Year of Wonders Geraldine Brooks 2002

In 1666, a young woman comes of age during an extraordinary year of love and death. Inspired by the true story of Eyam, a "plague village" in the rugged hill country of England, "Year of Wonders" is a richly detailed evocation of a singular moment in history, written by the author of "Nine Parts of Desire: The Hidden World of Islamic Women."

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the

forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Things Fall Apart Chinua Achebe 2009-06-05 THINGS FALL APART tells

two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. *THINGS FALL APART* is the most illuminating and permanent monument we have to the modern African experience as seen from within.

In Cold Blood Truman Capote 2013-02-19 Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

A Wrinkle in Time Madeleine L'Engle 2010-04-01 Madeleine L'Engle's ground-breaking science fiction and

fantasy classic, now a major motion picture. It was a dark and stormy night; Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem. A Wrinkle in Time is the winner of the 1963 Newbery Medal. It is the first book in The Time Quintet, which consists of A Wrinkle in Time, A Wind in the Door, A Swiftly Tilting Planet, Many Waters, and An Acceptable Time. A Wrinkle in Time is now a movie from Disney, directed by Ava DuVernay, starring Storm Reid, Oprah Winfrey, Reese Witherspoon and Mindy Kaling. This title has Common Core connections. Medieval Muslim Philosophers and Intercultural Communication Wisam Kh.

Abdul-Jabbar 2022-12-30 This book examines the works of Medieval Muslim philosophers interested in intercultural encounters and how receptive Islam is to foreign thought, to serve as a dialogical model, grounded in intercultural communications, for Islamic and Arabic education. The philosophers studied in this project were instructors, tutors, or teachers, such as Al-Kindi, Al-Farabi, Al-Ghazali, and Averroes, whose philosophical contributions directly or indirectly advanced intercultural learning. The book describes and provides examples of how each of these philosophers engaged with intercultural encounters, and asks how their philosophies can contribute to infusing intercultural ethics and practices into curriculum theorizing. First, it explores selected works of medieval Muslim philosophers from an intercultural perspective to formulate a dialogical paradigm that informs and enriches Muslim

education. Second, it frames intercultural education as a catalyst to guide Muslim communities' interactions and identity construction, encouraging flexibility, tolerance, deliberation, and plurality. Third, it bridges the gap between medieval tradition and modern thought by promoting interdisciplinary connections and redrawing intercultural boundaries outside disciplinary limits. This study demonstrates that the dialogical domain that guides intercultural contact becomes a curriculum-oriented structure with Al-Kindi, a tripartite pedagogical model with Al-Fārābī, a sojourner experience with Al-Ghazali, and a deliberative pedagogy of alternatives with Averroes. Therefore, the book speaks to readers interested in the potential of dialogue in education, intercultural communication, and Islamic thought research. Crucially bridging the gap between medieval tradition and modern thought by promoting interdisciplinary connections and redrawing intercultural boundaries outside disciplinary limits, it will speak to readers interested in the dialogue between education, intercultural communication, and Islamic thought.

Crucible of War Fred Anderson
2007-12-18 In this engrossing narrative of the great military conflagration of the mid-eighteenth century, Fred Anderson transports us into the maelstrom of international rivalries. With the Seven Years' War, Great Britain decisively eliminated French power north of the Caribbean – and in the process destroyed an American diplomatic system in which Native Americans had long played a central, balancing role – permanently changing the political and cultural landscape of North America. Anderson skillfully reveals the clash of inherited perceptions the war created

when it gave thousands of American colonists their first experience of real Englishmen and introduced them to the British cultural and class system. We see colonists who assumed that they were partners in the empire encountering British officers who regarded them as subordinates and who treated them accordingly. This laid the groundwork in shared experience for a common view of the world, of the empire, and of the men who had once been their masters. Thus, Anderson shows, the war taught George Washington and other provincials profound emotional lessons, as well as giving them practical instruction in how to be soldiers. Depicting the subsequent British efforts to reform the empire and American resistance – the riots of the Stamp Act crisis and the nearly simultaneous pan-Indian insurrection called Pontiac's Rebellion – as postwar developments rather than as an anticipation of the national independence that no one knew lay ahead (or even desired), Anderson re-creates the perspectives through which contemporaries saw events unfold while they tried to preserve imperial relationships. Interweaving stories of kings and imperial officers with those of Indians, traders, and the diverse colonial peoples, Anderson brings alive a chapter of our history that was shaped as much by individual choices and actions as by social, economic, and political forces.

Re-Authoring Life Narratives After Trauma: A Holistic Narrative Model of Care Charles B. Manda 2019-12-12 Re-authoring Life Narratives after Trauma is an interdisciplinary, specialist resource for traumatic stress researchers, practitioners and frontline workers who focus their research and work on communities from diverse religious backgrounds that are confronted with trauma, death, illness and other existential crises.

This book aims to argue that the biopsychosocial approach is limited in scope when it comes to reaching a holistic model of assessing and treating individuals and communities that are exposed to trauma. The holistic model must integrate an understanding of and respect for the many forms of religion and spirituality that clients might have (Pargament 2011). It will not only bring a spiritual perspective into the psychotherapeutic dialogue, but it will also assist in dealing with the different demands in pastoral ministry as related to clinical and post-traumatic settings. The book makes several contributions to scholarship in the disciplines of, although not limited to, traumatic stress studies, pastoral care and counselling, psychology and psychiatry. Firstly, the book brings spirituality into the psychotherapeutic dialogue; traditionally, religious and spiritual topics have not been a welcome part of the psychotherapeutic dialogue. Secondly, it underscores the significance of documenting literary narratives as a means of healing trauma; writing about our traumas enables us to express things that cannot be conveyed in words, and to bring to light what has been suppressed and imagine new possibilities of living meaningfully in a changed world. Thirdly, it proposes an extension to the five-stage model of trauma and recovery coined by Judith Herman.

The Crucible Arthur Miller 2015-02-13
This Student Edition of The Crucible is perfect for students of literature and drama and offers an unrivalled guide to Miller's classic play. It features an extensive introduction by Susan C. W. Abbotson which includes: a chronology of Miller's life and times; a summary of the plot and commentary on the characters, themes,

language, context and production history of the play. Together with over twenty questions for further study, detailed notes on words and phrases from the text and the additional scene 2 of the second Act, this is the definitive edition of the play. In a small tight-knit community gossip and rumour spread like wildfire inflaming personal grievances until no-one is safe from accusation and vengeance. The Crucible is Miller's classic dramatisation of the witch-hunt and trials that besieged the Puritan community of Salem in 1692. Seen as a chilling parallel to the McCarthyism and repressive culture of fear that gripped America in the 1950s, the play's timeless relevance and appeal remains as strong as when the play opened on Broadway in 1953.

Curiosity turns to compassion and an inner transformation, as he visits their

shelter, interviews them, and becomes embroiled in their harrowing fates. *Go, Went, Gone* is a scathing indictment of Western policy toward the European refugee crisis, but also a touching portrait of a man who finds he has more in common with the Africans than he realizes.

Outliers Malcolm Gladwell 2008-11-18 From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique.

'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he

writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times
