Kayakcraft Ted Moores 1999 KayakCraft is the culmination of years of teaching, boatbuilding, and writing experience. Book jacket.

I Hope They Serve Beer In Hell Tucker Max 2012-03-01 The "highly entertaining and thoroughly reprehensible" #1 New York Times bestseller—now with sixteen pages of photos and a new introduction (The New York Times). My name is Tucker Max, and I am an asshole. I get excessively drunk at inappropriate times, disregard social norms, indulge every whim, ignore the consequences of my actions, mock idiots and posers, sleep with more women than is safe or reasonable, and just generally act like a raging dickhead. But, I do contribute to humanity in one very important way: I share my adventures with the world. --from the Introduction Actual reader feedback: "I find it truly appalling that there are people in the world like you. You are a disgusting, vile, repulsive, repugnant, foul creature. Because of you, I don't believe in God anymore. No just God would allow someone like you to exist." "I'll stay with God as my lord, but you are my savior. I just finished reading your brilliant stories, and I laughed so hard I almost vomited. I want to bring that kind of joy to people. You're an artist of the highest order and a true humanitarian to boot. I'm in both shock and awe at how much I want to be you."

The Complete Book of Sea Kayaking Derek C. Hutchinson 1994-01

Paddling Long Island and New York City Kevin Stiegelmaier 2012-04-10 Paddling Long Island is the only book on the market to depict routes and destinations across the whole of Long Island and the New York City area. And it showcases 50 of the very best. It is a diverse selection, too. After all, according to skill level, weather, personal mood, and other factors, a paddler may want open, fast water one day, but a quiet, protected experience at another time, and something in-between later on. It's all here, from New York City to the far eastern tip of Long Island's Montauk Point. What's more, the book's guidance and language are geared to wide-ranging skill levels: the novice will be enlightened and encouraged, and the seasoned kayaker or canoeist will be engaged and engrossed. That is because the author's intimate, lifelong knowledge of the area's waterways shines in his descriptions of natural and social histories, humorous stories, personal anecdotes, and beautiful black-and-white photographs. For example, among the 50 entries, the author tells of Cold Spring Harbor, nestled between Oyster Bay and Huntington, and steeped in maritime history.

He gives some back story on Little Neck Bay, home to littleneck clams but also where he says you will likely see a fin flip or a tail splash as the striped bass catch their prey. And he will take you to Setauket Harbor and tell you why it's his personal paddling favorite. But not all waxes euphoric, as there are practical considerations when striking out on water, and this guidebook is a good friend to have along. It describes the best times to paddle the 50 harbor, inlet, bay, and river routes; alerts readers to each paddle's difficulty level and estimated length; and suggests side trips, optional trip extensions, and alternate routes to paddle depending on weather conditions. Easy-to-follow maps, complete with GPS coordinates and driving directions, add to this book's high value. In addition, the author provides contact information on local paddling clubs, outfitters, and Internet links. And a final extensive section on personal safety, boat and equipment preparedness, and related topics makes this book an invaluable tool.

Fuselage Frame Boats S. Horton 2011-07 NOW WITH METRIC OFFSETS! Tired of struggling with that heavy plastic kayak? Are you looking for a lightweight boat but not willing to take out a second mortgage to buy it? What if I told you that you could build a boat weighting less than 35 lbs for \$300 to \$500? You can and in my new book I will show you how. This style was very popular in the 1950's and 1960's and many boat plans appeared in magazines such as Popular Mechanics and Popular Science. Even though it is no longer fashionable in the magazines, the fuselage style of construction is still probably the most cost effective way to build a small boat. Recently I have seen a renewed interest in this type of boat construction. People are rediscovering the advantages of Fuselage style Skin Boats. Fuselage frames boats cost very little to build. A sheet of marine plywood, a lightweight wood such as cedar for the stringers, a few yards of a synthetic fabric for the skin and something to waterproof the skin. Materials for a basic 17' kayak cost around \$300. Adding a seat, deck rigging and adjustable footrest would add another \$100 to \$150 dollars depending on your preferences. For somewhere around \$400 you can build a high performance, 30-35 lbs boat. A composite construction canoe or kayak of similar weight would cost thousands of dollars. This book will walk you through the process of building your own Skin on Frame canoe or kayak. I start by addressing the space needed to build a boat as well as tools needed. There is a detailed section on laying out the frames from a table of offsets. Progressing to how to assemble the frame, skinning the boat and through all the steps to preparing your boat for launching. Included are offsets for three of my boat designs. The StoneFly canoe, Curlew, a 15' Sea Kayak and new sea kayak design Pouco Barta.

The Everything Store Brad Stone 2013-10-15 The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.
