Gender and the Violence(s) of War and Armed Conflict
Stacy Banwell 2020-10-16 The ebook edition of this title is Open Access, thanks to Knowledge Unlatched funding, and freely available to read online. Drawing on historical and contemporary case studies, this book delves into visual and text-based materials to unpack gender-based violence(s) perpetrated and experienced by both sexes within and beyond the conflict zone.
Wartime Sexual Violence against Men Élise Féron

2018-11-16 The book explores patterns of wartime sexual violence against men, and presents survivors', but also perpetrators' stories.

Domestic Violence in Health Contexts: A Guide for Healthcare Professions Parveen Ali 2019-11-16 This book is taking a broad health focused approach towards Domestic Violence and Abuse (DVA). It is now well established that DVA exerts a significant and detrimental impact on the health and wellbeing of those who experience abuse. Universally healthcare

professionals encounter individuals and families where DVA is or has taken place. This book is beneficial to a range of health care professionals through an exploration of theories and classifications of DVA, consideration of DVA in different contexts and consideration of the core issues surrounding working with individuals and families where DVA has been identified. It provides a much needed evidence based addition to the existing texts in this field in terms of the inclusion of real life scenarios, reflective exercises and pointers for further practice development. This book is a key point of reference for professionals working within a broad range of health care environments.

Rape Miranda A. H. Horvath 2022-08-09 Rape: Challenging Contemporary Thinking – 10 Years On takes stock of current thinking and research about rape and the way it is handled in practice within the criminal justice system, as well as challenging some of the widely held but inaccurate beliefs about rape. The second edition of Rape: Challenging Contemporary Thinking – 10 Years On is not a traditional new edition, although it does provide updated versions of substantive issues covered in the first edition. Bringing the book to the cutting edge, it incorporates both old and new contexts where sexual exploitation takes place, identifying some knowledge gaps especially when considering the voices of complainants/victims/survivors who are invisible or muted, numerous new areas of research including the implications arising from #MeToo and Black Lives Matter movements, the limitations of our present criminal justice systems, and radical alternatives to closing the justice gap. The new book reflects the global reach of research and thinking about rape, including more international coverage, with material from India, the US, Canada, Australia, and New Zealand as well as the UK. In order to learn from our shared history in this field, two authors reflect on their careers and other authors were encouraged to move away from conventional academic formats to convey their stories. Bringing together leading researchers in the field of psychology, sociology, and law, considering new research, and presenting new data from a strong theoretical and contextual base, the chapters are provocative and engage in innovative thinking, whilst remaining grounded in the available evidence. This book is essential reading for students of criminology, forensic psychology, sociology, criminal justice, law, media studies, and women's/gender studies. It also aims to inform professionals engaged in the investigation, prosecution of rape, support, and preventative services.

Handbook on Sexual Violence Jennifer M. Brown 2011-10-19 This book contextualizes the complexity of sexual violence within its broader context – from war to the resolution of interpersonal disputes – and covers a wide span including sexual harassment, bullying, rape and murder as well as domestic violence. Written by leading academics from a variety of disciplines, contributions also include commentaries that relate the research to the work of practitioners. Despite advances made in the investigation of sexual offences, evidence still points to a continued belief in the culpability of victims in their own victimization and a gap between the estimated incidence of sexual violence and the conviction of perpetrators. Adopting an implicitly and explicitly critical stance to contemporary policy responses that continue to fail in addressing this problem, this book focuses on attitudes and behaviour towards sexual violence from the point of view of the individual experiencing the violence – perpetrator and victim – and situates them within a broader societal frame. It is through an understanding of social processes and psychological mechanisms that underpin sexual violence that violence can be combated and harm reduced, and at this individual level that evidence-based interventions

can be designed to change policy and practice. The Handbook is split into four sections: 'Legacies: Setting the Scene' offers a critical overview of historical, legal and cultural processes which help to explain the origins of current thinking and offer steers for future developments 'Theories and Concepts' examines contemporary thinking on sexual violence and reviews explanatory frameworks from a number of perspectives 'Acts of Sexual Violence' reviews a number of specific types of sexual violence, elaborating the range of circumstances, victims and perpetrators with a view to addressing the general and pervasive nature of such violence thus contradicting narrow cultural stereotyping 'Responding to Sexual Violence' overviews and evaluates current policies and practices and offers new ideas to develop different types of interventions. The editors' conclusion not only draws out the key themes and ideas from contributions to the Handbook, but also considers the nature of and the extent to which any progress has been made in understanding and responding to sexual violence. This will be a key text for students and academics studying sexual violence and an essential reference tool for professionals working in the field including police officers, probation staff, lawyers and judges.

Restorative Justice for Survivors of Sexual Abuse

Marinari, Angela 2020-11-16 Integral to sexual abuse survivors' healing is understanding the nature of their abuse. Drawing on interviews, this book gives a voice to survivors and illuminates how restorative justice processes can meet their justice needs. With a unique focus on the people around the survivor rather than on the abuser, it addresses the harm caused to survivors by those who enable their abuse, who fail to protect them, or fail to believe them. Marinari offers radical solutions for the development of restorative justice programs and policy initiatives, including practical guidelines for practitioners, and new directions for academic research.

The SAGE Handbook of Criminological Research Methods David Gadd 2011-10-19 Conducting research into crime and criminal justice carries unique challenges. This Handbook focuses on the application of 'methods' to address the core substantive questions that currently motivate contemporary criminological research. It maps a canon of methods that are more elaborated than in most other fields of social science, and the intellectual terrain of research problems with which criminologists are routinely confronted. Drawing on exemplary studies, chapters in each section illustrate the techniques (qualitative and quantitative) that are commonly applied in empirical studies, as well as the logic of criminological enquiry. Organized into five sections, each prefaced by an editorial introduction, the Handbook covers: • Crime and Criminals • Contextualizing Crimes in Space and Time: Networks, Communities and Culture • Perceptual Dimensions of Crime • Criminal Justice Systems: Organizations and Institutions • Preventing Crime and Improving Justice Edited by leaders in the field of criminological research, and with contributions from internationally renowned experts, The SAGE Handbook of Criminological Research Methods is set to become the definitive resource for postgraduates, researchers and academics in criminology, criminal justice, policing, law, and sociology. David Gadd is Professor of Criminology at Manchester University School of Law where he is also Director of the Centre for Criminology and Criminal Justice. Susanne Karstedt has a Chair in Criminology and Criminological Justice at the University of Leeds. Steven F. Messner is Distinguished Teaching Professor of Sociology, University at Albany, State University of New York.

Sexual History Evidence in Rape Trials Charlotte Herriott 2023-03-16 This book provides an in-depth examination of current, high-profile debates about the

use of sexual history evidence in rape trials and its impact on jurors. In doing so, it presents findings of the first mock jury dataset in England and Wales to explore how jurors interpret, discuss, and rely upon such evidence within their deliberations. Drawing on both qualitative and quantitative insights from the 18 mock jury panels, the book highlights the complex, nuanced and intersectional impact of sexual history evidence within the deliberative ideal. Indeed, findings exemplified routine and ongoing prejudicial framings of sexual history amongst jurors, and frequent endorsement of rape myths that served to mistakenly infer relevance and undermine the perceived credibility of the complainant. The findings discussed within this book are therefore key to addressing the current knowledge gap around the impact of sexual history evidence and are embedded within broader discussions about evidential legitimacy in rape trials. The book draws on good practice observed in other jurisdictions to make numerous recommendations for change. Aiming to inform academic, policy, and legislative discussions in this area, *Sexual History Evidence in Rape Trials* will be of great interest to students and scholars of Criminal Law and Criminology, as well as policy makers and legal practitioners. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution- Non Commercial- No Derivatives 4.0 license.

Sexualizing the Social Lisa Adkins 1996-06-12

Sociologists are increasingly aware that analyses of social life must include a consideration of how the social may be structured by the sexual. In turn, this insight is contributing to a shift in understandings of sociology. This volume - drawn from papers from the 1994 British Sociological Association Annual Conference on 'Sexualities in Social Context' - brings together a range of writers who are contributing to this exciting new agenda. Various aspects of social life - including employment, family life, representations, politics, identities and the workings of the law - are considered, in terms of how sexuality shapes their organization and they shape sexuality. In so doing a series of ongoing and new controversies and debates are confronted, from the relationship of feminism to prostitution to the constitution of the self in late modernity.

Violence, Gender and the State Saumya Uma 2023-09-22

This book examines the adequacy of laws in India as a response to sexual and gender-based violence against women. It addresses questions such as: is law doing enough in responding to violence against women in India? Where are the barriers and bottlenecks, particularly for women from marginalised communities? What can be done to ensure that justice is rendered? Based on women's experience of violence, not solely on the basis of gender, but a combination of caste, class, and religious and gender identities, the book examines law as a response to gendered violence against women in India through the lens of intersectionality. It combines socio-legal and feminist analyses of relevant statutes on sexual and gender-based violence, their judicial interpretations, their implementation by law enforcement agencies, and their ramifications for women's lives. This book will be of interest to academics, research scholars, and students in a range of disciplines, including law, women's studies, gender and sexuality studies, victimology, sociology, political science, and human rights. It will also be useful for policymakers, advocates, judicial officers, paralegal workers, women's rights campaigners, non-profit organisations and, globally, anyone interested in and concerned with justice for women in India.

Working with Trans Survivors of Sexual Violence Sally Rymer 2019-01-21 This book provides practical advice for professionals working with transgender (including non-binary) people who have survived any form of sexual

violence or abuse. It gives professionals an understanding of the impact and trauma of sexual violence on trans people, as well as the additional difficulties they face accessing services that have traditionally been designed to serve cisgendered clients. The authors reveal specific issues faced by trans people as they recover from traumatic sexual experiences, and what steps professionals and organisations can take to meet the needs of the trans community. They also take a critical look at what can be done to reduce discrimination, particularly as many services for sexual violence tend to enforce strict gender segregation which can be exclusionary for trans clients. This book helps mitigate the traumatic effects of sexual violence on trans individuals, by recommending effective responses for all levels of service delivery, from organisational policies to advice for front-line professionals.

Handbook on Sexual Violence Jennifer M. Brown 2011-10-19

This book contextualizes the complexity of sexual violence within its broader context - from war to the resolution of interpersonal disputes - and covers a wide span including sexual harassment, bullying, rape and murder as well as domestic violence. Written by leading academics from a variety of disciplines, contributions also include commentaries that relate the research to the work of practitioners. Despite advances made in the investigation of sexual offences, evidence still points to a continued belief in the culpability of victims in their own victimization and a gap between the estimated incidence of sexual violence and the conviction of perpetrators. Adopting an implicitly and explicitly critical stance to contemporary policy responses that continue to fail in addressing this problem, this book focuses on attitudes and behaviour towards sexual violence from the point of view of the individual experiencing the violence - perpetrator and victim - and situates them within a broader societal frame. It is through an understanding of social processes and psychological mechanisms that underpin sexual violence that violence can be combated and harm reduced, and at this individual level that evidence-based interventions can be designed to change policy and practice. This will be a key text for students and academics studying sexual violence and an essential reference tool for professionals working in the field including police officers, probation staff, lawyers and judges.

Young People's Understandings of Men's Violence Against Women Nancy Lombard 2016-03-09 Globally, nationally and locally men's violence against women is an endemic social problem and an enduring human rights issue. Unlike men who are most likely to be victims of stranger assaults and violence, official data shows that women are most likely to be attacked, beaten, raped and killed by men known to them - either partners or family

members. Research has maintained that to challenge and prevent men's violence against women, changing the attitudes and behaviour of young people is essential. This ground-breaking book presents the first investigation into what younger people think about men's violence against women. It does this by locating their constructions and understandings within the temporal and spatial location of childhood. Through challenging the perception that young people are too young to 'know' about violence or to offer opinions on it, Nancy Lombard demonstrates the ways to talk to younger people about men's violence. Through confronting preconceptions of younger people's existing knowledge, capabilities and understanding, she demonstrates that this is a subject which young people can confidently discuss.

Men's Intrusion, Women's Embodiment Fiona Vera-Gray 2016-07-01 Research on violence against women tends to focus on topics such as sexual assault and intimate partner violence, arguably to the detriment of investigating men's violence and intrusion in women's everyday lives. The reality and possibility of the routine intrusions women experience from men in public space – from unwanted comments, to flashing, following and frottage – are frequently unaddressed in research, as well as in theoretical and policy-based responses to violence against women. Often at their height during women's adolescence, such practices are commonly dismissed as trivial, relatively harmless expressions of free speech too subjective to be legislated against. Based on original empirical research, this book is the first of its kind to conduct a feminist phenomenological analysis of the experience for women of men's stranger intrusions in public spaces. It suggests that intrusion from unknown men is a fundamental factor in how women understand and enact their embodied selfhood. This book is essential reading for academics and students involved in the study of violence against women, feminist philosophy, applied sociology, feminist criminology and gender studies.

Surviving Sexual Violence Thema Bryant-Davis 2011-10-16 Explains the range of different sexual violations, from harassment in the workplace and marital rape to sexual violence in the military and childhood sexual abuse; and offers tips from experts in the field on various modes of recovery including mind-body practices, psychoeducation, spirituality/religion, and journaling.

Campus Sexual Violence Sarah Prior 2022-09-27 Campus Sexual Violence: A State of Institutionalized Sexual Terrorism conceptualizes sexual violence on college campuses as a form of sexual terrorism, arguing that institutional compliance and inaction within the neoliberal university perpetuate a system of sexual terrorism. Using a sexual terrorism framework, the authors examine a myriad of examples of campus sexual violence with an intersectional lens and explore the role of the institution and the influence of neoliberalism in undermining sexual violence prevention efforts. The book utilizes Carole Sheffield's five components of sexual terrorism (ideology, propaganda, amorality, perceptions of the perpetrator, and voluntary compliance) to describe how the "ivory tower stereotype" and adoption of neoliberal values into education contribute to an environment where victimization is painfully common. Cases such as those from Michigan State University and Baylor University are used as examples to highlight institutional culpability and neoliberal value systems within higher education, as well as illustrating the pervasiveness of rape culture that contributes to a system of sexual terrorism. Crucially, the book focuses on systems of inequality and oppression, and uses an intersectional perspective that recognizes victimization experienced by multiple marginalized groups including women, LGBTQ+, and racially minoritized people. Building on campus violence research and institutional harm research, the authors

define campus sexual violence as a serious social problem based in structural inequality and advocate for civic responsibility at the institutional level and the development of institutional advocates. Weaving together theoretical and practical perspectives, the book will be of great interest to students and scholars of sociology, criminal justice, women's and gender studies, social/political policy, victimology, and education. It will also be of use to those working in higher education administration and other student life and student health professions.

Against Our Will Susan Brownmiller 2013-09-24 Against Our Will Susan Brownmiller's groundbreaking bestseller uncovers the culture of violence against women with a devastating exploration of the history of rape—now with a new preface by the author exposing the undercurrents of rape still present today./divDIV Rape, as author Susan Brownmiller proves in her startling and important book, is not about sex but about power, fear, and subjugation. For thousands of years, it has been viewed as an acceptable "spoil of war," used as a weapon by invading armies to crush the will of the conquered. The act of rape against women has long been cloaked in lies and false justifications./divDIV It is ignored, tolerated, even encouraged by governments and military leaders, misunderstood by police and security organizations, freely employed by domineering husbands and lovers, downplayed by medical and legal professionals more inclined to "blame the victim," and, perhaps most shockingly, accepted in supposedly civilized societies worldwide, including the United States./divDIV Against Our Will is a classic work that has been widely credited with changing prevailing attitudes about violence against women by awakening the public to the true and continuing tragedy of rape around the globe and throughout the ages./divDIV Selected by the New York Times Book Review as an Outstanding Book of the Year and included among the New York Public Library's Books of the Century, Against Our Will remains an essential work of sociological and historical importance./divDIV/div/div

Gender and Interpersonal Violence K. Throsby 2008-10-24 Drawing on research from a variety of disciplines, this edited collection challenges conventional understandings of gendered interpersonal violence, and identifies emerging sites and forms of resistance to it.

The Routledge Companion to Gender, Media and Violence Karen Boyle 2023-09-29 With the heated discussion around #MeToo, journalistic reporting on domestic abuse, and the popularity of true crime documentaries, gendered media discourse around violence and harassment has never been more prominent. The Routledge Companion to Gender, Media and Violence is an outstanding reference source to the key topics, problems and debates in this important subject and is the first collection on media and violence to take a gendered, intersectional approach. Comprising over 50 chapters by a team of interdisciplinary and international contributors, the book is structured around the following parts: News Representing reality Gender-based violence online Feminist responses The media examples examined range from Australia to Zimbabwe and span print and online news, documentary film and television, podcasts, pornography, memoir, comedy, memes, influencer videos, and digital feminist protest. Types of violence considered include domestic abuse, "honour"-based violence, sexual violence and harassment, female genital mutilation/cutting, child sexual abuse, transphobic violence, and the aftermath of conflict. Good practice is considered in relation to both responsible news reporting and pedagogy. The Routledge Companion to Gender, Media and Violence is essential reading for students and researchers in Gender Studies, Media Studies, Sociology, and Criminology.

Feminist Legal Theory (Second Edition) Nancy Levit

2016-01-15 "In the completely updated second edition of this outstanding primer, Nancy Levit and Robert R.M. Verchick introduce the diverse strands of feminist legal theory and discuss an array of substantive legal topics, pulling in recent court decisions, new laws, and important shifts in culture and technology. The book centers on feminist legal theories, including equal treatment theory, cultural feminism, dominance theory, critical race feminism, lesbian feminism, postmodern feminism, and ecofeminism. Readers will find new material on women in politics, gender and globalization, and the promise and danger of expanding social media. Updated statistics and empirical analysis appear throughout. At its core, Feminist Legal Theory shows the importance of the roles of law and feminist legal theory in shaping contemporary gender issues"--Unedited summary from book cover.

A Clinician's Guide to Disclosures of Sexual Assault
Amie R. Newins 2021 "Sexual assault survivors face a precarious dilemma regarding whether or not to disclose their experience. Many survivors, once they disclose their victimization to others, are met with support and validation. These survivors report better outcomes. Unfortunately, others are not believed or are blamed for the incident(s). These negative reactions can have devastating consequences on their long-term recovery. The uncertainty of how others will respond to"--

Me Too, Feminist Theory, and Surviving Sexual Violence in the Academy Laura A. Gray-Rosendale 2020-03-09 "Me Too, Feminist Theory, and Surviving Sexual Violence in the Academy collects a range of perspectives from sexual assault survivors with backgrounds in academia. The contributors in this collection connect their experiences of sexual violence to their research and work within the academy as well as their lives outside of it"--

Voices From the Wreckage: Young Adult Voices in the #MeToo Movement Kimberly Karshner 2023-04-18 'Voices From the Wreckage: Young Adult Voices in the #MeToo Movement' is an edited collection by Kimberly Greenfield Karshner (Lorain County Community College). This collection focuses on situating young adult voices in the #MeToo movement, and into American culture and identity. Children's and young adult literature is an area of study that has rapidly evolved in the past ten years, bringing previously silenced voices to light. This is especially true for YA LGBTQ+ voices, and also for young narrators who are not only discovering, celebrating, and coming to terms with their identities, but also dealing with assaults on their identities. This collection will build on what writers like Laurie Halse Anderson have begun, first with her groundbreaking book on sexual assault, 'Speak', published in 1999, and more currently, her follow-up book, 'Shout' (2019). These authors continue what Anderson started, exploring texts from the perspectives of YA male and female voices, Native American and international perspectives, and LGBTQ+ character representation. Chapters investigate various literary forms such as graphic novels, memoirs, and novels, and cover topics such as sexual desire, consent, trauma, and survivorship. The literature featured in this volume will assure young people that they can tell their stories and that they will be heard. 'Voices From the Wreckage' will be a valuable tool for anyone who teaches Young Adult Literature, or for those who are avid readers and fans of the genre. The authors in this collection are starting and continuing very important conversations on the topic of sexual abuse and trauma, a conversation necessary for the intended audiences of these books, and for adult readers and teachers who are facilitating the emotions connected to these topics.

Gendered Harm and Structural Violence in the British Asylum System Victoria Canning 2017-03-27 Winner of the 2018 British Society of Criminology Book Prize Britain

Surviving Sexual Violence Feminist Perspectives Pdf Pdf
upload Mia c Boyle

is often heralded as a country in which the rights and welfare of survivors of conflict and persecution are well embedded, and where the standard of living conditions for those seeking asylum is relatively high. Drawing on a decade of activism and research in the North West of England, this book contends that, on the contrary, conditions are often structurally violent. For survivors of gendered violence, harm inflicted throughout the process of seeking asylum can be intersectional and compound the impacts of previous experiences of violent continuums. The everyday threat of detention and deportation; poor housing and inadequate welfare access; and systemic cuts to domestic and sexual violence support all contribute to a temporal limbo which limits women's personal autonomy and access to basic human rights. By reflecting on evidence from interviews, focus groups, activist participation and oral history, *Gendered Harm and Structural Violence* provides a unique insight into the everyday impacts of policy and practice that arguably result in the infliction of further gendered harms on survivors of violence and persecution. Of interest to students and scholars of criminology, zemiology, sociology, human rights, migration policy, state violence and gender, this book develops on and adds to the expanding literatures around immigration, crimmigration and asylum.

Putting Feminism to Work Suzanne Egan 2020-11-23 This book explores the place of feminism and uptake of trauma in contemporary work against sexual violence. Egan presents a refreshing alternative position on arguments about the co-optation or erasure of feminism within institutionalized, professionalized services for sexual assault victims. Using original research on Australian sexual assault services, *Putting Feminism to Work* effectively illustrates how feminist concepts and ideas have become routinized in contemporary services and enacted in daily practices with survivors and communities. The book engages with, yet resists, the notion that feminist engagement with knowledge (trauma) based in psychiatry and clinical psychology is incompatible with feminism or inevitably reduces sexual violence to a problem of individual healing. Indeed Egan argues that the productive ways practitioners integrate neurobiological understandings of trauma into their work suggests rich possibilities for reintroducing a non-essentialist biology of the body into feminist theories of sexual violence. Scholars, students and practitioners working in the fields of violence against women, sociology, women's and gender studies, health, social work and policy studies, as well as the emerging field of sociologically informed trauma studies, will find this book of interest.

Rape Cultures and Survivors: An International Perspective, Volume 1-2 Tuba Inal and Merrill D. Smith
Sourcebook on Violence Against Women Claire M. Renzetti 2017-01-30 The Third Edition of the comprehensive Sourcebook on Violence Against Women by Claire M. Renzetti, Jeffrey L. Edleson, and Raquel Kennedy Bergen covers the current state of research, theory, prevention, and intervention regarding violence against women. The book's 15 chapters are divided into three parts: theoretical and methodological issues in researching violence against women; types of violence against women; and, new to this edition, programs that work. Featuring new chapters, pedagogy, sections on controversies in the field, and autobiographical essays by leaders in grassroots anti-violence work, the Third Edition has been designed to encourage discussion and debate, to address issues of diversity and cultural contexts, and to examine inequalities of race and ethnicity, social class, physical ability, sexual orientation, and geographic location.

Loving to Survive Dee L.R. Graham 1995-07-01 Have you wondered: Why women are more sympathetic than men toward

O. J. Simpson? Why women were no more supportive of the Equal Rights Amendment than men? Why women are no more likely than men to support a female political candidate? Why women are no more likely than men to embrace feminism--a movement by, about, and for women? Why some women stay with men who abuse them? *Loving to Survive* addresses just these issues and poses a surprising answer. Likening women's situation to that of hostages, Dee L. R. Graham and her co-authors argue that women bond with men and adopt men's perspective in an effort to escape the threat of men's violence against them. Dee Graham's announcement, in 1991, of her research on male-female bonding was immediately followed by a national firestorm of media interest. Her startling and provocative conclusion was covered in dozens of national newspapers and heatedly debated. In *Loving to Survive*, Graham provides us with a complete account of her remarkable insights into relationships between men and women. In 1973, three women and one man were held hostage in one of the largest banks in Stockholm by two ex-convicts. These two men threatened their lives, but also showed them kindness. Over the course of the long ordeal, the hostages came to identify with their captors, developing an emotional bond with them. They began to perceive the police, their prospective liberators, as their enemies, and their captors as their friends, as a source of security. This seemingly bizarre reaction to captivity, in which the hostages and captors mutually bond to one another, has been documented in other cases as well, and has become widely known as Stockholm Syndrome. The authors of this book take this syndrome as their starting point to develop a new way of looking at male-female relationships. *Loving to Survive* considers men's violence against women as crucial to understanding women's current psychology. Men's violence creates ever-present, and therefore often unrecognized, terror in women. This terror is often experienced as a fear for any woman of rape by any man or as a fear of making any man angry. They propose that women's current psychology is actually a psychology of women under conditions of captivity that is, under conditions of terror caused by male violence against women. Therefore, women's responses to men, and to male violence, resemble hostages' responses to captors. *Loving to Survive* explores women's bonding to men as it relates to men's violence against women. It proposes that, like hostages who work to placate their captors lest they kill them, women work to please men, and from this springs women's femininity. Femininity describes a set of behaviors that please men because they communicate a woman's acceptance of her subordinate status. Thus, feminine behaviors are, in essence, survival strategies. Like hostages who bond to their captors, women bond to men in an effort to survive. This is a book that will forever change the way we look at male-female relationships and women's lives.

Stories, Storytellers, and Storytelling Tom Vine
2022-12-15 This book advances social scientific interest in a field long dominated by the humanities: stories, and storytelling. Stories are a whole lot more than entertainment; oral narratives, novels, films and immersive video games all form part of the sociocultural discourses which we are enmeshed in, and use to co-construct our beliefs about the world around us. Young children use them to learn about the world beyond their immediate sensory experience and, even in an era of interactive electronic media, the bedtime story remains a cherished part of most children's daily routine. Storytelling is thus the first abstract formal learning method we encounter as human beings. It is also probably transcultural; perhaps even an immanent part of the human condition. Narratives are, at heart, sequences of events and presuppose and reinforce particular cause-and-effect relationships. Inevitably, they also construct unconscious biases, prejudices, and discriminatory attitudes. Storying (a term we use in

this book to encompass stories, storytellers and storytelling) is complex, and this book seeks to make sense of it.

Misogyny as Hate Crime Irene Zempi 2021-08-26 Misogyny as Hate Crime explores the background, nature and consequences of misogyny as well as the legal framework and UK policy responses associated with misogyny as a form of hate crime. Taking an intersectional approach, the book looks at how experiences of misogyny may intersect with other forms of hate crime such as disablism, Islamophobia, antisemitism and transphobia. From the sexist and derogatory comments about women by former US President Donald Trump, to legislative changes in Chile and Peru making street harassment illegal, misogyny presents a challenge to scholars, practitioners, policy makers, and women globally. The increasing importance of the internet has seen misogyny move into these digital spaces but has also provided a platform for movements such as #MeToo and #TimesUp, highlighting the scale of sexual harassment and abuse. In 2016, Nottinghamshire Police in partnership with Nottingham Women's Centre became the first force in England and Wales to record misogyny as a hate crime. Since then other police forces have introduced similar schemes to tackle misogyny. More recently, the Law Commission of England and Wales has undertaken a review of the legislation on hate crime and in their consultation paper of proposals for reform have suggested 'adding sex or gender to the protected characteristics'. In March 2021, the Government announced that police forces in England and Wales will be required to record crimes motivated by hostility based on sex or gender from this autumn. The murder of Sarah Everard has been a 'watershed moment' in the Government's response to violence against women. Sarah Everard's kidnap and murder who went missing while walking home from a friend's flat in South London on 3 March 2021, ignited a national conversation about violence against women. Against this background, the book speaks both to the proposed reforms of the hate crime legislation around misogyny, and the broader issues around experiences of and legal responses to misogyny. It showcases the work of leading scholars in this area alongside that of activists and practitioners, whose work has been invaluable in opening up public discussion on misogynistic hate crime and encouraging wider social change. In recognising the intersections of different forms of prejudice, the book provides an innovative contribution to these 'hate debates', highlighting the complexities of creating separate strands of hate crime. Providing a comprehensive understanding of the debates around inclusion of misogyny as a form of hate crime, this ground-breaking book will be of great interest to students, scholars and activists interested in gender, hate crime, feminism, criminology, law, policing and sociology.

Gender, Violence and Governmentality Skylab Sahu
2020-12-20 This book critically examines gender-based violence in India and interrogates the legal and policy discourse surrounding it. It discusses various forms of violence faced by women such as sex selective abortion, trafficking, rape, domestic violence, as well as the violence faced by female sex workers and transgenders in India. It draws on in-depth interviews and case studies to highlight the socio-economic conditions of the survivors who find themselves forced to contend with legal and policy framework that is inadequate to deal with these issues. The author analyses the major laws against violence and the policies introduced to ameliorate the condition of survivors in order to understand the potential and challenges of these initiatives from a postmodern and feminist perspective. The book also addresses the survivors' realisation of agency and resistance which is seen to be expressed both sporadically and on day-to-day basis. An important and

timely contribution, this book will be indispensable to students and researchers of gender and sexuality, feminism, minority studies, sociology and social policy, politics, law, human rights and South Asian studies. It will also be of interest to policymakers, government agencies, think tanks and NGOs working in the area.

Gendering Green Criminology Emma Milne 2023-10-06 The first volume in green criminology devoted to gender, this book investigates gendered patterns to offending, victimisation and environmental harms. Including feminist and intersectional analysis, and with original case studies from the Global North and Global South, the book also examines actions that have been taken in response to gendered crimes and harms, together with insights on the gendered nature of resistance. The collection advances debate on green crimes, environmental harm and climate change and will inspire students and researchers to foreground gender in debates about reducing and transforming the challenges affecting our planet's future.

#MeToo, Weinstein and Feminism Karen Boyle 2019 "In a moment when scholars and activists are wrestling with the cultural and political impact of #MeToo, Boyle carefully parses the differences between a 'moment' and a movement, and importantly reminds us to think beyond the hashtag to consider history, political contradictions, and the limits of media visibility." – Prof Sarah Banet-Weiser, LSE, Author *Empowered: Popular Feminism & Popular Misogyny* (2018) "Karen Boyle shows us how mainstream media coverage of the #MeToo moment re-focused our attention away from violence towards women, towards the interests of men: men's right to sexual freedoms, and their right to have jokes and 'banter'. Her profound analysis asks us to reflect on the fundamental question: why do our media narratives STILL not ask why men rape?" – Prof Heather Savigny, Professor of Gender, Media and Politics at De Montfort "Professor Boyle writes that she hopes to demonstrate how those in media studies might reintegrate and learn from feminist activism and interdisciplinary scholarship on men's violence against women. She can be congratulated in achieving this - providing an exemplary text demonstrating the crucial role of feminist media scholars in advancing theoretical and practical knowledge on pressing social problems." – Prof Nicole Westmarland, Director, Durham University Centre for Research into Violence and Abuse. This book provides a feminist analysis of #MeToo and the sexual assault allegations against celebrity perpetrators which have emerged since Jodi Kantor and Megan Twohey broke the Harvey Weinstein story in October 2017. It argues for the importance of understanding #MeToo in relation to a longer, and on-going, history of Anglo-American feminist activism, theory and interdisciplinary research on men's violence against women. The introduction argues for the importance of distinguishing between #MeToo as a hashtag and a movement. Chapter 2 investigates how speaking out about rape, sexual assault and harassment on social media can be understood in relation to second-wave feminist traditions of consciousness-raising, and concludes with an analysis of how feminism - and feminists - have featured in mainstream media coverage of the Weinstein case. Chapter 3 uses Liz Kelly's (1988) theorisation of the continuum of sexual violence to discuss how feminists understand connections between different forms of male violence against women and explores the challenges of translating feminist theory into media commentary. Chapter 4, The cultural value of abuse, examines that the cultural values associated with men's abuse with an emphasis on the film and television industries. The book concludes with an exploration of what the #MeToo era has meant for men, focusing first on men as victim/survivors, before moving on to consider how alleged perpetrators are situated in relation to narratives of victimisation and of monstrosity. Karen

Boyle (@ProfKarenBoyle) is Professor of Feminist Media Studies and Programme Director for Applied Gender Studies at the University of Strathclyde, Scotland. Karen is the author of *Media and Violence: Gendering the Debates* (2005), editor of *Everyday Pornography* (2010) and co-founder of Gender Equal Media Scotland (@EqualMediaScot).

The Oxford Handbook of Criminology Alison Liebling 2023-06-02 With contributions from leading authorities, this is the definitive guide to current criminological theory, research, and policy. The Oxford Handbook of Criminology provides a comprehensive collection of chapters covering the core and emerging topics studied on criminology courses, indispensable to students, academics, and professionals alike. 43 chapters written by over 85 leading academics exploring relevant theory, cutting-edge research, policy developments, and current debates, encouraging students to appreciate the diverse and interdisciplinary nature of criminological discourse. Includes detailed references to aid further research. Chapters updated to reflect recent cases, statistics, and scholarship, as well as significant current events such as Covid-19 and social justice movements. New chapters added presenting research on topical issues including victimology, hate crime, desistance, cybercrime, atrocity crimes, convict criminology, security and smart cities, prison abolitionism, comparative criminology, sex offending, and network criminology. Digital formats and resources The seventh edition is available for students and institutions to purchase in a variety of formats, and is supported by online resources. - The book offers a mobile experience and convenient access along with functionality tools, navigation features and links that offer extra learning support:

www.oxfordtextbooks.co.uk/ebooks - The accompanying online resources include essay questions and links to useful websites for each chapter, along with guidance on answering essay questions and access to chapters from previous editions.

Sexuality and Social Work Julie Bywater 2007-10-08 Sexuality remains a neglected and largely taboo area within practice, but it can be a demanding aspect of social work. Social workers may be familiar with the importance of issues such as racism and ethnicity, but sexuality is also a very significant part of people's lives, closest relationships and sense of identity. This valuable resource introduces the topic, using a combination of perspectives to consider sexual diversity and examining related issues across the life course, including sexual orientation, disability, HIV, sexual abuse, mental health and sexual exploitation.

Sexual Violence and Restorative Justice Marie Keenan 2022-11-18 Concerned by the high attrition rates for sexual crime and the secondary victimization experienced by victims during their participation in the criminal justice system, this book analyses the extent to which restorative justice can address the justice gap that exists in current justice provision. Building on clinical experience and earlier research on sexual crime the authors engage with the complex dynamics and traumatic impact of sexual crime as a critical starting point for their research and examine whether restorative justice can contribute to a more enhanced justice response. The book presents extensive new data on restorative justice as applied in sexual violence cases across the globe. It engages with feminist concerns regarding the traumatic impact of sexual violence and the power imbalances that characterise these offences, as well as the potential for re-traumatisation and re-victimisation during the judicial process. While there is a risk of coercion of the victim to participate in the process, and manipulation of restorative justice by the offender, restorative justice has the potential to lead to the reprivatisation of sexual crime and

ultimately to its decriminalisation. Having examined these topics in detail, the book concludes there is an important role for restorative justice in addressing the justice gap that exists after sexual crime and offers guidance on how this can be achieved.

Collaborating for Change Susan Marine 2020 "In the midst of unprecedented attention to gender based violence (GBV) globally, prompted in part by the #MeToo movement, this book provides a new analysis of how higher education cultures can be transformed. It offers reflections from faculty, staff and students about how change has happened and could happen on their campuses in ways that go beyond implementation of programmes and policies. Building on what is already known from decades of scholarship and practice in the US, and more recent attention elsewhere, this book provides an interdisciplinary, international overview of attempts to transform higher education cultures in order to eradicate GBV.. Change happens because people act, usually with others. At the heart of transformative efforts lie collaborations between faculty, staff, students, activists and community organisations. The contributors to the book reflect on what makes for constructive, effective collaborations and how to avoid the common mistakes in working with others to end GBV. They consider what has worked to challenge the reluctance-or outright hostility-they have encountered in their work against GBV and how their collaborations have succeeded in transforming the ways we think about GV and what we do about it. Chapters focus on experiences in Canada, the US, England, Scotland, France and India to examine different approaches to tackling GBV in higher education. They reveal the cultural variations in which GBV occurs as well as the similarities across cultures-that GBV is committed overwhelmingly by men against women and reflects a determination to assert masculine power. Together, they demonstrate that, to make higher education a safe environment for all, nothing short of a transformation is required"--

Dear Sister Lisa Factora-Borchers 2014-02-03 Dear Sister, It wasn't your fault; it was never your fault. You did nothing wrong. Hold this tight to your heart: it wasn't your fault. At night when you lay there and your mind fills with images and you wonder if only, if you had . . . if you hadn't . . . Remember: it wasn't your fault. Dear Sister highlights the lessons, memories, and vision of over forty artists, activists, mothers, writers, and students who share a common bond: they are survivors of sexual violence. Written in an epistolary format, this multi-generational, multi-ethnic collection of letters and essays is a moving journey into the hearts and minds of the survivors of rape, incest, and other forms of sexual violence, written directly to and for other survivors. Dear Sister goes far beyond traditional books about healing, which often use "experts" to explain the experience of survivors for the rest of the world. Where other books about rape weave the voices of feminists and activists together and imagine what a world without violence might look like, Dear Sister describes the reality of what the world looks like through the eyes of a survivor. From a professor in the Midwest to a poet in Belgium, an escapee from a child prostitution ring, a survivor advocate in the Congo, and a sex worker in San Francisco, Dear Sister touches on issues of feminism, love, disability, gender, justice, identity, and

spirituality. Lisa Factora-Borchers is a Filipina writer and editor whose work has been published in *make/shift*, *Bitch*, *Left Turn*, and *Critical Moment*. Contributors: Aminah Shakur, Adrienne Maree Brown, Alexis Pauline Gumbs, Allison McCarthy, Amita Y. Swadhin, Amy Ernst, Ana Heaton, Andrea Harris, Angel Propps, anna Saini, Anne Averyt, annu Saini, Ashley Burczak, brownfemipower, Brooke Benoit, Denise Santomauro, Desire Vincent, Dorla Harris, "Harriet J.", Indira Allegra, Isabella Gitana-Woolf, Joan Chen, Judith Stevenson, Juliet November, Kathleen Ahern, Leah Lakshmi Piepzna-Samarasinha, Marianne Kirby, Maroula Blades, Mary Zelinka, Mattilda Bernstein Sycamore, Melissa Dey Hasbrook, Melissa G., Mia Mingus, Michelle Ovalle, Premala Matthen, Rebecca Echeverria, Renee Martin, River Willow Fagan, Sara Durnan, Sarah M. Cash, Shala Bennett, Shanna Katz, Sofia Rose Smith, Sumayyah Talibah, Sydette Harry, Birdy, Viannah E. Duncan, and Zöe Flowers.

Rape Cultures and Survivors [2 volumes] Tuba Inal 2018-07-11 An in-depth treatment in two volumes of the historical and cultural contexts of rape and rape culture, this set discusses both victims and perpetrators internationally during war and peace times and examines the treatment of survivors. Historically, women, men, and children have all suffered sexual violence, during wartime and peacetime as well as inside and outside their homes. This two-volume title focuses on survivors of rape in a variety of social and cultural contexts. It examines different people who are victimized in a variety of situations (including in war and prisons) and studies the particularities of "rape cultures" that are intertwined with ethnic cultures and hatreds and other forms of conflictual social, political, and economic relations. In the introduction, the editors define rape and rape culture and provide historical and cultural context for the information presented throughout the volumes, the first of which primarily focuses on the causes and manifestations of rape cultures; the second considers the consequences of rape cultures for survivors of sexual assault. In both volumes, contributors provide case studies elucidating the experiences of a variety of victims—young, old, male, female, straight, and LGBT—in diverse locations around the world to help readers understand how truly pervasive and portentous rape culture is.

The Feminist and the Sex Offender Judith Levine 2020-04-28 In the era of #MeToo and mass incarceration, *The Feminist and the Sex Offender* makes a powerful feminist case for accountability without punishment and sexual safety and pleasure without injustice. With analytical clarity and narrative force, *The Feminist and the Sex Offender* contends with two problems that are typically siloed in the era of #MeToo and mass incarceration: sexual and gender violence, on the one hand, and the state's unjust, ineffective, and soul-destroying response to it on the other. Is it possible to confront the culture of abuse? Is it possible to hold harm-doers accountable without recourse to a criminal justice system that redoubles injuries, fails survivors, and retrenches the conditions that made such abuse possible? Drawing on interviews, extensive research, reportage, and history, *The Feminist and the Sex Offender* develops an intersectional feminist approach to ending sexual violence. It maps with considerable detail the unjust sex offender regime while highlighting the alternatives we urgently need.
