greek religion in the Minoan-Mycenaean civilization. He shows how Homer's view of the gods decisively shaped the literary and artistic tradition of Greek divine mythology. The emergence of the Olympian family is seen as the expression of a humane Zeus cult determined by the father image but formed within the domain of Hera. Originally published in 1976. Spiritual Democracy 2014-10-14 Steven B. Herrmann Exploring what the author calls the "shaman-poets"—Walt Whitman, Herman Melville, and Emily Dickinson—this book demonstrates how far ahead of their times these writers were in forecasting developments of our current time. It was Whitman who first wrote of "Spiritual Democracy" as a vision of transformation and global equality. Steven Herrmann delves deep into the visionary expressions of this idea of Spiritual Democracy—"the realization of the oneness of humanity with the universe and all its forces"—in these early American writers, showing the influence the groundbreaking work of the geologist and thinker Alexander Von Humboldt had on Whitman and others. Writing that every member of the global community regardless of color, gender, or sexual orientation can realize these freedoms, the author explores how one can tap into the vitalizing source of equalizing, vocational energy to bring a sense of purpose and peace. Although the book shines as a work of literary criticism, the author's insights as a Jungian psychotherapist take the reader ever deeper into the creative impulses of Whitman, Melville, Dickinson, and other poets in their crafting of the seminal notion of Spiritual Democracy. In addition, Herrmann offers practical methodologies for personal and global transformation in the section, "Ten Ways to Practice Spiritual Democracy." A History of the Quests for the Historical Jesus, Volume 2 2022-11-08 Colin Brown A comprehensive, two-volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship. Jesus' life and teaching is important to every question we ask about what we believe and why we believe it. And yet there has never been common agreement about his identity, intentions, or teachings—even among first-century historians and scholars. Throughout history, different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage, creating a labyrinth of conflicting ideas. From the evolution of orthodoxy and quests before Albert Schweitzer's famous "Old Quest," to today's ongoing questions about criteria, methods, and sources, A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward. The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject, assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical, sociological, and theological underpinnings. Instead of seeking a bedrock of "facts," Brown stresses the role of hermeneutics in formulating questions and seeking answers. Colin Brown was almost finished with the manuscript at the time of his passing in 2019. Brought to its final form by Craig A. Evans, this book promises to become the definitive history and assessment of the quests for the historical Jesus. Volume One (sold separately) covers the period from the beginnings of Christianity to the end of World War II. Volume Two covers the period from the post-War era through contemporary debates.

Eleusis 2015-03-04 Bruce Rimell A visionary and artistic exploration through the greatest of the Mystery traditions of Antiquity, 'Eleusis' follows the winding path that leads from the kidnap of Persephone and Demeter's grief at her loss to the transformation of mankind through the Epiphany of an Ineffable Female Godhead. Drawing from several years of mythological, experiential and visionary research, and delightfully enfolded with 25 colour and monochrome art images, Bruce attempts to move beyond the Eleusinian veil of secrecy to enter into the very Heart of the Mystery. A final illustrated essay also explores the meaning of the Eleusinian Mysteries for the modern day.

Origins and Method--Towards a New Understanding of Judaism and Christianity 1993-09-01 Bradley H. McLean This collection of essays is presented in honour of John C. Hurd on the occasion of his retirement as Professor of New Testament at Trinity College, Toronto, and in recognition of a distinguished career in the fields of Pauline studies and computing in the humanities. Given Professor Hurd's interest in Christian origins and methodology, it is appropriate that the contributors to this volume deal with the origin and development of various aspects of Judaism and Christianity. In particular they highlight how a greater attentiveness to method has resulted in a reshaping of our understanding of Christianity or Judaism. The volume is divided into three parts: 'New Understandings of Paul', 'New Understandings of the New Testament', and 'New Understandings of the Relationship between Judaism and Christianity'. Contributors include Walter Auffrecht, Karl Donfried, Robert Grant, John Kloppenborg, Gerd Ludemann and Wayne McCreeady.

Swoon: Great Seducers and Why Women Love Them 2013-02-04 Betsy Prioleau "Lose yourself: Swoon has wicked fun answering that age-old query: What do women want?"—Chicago Tribune Contrary to popular myth and dogma, the men who consistently beguile women belie the familiar stereotypes: satanic rake, alpha stud, slick player, Mr. Nice, or big-money mogul. As Betsy Prioleau, author of Seductress, points out in this surprising, insightful study, legendary ladies' men are a different, complex species altogether, often without looks or money. They fit no known template and possess a cache of powerful erotic secrets. With wit and erudition, Prioleau cuts through the cultural lore and reveals who these master lovers really are and the arts they practice to ensnaw women. What she discovers is revolutionary. Using evidence from science, popular culture, fiction, anthropology, and history, and from interviews with colorful real-world ladykillers, Prioleau finds that great seducers share a constellation of unusual traits. While these men run the gamut, they radiate joie de vivre, intensity, and sex appeal; above all, they adore women. They listen, praise, amuse, and delight, and they know their way around the bedroom. And they've finessed the hardest part: locking in and revving desire. Women never tire of these fascinatros and often, like Casanova's conquests, remain besotted for life. Finally, Prioleau takes stock of the contemporary culture and asks: where are the Casanovas of today? After a critique of the twenty-first-century sexual malaise—the gulf between the sexes and women's record discontent—she compellingly argues that society needs ladies' men more than ever. Groundbreaking and provocative, Swoon is underpinned with sharp analysis, brilliant research, and served up with seductive verve.

The Gurob Ship-Cart Model and Its Mediterranean Context 2013-01-09 Shelley Wachsmann When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W. M. F. Petrie in Gurob, Egypt, in 1920, he expected to produce a brief monograph that would shed light on the model and the ship type that it represented. Instead, Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples, to the religious practices of ancient Egypt and Greece, and to the oared ships used by the Bronze Age Mycenaean Greeks. Although found in Egypt, the prototype of the Gurob model was clearly an Aegean-style galley of a type used by both the Mycenaean and the Sea Peoples. The model is the most detailed representation presently known of this vessel type, which played a major role in changing the course of world history. Contemporaneous textual evidence for Sherden—one of the Sea Peoples—settled in the region suggests that the model may be patterned after a galley of that culture. Bearing a typical Helladic bird-head decoration topping the stempost, with holes along the sheer strakes confirming the use of stanchions, the model was found with four wheels and other evidence for a wagon-like support structure, connecting it with European cultic prototypes. The online resources that accompany the book illustrate Wachsmann's research and analysis. They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand, both in its present state and in two hypothetical reconstructions. The online component also contains high-resolution color photos of the model, maps and satellite photos of the site, and other related materials. Offering a wide range of insights and evidence for linkages among ancient Mediterranean peoples and traditions, The Gurob Ship-Cart Model and Its Mediterranean Context presents an invaluable asset for anyone interested in the complexities of cultural change in the eastern Mediterranean at the end of the Bronze Age and the beginning of the Iron Age.

The Minoan Epiphany - A Bronze Age Visionary Culture 2021-01-02 Bruce Rimell The art and iconography of the Minoan civilisation of Bronze Age Crete is rightly described as having a refreshing vitality with a fortunate combination of stylisation and spontaneity in which the artist is able to transform conventional imagery into a personal expression. The dynamism, torsion and naturalism evident in Minoan art stands in stark contrast to the hieratic rigidity of other ancient civilisations, and nowhere is this more apparent than in the iconography of the Minoan Epiphany, a set of mainly glyptic (rings, seals, and seal impression) images which appear to depict religious celebrants experiencing direct and seemingly ecstatic encounters with deities. This collection of essays explores this central aspect of Minoan religion, taking a strongly archaeological focus to allow the artefacts to speak for themselves, and moving from traditional 'representational' interpretations into 'embodied' perspectives in which the ecstatic capabilities of the human body throw new light on Aegean Bronze Age ritual practices.

Such ideas challenge rather passive assumptions modern Western observers hold about the nature of religious feelings and experiences, in particular the depictions of altered states of consciousness in ancient art, and the visionary potential of dance gestures. Speculative asides on the potential for a Minoan origin for Classical Greek humanism, and hints in the imagery on ancient Cretan conceptions of the cosmos, are set against sound archaeological theories to explain this lively and dynamic corpus of images. Beautifully illustrated with images and sketches of the relevant artefacts, this wide-ranging volume will stimulate audiences with archaeological, prehistorical and spiritual interests, as well as historians of religion and art. 'The Minoan Epiphany' also represents an influential antecedent to the Visionary Humanist philosophy which forms the majority of Bruce's current independent research interests.

Becoming 2010 Deldon Anne McNeely 'Becoming: An Introduction to Jung's Concept of Individuation' explores the ideas of Carl Gustav Jung. His idea of a process called individuation has sustained Deldon Anne McNeely's dedication to a lifelong work of psychoanalysis, which unfortunately has been dismissed by the current trends in psychology and psychiatry. Psychotherapists know the value of Jung's approach through clinical results, that is, watching people enlarge their consciousness and change their attitudes and behavior, transforming their suffering into psychological well-being. However, psychology's fascination with behavioral techniques, made necessary by financial concerns and promoted by insurance companies and pharmaceutical companies, has changed the nature of psychotherapy and has attempted to dismiss the wisdom of Jung and other pioneers of the territory of the unconscious mind. For a combination of unfortunate circumstances, many of the younger generation, including college and medical students, are deprived of fully understanding their own minds. Those with a scientific bent are sometimes turned away from self-reflection by the suggestion that unconscious processes are metaphysical mumbo-jumbo. Superficial assessments of Jung have led to the incorrect conclusion that one must be a spiritual seeker, or religious, in order to follow Jung's ideas about personality. 'Becoming' is an offering to correct these misperceptions. Many university professors are not allowed to teach Jungian psychology. Secular humanism and positivism have shaped the academic worldview; therefore, investigation into the unknown or unfamiliar dimensions of human experience is not valued. But this attitude contrasts with the positive reputation Jung enjoys among therapists, artists of all types, and philosophers. Those without resistance to the unconscious because of their creativity, open-mindedness, or personal disposition are more likely to receive Jung's explorations without prejudice or ideological resistance. There is a lively conversation going on about Jung's ideas in journals and conferences among diverse groups of thinkers which does not reach mainstream psychology. 'Becoming' is for those whose minds are receptive to the unknown, and to help some of us to think-more with respect than dread-of the possibility that we act unconsciously.

Erotic Mentoring 2016-06-16 Janice Hocker Rushing They're everywhere in the academy: young, bright women mentored by older scholars, usually men, who attempt to mold them into their own masculine ideals. Janice Hocker Rushing's study of over 200 women and their life transformations is the subject of this eloquent book. Using the tropes of mythology and Jungian psychology, the author characterizes the many paths these women's academic lives take: as Muse for a faltering older scholar, as Mistress or wife, as the dutiful academic daughter. Their resistance to this power differential also takes many forms: as a Veiled Woman, silent in public but active in private, or the Siren, using her sexuality to beat the system. Ultimately, Rushing arrives at the myth of Eros and Psyche, where women's self understanding and personal development turns her erotic mentoring into an autonomous, whole, and free life, unfettered by any man. These women's stories and Rushing's literary and literate framing of their lives will ring true to many in the university.

Resentment and the Feminine in Nietzsche's Politico-Aesthetics 2010-11-01 Caroline Joan S. Picart Nietzsche's remarks about women and femininity have generated a great deal of debate among philosophers, some seeing them as ineradicably misogynist, others interpreting them more favorably as ironic and potentially useful for modern feminism. In this study, Kay Picart uses a genealogical approach to track the way Nietzsche's initial use of "feminine" mythological figures as symbols for modernity's regenerative powers gradually gives way to an increasingly misogynistic politics, resulting in the silencing and emasculation of his earlier configurations of the "feminine." While other scholars have focused on classifying the degree of offensiveness of Nietzsche's ambivalent and developing misogyny, Picart examines what this misogyny means for his political philosophy as a whole. Picart successfully shows how Nietzsche's increasingly derogatory treatment of the "feminine" in his post-Zarathustran works is closely tied to his growing resentment over his inability to revive a decadent modernity.

Orpheus and Greek Religion 1993-10-10 William Keith Guthrie The tales told of Orpheus are legion. He is said to have been an Argonaut--and to have saved Jason's life. Rivers are reported to have stopped their flow to listen to the sounds of his lyre and his voice. Plato cites his poetry and Herodotus refers to "practices that are called Orphic." Did Orpheus, in fact, exist? His influence on Greek thought is undeniable, but his disciples left little of substance behind them. Indeed, their Orphic precepts have been lost to time. W.K.C. Guthrie attempts to uncover and define Orphism by following its circuitous path through ancient history. He tackles this daunting task with the determination of a detective and the analytical rigor of a classical scholar. He ferries his readers with him on a singular voyage of discovery.

Prometheus Rebound 1988 Joseph C. McLelland Modern atheism is a further act in the ancient drama of Prometheus vs Zeus. This book argues that the antagonism is false, as proved by the "irony": in which atheism turns into antitheism, transferring divine qualities to Humanity. The drama is framed by the "classical dilemma," a conflict of wills: Tyrant and Rebel. The Unbinding of Prometheus is traced through Western history, to the Enlightenment "reith of God," both speculative (Hegel) and practical (Marx). Finally, four types of "idols" are examined, in which Prometheus is rebound: Freud's Oedipus, Nietzsche's Dionysus, Camus' Sisyphus and Sartre's Orestes. The revision of both theism and atheism demands re-casting Zeus and Prometheus, breaking the impasse of heteronomy/autonomy and omnipotence/free will. Only thus may we affirm Humanity without denying God.

Ancestors, Territoriality, and Gods 2016-07-27 Ina Wunn This books sets out to explain how and why religion came into being. Today this question is as fascinating as ever, especially since religion has moved to the centre of socio-political relationships. In contrast to the current, but incomplete approaches from disciplines such as cognitive science and psychology, the present authors adopt a new approach, equally manifest and constructive, that explains the origins of religion based strictly on behavioural biology. They employ accepted research results that remove all need for speculation. Decisive factors for the earliest demonstrations of religion are thus territorial behaviour and ranking, coping with existential fears, and conflict solution with the help of rituals. These in turn, in a process of cultural evolution, are shown to be the roots of the historical and contemporary religions.

The Planets Within 1990 Thomas Moore The Planets Within asks us to return to antiquity with new eyes. It centers on one of the most psychological movements of the prescientific age -- Renaissance Italy, where a group of 'inner Columbuses' charted territories that still give us today a much-needed sense of who we are and where we have come from, and the right routes to take toward fertile and unexplored places.Chief among these masters of the interior life was Marsilio Ficino, presiding genius of the Florentine Academy, who taught that all things exist in soul and must be lived in its light. This study of Ficino broadens and deepens our understanding of psyche, for Ficino was a doctor of soul, and his insights teach us the care and nurture of soul.Moore takes as his guide Ficino's own fundamental tool -- imagination. Respecting the integrity and autonomy of images, The Planets Within unfolds a poetics of soul in a kind of dialogue between the laconic remarks of Ficino and the need to give these remarks a life and context for our day.

The Urban Archetypes of Jane Jacobs and Ebenezer Howard 2020 Abraham Akkerman Ebenezer Howard, an Englishman, and Jane Jacobs, a naturalized Canadian, personify the twentieth century's opposing outlooks on cities. Howard had envisaged small towns, newly built from scratch, fashioned on single family homes with small gardens. Jacobs embraced existing inner-city neighbourhoods emphasizing the verve of the living street. From Howard's idea, the American Dream of garden suburbs had emerged, yet his conceptualization of a modern city received criticism for being uniform and alienated from the rest of the city. Similarly, at the turn of the new century, Jacobs' inner-city neighbourhoods came to be recognized as the result of commodification, vacillating between poverty and newly discovered hubs of urban authenticity. Presenting Howard and Jacobs within a psychocultural context, The Urban Archetypes of Jane Jacobs and Ebenezer Howard addresses our urban crisis in the recognition that "city form" is a gendered, allegorical medium expressing femininity and masculinity within two founding features of the built environment: void and volume. Both founding contrasts bring tensions, but also the opportunities of fusion between pairs of urban polarities: human scale against superscale, gait against speed, and spontaneity against surveillance. Jacobs and Howard, in their respective attitudes, have come to embrace the two ancient archetypes, the Garden and the Citadel, leaving it to future generations to blend their two contrarian stances.

This Is My Flesh 2022-01-28 Jae Hyung Cho In John 6:51-59, John describes the Eucharist of Jesus by modeling Dionysus. In particular, John 6:53, "unless you eat the flesh of the Son of Man and drink his blood, you have no life in you" is one of the most difficult verses found anywhere in the Bible. To explain this, a new approach is needed when one consistently contemplates why John uses flesh (σάρξ) instead of body (σώμα), and "This is my flesh", instead of "This is my body." The Dionysiac ritual of eating and tearing raw flesh shows cannibalistic elements. Unlike other negative descriptions of cannibalism in ancient literature, Dionysus is described as both an eater and a giver of raw flesh. By reevaluating the negative term of cannibalism, John positively applies this Dionysiac cannibalism to the Eucharistic words in 6:51-59. Because emphatically and slightly ironically, scholars' arguments show that John 6 is still a "hard teaching" of Jesus, Jesus' hard saying (6:60) is a consequence of this cannibalistic language and the ambiguous features of Dionysus.

Secret Gospels 2003-02-01 Marvin Meyer Marvin Meyer is one of the leading experts on the secret gospels Gospel of Thomas, Secret Gospel of Mark, and others who has changed forever how we read the canonical gospels and understand early Christianity. In this new collection of his work, Meyer looks at these revolutionary texts in original and illuminating ways. He writes, for example, about the naked youths in the villa of the Mysteries. On the walls of a villa in Pompeii, a famous mural depicts a naked male reading from a scroll, a look of wonder on his face. A naked youth again appears in the Gospel of Mark, abandoning his garment and fleeing naked when apprehended during Jesus' arrest. A similar youth appears in the Secret Gospel of Mark. These youths, Meyer proposes, serve as an image of religious initiation, candidates for the mysteries of Dionysus or of Christ. This is one of the many aspects of the secret gospels that Meyer examines with expert insight and creativity. Topics range from gender and infancy stories to discipleship and the relationship of the Gospel of Thomas to Islamic literature. Meyer's spellbinding readings of these materials offer fresh understandings of the canonical gospels. Marvin Meyer is Griset Professor of Bible and Christian Studies, and Director of the Albert Schweitzer Institute at Chapman University, Orange, California. He is author of The Secret Teachings of Jesus: Four Gnostic Gospels and The Gospel of Thomas: The Hidden Sayings of Jesus, and co-editor of Jesus Then and Now (Trinity Press International).

Soma and the Indo-European Priesthood 2018-12-01 William Scott Shelley This is the first work to trace the origins of religion to the "Agricultural Revolution." It does so by identifying the enigmatic psychoactive drugs

employed by the Indo-European religion. Through the ancient Vedic literature, the archaeological record, and through chemistry, this work identifies the ingredients and the method of preparation employed to produce the Soma of the Rig-Veda, Haoma, and the Kykeon. A contribution to both the history of science and the history of religion, Soma shows that the dawn of civilization was the product of the cultivation of cereals which enabled early man to exchange a nomadic life of hunting and gathering for a sedentary one, giving rise to settlements that would eventually become city-states and nations. The work reveals that this civilizing revolution was not only the origins of science, but also the origins of religion. The author presents literary evidence from the Vedas, Brahmanas, and Vedic ritual texts to identify the source of the ritual sacrament called Soma (or Madhu, "Mead"), and he describes the chemical processes that rendered it non-toxic. In addition, he shows that the ancient literature of the Greeks and the chemistry indicate a similar method was employed to produce the hallucinogenic kykeon of the Greek Eleusinian Mysteries, the center of Greek civilization. The work also explores the ethnographic relationship between the Indo-European priesthood (that included the priests of ancient Greece) and the Indo-Aryan priesthood, a branch of the Indo-Europeans that included the Soma-drinking Vedic priests of India. The identification of Soma is a solution to one of the greatest mysteries in the history of religion. The chemistry is consistent with the chemistry of the Greek kykeon, another important and unsolved question in the history of religion, which like Soma, has appeared to many as unsolvable. Finally, through the Greek and Roman classics the work demonstrates the relationship between the Indo-Aryans and Indo-Europeans as well as the similarities of traditions among the priesthoods extending throughout the great civilizations of the ancient world. The book also contains scientific evidence for the production of the 'Philosopher's Stone' briefly addressed in Shelley's earlier book, Science, Alchemy and the Great Plague of London.

The Myth of the Goddess 1993-03-25 Anne Baring A comprehensive, scholarly accessible study, in which the authors draw upon poetry and mythology, art and literature, archaeology and psychology to show how the myth of the goddess has been lost from our formal Judeo-Christian images of the divine. They explain what happened to the goddess, when, and how she was excluded from western culture, and the implications of this loss.

The Living Goddesses 2001-01-12 Marija Gimbutas Presents evidence to support the author’s woman-centered interpretation of prehistoric civilizations, considering the prehistoric goddesses, gods and religion, and discussing the living goddesses–deities which have continued to be venerated through the modern era.

Women and Dionysus 2020-11-09 Maggy Anthony Women and Dionysus links repression of the Dionysian spirit in Western culture with the rise of the patriarchy over the course of two millennia. It effectively draws aconnection between Dionysus and women throughout history, with examples from cultures both past and present, and the author’s own experiences. Maggy Anthony explores Dionysus’ role as god of the vine, creativity and passion, and his impact on art and literature. The book examines the Dionysian influence on creative older women, including Georgia O’Keeffe, Martha Graham and Marquerite Duras; examines Dionysus in mythology, history and religion; and considers connections to mysticism and the Renaissance. Anthony goes on to explore how women’s expressions of creativity through healing, wine-drinking and dancing were condemned in history, and how modern African and Latin American rites contrast with Western traditions. Finally, the book looks at ‘outbreaks’ of modern Dionysian spirit - from Haight-Ashbury to the Burning Man festival - and speculates on its future. This unique study will be essential reading for academics and scholars of Jungian and post-Jungian studies, and for analytical and depth psychologists, particularly those with an interest in female individuation, creativity, and spirituality.
