**Brave by Faith** Alistair Begg 2021-05-01 Learn from the book of Daniel how to live confidently for Christ today. What does it look like to live with joy in a society that does not like what Christians believe, say or do? It's tempting to grow angry, keep our heads down, retreat or just give up altogether. But this isn't the first time that God's people have had to learn how to live in a pagan world that opposes God's rule. In this realistic yet positive book, renowned Bible teacher Alistair Begg examines the first seven chapters of Daniel to show us how to live bravely, confidently and obediently in an increasingly secular society. Readers will see that God is powerful and God is sovereign, and even in the face of circumstances that appear to be prevailing against his people, we may trust him entirely. We can be as brave as Daniel if we have faith in Daniel's God! "The message of Daniel is incredibly relevant for us in our generation. Not because it maps out a strategy for how to deal with our new lack of status ... or because Daniel was a great man and we need to follow his example. The reason is that it will help us to believe in Daniel's God." Alistair Begg, author.

**Krik? Krak!** Edwidge Danticat 2004-01-01 Arriving one year after the Haitian-American's first novel (Breath, Eyes, Memory) alerted critics to her compelling voice, these 10 stories, some of which have appeared in small literary journals, confirm Danticat's reputation as a remarkably gifted writer. Examining the lives of ordinary Haitians, particularly those struggling to survive under the brutal Duvalier regime, Danticat illuminates the distance between people's desires and the stifling reality of their lives. A profound mix of Catholicism and voodoo spirituality informs the tales, bestowing a mythic importance on people described in the opening story, "Children of the Sea," as those "in

this world whose names don't matter to anyone but themselves." The ceaseless grip of dictatorship often leads men to emotionally abandon their families, like the husband in "A Wall of Fire Rising," who dreams of escaping in a neighbor's hot-air balloon. The women exhibit more resilience, largely because of their insistence on finding meaning and solidarity through storytelling; but Danticat portrays these bonds with an honesty that shows that sisterhood, too, has its power plays. In the book's final piece, "Epilogue: Women Like Us," she writes: "Are there women who both cook and write? Kitchen poets, they call them. They slip phrases into their stew and wrap meaning around their pork before frying it. They make narrative dumplings and stuff their daughter's mouths so they say nothing more." The stories inform and enrich one another, as the female characters reveal a common ancestry and ties to the fictional Ville Rose. In addition to the power of Danticat's themes, the book is enhanced by an element of suspense (we're never certain, for example, if a rickety boat packed with refugees introduced in the first tale will reach the Florida coast). Spare, elegant and moving, these stories cohere into a superb collection.

**Into the Wild** Jon Krakauer 2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. "It may be nonfiction, but Into the Wild is a mystery of the highest order." –Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. Into the Wild is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

**Why Are All the Black Kids Sitting Together in the Cafeteria?** Beverly Daniel Tatum 2017-09-05 The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America.

**Zane and the Hurricane** Rodman Philbrick 2014-02-25 Newbery Honor author Rodman Philbrick presents a gripping yet poignant novel about a 12-year-old boy and his dog who become trapped in New Orleans during the horrors of Hurricane Katrina. The chaos that ensues as storm water drowns the city, shelter and food vanish, and police contribute to a dangerous, frightening atmosphere, creates a page-turning tale that completely engrosses the reader. Based on the facts of the worst hurricane disaster in U.S. history, Philbrick includes the lawlessness and lack of government support during the disaster as well as the generosity and courage of those who risked their lives and safety to help others. **Guide to Teaching Data Science** Orit Hazzan 2023-03-20 Data science is a new field that touches on almost every domain of our lives, and thus it is taught in a variety of environments. Accordingly, the book is suitable for teachers and lecturers in all educational frameworks: K-12, academia and industry. This book aims at closing a significant gap in the literature on the pedagogy of data science. While there are many articles and white papers dealing with the curriculum of data science (i.e., what to teach?), the pedagogical aspect of the field (i.e., how to teach?) is almost neglected. At the same time, the importance of the pedagogical aspects of data science increases as more and more programs are currently open to a variety of people. This book provides a variety of pedagogical discussions and specific teaching methods and frameworks, as well as includes exercises, and guidelines related to many data science concepts (e.g., data thinking and the data science workflow), main machine learning algorithms and concepts (e.g., KNN, SVM, Neural Networks, performance metrics, confusion matrix, and biases) and data science professional topics (e.g., ethics, skills and research approach). Professor Orit Hazzan is a faculty member at the Technion's Department of Education in Science and Technology since October 2000. Her research focuses on computer science, software engineering and data science education. Within this framework, she studies the cognitive and social processes on the individual, the team and the organization levels, in all kinds of organizations. Dr. Koby Mike is a Ph.D. graduate from the Technion's Department of Education in Science and Technology under the supervision of Professor Orit Hazzan. He continued his post-doc research on data science education at the Bar-Ilan University, and obtained a B.Sc. and an M.Sc. in Electrical Engineering from Tel Aviv University.

**We Were Eight Years in Power** Ta-Nehisi Coates 2018-10-30 In this "urgently relevant"\* collection featuring the landmark essay "The Case for Reparations," the National Book Award-winning author of Between the World and Me "reflects on race,

Barack Obama's presidency and its jarring aftermath"—including the election of Donald Trump. New York Times Bestseller • Finalist for the PEN/Jean Stein Book Award, the Los Angeles Times Book Prize, and the Dayton Literary Peace Prize Named One of the Best Books of the Year by The New York Times • USA Today • Time • Los Angeles Times • San Francisco Chronicle • Essence • O: The Oprah Magazine • The Week • Kirkus Reviews \*Kirkus Reviews (starred review) "We were eight years in power" was the lament of Reconstruction-era black politicians as the American experiment in multiracial democracy ended with the return of white supremacist rule in the South. In this sweeping collection of new and selected essays, Ta-Nehisi Coates explores the tragic echoes of that history in our own time: the unprecedented election of a black president followed by a vicious backlash that fueled the election of the man Coates argues is America's "first white president." But the story of these present-day eight years is not just about presidential politics. This book also examines the new voices, ideas, and movements for justice that emerged over this period—and the effects of the persistent, haunting shadow of our nation's old and unreconciled history. Coates powerfully examines the events of the Obama era from his intimate and revealing perspective—the point of view of a young writer who begins the journey in an unemployment office in Harlem and ends it in the Oval Office, interviewing a president. We Were Eight Years in Power features Coates's iconic essays first published in The Atlantic, including "Fear of a Black President," "The Case for Reparations," and "The Black Family in the Age of Mass Incarceration," along with eight fresh essays that revisit each year of the Obama administration through Coates's own experiences, observations, and intellectual development, capped by a bracingly original assessment of the election that fully illuminated the tragedy of the Obama era. We Were Eight Years in Power is a vital account of modern America, from one of the definitive voices of this historic moment.

**Writing as Material Practice** Kathryn E. Piquette 2013-12-18 Writing as Material Practice grapples with the issue of writing as a form of material culture in its ancient and more recent manifestations, and in the contexts of production and consumption. Fifteen case studies explore the artefactual nature of writing – the ways in which materials, techniques, colour, scale, orientation and visibility inform the creation of inscribed objects and spaces, as well as structure subsequent engagement, perception and meaning making. Covering a temporal span of some 5000 years, from c.3200 BCE to the present day, and ranging in spatial context from the Americas to the Near East, the chapters in this volume bring a variety of perspectives which contribute to both specific and broader questions of writing materialities. The authors also aim to place past graphical systems in their social contexts so they can be understood in relation to the people who created and attributed meaning to writing and associated symbolic modes through a diverse

array of individual and wider social practices.

**THE REEVES FAMILY - MANUFACTURERS OF SUPERFINE WATER-COLOR PAINT IN THE REGENCY PERIOD** Jaap den Hollander (NL) 2023-05-05 Abstract This study describes an antique watercolor box from Reeves with 24 colors in cakes, dating around 1800. A second box from T. Reeves & Son dating between 1790-1799 is added and described. A concise chronological overview shows which family members of the Reeves' family and their associates lead the firm during the Regency period. Old city maps of London indicate the various shop locations and a brief look is taken at early 18th century shops of color men and the production of watercolor paint in cakes. The dating of the watercolor box and its contents raise a number of questions. To position the box with contents in the correct period, an overview of available trade cards is consulted. Stamps on cakes are linked to the various family members, who led the Reeves firm in the Regency period. Based on the contents of comparable watercolor boxes relationships are established with user groups, quality criteria of the paint and color theories in the 17th and 18th century. An attempt has been made the 17th and 18th century color theories, in which light refraction, the distinguishing of colors and physical laws are important, to connect with pigments, tinctures, and mixing paint colors to make visual art works possible. Overviews of pigments and paint tincture by a number of authoritative authors in the 17th and 18th centuries are highlighted. The hidden selection rules of the colors and their conscious positioning in the box are discussed. Instructional illustrated is the visually completing of the missing paint cakes. Also included are some overviews of the selection of watercolor paint cakes in comparable boxes. The restored boxes and their contents are illustrated in a number of images. Finally, each of the 24 color cakes in the box of 1799-1800 is treated by their description in the 18th century literature. An extensive overview, with mainly 17th and 18th century sources on pigments, dyes, paint preparation, color theories, etc., is affixed. Added are contemporary authors who have written about the Reeves firm. Finally, nine attachments are available about a scheme of painting substances by Robert Dossie, the management structure of the Reeves firm till the 20th century, a pricelist of Robert Ackermann's paints in 1818, a text fragment in Ackermann's Repository of Arts (1813), a reconstructed advertisement text in the Derby Mercury of April 10, 1794, a recipe for a binding mixture to make watercolor cakes, an article about an other way of making watercolor cakes of dough, text from W.T. Whitley about 'Artists and their Friends in England' during the Regency period and a list of authorities in the 18th-century literature on colors in the form of tinctures, based on natural resources and natural solvents and binders. **The Book of Lost Friends** Lisa Wingate 2020-04-07 NEW YORK TIMES BESTSELLER • From the bestselling author of Before We Were Yours comes a dramatic historical novel of three young women searching for family amid the destruction of the post-Civil War South, and of a modern-day teacher who learns of their story and its vital connection to her students' lives. "An absorbing historical . . . enthralling."—Library Journal Bestselling author Lisa Wingate brings to life startling stories from actual "Lost Friends" advertisements that appeared in Southern newspapers after the Civil War, as newly freed slaves desperately searched for loved ones who had been sold away. Louisiana, 1875: In the tumultuous era of Reconstruction, three young women set off as unwilling companions on a perilous quest: Hannie, a freed slave; Lavinia, the pampered heir to a now destitute plantation; and Juneau Jane, Lavinia's Creole half sister. Each carries private wounds and powerful secrets as they head for Texas, following roads rife with vigilantes and soldiers still fighting a war lost a decade before. For Lavinia and Juneau Jane, the journey is one of stolen inheritance and financial desperation, but for Hannie, torn from her mother and siblings before slavery's end, the pilgrimage west reignites an agonizing question: Could her long-lost family still be out there? Beyond the swamps lie the limitless frontiers of Texas and, improbably, hope. Louisiana, 1987: For first-year teacher Benedetta Silva, a subsidized job at a poor rural school seems like the ticket to canceling her hefty student debt—until she lands in a tiny, out-of-step Mississippi River town. Augustine, Louisiana, is suspicious of new ideas and new people, and Benny can scarcely comprehend the lives of her poverty-stricken students. But amid the gnarled live oaks and run-down plantation homes lie the century-old history of three young women, a long-ago journey, and a hidden book that could change everything.

**Pinnacle of Life** Kishore Shanbhag 2020-05-11 Awareness of finite nature of life is a driving force of creativity. Appreciation of "sense of time" makes living exciting and rewarding. In contrast, end of life is shrouded by mystery, enigma and fear. This is innate due to human psychology and cultural beliefs. Over generations, religion and social

hierarchy have exploited the very sensitive mindset, the fear of death. We live in a different age and society, and everything has changed. We are in control of many events in our life. Very few things have not changed over past centuries. They include our concept of religion and fear and the way we look at our own death. This book is not a scholarly investigation into philosophical or historical aspect of death. It is a simple guide to the ways we can look at, understand, prepare for, and accept the apex of our life, our death. The contents are written in largely atheistic tone with reflection on role of religion. I have tried to bring my own thoughts, knowledge gained from reading and experience from working in a health care set up. The hope is that it will empower reader to make a life path, to take small decisive steps in their daily life to prepare for the eventualities. It is positive, liberating and empowering experience, just to think that you can actually have some control over the most significant event of life, the pinnacle of life, death. Where I struggled to write clear text, I have used media like poetry and short stories, in a hope to deliver clear message. Acknowledgement where the role of religion is useful is made. This is not a reference or a text book, hence there are no formal referencing or bibliography. The text is for the reader to enjoy and design their own way of life events, facilitate peace and joy in the end of life. Chapter on "Care and cure" is largely written for readers familiar with jargon of caring profession. However it is increasingly important that public understand this jargon to bargain with the medical profession and to be able to make correct decision for themselves or their near and dear. Last chapter assumes the mystery of death can be solved by individual efforts, radical thinking and practical steps. In epilogue, a list of activities under each pillar of wisdom is discussed. You need to make your own life pathway, and examples are for illustration. There are number of books on the subject of end of life. Many are focused either on psychology, or spiritual or medical aspects of dying event. I have tried to move away from a singular focus and tried to give more practical way of looking at death overall. You will find references to sociology, health care, psychology and philosophy, but in the end, the book is about a practical guide, to promote simpler understanding of death and dying. Hope the book is useful and enjoyable.

**What the Best College Students Do** Ken Bain 2012-08-27 The author of the best-selling *What the Best College Teachers Do* is back with more humane, doable, and inspiring help, this time for students who want to get the most out of college—and every other educational enterprise, too. The first thing they should do? Think beyond the transcript. The creative, successful people profiled in this book—college graduates who went on to change the world we live in—aimed higher than straight A's. They used their four years to cultivate habits of thought that would enable them to grow and adapt throughout their lives. Combining academic research on learning and motivation with insights drawn from interviews with people who have won Nobel Prizes, Emmys, fame, or the admiration of people in their field, Ken Bain identifies the key attitudes that distinguished the best college students from their peers. These individuals started out with the belief that intelligence and ability are expandable, not fixed. This led them to make connections across disciplines, to develop a "meta-cognitive" understanding of their own ways of thinking, and to find ways to negotiate ill-structured problems rather than simply looking for right answers. Intrinsically motivated by their own sense of purpose, they were not demoralized by failure nor overly impressed with conventional notions of success. These movers and shakers didn't achieve success by making success their goal. For them, it was a byproduct of following their intellectual curiosity, solving useful problems, and taking risks in order to learn and grow.

Little 1994 Wracked by poverty, famine, and drought, Africa is typically represented as agriculturally stagnant, backward, and crisis-prone. *Living Under Contract*, however, highlights the dynamic, changing character of sub-Saharan agrarian systems by focusing on contract farming. A relatively new and increasingly widespread way of organizing peasant agriculture, contract farming promotes production of a wide variety of crops—from flowers to cocoa, from fresh vegetables to rice—under contract to agribusinesses, exporters, and processors. The proliferation of African growers producing under contract is in fact part of broader changes in the global agro-food system. In this examination of agricultural restructuring and its effect upon various African societies, editors Peter Little and Michael Watts bring together anthropologists, economists, geographers, political scientists, and sociologists to explore the origins, forms, and consequences of contract production in several African countries, particularly Kenya, the Gambia, Zimbabwe, and the Ivory Coast. Documenting how contract production links farmers, agribusiness, and the state, the contributors examine problematic aspects of this method of agrarian reform. Their case studies, based on long-term field work and analysis on the village and household level, chart the complex effects of contract production on the organization of work and the labor process, rural inequality, gender relations, labor markets, local accumulation strategies, and regional development. *Living Under Contract* reveals that contract farming represents a distinctive form in which African growers are incorporated into national and world markets. Contract production, which has been a central feature of the agricultural landscape in the advanced capitalist states, is an emerging strategy for "capturing peasants" and for confronting the agrarian question in the late twentieth century.

[The Ruthless Elimination of Hurry](#) John Mark Comer 2019-10-29 ECPA BESTSELLER • A compelling emotional and spiritual

case against hurry and in favor of a slower, simpler way of life “As someone all too familiar with ‘hurry sickness,’ I desperately needed this book.”—Scott Harrison, New York Times best-selling author of *Thirst* “Who am I becoming?” That was the question nagging pastor and author John Mark Comer. Outwardly, he appeared successful. But inwardly, things weren’t pretty. So he turned to a trusted mentor for guidance and heard these words: “Ruthlessly eliminate hurry from your life. Hurry is the great enemy of the spiritual life.” It wasn’t the response he expected, but it was—and continues to be—the answer he needs. Too often we treat the symptoms of toxicity in our modern world instead of trying to pinpoint the cause. A growing number of voices are pointing at hurry, or busyness, as a root of much evil. Within the pages of this book, you’ll find a fascinating roadmap to staying emotionally healthy and spiritually alive in the chaos of the modern world.
