## Zen & the Art of MIXING

2021-10-01 Mixerman Mixing is an Attitude

When I think back to my best mixes–regardless of their commercial success–in each and every case, I can only describe the experience as one in which I was working from deep within, outside of any external forces. I wasn't thinking; I was doing. I wasn't scared of what anyone would think. I wasn't scared of failure. All my decisions were made with confidence, and once a judgment was made, I didn't second-guess myself. I allowed the music to guide me, and I based all of my mix decisions on nothing more than one simple criterion: Are the song and production doing what they're supposed to be doing?

That sounds nice, huh? I mean, that's the headspace you want to be in when you're mixing! The problem is, you can't get there if you're focused on all the wrong things, and we're all susceptible to distraction and self-doubt. Great mixing involves trusting yourself, first and foremost. And I can promise you, that trust is downright infectious to everyone on your project.

Who Am I?

I'm Mixerman, a gold and multi-platinum mixer, producer, and recordist. I've been mixing professionally and at a high level for over three decades now., and I can assure you, great mixing isn't about manipulating sound. It's about the decisions you make in regards to the music, the balances, and how you use the arrangement to push the listener forward through the song. This is accomplished thought concrete strategies and techniques, that I'm uniquely qualified to offer you.

Boost Your Confidence Now

You can spend the next decade mixing two songs a day to get there. Or you can get Zen & the Art of MIXING 2021, and I'll explain the thinking behind great mixing. And then watch your confidence soar.

There's a reason why this is my most popular work, to date. Enjoy, Mixerman

A term paper is a research paper written by students over an academic term, accounting for a major part of a grade. It's a vital component of your college education, often assigned towards the conclusion of a semester. The paper is a vehicle through which educators gauge your comprehension of the course content. Writing a term paper isn't just about summarizing facts. It requires a mix of organization, deep research, and the art of presenting your findings in a way that's both clear and analytical. This means structuring your arguments logically, citing relevant sources, and critically evaluating the information you've gathered. When grading a term paper, there are three important aspects to consider. First, the paper should be passionately written and captivating to read. Second, it should have good grammar and style (following MLA, APA, or CMS style). Third, it should be well-documented with in-text references (in parentheses) linking their assertions to scholarly articles in the list of references at the end of the paper.
