The Cave and the Light Arthur Herman 2013-10-22 The definitive sequel to New York Times bestseller *How the Scots Invented the Modern World* is a magisterial account of how the two greatest thinkers of the ancient world, Plato and Aristotle, laid the foundations of Western culture—and how their rivalry shaped the essential features of our culture down to the present day. Plato came from a wealthy, connected Athenian family and lived a comfortable upper-class lifestyle until he met an odd little man named Socrates, who showed him a new world of ideas and ideals. Socrates taught Plato that a man must use reason to attain wisdom, and that the life of a lover of wisdom, a philosopher, was the pinnacle of achievement. Plato dedicated himself to living that ideal and went on to create a school, his famed Academy, to teach others the path to enlightenment through contemplation. However, the same Academy that spread Plato's teachings also fostered his greatest rival. Born to a family of Greek physicians, Aristotle had learned early on the value of observation and hands-on experience. Rather than rely on pure contemplation, he insisted that the truest path to knowledge is through empirical discovery and exploration of the world around us. Aristotle, Plato's most brilliant pupil, thus settled on a philosophy very different from his instructor's and launched a rivalry with profound effects on Western culture. The two men disagreed on the fundamental purpose of the philosophy. For Plato, the image of the cave summed up man's destined path, emerging from the darkness of material existence to the light of a higher and more spiritual truth. Aristotle thought otherwise. Instead of rising above mundane reality, he insisted, the philosopher's job is to explain how the real world works, and how we can find our place in it. Aristotle set up a school in Athens to rival Plato's Academy: the Lyceum. The competition that ensued between the two schools, and between Plato and Aristotle, set the world on an intellectual adventure that lasted through the Middle Ages and Renaissance and that still continues today. From Martin Luther (who named Aristotle the third great enemy of true religion, after the devil and the Pope) to Karl Marx (whose utopian views rival Plato's), heroes and villains of history have been inspired and incensed by these two master philosophers—but never outside their influence. Accessible, riveting, and eloquently written, *The Cave and the Light* provides a stunning new perspective on the Western world, certain to open eyes and stir debate. Praise for *The Cave and the Light* "A sweeping intellectual history viewed through two ancient Greek lenses . . . breezy and enthusiastic but resting on a sturdy rock of research."—Kirkus Reviews "Examining mathematics, politics, theology, and architecture, the book demonstrates the continuing relevance of the ancient world."—Publishers Weekly "A fabulous way to understand over two millennia of history, all in one book."—Library Journal "Entertaining and often illuminating."—The Wall Street Journal

Art 2008 From how to look at works by great masters to explaining key movements, styles, and techniques, this monumental book is the quintessential visual guide to more than 2,500 of the world's most revered paintings and sculptures. DK

Art Andrew Graham Dixon 2018-09-04 *Art: A Visual History* is the complete visual guide to Western art, now updated and repackaged in a themed slipcase. How to tell Impressionism from Expressionism, a Degas from a Monet, early Medieval art from early Christian? *Art: A Visual History* explains it all - painting, sculpture, great artists, styles, and schools - and will help you answer the question, "What makes great art?" *Art: A Visual History* includes: + More than 650 artists and all the major schools and movements, all arranged chronologically. + Close-up focus on 22 masterpieces, from Ancient Greek sculpture to 1960s Pop Art. + Well-known icons along with lesser-known gems - carefully chosen to illuminate the points made in

the text. + Features on major schools and movements to explore and explain their stylistic trademarks, characteristics, and favored subjects. *Art: A Visual History* is a knowledgeable, thought-provoking, and accessible tour of the creators of Western art. Reviews: "With its solid, accessible information and hundreds of excellent, full-color reproductions, this is ideal for high school or college students as well as any art lover or museumgoer." - Library Journal (Starred Review)

Culture and Values: A Survey of the Humanities, Volume I Lawrence S. Cunningham 2013-03-05 *CULTURE AND VALUES: A SURVEY OF THE HUMANITIES* takes you on a fascinating tour of some of the world's most significant examples of art, music, philosophy, and literature, from the beginnings of civilization to today. New features in this edition are designed to make it easy for you to understand the influence of historical events and values on the works produced by each culture--guided discussions of all of the readings, chapter previews, timelines, Compare and Contrast sections, Big Picture reviews at the end of each chapter, expanded coverage of Asia and Africa, and high-quality images with clear captions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Guardian of All Things Michael Shawn Malone 2012 An anecdotal exploration of the history of memory and human civilization explores how human ideas, inventions and transformations have been documented in venues ranging from cave drawings and oral histories to libraries and the Internet. 40,000 first printing.

Culture and Values: A Survey of the Western Humanities Lawrence S. Cunningham 2014-01-01 *CULTURE AND VALUES: A SURVEY OF THE WESTERN HUMANITIES* takes you on a fascinating tour of some of the world's most significant examples of art, music, philosophy, and literature, from the beginnings of civilization to today. New features in the eighth edition are designed to make it easy for you to understand the influence of historical events and values on the works produced by each culture--guided discussions of all of the readings, chapter previews, timelines, Compare and Contrast sections, Big Picture reviews at the end of each chapter, and high-quality images with clear captions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Cave and Cosmos Michael Harner 2013-04-09 In 1980, Michael Harner blazed the trail for the worldwide revival of shamanism with his seminal classic *The Way of the Shaman*. In this long-awaited sequel, he provides new evidence of the reality of heavens. Drawing from a lifetime of personal shamanic experiences and more than 2,500 reports of Westerners' experiences during shamanic ascension, Harner highlights the striking similarities between their discoveries, indicating that the heavens and spirits they've encountered do indeed exist. He also provides instructions on his innovative core-shamanism techniques, so that readers too can ascend to heavenly realms, seek spirit teachers, and return later at will for additional healing and advice. Written by the leading authority on shamanism, *Cave and Cosmos* is a must-read not only for those interested in shamanism, but also for those interested in spirituality, comparative religion, near-death experiences, healing, consciousness, anthropology, and the nature of reality. Praise for Michael Harner and *The Way of the Shaman* "What Yogananda did for Hinduism and D. T. Suzuki did for Zen, Michael Harner has done for shamanism—namely, bring the tradition and its richness to Western awareness." —from *Higher Wisdom*, by Roger Walsh and Charles S. Grob "Wonderful, fascinating.... Harner really knows what he's talking about." —Carlos Castaneda, best-selling author of *The Teachings of Don Juan* and *The Active*

Side of Infinity "An intimate and practical guide to the art of shamanic healing and the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman." —Stanislav Grof, author of *The Adventure of Self-Discovery* "Harner has impeccable credentials, both as an academic and as a practicing shaman. Without doubt (since the recent death of Mircea Eliade) the world's leading authority on shamanism." —Nevill Drury, author of *The Elements of Shamanism* "Michael Harner is a great shaman. He also proves that a person can be both a scientist and a shaman." —Bo Bair Rinchinov, Siberian Buryat shaman

Art That Changed the World DK 2013-10-01 Experience the uplifting power of art on this breathtaking visual tour of 2,500 paintings and sculptures created by more than 700 artists from Michelangelo to Damien Hirst. This beautiful book brings you the very best of world art from cave paintings to Neoexpressionism. Enjoy iconic must-see works, such as Leonardo da Vinci's Last Supper and Monet's Waterlilies and discover less familiar artists and genres from all parts of the globe. *Art That Changed the World* covers the full sweep of world art, including the Ming era in China, and Japanese, Hindu, and Indigenous Australian art. It analyses recurring themes such as love and religion, explaining key genres from Romanesque to Conceptual art. *Art That Changed the World* explores each artist's key works and vision, showing details of their technique, such as Leonardo's use of light and shade. It tells the story of avant-garde works like Manet's *Le Dejeuner sur l'herbe* (Lunch on the Grass), which scandalized society, and traces how one genre informed another - showing how the Impressionists were inspired by Gustave Courbet, for example, and how Van Gogh was influenced by Japanese prints. Lavishly illustrated throughout, look no further for your essential guide to the pantheon of world art.

Supernatural Signs, Symbols, and Codes Beryl Dhanjal 2011-12-15 We see symbols and signs every day; on commercial products, in advertisements, in art, on the Internet, and on buildings. Many signs and symbols were produced out of the simple need for people, who may not have been able to read, to understand them. Symbols have grown into icons representing love, hate, happiness, nationality, and religion. This volume explores some of these signs and symbols, how they came to be, what they mean, and what they could mean in the future.

Art Andrew Graham-Dixon 2018-09 Truly comprehensive in scope, *Art* shows you masterpieces from over 700 artists, including Leonardo da Vinci, Picasso, and Van Gogh. An invaluable reference book for any art lover, it showcases the works; everything from Italian baroque painting and African art to contemporary art history. Discover key facts about the most prominent artistic movements, including their origins and influences, and follow a timeline of the most famous works. Be inspired by the detail of each subject matter and methods each artist used to create their masterpieces, and explore centuries, cultures, and countries on the ultimate artistic journey across time. Created in collaboration with Bridgeman, the biggest art library in the world, *Art - The Definitive Visual Guide* is a must-have for your bookshelf.

Art Andrew Graham Dixon 2018-09-04 Discover more than 2,500 of the world's most influential paintings and sculptures in this beautifully-illustrated guide to the history of art. *Introducing Art: The Definitive Visual Guide* - an invaluable reference book that spans 30,000 years of global art history, from cave paintings to contemporary art, and showcases the works of over 700 artists in striking detail to truly bring the artwork to life. Each artistic movement, from the Italian Renaissance to Impressionism to Graffiti Art, is explained in clear detail with descriptions of their origins and influences, characteristic styles and techniques, and typical subjects. A visual timeline of key works gives an overview of the scope of each major movement, while graphics, overlays, and detailed close-ups, show readers how to "read" composition and subject matter, and explain the specifics of the techniques and methods the artist used to create their masterpieces. Explore the pages of this awe-inspiring art history book to discover: - Over 2500 of the world's most influential paintings and sculptures - Features stunning artwork from more than 700 artists - 'Closer Look' sections offer a detailed analysis of key paintings The 6 core chapters are structured chronologically, starting with prehistoric art and ancient civilizations, right the way up until modern-day artwork, so there's something for everyone to explore, learn and love. From Romanticism in the 19th Century to Realism in the 20th Century, whether it's Pop Art or Expressionism, Minimalism and so much more - the beautiful full-color illustrations and striking imagery, make this art book the perfect gift for the art and history lover in your life, as well as an ideal coffee table book. Doubling up as a riveting reference

book for anyone with an interest in art history who wants to gain a broader knowledge of the subject, as well as the perfect classroom companion in schools, libraries and more. Created in collaboration with Bridgeman, the biggest art library in the world, *Art: The Definitive Visual Guide* is a must-have for your bookshelf.

Inventions in the Visual Arts Cory MacPherson 2016-12-15 Humans have created visual representations of the world since the dawn of man. While early painting and sculpture was often rudimentary, the history of visual art is characterized by rapid evolution; today's artists use high-tech tools to share their vision. *Inventions in the Visual Arts: From Cave Paintings to CAD* provides a closer look at the development of cave paintings, sculptures, sketch books, cameras, and computer-aided design software. These inventions have surprising links to one another, which the book outlines in chronological order, and have forever changed the landscape of art—and beyond.

Oil Paintings in Public Ownership in the Victoria and Albert Museum Victoria and Albert Museum 2008 The Victoria and Albert Museum's collection of oil paintings is less well known than its encyclopaedic holdings of sculpture and applied arts, watercolours, miniatures and other works on paper. However, the museum has also acquired oil paintings since its foundation, and currently has over 2,500 works in this medium. The Victoria and Albert Museum initially collected and displayed oil paintings to tell the story of British art and provide exemplary material for designers: it continues to do so to elucidate the history of art and design from the Middle Ages to the present. Since the nineteenth century the V & A set high standards in its published catalogues. Its combined holdings of paintings, miniatures, watercolours and drawings now run to tens of thousands of items. This is the museum's first illustrated summary catalogue of oil paintings which are shown through thousands of photographs. Trade Orders: Professional Discount Only

Depression-Era Sculpture of the Bay Area Nicholas A. Veronico 2017-08-07 The Great Depression was a terrible blow for the Bay Area's thriving art community. A few private art projects kept a small number of sculptors working, but for the majority, prospects of finding new commissions were grim. By the mid-1930s, Pres. Franklin D. Roosevelt's New Deal program had gathered steam, and assistance was provided to the nation's art community. Salvation came from the Works Progress Administration (WPA), which employed thousands of artists to produce sculpture for public venues. The Bay Area art community subsequently benefitted from the need to fill the then-forthcoming Golden Gate International Exposition (GGIE) with sculpture of all shapes and sizes. As bad as the Depression was, its legacy more than 80 years on is one of beauty. The Bay Area is dotted with sculpture from this era, the majority of it on public display. *Depression-Era Sculpture of the Bay Area* is a visual tour of this artistic bounty.

Rock Art in West Papua Karina Arifin 2004 This book addresses for the first time four major rock art areas of West Papua: the Berau Gulf, Bitsyari Bay, Triton Bay and the Baliem Valley. Together, they form one of the richest regions of rock art and include many newly discovered sites. These sites, located along the South Coast and in the Baliem Highlands, contain thousands of paintings. This book presents, for the first time, hundreds of original photographs including hand stencils, matutuo, faces, and abstract motifs found in West Papua. It also compiles existing hypotheses on the antiquity and origins of rock art in the region and tries to offer a stimulus for further research

New York Magazine 1993-01-25 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

New York Magazine 1993-01-18 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Praxis Elementary Education For Dummies with Online Practice Carla C. Kirkland 2016-07-20 Increase your chances of scoring higher on the Praxis II Elementary Education test. Contrary to popular belief, the Praxis II Elementary Education test isn't a measure of academic performance, which is why many test-

takers who achieve perfect grades in college don't always pass it. Studying such a broad range of topics and enduring such a long testing process can be challenging, so what's the best way to prepare for it? Turn to *Praxis II Elementary Education For Dummies with Online Practice!* It offers easy-to-follow subject reviews, test-taking strategies and advice for multiple choice and essay questions, sample practice questions, two full-length practice tests with detailed answers and explanations, and more. If you're one of the more than 600,000 aspiring teachers who take this test each year, this hands-on, friendly test prep guide gets you up to speed on everything you need to know to pass the Praxis II Elementary Education text with flying colors. This helpful guide covers Reading and Language Arts, Mathematics, Social Studies, Science, Art, Music, and Physical Education. It leaves no stone unturned by offering tips on registering for the exam, as well as a detailed overview of the test and how it's administered. Practice with hundreds of authentic Praxis II questions Hone the skills needed to ace the exam and start your career as a licensed teacher Boost your confidence and do your best on test day Get one year of online access to five Praxis II exams to sharpen your test-taking skills If you're a future educator gearing up to take the Praxis II Elementary Education test, this is your ultimate guide to one of the most important tests you'll ever take.

Rock Art Studies - News of the World Volume 3 Natalie R. Franklin 2008-08-05 This is the third in the five-yearly series of surveys of what is happening in rock art studies around the world. As always, the texts reflect something of the great differences in approach and emphasis that exist in different regions. The volume presents examples from Europe, Asia, Africa, and the New World. During the period in question, 1999 to 2004, there have been few major events, although in the field of Pleistocene art many new discoveries have been made, and a new country added to the select list of those with Ice Age cave art. Some regions such as North Africa and the former USSR have seen a tremendous amount of activity, focusing not only on recording but also on chronology, and the conservation of sites. With the global increase of tourism, the management of rock art sites that are accessible to the public is a theme of ever-growing importance.

The Art Teacher's Book of Lists, Grades K-12 Helen D. Hume 2010-11-30 A revised and updated edition of the best-selling resource for art teachers This time-tested book is written for teachers who need accurate and updated information about the world of art, artists, and art movements, including the arts of Africa, Asia, Native America and other diverse cultures. From incredible insects and musical instruments to spacecraft and prehistoric life, and from art and earthquakes to American football and dogs, Picturepedia gives you a world of information on every page. Did you know that more than half of the human body's weight is water and that a koi carp can live for more than 200 years? Or how about there being more than 20,000 islands in the Pacific Ocean, or that Turkey eats the most bread, with each person getting through 104.6 kg (230.5 lb) of it per year? First published in 2015, Picturepedia has been revamped into a more thrilling edition that will take you on a visual odyssey. This brilliant book is crammed with stunning photographs, gripping information, and explanatory diagrams that allow for fascinating discoveries. New and updated and jam-packed with thousands of pictures and fascinating facts about

science, nature, culture, sports, and history, Picturepedia is the ultimate visual encyclopedia.

What Makes a Masterpiece Christopher Dell 2010 The stories behind the paintings and sculptures that form our common artistic heritage, illustrated with superb reproductions of the works, as well as dozens of details and comparative works.

What the Prophet Ether Couldn't Tell Us Jim Hendleman 2017-12-11 This book explores some of Noah's trial as he builds the ark, survives the Great Flood, and restarts mankind in Sumeria. Following Noah's descendants into Iraq and the ill-fated Tower of Babylon, God then leads a group of travelers, who became known as the Jaredites, into the biblical Promised Land of Americas. Here, God warns them that should they ever cease their worship of him, they would be forever wiped off the face of the land. They fulfill God's promise to them that they are destined to become the greatest civilization, which lasted about 2,530 years but is totally ignored by ologists. As a result of what became known to history as Noah's Flood, the Jaredites had all of five virgin and completely empty continents and most of a sixth to colonize, as well as many other lands in between. Ultimately, the Jaredites did eventually fall away from their worship of God and, as a result, erased themselves from history through an incredibly vicious civil war.

The Case for the Humanities Eric Touya de Marenne 2016-12-01 Countering the perception that the humanities are unessential, this volume contends that their well-being has not only academic but also cultural, political, and existential ramifications.

24 Hours in the Stone Age Lan Cook 2021-03 Join a young girl as she goes hunting, makes her own stone tools and creates amazing cave art. Learn all about the dangers of life in the Stone Age, what makes a good shelter and what edible plants can be gathered in the wild. Covers a wide range of Stone Age activities, from fishing and tracking animals, to making fire, stone tools and cave art.

Art Andrew Graham-Dixon 2008 The ultimate visual guide to paintings and sculpture from around the world. Bring a gallery of more than 2,500 of the world's most influential paintings and sculptures ever created into your home and learn everything you need to know about art history. Peruse over 8,000 stunning works from 700 artists and explore the major milestones of art history from cave paintings to modern masterpieces. Learn how to 'read' composition, subject matter, technique and style as key paintings are examined in intricate detail to help you understand the artist's intentions, style and method. Picture-packed pages explore common themes such as landscapes, nudes and animals. Created in collaboration with the biggest art library in the world, Bridgeman, this is a must-have for every family bookshelf.

Move Caroline Williams 2022-01-04 An eye-opening journey into the power of human movement and how we can harness it to optimize our brain health, boost our mood and improve every aspect of our lives For our earliest ancestors who hunted and gathered, movement meant survival. Our brains evolved to reward physical activity. Moving, thinking and feeling have always been inextricably linked. Yet what happens when we stop moving? Today, on average, we spend around 70% of our lives sitting or lying completely still. Our sedentary lifestyle—desk jobs, long commutes and lots of screen time—is not only bad for our bodies. It can also result in anxiety, depression and a lower overall IQ. But there's good news. Even the simplest movements can reactivate our bodies and open up a hotline to our minds, improving our overall well-being and longevity. And we don't have to spend countless hours in the gym. In fact, exercise as we understand it misses the point. Veteran science journalist Caroline Williams explores the cutting-edge research behind brain health and physical activity, interviewing scientists from around the world to completely reframe our relationship to movement. Along the way she reveals easy tricks that we could all use to improve our memory, maximize our creativity, strengthen our emotional literacy and more. A welcome counterpoint to the current mindfulness craze, Move offers a more stimulating and productive way of freeing our caged minds to live our best life.

The Illustrated Story of Art DK 2013-10-17 Experience the uplifting power of art on this breathtaking visual tour of 2,500 paintings and sculptures created by more than 700 artists from Michelangelo to Damien Hirst. This beautiful book brings you the very best of world art from cave paintings to Neoexpressionism. Enjoy iconic must-see works, such as Leonardo da Vinci's Last Supper and Monet's Waterlilies and discover less familiar artists and genres from all parts of the globe. Culture and Values: A Survey of the Western Humanities Lawrence S. Cunningham 2014-01-01 CULTURE AND VALUES: A SURVEY OF THE WESTERN HUMANITIES takes you on a fascinating tour of some of the world's most significant examples of art, music, philosophy, and literature, from the beginnings of civilization to today. New features in the eighth edition are designed to make it easy for you to understand the influence of historical events and values on the works produced by each culture--guided discussions of all of the readings, chapter previews, timelines, Compare and Contrast sections, Big Picture reviews at the end of each chapter, and high-quality images with clear captions. Volume 1 covers early civilizations through the High Renaissance. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Culture as Power Madhu Bhalla 2020-12-28 This book presents new studies on intellectual and cultural interactions in the context of Buddhist heritage and Indo-Japanese dialogue in the late 19th and early 20th centuries on art, religion, and cultural politics. By revisiting Buddhist connections between India and Japan, it examines the pathways of communication on common aesthetic and religious heritage that emerged in the backdrop of colonial experiences and the rise of Asian nationalisms. The volume discusses themes such as Asian arts and crafts under colonialism, formation of East Asian art collections, development of Buddhist art history in Japan, Japanese encounters with Ajanta, India in the history of the Shinto tradition, Japan in India's xenology, and Buddhism and world peace, and suggests paradigms of reconnecting cultural heritage within a global platform. With essays from experts across the world, this book will be an essential read for scholars and researchers of history, art history, ancient Indian history, colonial history, heritage and cultural studies, South Asian and East Asian history, visual and media studies, Asian studies, international relations and foreign policy, and the history of globalization.

Library Journal 2008

New York Magazine 1993-02-01 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

than 600 publications are indexed, including journals and national general interest publications and newspapers. Book Review Index is available in a three-issue subscription covering the current year or as an annual cumulation covering the past year.

Painters of the Caves Patricia Lauber 1998 Describes the 1994 discovery made in Chauvet, France, of a cave with Stone Age rock paintings, and discusses the significance of cave art to people living in prehistoric as well as modern times.

The Prevention Pipeline 1995

Or What You Will Jo Walton 2020-07-07 Or What You Will is an utterly original novel about how stories are brought forth from Hugo, Nebula, and World Fantasy Award-winning author Jo Walton. He has been too many things to count. He has been a dragon with a boy on his back. He has been a scholar, a warrior, a lover, and a thief. He has been dream and dreamer. He has been a god. But "he" is in fact nothing more than a spark of idea, a character in the mind of Sylvia Harrison, 73, award-winning author of thirty novels over forty years. He has played a part in most of those novels, and in the recesses of her mind, Sylvia has conversed with him for years. But Sylvia won't live forever, any more than any human does. And he's trapped inside her cave of bone, her hollow of skull. When she dies, so will he. Now Sylvia is starting a new novel, a fantasy for adult readers, set in Thalia, the Florence-resembling imaginary city that was the setting for a successful YA trilogy she published decades before. Of course he's got a part in it. But he also has a notion. He thinks he knows how he and Sylvia can step off the wheel of mortality altogether. All he has to do is convince her. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Puglia. Italy's Sunny Heel AA.VV. 2022-09-13T00:00:00+02:00 For centuries, Puglia has acted as the bridge to the Mediterranean. To the north, it is crowned by the wild greenery of the Gargano promontory, the Daunian Mountains, and the sweet hills that roll down to the Tavoliere delle Puglie. With its infinite seafront and old city, medieval churches and genuine cuisine, Bari is the metropolitan capital of the region. Romanesque cathedrals line the Adriatic coast. Numerous beach resorts dot the shore as you wind from the Gargano coast to Salento. The water is always crystalline, perfect for a refreshing dip. Further inland, Salento offers little villages of white houses and historical, Baroque-decorated town centers with dry stone walls bordering long bike paths. Explore everything this oasis has to offer with the expert help of National Geographic writers and photographers who have created insider itineraries into off-the-beaten-path destinations and well-known must-sees. Along the way, practical information for where to go, what to do, where to stay, and what to eat make this comprehensive guide the only reference you need to plan a trip to magical Puglia.
