Why I Write George Orwell 2021-01-01 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

The Writing Revolution Judith C. Hochman 2017-08-07 Why you need a writing revolution in your classroom and how to lead it *The Writing Revolution* (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as *The Hochman Method*, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, *The Writing Revolution* can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities *The Writing Revolution* is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

How to Write About Africa Binyavanga Wainaina 2023-06-06 From one of Africa's most influential and eloquent essayists, a posthumous collection that highlights his biting satire and subversive wisdom on topics from travel to cultural identity to sexuality "A fierce literary talent . . . [Wainaina] shines a light on his continent without cliché."—*The Guardian* "Africa is the only continent you can love—take advantage of this. . . . Africa is to be pitied, worshipped, or dominated. Whichever angle you take, be sure to leave the strong impression that without your intervention and your important book, Africa is doomed." Binyavanga Wainaina was a pioneering voice in African literature, an award-winning memoirist and essayist, and a gatherer of literary communities. Before his tragic death in 2019 at the age of forty-seven, he won the Caine Prize for African Writing and was named one of *Time's* 100 Most Influential People. His wildly popular essay "How to Write About Africa," an incisive and unapologetic piece exposing the harmful and racist ways Western media depicts Africa with implicit bias and subjective clichés, changed the game for African writers and helped set the stage for a new generation of authors, from Chimamanda Ngozi Adichie to Yaa Gyasi. When Wainaina published a "lost chapter" of his 2011 memoir as an essay called "I Am a Homosexual, Mum," which imagines coming out to his mother, he became a voice for the queer African community as well, adding a new layer to how African sexuality is perceived. *How to Write About Africa* collects these powerful pieces in a lively and imaginative set of essays about sexuality, art, history, and contemporary Africa. Wainaina's writing is playful, robust, generous, and full-bodied. He describes the modern world with sensual, emotional, and psychological detail, giving us a full-color view of a country and continent. These works present a portrait of a giant in African literature who left a tremendous legacy.

How to Read Like a Writer Mike Bunn When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will

automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

Pacific Rim Objective Measurement Symposium (PROMS) 2012 Conference Proceeding
Quan Zhang 2013-06-13 Entrusted by the Board of Management of the Pacific Rim Objective Measurement Symposium (PROMS), PROMS2012 is held in Jiaxing, China from August 6-9, 2012. Over the past years, PROMS has been hosted in many parts of the Pacific Rim, in Singapore, Malaysia, Hong Kong, Taiwan and Tokyo, which has greatly promoted the research of and contributed to the development of Rasch Model in one way or another. As early as in 1980s, the ideas and concepts regarding IRT was first introduced into China by Prof. Gui Shichun, my Ph.D supervisor, and it is Prof. Gui who first conducted with great success the ten-year long (1990-1999) Equating Project for Matriculation English Test (MET) in China. MET is the most influential entrance examination for higher education administered annually to over 3.3 million candidates then. The Equating Project won recognition by Charles Alderson and other foreign

counterparts during 1990s. Academically, those were Good Old Days for Chinese testing experts and psychometricians. Then for certain reasons, the equating practice abruptly discontinued. Therefore, in China nowadays, the application of IRT-based software like BILOG, Parscale, Iteman 4 and others to real testing problem solving is confined to an extremely small 'band' of people. In this sense, PROMS2012 meets an important need in that it provides an excellent introduction of IRT and its application. And anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of Rasch Model. PROMS2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using Rasch measurement and non-Rasch practice.
