Laws that Changed America Jules Archer 2017-06-27 Jules Archer begins with laws that opened up America—public lands and homesteading—and continues with banking, the Bill of Rights, subversion and sedition, foreign policy. Natural resources, labor, business, education and welfare, farming, Prohibition, the New Deal, the draft and G. I. Bills, slavery and civil rights. Archer chronicles the history of laws in America. Each chapter opens with a dramatic incident, and then develops the laws relating to it. Brisk up-to-date, authoritative, informative—this volume will be valuable a supplementary reading in the classroom, as well as a welcome addition to libraries across the country. Readers of all ages will find this an exciting approach to what is usually considered difficult material.

The American Spectrum Encyclopedia Michael David Harkavy 1991 A concise, general-subject encyclopedia with color and black-and-white illustrations, maps, and charts.

The Century for Young People Peter Jennings 2009-09-22 Experience the greatest moments of the 20th century with an accessible narrative that makes history come alive. Adapted from the #1 national bestseller especially for young readers! The twentieth century was a time of tremendous change, the most eventful hundred years in human history. Join Peter Jennings and Todd Brewster for a fascinating journey back in time to experience, through vivid first-person accounts, the most surprising and the most terrifying events of the past hundred years. These are the voices of ordinary people--children and adults--who were part of history in the making. Their joys and sorrows, their hopes and fears provide a compelling insider's look at momentous events that have reshaped the world. The Century for Young People is a riveting read and an essential research resource. It is the story of our time for all time.

Inquiry Into Occupation and Administration of Haiti and Santo Domingo United States. Congress. Senate. Select Committee on Haiti and Santo Domingo 1922

Guide to U.S. Foreign Policy Robert J. McMahon 2012-08-02 At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—Guide to U.S. Foreign Policy traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained “the strength of a giant” and also analyzes key world events that have determined the United States’ changing relations with other nations. The two volumes’ structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of

the United States from colonial times through the present day. Volume II’s appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. Guide to U.S. Foreign Policy is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history. ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Merison Professor of History in the Merison Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal *Diplomatic History*.

Robert Lansing: A Study in Statecraft David Glaser 2015-02-20 This volume is a study of the career of Robert Lansing, Woodrow Wilson’s Secretary of State from 1915 to 1920. Holding this office during the neutrality period, America’s entry into World War I, and the peace negotiations that followed, his was an important position at a critical juncture in American history. While many historians have dismissed Lansing’s contributions as insubstantial, this author believes otherwise. This work will show that in nudging a reluctant president toward war with Germany Lansing was persuasive indeed. His most important contributions, however, came after Wilson returned to the United States in 1919 and became incapacitated during the fight for ratification of the Treaty of Versailles. In the months that followed Lansing took the position of leadership in the Cabinet, holding important meetings on all of the issues of the day and reassuring the nation that the Executive branch of government still functioned. He also helped to resolve critical Mexican and Russian issues. Finally, and most importantly during this period, Lansing was in league with the strong reservations in attempting to force Wilson to accept modifications to the Treaty as a condition for ratification. In this regard he provided the Republican opposition with important information regarding compromises made at Paris and the feelings of both himself and other Commissioners as to flaws in the Treaty. Throughout his career Lansing was a strong proponent of his views on the key issues of the day. Sadly when faced with a President of equally strong views, often different from his own, Lansing resorted to indirection, deception and ultimately disloyalty in attempting to achieve his objectives. In the end Lansing’s many positive contributions were diminished by the actions of his final days.

International Warbirds John C. Fredriksen 2001-08-01 In depth descriptions and photographs of the aircraft of 21 nations presented with a unique human dimension that goes behind the machines to the people involved. Invaluable for specialists, accessible to enthusiasts, *International Warbirds: An Illustrated Guide to World Military Aircraft, 1914-2000* puts the most legendary fighter aircraft of the 20th century developed outside the United States on vivid display. It offers 336 illustrated "biographies" of the most significant warplanes used in squadron service from World War I to the Balkan conflict, including numerous models from Great Britain, France, Russia, and Japan, as well as notable machines from Israel, Canada, China, India, Brazil, and other nations. Entries span the history and scope of military aircraft from bombers and fighters to transports, trainers, reconnaissance craft, sea planes, and helicopters, with each capsule history combining nuts-and-bolts technical data with the story of that model's evolution and use. Together, these portraits offer an exciting, well-researched tribute to visionary designers and builders as well as courageous pilots and crews across the globe, and tell a vivid tale of how air power became such a decisive factor in modern warfare.

With opinionated and lively writing, honest reviews and a strong cultural background, Rough Guides travel books bring more than 200 destinations to life. Visit RoughGuides.com to learn more.

The Path to War Michael S. Neiberg 2016-09-01 When war broke out in Europe in August of 1914, it seemed, to observers in the United States, the height of madness. The Old World and its empires were tearing each other apart, and while most Americans blamed the Germans, pitied the Belgians, and felt kinship with the Allies, they wanted no part in the carnage. Two years into war President Woodrow Wilson won re-election by pledging to keep out of the conflict. Yet by the spring of 1917-by which point millions had been killed for little apparent gain or purpose-the fervor to head "Over There" swept the country. America wanted in. The Path to War shows us how that happened. Entry into the war resulted from lengthy debate and soul-searching about national identity, as so-called "hyphenated citizens" of Irish and German heritage wrestled with what it meant to be American. Many hoped to keep to the moral high ground, condemning German aggression while withholding from the Allies active support, offering to mediate between the belligerents while keeping clear. Others, including the immensely popular former president Theodore Roosevelt, were convinced that war offered the country the only way to assume its rightful place in world affairs. Neiberg follows American reaction to such events as the sinking of the Lusitania, German terrorism, and the incriminating Zimmermann telegram, shedding light on the dilemmas and crises the country faced as it moved from ambivalence to belligerence. As we approach the centenary of the war, the effects of the pivot from peace to war still resonate, as Michael Neiberg's compelling book makes clear. The war transformed the United States into a financial powerhouse and global player, despite the reassertion of isolationism in the years that followed. Examining the social, political, and financial forces at work as well as the role of public opinion and popular culture, The Path to War offers both a compelling narrative and the inescapable conclusion that World War One was no parenthetical exception in the American story but a moment of national self-determination.
