Women and Media Carolyn M. Byerly 2008-04-15 Women and Media is a thoughtful cross-cultural examination of the ways in which women have worked inside and outside mainstream media organizations since the 1970s. Rooted in a series of interviews with women media workers and activists collected specifically for this book, the text provides an original insight into women's experiences. Explains the ways that women have organized their internal and external campaigns to improve media content (or working conditions) for women, and established womenowned media to gain a public voice. Identifies key issues and developments in feminist media critiques and interventions over the last 30 years, as these relate to production, representation and consumption. Functions as both a research case study and a teaching text.

The House of Islam Ed Husain 2018-06-19 "Ed Husain has become one of the most vital Muslim voices in the world. The House of Islam could very well be his magnum opus." - Reza Aslan, #1 New York Times bestselling author of Zealot "This should be compulsory reading." -Peter Frankopan, author of the international bestseller The Silk Roads Today, Islam is to many in the West an alien force, with Muslims held in suspicion. Failure to grasp the inner workings of religion and geopolitics has haunted American foreign policy for decades and has been decisive in the new administration's controversial orders. The intricacies and shadings must be understood by the West not only to build a stronger, more harmonious relationship between the two cultures, but also for greater accuracy in predictions as to how current crises, such as the growth of ISIS, will develop and from where the next might emerge. The House of Islam addresses key questions and points of disconnection. What are the roots of the conflict between Sunni and Shi'a Muslims that is engulfing Pakistan and the Middle East? Does the Koran encourage the killing of infidels? The book thoughtfully explores the events and issues that have come from and contributed to the broadening gulf between Islam and the West, from the United States' overthrow of Iran's first democratically elected leader to the emergence of ISIS, from the declaration of a fatwa on Salman Rushdie to the attack on the offices of Charlie Hebdo. Authoritative and engaging, Ed Husain leads us clearly and carefully through the nuances of Islam and its people, taking us back to basics to contend that the Muslim world need not be a stranger to the West, nor our enemy, but our peaceable allies.

New Religious Consciousness Charles Y. Glock 2018-10-23 Since the mid-1960s, new religious movements—some exotic, some homegrown—have burgeoned all over the United States. A sense of self-awareness and spiritual sensitivity have found expression in the lives of large numbers of people, especially among youth. Why would this happen? What do these movements teach, and what effect do they have on the future? How does religious consciousness relate to other manifestations of social change, such as communal living, group therapy, and radical politics? Beginning in 1971, an extensive research project was undertaken by a team of sociologists, historians, and theologians seeking answers to these questions. Through a combination of interviews and participant observations, they studied new religious and quasi-religious groups in the San Francisco Bay Area, a spawning ground for upwards of one hundred such movements. The New Religious Consciousness opens with reports on three Eastern-based movements: the Healthy, Happy, Holy Organization, Hare Krishna, and Divine Light (more popularly known by the name of its leader, Maharaj Ji). Three quasi-religious movements are then considered: the New Left, the Human Potential Movement (Esalen, EST, Scientology, etc.), and Synanon. Next, three movements having their roots in Western religious traditions are examined: the Christian World Liberation Front (an offshoot of the Jesus Movement), Catholic Charismatic Renewal, and the Church of Satan (whose members believe in witchcraft). Succeeding chapters are devoted to estimating the impact of these movements on established religions and the population at large and to the history of earlier periods of religious ferment in the United States. The book concludes with provocative essays by the editors in which they present separate and differing analyses of the sources, nature, and meaning of the new religious consciousness. A variety of perspectives are represented here: phenomenological, theological, experiential, sociological, and social psychological. The result is a book rich in insight about the nature of new religions. Taken together with a companion volume, Robert Wuthnow's The Consciousness Reformation, also published by University of California Press, The New Religious Consciousness provides the first comprehensive study of American countercultural belief systems. With contributions by: Randall H. Alfred Robert N. Bellah Charles Y. Glock Barbara Hargrove Donald Heinz Gregory Johnson Ralph Lane, Jr. Jeanne Messer Richard Ofshe Thomas Piazza Linda K. Pritchard Donald Stone Alan Tobey James Wolfe Robert Wuthnow This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1976.

Sayyid Qutb and the Origins of Radical Islamism John Calvert 2009-11-22 Sayyid Qutb (1906-1966) was an influential Egyptian ideologue credited with establishing the theoretical basis for radical Islamism in the post colonial Sunni Muslim world. Lacking a pure understanding of the leader's life and work, the popular media has conflated Qutb's moral purpose with the aims of bin Laden and al-Qaeda. He is often portrayed as a terrorist, Islamo-Fascist, and advocate of murder. This book rescues Qutb from misrepresentation, tracing the evolution of his thought within the context of his time. An expert on social protest and political resistance in the modern Middle East, as well as Egyptian nationalism, John Calvert recounts Qutb's life from the small village in which he was raised to his execution at the behest of Abd al-Nasser's regime. His study remains sensitive to the cultural, political, social, and economic circumstances that shaped Qutb's thought-major developments that composed one of the most eventful periods in Egyptian history. These years witnessed the full flush of Britain's tutelary regime, the advent of Egyptian nationalism, and the political hegemony of the Free Officers. Qutb rubbed shoulders with Taha Husayn, Naguib Mahfouz, and Abd al-Nasser himself, though his Islamism originally had little to do with religion. Only in response to his harrowing experience in prison did Qutb come to regard Islam and kufr (infidelity) as oppositional, antithetical, and therefore mutually exclusive. Calvert shows how

Qutb repackaged and reformulated the Islamic heritage to pose a challenge to authority, including those who claimed (falsely, he believed) to be Muslim.

Terrorism and Communication Jonathan Matusitz 2012-08-30 Based on the premise that terrorism is essentially a message, Terrorism and Communication: A Critical Introduction examines terrorism from a communication perspective—making it the first text to offer a complete picture of the role of communication in terrorist activity. Through the extensive examination of state-of-the-art research on terrorism as well as recent case studies and speech excerpts, communication and terrorism scholar Jonathan Matusitz explores the ways that terrorists communicate messages through actions and discourse. Using a multifaceted approach, he draws valuable insights from relevant disciplines, including mass communication, political communication, and visual communication, as he illustrates the key role that media outlets play in communicating terrorists' objectives and examines the role of global communication channels in both spreading and combating terrorism. This is an essential introduction to understanding what terrorism is, how it functions primarily through communication, how we talk about it, and how we prevent it.

The Many Faces of Political Islam Mohammed Ayoob 2009-12-21 Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern, Western-style democracy. Yet very few non-Muslims would be able to venture an accurate definition of political Islam. Mohammed Ayoob's The Many Faces of Political Islam thoroughly describes the myriad manifestations of this rising ideology and analyzes its impact on global relations. "In this beautifully crafted and utterly compelling book, Mohammed Ayoob accomplishes admirably the difficult task of offering a readily accessible yet nuanced and comprehensive analysis of an issue of enormous political importance. Both students and specialists will learn a great deal from this absolutely first-rate book." ---Peter J. Katzenstein, Walter S. Carpenter, Jr. Professor of International Studies and Stephen H. Weiss Presidential Teaching Fellow, Cornell University "Dr. Ayoob addresses the nuances and complexities of political Islam--be it mainstream, radical, or militant--and offers a road map of the pivotal players and issues that define the movement. There is no one as qualified as Mohammed Ayoob to write a synthesis of various manifestations of political Islam. His complex narrative highlights the changes and shifts that have taken place within the Islamist universe and their implications for internal Muslim politics and relations between the world of Islam and the Christian world." ---Fawaz A. Gerges, Carnegie Scholar, and holds the Christian A. Johnson Chair in International Affairs and Middle Eastern Studies, Sarah Lawrence College "Let's hope that many readers---not only academics but policymakers as well---will use this invaluable book." ---François Burgat, Director, French National Centre for Scientific Research (CNRS) and the Institute for Research and Study on the Arab and Muslim World (IREMAM), Aix-en-Provence, France "This is a wonderful, concise book by an accomplished and sophisticated political scientist who nonetheless manages to convey his interpretation of complex issues and movements to even those who have little background on the subject. It is impressive in its clarity, providing a badly needed text on political Islam that's accessible to college students and the general public alike." ---Shibley Telhami, Anwar Sadat Professor for Peace and Development, University of Maryland, and Senior Fellow, Brookings Institution Mohammed Ayoob is University Distinguished Professor of International Relations with a joint appointment in James Madison College and the Department of Political Science at Michigan State University. He is also Coordinator of the Muslim Studies Program at Michigan State University.

Princeton Readings in Islamist Thought Roxanne L. Euben 2021-06-08 The most authoritative anthology of Islamist texts This anthology of key primary texts provides an unmatched introduction to Islamist political thought from the early twentieth century to the present, and serves as an invaluable guide through the storm of polemic, fear, and confusion that swirls around Islamism today. Roxanne Euben and Muhammad Qasim Zaman gather a broad selection of texts from influential Islamist thinkers and place these figures and their writings in their multifaceted political and historical contexts. The selections presented here in English translation include writings of Ayatollah Khomeini, Usama bin Laden, Muslim Brotherhood founder Hasan al-Banna, and Moroccan Islamist leader Nadia Yassine, as well as the Hamas charter, an interview with a Taliban commander, and the final testament of 9/11 hijacker Muhammad Ata. Illuminating the content and political appeal of Islamist thought, this anthology brings into sharp relief the commonalities in Islamist arguments about gender, democracy, and violence, but it also reveals significant political and theological disagreements among thinkers too often grouped together and dismissed as extremists or terrorists. No other anthology better illustrates the diversity of Islamist thought, the complexity of its intellectual and political contexts, or the variety of ways in which it relates to other intellectual and religious trends in the contemporary Muslim world.

However, each volume is complete in itself. The book records accurately the answers the contributing Sheikhs and scholars gave to the questions put to them.

The Art of Islamic Banking and Finance Yahia Abdul-Rahman 2009-12-09 A detailed look at the fast-growing field of Islamic banking and finance The Art of Islamic Banking and Finance is a modern American take on what it means to incorporate Islamic finance principles into everyday banking and investment techniques by introducing a new brand of banking for all people of all faiths: The Riba-Free (RF) banking. The author is considered the father of RF (Islamic) banking in America. He has been a banker and an Imam/scholar for over 40 years in America since 1968. He started the tedious process with a finance company, LARIBA, in Pasadena, California in 1987. This is the first book ever in the field to trace the origins of prohibiting the renting of money at a price called interest rate and over-indulging in debt. The book reviews in great details the theological foundations of prohibiting interest in the Jewish Bible, the Christian Bible, and the Qur'aan. The author then discusses money and how fiat money is created, the role of the Federal Reserve, and the banking system in America. The book also discusses for the first time ever how to include an important aspect of RF (Islamic) finance using commodity indexation and marking the items to be financed to market in order to avoid participating in economic "bubbles." The author discusses how these rules work, how they affect consumer behavior, and how they change the role of the banker/financier. Covers a new pioneering model that is based on the Law (Shari'aa) and how it is applied in every transaction from joint ventures and portfolio management to home mortgages and personal financing Shows how to incorporate the Law (Shari'aa) into American financing and banking systems Points to RF (Islamic) finance and banking as a way to emphasize socially responsible investing The Art of Islamic Banking and Finance also includes a discussion on the emergence of a culture of RF (Islamic) banking and finance today, which is based on the real Judeo-Christian-Islamic spirit and very effective when compared to twentieth-century models that use financial engineering and structuring techniques to circumvent the Law (Shari'aa). The book also includes case studies based on the actual experience of the author and detailed analysis of the superior results realized by applying this new brand of banking to financing.

The Modern Middle East James L. Gelvin 2008 In the wake of 11 September 2001, there has been much talk about the inevitable clash between "East" and "West." This book presents an alternative approach to understanding the genealogy of contemporary events. By taking students and the general reader on a guided tour of the past five hundred years of Middle Eastern history, this book examines how the very forces associated with global "modernity" have shaped social, economic, cultural, and political life in the region. Beginning with the first glimmerings of the current international state and economic systems in the sixteenth century, The Modern Middle East: A History explores the impact of imperial and imperialist legacies, the great nineteenth-century transformation, cultural continuities and upheavals, international diplomacy, economic booms and busts, the emergence of authoritarian regimes, and the current challenges to those regimes on everyday life in an area of vital concern to us all. Engagingly written, drawing from the author's own research and other studies, and stocked with maps and photographs, original documents and an abundance of supplementary materials, The Modern Middle East: A History will provide both novices and specialists with fresh insights into the events that have shaped history and the debates about them that have absorbed historians.

Japanese New Religions in Global Perspective Peter B Clarke 2013-11-05 Since the 1960s virtually every part of the world has seen the arrival and establishment of Japanese new religious movements, a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas. Boko Haram: Islamism, Politics, Security, and the State in Nigeria Marc-Antoine Perouse De Montclos 2015-02-01 This book is the first attempt to understand Boko Haram in a comprehensive and consistent way. It examines the early history of the sect and its transformation into a radical armed group. It analyses the causes of the uprising against the Nigerian state and evaluates the consequences of the on-going conflict from a religious, social and political point of view. The book gives priority to authors conducting fieldwork in Nigeria and tackles the following issues: the extent to which Boko Haram can be considered the product of deprivation and marginalisation; the relationship of the sect with almajirai, Islamic schools, Sufi brotherhoods, Izala, and Christian churches; the role of security forces and political parties in the radicalisation of the sect; the competing discourses in international and domestic media coverage of the crisis; and the consequences of the militarisation of the conflict for the Nigerian government and the civilian population, Christian and Muslim. About the Editor: Marc-Antoine Perouse de Montclos is a Doctor in Political Science and a Professor at the French Institute of Geopolitics in the University of Paris 8. A specialist on armed conflicts in Africa south of the Sahara, he graduated from the Institut d'etudes politiques de Paris (IEP), where he teaches, and is a researcher at the Institut de recherche pour le developpement (IRD). He lived for several years in Nigeria, South Africa and Kenya. He has published some eighty articles and books, including *Le Nigeria* (1994), *Violence et securite urbaines* (1997), *L'aide humanitaire, aide a la guerre?* (2001), *Villes et violences en Afrique subsaharienne* (2002), *Diaspora et terrorisme* (2003), *Guerres d'aujourd'hui* (2007), *Etats faibles et securite privree en Afrique noire* (2008), *Les humanitaires dans la guerre* (2013), and *La tragedie malienne* (2013). The Muslim Brotherhood in Europe Roel Meijer 2012 Scholars have long debated the intentions of the Muslim Brotherhood in the Middle East. Some claim the organization supports terrorism, while others believe it is a positive force for democratization. Though the Muslim Brotherhood in Europe has attracted less attention, many feel they understand the group just as well. They assume it is closely tied to its Middle Eastern counterpart, with detractors regarding it to be a suspicious, secretive, and centrally-led organization increasing the alienation of Europe's Muslims. Sympathizers, on the other hand, see it as a moderate, westernized, and fully-integrated force for good. This volume complicates both these views, with experts providing richer and more impartial perspectives on the critical issues relating to Europe's Muslim Brotherhood. It follows the growth and operation of these organizations within different European contexts and captures their highly specific relationship with non-Muslim media and authority figures.

Globalization and the Media Terhi Rantanen 2019-01-24 Over the last forty years or so academic interest in 'globalization' has burgeoned, and, since the 1970s at least, attempts to define, analyse, and critically explain it have become vital areas of research and study across many disciplines. Moreover, if globalization is a defining phenomenon of our age, then it cannot begin to be understood without a close interrogation of the role of media and communications. Indeed, the complex relationship between macro and micro processes of globalization and the action of media and communications to create what the editor of this new Routledge collection describes as a 'mediated globalization' has, she argues, never been more significant. As serious academic work on and around globalization and the media continues to flourish as never before, this new title in Routledge's Critical Concepts in Media and Cultural Studies series meets the need for an authoritative reference work to make sense of a rapidly growing and ever more complex corpus of literature, and to provide a map of the area as it has emerged and developed. It is a landmark collection of foundational and the best cutting-edge scholarship in the field and is organized in four volumes. Edited by Terhi Rantanen, Professor of Global Media and Communications at the London School of Economics, Globalization and the Media is fully indexed and has a comprehensive introduction, newly written by the editor, which places the collected material in its historical and intellectual context. It is an essential work of reference and is destined to be valued by scholars and students as a vital one-stop research and pedagogic resource. ore complex corpus of literature, and to provide a map of the area as it has emerged and developed. The Killing of Osama Bin Laden Seymour M. Hersh 2016-04-12 Electrifying investigation of White House lies about the assassination of Osama bin Laden In 2011, an elite group of US Navy SEALs stormed an enclosure in the Pakistani city of Abbottabad and killed Osama bin Laden, the man the United States had begun chasing before the devastating attacks of 9/11. The news did much to boost President Obama's first term and played a major part in his reelection victory of the following year. But much of the story of that night, as presented to the world, was incomplete, or a lie. The evidence of what actually went on remains hidden. At the same time, the full story of the United States' involvement in the Syrian civil war has been kept behind a diplomatic curtain, concealed by doublespeak. It is a policy of obfuscation that has compelled the White House to turn a blind eye to Turkey's involvement in supporting ISIS and its predecessors in Syria. This investigation, which began as a series of essays in the London Review of Books, has ignited a firestorm of controversy in the world media. In his introduction, Hersh asks what will be the legacy of Obama's time in office. Was it an era of "change we can believe in" or a season of lies and compromises that continued George W. Bush's misconceived War on Terror? How did he lose the confidence of the general in charge of America's forces who acted in direct contradiction to the White House? What else do we not know?

God and Man in the Qur'an Toshihiko Izutsu 2002-01-01 This book might as well have been entitled in a more general way "Semantics of the Qur'an" but for the fact the main part of the present study is almost extensively concerned with the problem of the personal relation between God and man in the Qur'anic worldview. Coming from the pen of the first serious Asian scholar and a Japanese, this book is now available in a new improved edition.

Social Memory and History Jacob J. Climo 2002-10-23 In *Social Memory and History*, a group of anthropologists, sociologists, social linguists, gerontologists, and historians explore the ways in which memory reconstructs the past and constructs the present. A substantial introduction by the editors outlines the key issues in the understanding of social memory: its nature and process, its personal and political implications, the crisis in memory, and the relationship between social and individual memory. Ten cross-cultural case studies—groups ranging from Kiowa songsters, Burgundian farmers, elderly Philadelphian whites, Chilean political activists, American immigrants to Israel, and Irish working class women—then explore how social memory transmits culture or contests it at the individual, community, and national levels in both tangible and symbolic spheres.
