Developed by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is made to assess vocabulary comprehension for American English. It is swift and easy to carry out, conserving precious time so that focus can be set on executing effective interventions.

The PPVT-4 test content includes a extensive array of vocabulary comprehension ranks, spanning from pre-kindergarten through adult age. The test items widely feature words that represent 20 subject fields (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and educational vocabulary.

The evaluation provides two equal versions which contain distinct vocabulary items, ensuring that the person has not “memorized” the assessment. One version can be used before intervention to evaluate people’s vocabulary knowledge and the second edition can be employed for re-evaluation to measure and record advancement. The PPVT-4 also includes a distinctive Growth Scale Value (GSV) which is sensitive to small changes over time.
