**Uprooting Racism** Paul Kivel 2011-09-27

In 2008 the United States elected its first black president, and recent polls show that only twenty-two percent of white people in the United States believe that racism is a major societal problem. On the surface, it may seem to be in decline. However, the evidence of discrimination persists throughout our society. Segregation and inequalities in education, housing, health care, and the job market continue to be the norm. Post 9/11, increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color. Uprooting Racism offers a framework for understanding institutional racism. It

provides practical suggestions, tools, examples, and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice. Completely revised and updated, this expanded third edition directly engages the reader through questions, exercises, and suggestions for action, and takes a detailed look at current issues such as affirmative action, immigration, and health care. It also includes a wealth of information about specific cultural groups such as Muslims, people with mixed-heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latinos. Previous editions of Uprooting Racism have sold more than

fifty thousand copies. Accessible, personal, supportive, and practical, this book is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. Paul Kivel is an award-winning author and an accomplished trainer and speaker. He has been a social justice activist, a nationally and internationally recognized anti-racism educator, and an innovative leader in violence prevention for over forty years.

1 to 39 years. Each year in the United States, injury claims about 170,000 lives and results in over 30 million emergency room visits and 2.5 million hospitalizations. Injury is medically defined as organ/tissue damages inflicted upon oneself or by an external agent either accidentally or deliberately. Injury encompasses the undesirable consequences of a wide array of events, such as motor vehicle crashes, poisoning, burns, falls, and drowning, medical error, adverse effects of drugs, suicide and homicide. The past two decades have witnessed a remarkable growth in injury research, both in scope and in depth. To address the tremendous health burden of injury morbidity and mortality at the global level, the World Health Organization in 2000 created the Department of Injury and Violence Prevention, which has produced several influential reports on violence, traffic injury, and childhood

injury. The biennial World Conference on Injury Control and Safety Promotion attracts a large international audience and has been successfully convened nine times in different countries. In the United States, the National Center for Injury Prevention and Control became an independent program of the federal Centers for Disease Prevention and Control in 1997. Since then, each state health department has created an office in charge of injury prevention activities and over a dozen universities have established injury control research centers. This volume will fill an important gap in the scientific literature by providing a comprehensive and up-to-date reference resource to researchers, practitioners, and students working on different aspects of the injury problem and in different practice settings and academic fields.

Mindfulness is based on mindfulness-based cognitive therapy (MBCT). Co-developed by Professor Mark Williams of Oxford University, MBCT is recommended by the UK's National Institute for Health and Care Excellence and is as effective as drugs for preventing depression. But, equally, it works for the rest of us who aren't depressed but who are struggling to keep up with the relentless demands of the modern world. By investing just a few minutes each day, this classic guide to mindfulness will put you back in control of your life once again.

thought to be "domesticated" through thousands of years of sedentary, agrarian life. This way of life is believed to be the root of all environmental destruction and social injustice. Rewilding is the process of un-doing this domestication, and restoring healthy, biologically diverse communities. Using thoughtful, humorously cynical and at times angry prose, Urban Scout explores how the ideology of civilization clashes with the wild and wild peoples, and how thinking, feeling and most importantly living wild is the only way to reach true sustainability.

A magnificent job of presenting the hard evidence for what spiritual masters have been telling us for centuries.” — Wayne W. Dyer During the past few years science and medicine have been converging with common sense, confirming a widespread belief that everything—especially the mind and the body—is far more connected than traditional physics ever allowed. The Field establishes a new biological paradigm: it proves that our body extends

electromagnetically beyond ourselves and our physical body. It is within this field that we can find a remarkable new way of looking at health, sickness, memory, will, creativity, intuition, the soul, consciousness, and spirituality. The Field helps to bridge the gap that has opened up between mind and matter, between us and

the cosmos. Original, well researched, and well documented by distinguished sources, this is the mind/body book for a new millennium.

overcoming the lure of pornography and finally breaking free. This book is not about pornography. You won't find graphic depictions about the porn industry, the catastrophic effects it has on individuals and relationships, or how to think differently about porn. If you're reading this book, you probably have some understanding of those things already—the last thing you need is to be subjected to that kind of detail...again. Finally Free is about hope. It's about discovering the freeing power available to those who trust in Jesus Christ, who can, will, and does set people free from the power of pornography. Dr. Heath Lambert, a leader in the biblical counseling movement, has organized this book around eight clear and practical tactics you can wield to make it easier to flee lust and temptation and shelter in the protection of God's grace. Each chapter:

Clearly demonstrates how the gospel

applies to the fight against sexual temptation. Lays out relevant methods for leaning on Christ's strength—both in advance of and in moments of temptation. Explains how Jesus can move readers from a life of struggle to a life of purity. If you've struggled personally against the powerful draw of pornography, or if you've ever tried to help someone fighting this battle, you know how hard it is to break its bonds. But there is good news: no matter how intense or long-standing the struggle, Jesus Christ has the power to free people from the enslaving power of pornography. The Gospel has a power that works practically in the lives of those who seek to imitate Christ—and you can learn how to live into that power.

Signs, first published in 1970 in Montevideo, Uruguay, presages the atrocities that would come with dictatorship in 1972. The premonitory dimension is one of the striking characteristics in all the stories — a sense of impending catastrophe, sometimes hallucinatory and often graphic, leads us to undetermined places where the horrors of censorship, torture, and human bondage take place. At the same time, the stories expose the shackles that incapacitate us and deny us the acceptance of ourselves. This elegy for freedom mourns the loss of liberty and justice while seducing us into questioning what we hold true. The metaphorical procession of images, and the craftsmanship of a narrative that continually engage us, motivate us to explore our own uncertainties and values, and offer an unquestionable opportunity to reassess today's global conditions. the Council on Social Work Education's 2015 Educational Policy and Accreditation Standards, the book links theory to practice with clear, concise instruction including a discussion of evidence-based practice. Twelve commonly-used theories are thoroughly explained, with discussion of the strengths and limitations of each, and applied to real work with individuals, groups, families, communities, and organizations. The book includes case studies and first-person contributions from practicing social workers to illustrate the real-world scenarios in which different concepts apply. Critical thinking questions help students strengthen their understanding of the ideas presented. Tools including a test bank, PowerPoint slides, and an instructor's manual are available to facilitate classroom use, providing a single-volume guide to the entire helping process, from engagement to termination.
