Fun and Games Anthony Dowson 2005 With more than 20 years of coaching and teaching experience, UK authors Anthony Dowson and Keith Morris have realized that children's encounters with sporting activities need to be creative, entertaining and fun. Children can be encouraged to engage in physical activity through fun games that stimulate both body and mind. Fun games keep children healthy and active now as well as contribute to a more positive attitude towards physical activity for life. In response to numerous requests from teachers and coaches, the authors have developed and adapted an array of activities and games from their own everyday use when teaching children. The book contains a range of warm-up ideas, games, skill practices and sport-specific activities to motivate children and encourage active participation. The games use only common sport equipment and are supported by easy-to-follow instructions and illustrations. Useful in both planning and providing physical education lessons and recreational experiences, this book makes it easy to create a varied and exciting program. The text includes more than 30 multi-sport games suitable for children of ages 5 to 16. There are sport-specific games for cricket, striking and fielding, rugby, soccer, tennis, badminton and hockey, as well as parachute games. All activities are designed to improve children's skills in specific sports through the use of enjoyable games to promote learning. Each game offers multiple variations designed to suit a wide range of ages and abilities. With childhood obesity becoming increasingly common, children's physical activity is becoming more important. These noncompetitive games - which focus on pure movement, rather than dance or music - stress excitement, humour, challenge, surprise and cooperation. Players just need enthusiasm and a willingness to explore activities with others. *Game On!* Linda Armstrong 2018-06-05 It appears the days of fun and games for young children have been replaced with apps and screen time. Electronic games promote individual play and connect young children to screens, not people. This book is a collection of screen-free, traditional games and activities for young children that require nothing more than people and their brains to play. All games and activities are adaptable according to the age of the children, their interests, and their abilities.

101 Drama Games for Children Paul Rooyackers 1998 Drama games are not staged plays but a dynamic form in which children explore their minds and the world around them. They can use their play-acting in sensory games, pantomimes, story games with puppets, in creating masks and costumes, and much more. Drama games allow children to get more in touch with themselves and what they want to be, and are a delightful way to discover the freedom, creativity, and expression of acting- and living. The SmartFunActivity series encourage imagination, social interaction, and self-expression in children. To make the books easy to use, games are marked according to appropriate age levels, length of play time, and group size, using helpful icons. Most games are non-competitive and none require special skills or training. The series is widely used in homes, schools, daycare centers, clubs, and summer camp.
