The Challenge in South Asia

1989-08-31 Ponna Wignaraja This book reflects the crisis of development, the associated crises of state and its impact on regional cooperation in South Asia. The resulting political and social unrest, violence and militarisation of state structures are considered in detail. The contributors to this volume focus on the depth of the crises and articulate alternatives available and sustainable in the South Asian context -- the common heritage, the renewable resource base and the available stock of knowledge which enlarges the range of technological options.

Patchwork States

2022-06-23 Adnan Naseemullah Patchwork States argues that the subnational politics of conflict and competition in South Asian countries have roots in the history of uneven state formation under colonial rule. Colonial India contained a complex landscape of different governance arrangements and state-society relations. After independence, postcolonial governments revised colonial governance institutions, but only with partial success. The book argues that contemporary India and Pakistan can be usefully understood as patchwork states, with enduring differences in state capacity and state-society relations within their national territories. The complex nature of territorial governance in these countries shapes patterns of political violence, including riots and rebellions, as well as variations in electoral competition and development across the political geography of the Indian subcontinent. By bridging past and present, this book can transform our understanding of both the legacies of colonial rule and the historical roots of violent politics, in South Asia and beyond.

Understanding Governance in South Asia

2020-09-30 Adluri Subramanyam Raju The concept of good governance in South Asia poses a challenge at the implementation level, mainly due to ethnocentricity, regional disparities, division between poor and rich, and rural and urban division among the people. Concepts such as decentralization, citizen engagement, lean public service, privatization, autonomy, public-private partnership may work well in developed countries but may not produce the same results in the region where the majority of poor people expect their government to fulfill their basic needs. Governance in South Asia needs to be reformed to ensure that poverty can be reduced, if not completely eradicated. Poor governance and the various means by which governance has fallen short, has led to lack of development and continuance of poverty in South Asian societies. South Asian countries have more or less similar objectives, structures, value systems, cultures, and standards of governance despite different forms of government. The colonial legacy of British administrative system had its impact on centralization. Secrecy, elitism, rigidity, and social isolation is common to all South Asian countries. The post-colonial administrative system is built upon pre-colonial administrative traditions throughout the region. These countries can learn from each other’s experiences. They need to develop an indigenous model to find pragmatic solutions to the challenges of good governance. This book argues that countries in South Asian can achieve good results through good governance if they develop and adopt an indigenous model rather than simply borrowing models and ideas from the West. Post-Conflict Development in East Asia

2016-04-08 Brendan M. Howe East Asia is a region deeply affected by conflict. Colonial, ideological, and national wars have left their scars and legacies on regional, international, and national governance. Yet East Asian post-conflict development experiences have been viewed as remarkably successful. The three largest economies of East Asia, Japan, China, and South Korea, have all experienced dramatic growth but immediately prior to their periods of expansion, all experienced the devastating impacts of international conflicts and/or civil upheaval. These post-conflict development 'success' stories do not, however, tell the whole tale. Other states in East Asia and in particular certain regions within some of these states, while apparently emerging from similar conflictual backgrounds, have experienced far less positive transitions. This volume critically assesses measurements of success in East Asian post-conflict development from a human-centered perspective. This involves a major re-evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and inter-disciplinary viewpoint. Case study rich, this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems.

Internal Conflict and Regional Security in South Asia

2003 Shiva Hari Dahal The South Asia region is one of the most populous and ethnically diverse in the world, but its social, political and economic development has been severely hindered by numerous inter-state and intra-state conflicts. This paper seeks to provide a more effective multidimensional framework for the analysis and management of internal conflict and security issues in this region, through the establishment of 'Peace Commissions'. These bodies could operate at national and regional levels in a similar manner to a human rights commission in order to establish effective institutional mechanisms to resolve social and political differences and so avoid violent conflict.

Gender and Governance

2019 Seema Kazi "This book examines the structures of governance as they impact women in five conflict zones in South Asia: Swat in Pakistan, the Chittagong Hill Tracts in Bangladesh, the Northern Province in Sri Lanka, and Kashmir and Manipur in India. Despite their different historical and political contexts, the five studies included here throw up some common patterns. War and conflict have weakened and eroded existing formal structures and institutions of governance. New formations, whether made up of militant groups, or more ‘secular’ state institutions like armies, do not see women as rights-bearing actors. Further, the authors argue, the impact of war, conflict, settlerism and militancy can make state structures more distant and sometimes incomprehensible to citizens, leaving women’s specific gender concerns unaddressed. Taken together, the essays show that women’s relationship with governance institutions is complex, and combines dependence on such institutions with the challenge of dealing with new forms of patriarchy that take root as structures transform and change. The gendering of governance policy and practice therefore, is of crucial importance."--

He believed like he was misusing his hours, his possibility, his life. He wished to modify, he wanted to escape, he wished to live. He chose to leave his work, to break up with his significant other, to dispose of his stuff, and to buy a direct ticket to the opposite end of the globe. He didn't understand where he was heading, he didn't know what he was carrying out, he didn't understand what he was searching for. Nelson Mandela stands as one of the most transformative leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial oppression, where he witnessed firsthand the unfair practices inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of justice, he dedicated his life to the struggle for liberation and fairness, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial segregation that plagued South Africa. Emerging as a charismatic lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his vision never wavered. His unwavering commitment to justice continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africas first democratically elected Black president. Mandelas leadership ushered in a period of unity, transforming South Africa into a nation of fairness. His global impact extended far beyond South Africas borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of strength, insight, and compassion. Revered as the father of the nation and one of historys greatest heroes, Mandelas legacy continues to inspire generations to come.
