[Alexandrian Cosmopolitanism](#) Hala Halim  
2013-09-19 Interrogating how Alexandria became enshrined as the exemplary cosmopolitan space in the Middle East, this book mounts a radical critique of Eurocentric conceptions of cosmopolitanism. The dominant account of Alexandrian cosmopolitanism elevates things European in the city's culture and simultaneously places things Egyptian under the sign of decline. The book goes beyond this civilization/barbarism binary to trace other modes of intercultural solidarity. Halim presents a comparative study of literary representations, addressing poetry, fiction, guidebooks, and operettas, among other genres. She reappraises three writers--C. P. Cavafy, E. M. Forster, and Lawrence Durrell--whom she maintains have been cast as the canon of Alexandria. Attending to issues of genre, gender, ethnicity, and class, she refutes the view that these writers' representations are largely congruent and uncovers a variety of positions ranging from Orientalist to anti-colonial. The book then turns to Bernard de Zogheb, a virtually unpublished writer, and elicits his Camp

parodies of elite Levantine mores in operettas one of which centers on Cavafy. Drawing on Arabic critical and historical texts, as well as contemporary writers' and filmmakers' engagement with the canonical triumvirate, Halim orchestrates an Egyptian dialogue with the European representations.

**King of the World** Philip Mansel 2020-09-01  
Louis XIV was a man in pursuit of glory. Not content to be the ruler of a world power, he wanted the power to rule the world. And, for a time, he came tantalizingly close. Philip Mansel's *King of the World* is the most comprehensive and up-to-date biography in English of this hypnotic, flawed figure who continues to captivate our attention. This lively work takes Louis outside Versailles and shows the true extent of his global ambitions, with stops in London, Madrid, Constantinople, Bangkok, and beyond. We witness the importance of his alliance with the Spanish crown and his success in securing Spain for his descendants, his enmity with England, and his relations with the rest of Europe, as well as Asia, Africa, and the Americas. We also see the king's effect on the two great global diasporas of

Huguenots and Jacobites, and their influence on him as he failed in his brutal attempts to stop Protestants from leaving France. Along the way, we are enveloped in the splendor of Louis's court and the fascinating cast of characters who prostrated and plotted within it. *King of the World* is exceptionally researched, drawing on international archives and incorporating sources who knew the king intimately, including the newly released correspondence of Louis's second wife, Madame de Maintenon. Mansel's narrative flair is a perfect match for this grand figure, and he brings the Sun King's world to vivid life. This is a global biography of a global king, whose power was extensive but also limited by laws and circumstances, and whose interests and ambitions stretched far beyond his homeland. Through it all, we watch Louis XIV progressively turn from a dazzling, attractive young king to a belligerent reactionary who sets France on the path to 1789. It is a convincing and compelling portrait of a man who, three hundred years after his death, still epitomizes the idea of le grand monarque.

**Plundered Empire** Michael Greenhalgh  
2019-07-01 Providing extensive documentation, the book examines the mechanics, trials and tribulations of plundering the Ottoman East for private and public collections in Europe. It helps document the continuing debate about the ethics of museum collections.

[The Return of Marco Polo's World](#) Robert D. Kaplan  
2019-05-21 A bracing assessment of U.S. foreign policy and world disorder over the past two decades from the bestselling author of *The Revenge of Geography* and *The Coming Anarchy* "[Kaplan] has emerged not only as an eloquent defender of foreign-policy realism but as a grand strategist to whom the Pentagon turns for a tour d'horizon."—*The Wall Street Journal* In the late thirteenth century, Marco Polo began a decades-long trek from Venice to China along the trade route between Europe and Asia known as the Silk Road—a foundation of Kublai Khan's sprawling empire. Now, in the early twenty-first century, the Chinese regime has proposed a land-and-maritime Silk Road that duplicates exactly the route Marco Polo traveled. Drawing on decades of firsthand experience as a foreign correspondent and military embed for *The Atlantic*, Robert D. Kaplan outlines the timeless principles that *Levant Splendour And Catastrophe On The Mediterranean* Philip Mansel Pdf

should shape America's role in a turbulent world that encompasses the Chinese challenge. From Kaplan's immediate thoughts on President Trump to a frank examination of what will happen in the event of war with North Korea, these essays are a vigorous reckoning with the difficult choices the United States will face in the years ahead. Praise for *The Return of Marco Polo's World* "Elegant and humane . . . [a] prophecy from an observer with a depressingly accurate record of predictions."—Bret Stephens, *The New York Times Book Review* "These essays constitute a truly pathbreaking, brilliant synthesis and analysis of geographic, political, technological, and economic trends with far-reaching consequences. *The Return of Marco Polo's World* is another work by Robert D. Kaplan that will be regarded as a classic."—General David Petraeus (U.S. Army, Ret.) 2016-02-28 'Every time gardens welcomed us, we said to them, Aleppo is our aim and you are merely the route.' Al-Mutanabbi Aleppo lies in ruins. Its streets are plunged in darkness, most of its population has fled. But this was once a vibrant world city, where Muslims, Christians and Jews lived and traded together in peace. Few places are as ancient and diverse as Aleppo - one of the oldest, continuously inhabited cities in the world - successively ruled by the Assyrian, Persian, Greek, Roman, Arab, Ottoman and French empires. Under the Ottomans, it became the empire's third largest city, after Constantinople and Cairo. It owed its wealth to its position at the end of the Silk Road, at a crossroads of world trade, where merchants from Venice, Isfahan and Agra gathered in the largest suq in the Middle East. Throughout the region, it was famous for its food and its music. For 400 years British and

French consuls and merchants lived in Aleppo; many of their accounts are used here for the first time. In the first history of Aleppo in English, Dr Philip Mansel vividly describes its decline from a pinnacle of cultural and economic power, a poignant testament to a city shattered by Syria's civil war.

*Migrants and the Making of the Urban-Maritime World* Christina Reimann 2020-09-03 This volume explores the mutually transformative relations between migrants and port cities. Throughout the ages of sail and steam, port cities served as nodes of long-distance transmissions and exchanges. Commercial goods, people, animals, seeds, bacteria and viruses; technological and scientific knowledge and fashions all arrived in, and moved through, these microcosms of the global. Migrants made vital contributions to the construction of the urban-maritime world in terms of the built environment, the particular sociocultural milieu, and contemporary representations of these spaces. Port cities, in turn, conditioned the lives of these mobile people, be they seafarers, traders, passers-through, or people in search of a new home. By focusing on migrants—their actions and how they were acted upon—the authors seek to capture the contradictions and complexities that characterized port cities: mobility and immobility, acceptance and rejection, nationalism and cosmopolitanism, diversity and homogeneity, segregation and interaction. The book offers a wide geographical perspective, covering port cities on three continents. Its chapters deal with agency in a widened sense, considering the activities of individuals and collectives as well as the decisive impact of sailing and steamboats, trains, the built environment, goods or microbes in shaping urban-maritime spaces.

and northwestern Iraq, and the Sinai Peninsula. Originally written in Arabic, French, Aramaic, Lebanese, Egyptian, and Hebrew, and reflecting an extraordinary diversity of cultures, faiths, traditions, and languages, the selections in this book also convey a wide range of ideas and perspectives, to offer readers a nuanced understanding of the mosaic that is the contemporary Middle East. Franck Salameh, who compiled this anthology over the course of more than two decades, introduces and annotates each selection for the benefit of the uninitiated reader, offering background on the various peoples and politics of the Levant. In these pages, we discover a Middle East in which, as one writer puts it, “an Armenian and a Turk can still hold hands in the midst of massacres.”

*Britain's Levantine Empire, 1914-1923* Daniel-Joseph MacArthur-Seal 2021 *Britain's Levantine Empire, 1914-1923* explains the rise and decline and nature and extent of British military rule in the urban eastern Mediterranean during the course of the First World War and its aftermath. Combining novel case studies and theoretical approaches, the volume reveals the extent of military control that Britain established and anticipated maintaining in the post-Ottoman world, before a series of confrontations with nationalist and socialist anti-imperialists forced a new division of the eastern Mediterranean, still visible in the political borders of the present day. *Britain's Levantine Empire, 1914-1923* tells this story through the eyes and ears of the British servicemen who built this empire, analysing the testimony of over 100 such military personnel sent to Alexandria, Thessaloniki, Istanbul, and the towns and islands between them, as they voyaged, made camp, and explored and patrolled the city streets. Whereas histories examining soldiers' experiences in the First World War have almost exclusively focused on their lives at the frontlines, this study provides a much needed in-depth history of soldiers' experience and impact on the urban hubs of the Eastern Mediterranean, where urban planning, nightlife and entertainment, policing, and security were transformed by the presence of so many men at arms and the imperialist interventions that accompanied them.

**American Travelers on the Nile** Andrew Oliver (Jr.) 2014 The Treaty of Ghent signed in 1814 allowed Americans once again to travel abroad. Intrepid Americans ventured to Athens, to Constantinople, and even to Egypt. This book covers the 25-year period after 1815 that saw young men from East Coast cities traveling to the lands of the Bible and of the Greek and Latin authors they had first known as teenagers. Naval officers off ships of the Mediterranean squadron visited Cairo to see the pyramids. Two groups went on business, one importing steam-powered rice and cotton mills from New York, the other exporting giraffes from the Kalahari Desert for wild animal shows in New York.

*Faith and Sword* Alan G. Jamieson 2016-11-15 With the recent surge in terrorist acts and military confrontations, as well as ever-strengthening fundamentalist ideologies, the Christian-Muslim divide is perhaps more visible than ever—but it is not new. Alan G. Jamieson explores here the long and bloody history of the Christian-Muslim conflict, revealing in his concise yet comprehensive study how deeply this ancient divide is interwoven with crucial events in world history. *Faith and Sword* opens with the tumultuous first centuries of the conflict, examining the religious precepts that framed clashes between Christians and Muslims and that ultimately fueled the legendary Crusades. Traversing the full breadth of the Arab lands and Christendom, Jamieson chronicles the turbulent saga from the Arab conquests of the seventh century to the rise of the powerful Ottoman Empire and its fall at the end of World War I. He then explores the complex dynamics that

emerged later in the twentieth century, as Christendom was transformed into the secular West and Islamic nations overthrew European colonialism to establish governments straddling modernity and religiosity. From the 1979 Iranian revolution to the Lebanon hostage crisis to—in this new expanded edition—the recent wars in Syria, Iraq, and Afghanistan, *Faith and Sword* reveals the essence of this enduring struggle and its consequences.

Like a jigsaw, the studies contained within showcase interlock fragments of the historical encounters between faiths, religions and societies in a rich Levantine and Oriental space, in an attempt to render them more accessible to readers today by focusing both on broader religious phenomena as well as on the practical, liturgical and social interaction between traditions and mentalities, features representative of both faith and society at large.

*Sea Narratives: Cultural Responses to the Sea, 1600–Present* Charlotte Mathieson 2016-06-07 *Sea Narratives: Cultural Responses to the Sea, 1600–Present* explores the relationship between the sea and culture from the early modern period to the present. The collection uses the concept of the 'sea narrative' as a lens through which to consider the multiple ways in which the sea has shaped, challenged, and expanded modes of cultural representation to produce varied, contested and provocative chronicles of the sea across a variety of cultural forms within diverse socio-cultural moments. *Sea Narratives* provides a unique perspective on the relationship between the sea and cultural production: it reveals the sea to be more than simply a source of creative inspiration, instead showing how the sea has had a demonstrable effect on new modes and forms of narration across the cultural sphere, and in turn, how these forms have been essential in shaping socio-cultural understandings of the sea. The result is an incisive exploration of the sea's

**Levant** Philip Mansel 2011-05-24 Not so long ago, in certain cities on the shores of the eastern Mediterranean, Muslims, Christians, and Jews lived and flourished side by side. What can the histories of these cities tell us? *Levant* is a book of cities. It describes three former centers of great wealth, pleasure, and freedom—Smyrna, Alexandria, and Beirut—cities of the Levant region along the eastern coast of the Mediterranean. In these key ports at the crossroads of East and West, against all expectations, cosmopolitanism and nationalism flourished simultaneously. People freely switched identities and languages, released from the prisons of religion and nationality. Muslims, Christians, and Jews lived and worshipped as neighbors. Distinguished historian Philip Mansel is the first to recount the colorful, contradictory histories of Smyrna, Alexandria, and Beirut in the modern age. He begins in the early days of the French alliance with the Ottoman Empire in the sixteenth century and continues through the cities' mid-twentieth-century fates: Smyrna burned; Alexandria Egyptianized; Beirut lacerated by civil war. Mansel looks back to discern what these remarkable Levantine cities were like, how they differed from other cities, why they shone forth as cultural beacons. He also embarks on a quest: to discover whether, as often claimed, these cities were truly cosmopolitan, possessing the elixir of coexistence between Muslims, Christians, and Jews for which the world yearns. Or, below the glittering surface, were they volcanoes waiting to erupt, as the catastrophes of the twentieth century suggest? In the pages of the past, Mansel finds important messages for the fractured world of today.

**Jacqueline Kahanoff** David Ohana 2023-11-07 *Jacqueline Kahanoff: A Levantine Woman* is the first intellectual biography of this remarkable Egyptian-Jewish intellectual, whose work has secured her place in literary pantheon as a herald of Levantine, Mediterranean, and transnational culture. Growing up Jewish in cosmopolitan Egypt in the 1920s and 1930s, Jacqueline Kahanoff experienced a bustling Middle East enriched by diverse languages, religions, and peoples who nonetheless were deeply connected to each other through history, business, daily practices, and shared landscape.

At the age of twenty-four, Kahanoff immigrated to the United States. Her stories, essays, and short autobiographical novel attest to her penchant to cross boundaries, generations, social classes, sexes, and Western and Eastern constructs. After immigrating to Israel in the early 1950s, she critically addressed the country's "provinciality" and "ethnic nationalism" as seen through her conception of a transnational Levantine culture. Through many writings, Kahanoff set forth her distinctive vision of Israel as a Mediterranean country with a broad, multicultural Levantine identity. Drawing on an extensive array of sources, ranging from interviews with Jacqueline Kahanoff's acquaintances and contemporaries to unpublished writings, David Ohana explores her fascinating life and intellectual journey from Cairo to Tel Aviv. The encompassing vision of a Levantine Israel made Kahanoff the initiator of a different cultural possibility, more extensive than that offered in her time, and also, perhaps, than is offered today.

**Waterfronts Revisited** Heleni Porfyriou  
2016-08-05 *Waterfronts Revisited* addresses the historical evolution of the relationship between port and city and re-examines waterfront development by looking at the urban territory and historical city in their complexity and entirety. By identifying guiding values, urban patterns and typologies, and local needs and experiences, cities can break the isolation of the harbor by reconnecting it to the urban structure; its functions, spaces and forms. Using the UNESCO recommendation for the "Historic Urban Landscape" as the guiding concept and a tool for managing urban preservation and change, this collection of essays illustrates solutions to issues of globalisation, commercialization of space and commoditisation of culture in waterfront development. Through sixteen selected case studies, Editors Heleni Porfyriou and Marichela Sepe offer planners and urban designers a broad spectrum of alternative solutions to waterfront regeneration interventions and redevelopments, addressing sustainability, regional cultural diversity, and the debate between conservation and transformation.

**Collapse and Transformation** Guy D. Middleton

characterised as a time of crisis and collapse. A critical period in the long history of the region and its people and culture, they witnessed the end of the Mycenaean kingdoms, with their palaces and Linear B records, and, through the Postpalatial period, the transition into the Early Iron Age. But, on closer examination, it has become increasingly clear that the period as a whole, across the region, defies simple characterisation – there was success and splendour, resilience and continuity, and novelty and innovation, actively driven by the people of these lands through this transformative century. The story of the Aegean at this time has frequently been incorporated into narratives focused on the wider eastern Mediterranean, and most infamously the 'Sea Peoples' of the Egyptian texts. In twenty-five chapters written by 25 specialists, *Collapse and Transformation* instead offers a tight focus on the Aegean itself, providing an up-to date picture of the archaeology 'before' and 'after' 'the collapse' of c. 1200 BC. It will be essential reading for students and scholars of the Aegean and eastern Mediterranean regions, as well as providing data and a range of interpretations to those studying collapse and resilience more widely and engaging in comparative studies. Introductory chapters discuss notions of collapse, and provide overviews of the Minoan and Mycenaean collapses. These are followed by twelve chapters, which review the evidence from the major regions of the Aegean, including the Argolid, Messenia, and Boeotia, Crete, and the Aegean islands. Six chapters then address key themes: the economy, funerary practices, the Mycenaean pottery of the mainland and the wider Aegean and eastern Mediterranean region, religion, and the extent to which later Greek myth can be drawn upon as evidence or taken to reflect any historical reality. The final four chapters provide a wider context for the Aegean story, surveying the eastern Mediterranean, including Cyprus and the Levant, and the themes of subsistence and warfare.

*Consuls and the Institutions of Global Capitalism, 1783-1914* Ferry de Goey  
2015-10-06 The nineteenth century saw the expansion of Western influence across the globe. A consular presence in a new territory had numerous advantages for business and trade. Using specific case studies,

de Goey demonstrates the key role played by consuls in the rise of the global economy.

**Thessaloniki** Dimitris Keridis 2020-03-12 This book shares the conclusions of a remarkable conference marking the centennial of Thessaloniki's incorporation into the Greek state in 1912. Like its Roman and Byzantine predecessors, Ottoman Salonica was the metropolis of a huge, multi-ethnic Balkan hinterland, a center of modernization/westernization, and the de facto capital of Sephardic Judaism. The powerful attraction it exerted on competing local nationalisms, including the Young Turks, gave it a paradigmatic role in the transition from imperial to national rule in southeastern Europe. Twenty-three articles cover the multicultural physiognomy of a 'Levantine' city. They describe the mechanisms for cultivating national consciousness (including education, journalism, the arts, archaeology, and urban planning), the relationship between national identity, religious identity, and an evolving socialist labor movement, anti-Semitism, and the practical issues of governing and assimilating diverse non-Greek populations after Greece's military victory in 1912. Analysis of this transformation extends chronologically through the arrival of Greek refugees from Turkey and the Black Sea in 1923, the Holocaust, the Greek civil war, and the new waves of migration after 1990. These processes are analyzed on multiple levels, including civil administration, land use planning, and the treatment of Thessaloniki's historic monuments. This work underscores the importance of cities and their local histories in shaping the key national narratives that drove development in southeastern Europe. Those lessons are highly relevant today, as Europe reacts to renewed migratory pressures and the rise of new nationalist movements, and draws lessons, valid or otherwise, from the nation-building experiments of the previous century.

**The Politics of Self-determination** Volker Prott 2016 This text addresses the pitfalls of border drawing in post-WWI Europe, arguing that at international and local levels, the 'temptation of violence' made national self-determination problematic, as local elites, administrations and paramilitary leaders used ethnic notions of identity to mobilise popular support under a

**Dressed to Rule** Philip Mansel 2005-01-01 Throughout history rulers have used clothes as a form of legitimization and propaganda. While palaces, pictures, and jewels might reflect the choice of a monarch's predecessors or advisers, clothes reflected the preferences of the monarch himself. Being both personal and visible, the right costume at the right time could transform and define a monarch's reputation. Many royal leaders have known this, from Louis XIV to Catherine the Great and from Napoleon I to Princess Diana. This intriguing book explores how rulers have sought to control their image through their appearance. Mansel shows how individual styles of dress throw light on the personalities of particular monarchs, on their court system, and on their ambitions. The book looks also at the economics of the costume industry, at patronage, at the etiquette involved in mourning dress, and at the act of dressing itself. Fascinating glimpses into the lives of European monarchs and contemporary potentates reveal the intimate connection between power and the way it is packaged.

**Before the Nation** Nicholas Doumanis 2013 'Before the Nation' argues that there is more than a grain of truth to nostalgic traditions following genocide. It points to the fact that intercommunality, a mode of everyday living based on the accommodation of cultural difference, was a normal and stabilizing feature of multi-ethnic societies.

**The Latins in the Levant** William Miller 1908  
**Globalizations from Below** Theodor Tudoroiu 2022-09-09 Globalizations from Below uses a Constructivist International Relations approach that emphasizes the centrality of normative power to analyze and compare the four globalizations 'from below'. These are: (1) the counter-hegemonic globalization represented by the 'movement of movements' of alter-globalization transnational social activists, who try to put an end to the Neoliberal nature of the Western-centered globalization 'from above;' (2) the non-hegemonic globalization enacted by 'ant

traders' that are part of the transnational informal economy; (3) the partially similar Chinese-centered globalization, whose entrepreneurial migrants are strongly influenced and instrumentalized by the Chinese state; and (4) the first wave globalization 'from below' that paralleled (and outlived) the 1870-1914 globalization 'from above.' This book identifies their common features and uses them to define the concept of globalization 'from below' as a set of socio-economic or socio-political processes that involve large transnational flows of people, goods, and/or ideas characterized at least in part by informality. They are enacted by entrepreneurial or activist individuals who either take advantage of the normative power of the hegemon at the origin of an international order and an associated globalization 'from above,' or — explicitly or implicitly — transgress, contest, and try to redefine dominant economic, legal, political, and socio-cultural norms, thus challenging the existing international order and globalization 'from above.' By constructing a unified theoretical framework, this book attempts to open a new field of interdisciplinary research that should take globalizations 'from below' out of their current scholarly marginality. This is one of the first scholarly works to collectively present more than one globalization 'from below,' and will be of great interest to students, scholars, and researchers of International Relations, International Political Economy, Development Studies, Economic History, Anthropology, Diaspora Studies, and Chinese Studies.

**Egypt** James Whidden 2017-06-26 This book is a comprehensive portrait of the British colony in Egypt, which also takes a fresh look at the examples of colonial cultures memorably enshrined in Edward W. Said's classic *Orientalism*. Arguing that Said's analysis offered only the dominant discourse in imperial and colonial narratives, it uses private papers, letters, memoirs, as well as the official texts, histories and government reports, to reveal both dominant and muted discourses. While imperial sentiment certainly set the standards and sealed the image of a ruling caste culture, the investigation of colonial sentiment reveals a more diverse colony in temperament and lifestyles, often intimately rooted in the Egyptian setting. The method involves providing biographical treatments of a *Levant Splendour And Catastrophe On The Mediterranean Philip Mansel Pdf Pdf upload Dona q Hayda*

wide range of colonials and the sometimes contradictory responses to specific colonial locations, historical junctures and seminal events, like invasion and war or grand imperial projects including the Alexandria municipality. **What the British Did** Peter Mangold 2016-04-07 Britain has been engaged in the Middle East for over two centuries. During the Napoleonic Wars it expelled the French from Egypt. During World War I it helped to dismantle the Ottoman empire. During World War II, it defeated the Italians and Germans. In the post-war years, it attempted to reassert its domination of the Middle East but with little success. Today British forces in the region are fighting ISIS. Various seen as intruders by most of the local populations and nationalists and as protectors by local pliant rulers, the British have been key arbiters in Middle Eastern politics. They created new states, determined who could hold power, resolved disputes and offered security to their clients. In this major new study, Peter Mangold shows how Britain sought to protect its changing interests in the region and assesses the British response to Arab nationalism. He examines the successes and failures of British policy and the reasons it has often proved controversial and accident prone. And he evaluates Britain's complex legacy in the Middle East - its contribution to the stability of Jordan (at least to date) and the Gulf states, set against the instability which has plagued Iraq and the unresolved Palestine conflict. In tracing the history of Britain's relationship with the Middle East, Mangold reveals how Britain's involvement in the Middle East sowed the seeds for today's crises.

The Late Ottoman Empire and Egypt Elizabeth H Shlala 2017-07-31 Law and identification transgressed political boundaries in the nineteenth-century Levant. Over the course of the century, Italo-Levantines- elite and common- exercised a strategy of resilient hybridity whereby an unintentional form of legal imperialism took root in Egypt. This book contributes to a vibrant strand of global legal history that places law and other social structures at the heart of competing imperial projects- British, Ottoman, Egyptian, and Italian among them. Analysis of the Italian consular and mixed court cases, and diplomatic records, in

Egypt and Istanbul reveals the complexity of shifting identifications and judicial reform in two parts of the interactive and competitive plural legal regime. The rich court records show that binary relational categories fail to capture the complexity of the daily lives of the residents and courts of the late Ottoman empire. Over time and acting in their own self-interests, these actors exploited the plural legal regime. Case studies in both Egypt and Istanbul explore how identification developed as a legal form of property itself. Whereas the classical literature emphasized external state power politics, this book builds upon new work in the field that shows the interaction of external and internal power struggles throughout the region led to assorted forms of confrontation, collaboration, and negotiation in the region. It will be of interest to students, scholars, and readers of Middle East, Ottoman, and Mediterranean history. It will also appeal to anyone wanting to know more about cultural history in the nineteenth century, and the historical roots of contemporary global debates on law, migration, and identities.

**Italian Architects and Builders in the Ottoman Empire and Modern Turkey** Paolo Girardelli 2019-01-29 This volume represents the first scholarly work in English devoted to the experience of Italian architects and builders in Turkey, as well as in many of the lands once belonging to the Ottoman Empire. Covering a complex cultural and political geography spanning from the Danubian principalities (today's Romania) to Anatolia and the Aegean region, the book is the result of individual research experiences that were brought together and debated in an international conference in Istanbul in March 2013, organized in collaboration with the Italian Institute of Culture and Boğaziçi University. Grounded on a flexible notion of identitarian boundaries, the book explores a rich transcultural field of encounters and interactions, analyzed and evaluated by scholars from six different countries on the basis of hitherto uncovered archival materials. Forms, ideas, individual mobility of actors and materials, networks of patronage, material and political constraints, and religious and cultural difference all play a significant role in shaping the landscapes, buildings and architectural projects presented and discussed here. From late 18th and early 19th century experiences of interaction between neo-classical backgrounds and westernizing Ottoman forms to the Italian proposals for a Turkish republican iconic landmark like the Atatürk mausoleum in Ankara; from the design of the first Ottoman university building to Ottoman varieties of Art Nouveau and Art Deco, and to the infrastructures and urban developments of the 1950s in Turkey, the book is both a richly illustrated and documented overview of relevant cases, and a critical introduction to one of the most enticing areas of encounter in the global history of 19th and 20th century architecture and design.

*Tolerance Re-Shaped in the Early-Modern Mediterranean Borderlands* Filomena Viviana Tagliaferri 2018-03-26 This book explores perceptions of toleration and self-identity through an analysis of otherness' real experience of Italian travellers, Catholic missionaries and Maltese proto-journalists within Mediterranean border-spaces. Employing a multidisciplinary approach, which integrates the analysis of original and unpublished archival documentation with early modern European travel literature, the book shows how fluid subjects and border groups adapted to new environments, often generating information that made the Ottomans and their system of values real and dignified to an Italian audience. The interdisciplinary combining of historical methodology with the tools of comparative literature, anthropology and folklore studies provides a fresh perspective on concepts of tolerance as experienced in the early modern Mediterranean.

dissemination of this myth. Kaufman investigates the crucial place Phoenicianism occupied in the formation of Greater Lebanon in 1920. He also explores the way the Jesuit Order and the French authorities propagated this myth during the mandate years. The book also analyzes literary writings of different Lebanese who advocated this myth, and of others who opposed it. Finally, *Reviving Phoenicia* provides an overview of Phoenicianism from independence in 1943 to the present, demonstrating that despite the general objection to this myth, some aspects of it entered mainstream Lebanese national narratives. Kaufman's work will be vital reading for anyone interested in the birth of modern Lebanon as we know it today.

**The Greeks and the British in the Levant, 1800-1960s** Anastasia Yiangou 2016-09-01 This book explores the concept of 'the Levant' as a component of the regional and international system during the age of imperialism. At its heart is a focus on the experience of Greek-speaking societies and, above all, the independent state of Greece that came into existence in 1830. A key sub-theme running through the account is the Anglo-Hellenic connection stemming from an enhanced British presence in the Eastern Mediterranean from the 1830s and 1840s, and in particular its relationship to the Greek polity. Within this framework the emergence of the idea of 'Greater Greece' is integrated into the narrative, including its regional reverberations and ethnic tensions. Other contributions examine trade and finance, gender issues, colonialism and the distinctive experience of Cyprus. The core of the volume deals centrally with three interlocking themes: modernity, nationalism and transnationalism. Ultimately these forces were to prove at odds with the ambiguity and elite structures that characterized the Levant in its nineteenth-century heyday. The book analyses the evolution, and increasing definition from the late 1950s, of Greece's modern European identity, while taking into account the magnetic force of other relationships and regional links. This treatment connects with the choices and dilemmas facing Greece and its surrounding region, which contemporary crises invariably throw into relief. It will be of interest both to specialised historians and students of current affairs seeking to understand the broader

*The Ottoman Endgame* Sean McMeekin 2015-10-13 An astonishing retelling of twentieth-century history from the Ottoman perspective, delivering profound new insights into World War I and the contemporary Middle East Between 1911 and 1922, a series of wars would engulf the Ottoman Empire and its successor states, in which the central conflict, of course, is World War I—a story we think we know well. As Sean McMeekin shows us in this revelatory new history of what he calls the “wars of the Ottoman succession,” we know far less than we think. The *Ottoman Endgame* brings to light the entire strategic narrative that led to an unstable new order in postwar Middle East—much of which is still felt today. The *Ottoman Endgame: War, Revolution, and the Making of the Modern Middle East* draws from McMeekin's years of groundbreaking research in newly opened Ottoman and Russian archives. With great storytelling flair, McMeekin makes new the epic stories we know from the Ottoman front, from Gallipoli to the exploits of Lawrence in Arabia, and introduces a vast range of new stories to Western readers. His accounts of the lead-up to World War I and the Ottoman Empire's central role in the war itself offers an entirely new and deeper vision of the conflict. Harnessing not only Ottoman and Russian but also British, German, French, American, and Austro-Hungarian sources, the result is a truly pioneering work of scholarship that gives full justice to a multitiered war involving many belligerents. McMeekin also brilliantly reconceives our inherited Anglo-French understanding of the war's outcome and the collapse of the empire that followed. The book chronicles the emergence of modern Turkey and the carve-up of the rest of the Ottoman Empire as it has never been told before, offering a new perspective on such issues as the ethno-religious bloodletting and forced population transfers which attended the breakup of empire, the Balfour Declaration, the toppling of the caliphate, and the partition of Iraq and Syria—bringing the contemporary consequences into clear focus. Every so often, a work of history completely reshapes our understanding of a subject of enormous historical and contemporary importance. The *Ottoman Endgame* is such a book, an instantly definitive and thrilling example

of narrative history as high art.

**Constantinople** Philip Mansel 2011-11-10 Philip Mansel's highly acclaimed history absorbingly charts the interaction between the vibrantly cosmopolitan capital of Constantinople - the city of the world's desire - and its ruling family. In 1453, Mehmed the Conqueror entered Constantinople on a white horse, beginning an Ottoman love affair with the city that lasted until 1924, when the last Caliph hurriedly left on the Orient Express. For almost five centuries Constantinople, with its enormous racial and cultural diversity, was the centre of the dramatic and often depraved story of an extraordinary dynasty.

**The Undivided Past** David Cannadine 2013-03-19 An impassioned, controversial plea for us to recognise the importance of writing history - from world-famous historian David Cannadine David Cannadine is one of Britain's most distinguished historians and this is his masterpiece. The Undivided Past is an agonised attempt to understand how so much of the writing of history has been driven by a fatal desire to dramatize differences - to create an 'us versus them'. Great works of history have so often had at their heart a wish to sift people in ways that have been profoundly damaging and provided the intellectual backing and justification for terrible political decisions. Again and again, categories have been found--whether religion, nation, class, gender, race or 'civilization'--that have sought to explain world events by fabricating some malevolent or helpless 'other'. This book is above all an appeal to common humanity. We seem doomed always to fall (most recently in the wake of 9/11) into the 'us versus them' trap, but there is no reason why the history we read and write should not be much better than this and describe what we all have in common rather than what divides us. About the author: Sir David Cannadine is Chair of the National Portrait Gallery, Dodge Professor of History at Princeton University and General Editor of the Penguin History of Europe and Penguin History of Britain. He is a Fellow of the British Academy and the Chair of the Blue Plaques Committee. His major books include *The Rise and Fall of the British Aristocracy*, *Ornamentalism and Mellon: A Life*. He is currently writing the Penguin History of Victorian Britain. He has previously taught at Cambridge, Columbia and London universities.
