Ethnicity and Ethnic Conflict in the Post-Communist World B. Fowkes
2002-03-06 Ethnic and national conflicts have been an unexpected and major source of problems in many parts of the world in recent times. Nowhere more so than in the formerly communist countries. This book provides a readable introduction to, and brief analytical coverage of, all the ethnic disputes of the 1990s. Full justice is done both to complex present-day situations and the deeper roots of ethnic conflict. This is followed by a review and evaluation of the main available explanations. The book is required reading for anyone who wants to understand why the fall of communism did not introduce an era of goodwill between the

nations.

The Fortress Meša Selimović 1999 The Fortress is one of the most significant and fascinating novels to come out of the former Yugoslavia. Ahmet Shabo returns home to eighteenth-century Sarajevo from the war in Russia, numbed by the death in battle or suicide of nearly his entire military unit. In time he overcomes the anguish of war, only to find that he has emerged a reflective and contemplative man in a society that does not value, and will not tolerate, the subversive implications of these qualities.

Nation, Language, and the Ethics of Translation Sandra Bermann

2005-07-25 In recent years, scholarship on translation has moved well

beyond the technicalities of converting one language into another and beyond conventional translation theory. With new technologies blurring distinctions between "the original" and its reproductions, and with globalization redefining national and cultural boundaries, "translation" is now emerging as a reformulated subject of lively, interdisciplinary debate. *Nation, Language, and the Ethics of Translation* enters the heart of this debate. It covers an exceptional range of topics, from simultaneous translation to legal theory, from the language of exile to the language of new nations, from the press to the cinema; and cultures and languages from contemporary Bengal to ancient Japan, from translations of Homer to the work of Don DeLillo. All twenty-two essays, by leading voices including Gayatri Spivak and the late Edward Said, are provocative and persuasive. The book's four sections--"Translation as Medium and across Media," "The Ethics of Translation," "Translation and Difference," and "Beyond the Nation"--together provide a comprehensive view of current thinking on nationality and translation, one that will be widely consulted for years to come. The contributors are Jonathan E. Abel, Emily Apter, Sandra Bermann, Vilashini Cooppan, Stanley Corngold, David Damrosch, Robert Eaglestone, Stathis Gourgouris, Pierre Legrand, Jacques Lezra, Françoise Lionnet, Sylvia Molloy, Yopie Prins, Edward Said, Azade Seyhan, Gayatri Chakravorty Spivak, Henry Staten, Lawrence Venuti, Lynn Visson, Gauri Viswanathan, Samuel Weber, and Michael Wood.

Tristano Nanni Balestrini 2014-02-11 This book is unique as no other novel can claim to be: one of 109,027,350,432,000 possible variations of the same work of fiction. Inspired by the legend of Tristan and Isolde, *Tristano* was first published in 1966 in Italian. But only recently has digital technology made it possible to realise the author's original vision. The novel comprises ten chapters, and the fifteen pairs of paragraphs in each of these are shuffled anew for each published copy. No two versions are the same. The random variations between copies enact the variegations of the human heart, as exemplified by the lovers at the centre of the story. The copies of the English translation of *Tristano* are individually numbered, starting from 10,000 (running sequentially from the Italian and German editions). Included is a foreword by Umberto Eco explaining how Balestrini's experiment with the physical medium of the novel demonstrates 'that originality and creativity are nothing more than the chance handling of a combination'.

The Invention of the Jewish People Shlomo Sand 2020-08-04 A historical tour de force that demolishes the myths and taboos that have surrounded Jewish and Israeli history, *The Invention of the Jewish People* offers a new account of both that demands to be read and reckoned with. Was there really a forced exile in the first century, at the hands of the Romans? Should we regard the Jewish people, throughout two millennia, as both a distinct ethnic group and a putative nation—returned at last to its Biblical homeland? Shlomo Sand argues that most Jews actually descend from converts, whose native lands were scattered far across the Middle East and Eastern Europe. The formation of a Jewish people and then a Jewish nation out of these disparate groups could only take place under the sway of a new historiography, developing in response to the rise of nationalism throughout Europe. Beneath the biblical back fill of the nineteenth-century historians, and the twentieth-century intellectuals who replaced rabbis as the architects of Jewish identity, *The Invention of the Jewish People* uncovers a new narrative of Israel's formation, and proposes a bold analysis of nationalism that accounts for the old myths. After a long stay on Israel's bestseller list, and winning the coveted Aujourd'hui Award in France, *The Invention of the Jewish People* is finally available in English. The central importance of the conflict in the Middle East ensures that Sand's arguments will reverberate well beyond the historians and politicians that he takes to task. Without an adequate understanding of Israel's past, capable of superseding today's opposing views, diplomatic solutions are likely to remain elusive. In this iconoclastic work of history, Shlomo Sand provides the intellectual foundations for a new vision of Israel's future.

Literary Visualities Ronja Bodola 2017-06-26 This book challenges the focus on pictoriality as central constituent of visual culture from the perspective of literary studies, which in the wake of an 'intermedial turn' so far focused on the ways texts relate to pictures and visual media either in praesentia (e.g. word and image studies) or in absentia (e.g. ekphrasis). Instead, it emphasizes literature's participation in visual culture at large and focuses on three areas of investigation: (1) the depiction of, for instance, visual perceptions in the literary mode of description, which is paramount to formatting the mental aspect of visual culture; (2) the readerly practice of visualising situations and events of the fictional world, which mediates between those mentefacts and

techniques of writing; (3) textual visibilities which are grounded in materiality. The volume explores these three areas from a systematically integrated perspective and the essays include in-depth treatments of seminal examples taken from Western literatures (primarily English and German, but also French and American literature) from early modern times to the present. This book's aim is to work out literature's active role in shaping visual culture, thus demonstrating its relevance for "image studies".

Law of Desire Shahla Haeri 2014-10-21 As an Iranian Muslim woman and a granddaughter of a well-known ayatollah, Shahla Haeri was accepted into the communities where she conducted her fieldwork on mut'a, temporary marriage. Mut'a is legally sanctioned among the Twelver Shi'ites who live predominantly in Iran. Drawing on rich interviews that would have been denied a Western anthropologist, the author describes the concept of a temporary-marriage contract, in which a man and an unmarried woman (virgin, widow, or divorcee) decide how long they want to stay married to each other (from one hour to ninety-nine years) and how much money is to be given to the temporary wife. Since the Iranian revolution of 1979, the regime has conducted an intensive campaign to revitalize this form of marriage, and Shi'i ulama (religious scholars) support it as positive, self-affirming, and cognizant of human needs. Challenged by secularly educated urban Iranian women, and men and by the West, the ulama have been called upon to address themselves to the implications of this custom for modern Iranian society, to respond to the changes that mut'a is legally equivalent to hire or lease, that it is abusive of women, and that it is in fact legalized prostitution. *Law of Desire* thus makes available previously untapped and undocumented data about an institution in which sexuality, morality, religious rules, secular laws, and cultural practices converge. This important work will be of interest to cultural anthropologist, religious scholars, scholars of the Middle East, and lawyers as well as to those interested in the role of women in Islamic society.

Who Walk in Darkness Chandler Brossard 2015-06-09 Considered by many to be the first Beat novel, this underground classic follows a clique of young bohemians from dive bar to dance hall in 1940s New York. Recently fired from his job and not yet ready to find a new one, aspiring author Blake Williams begins his evenings at the Sporting Club Bar in Greenwich Village, where he knows he will find Henry Porter. An ambitious and manipulative writer rumored to be "passing" for white, Henry has a cold-hearted charisma that is both irresistible and infuriating to his friends. While sipping beers delivered by the bar's surly Italian waiter, Henry and Blake discuss their plans for the night: a trip uptown to dance to the strains of a Puerto Rican orchestra, perhaps, or a prize fight at Madison Square Garden, or maybe a party in a dim and crowded apartment on Prince Street, reefer smoke clouding the air. The possibilities are endless—until the money runs out. Originally published in 1952, *Who Walk in Darkness* was one of the most controversial novels of midcentury America. Its cast of hip young men and women—from the unforgettable antihero Henry Porter to Harry Lee, a talented but heavy-drinking novelist going through a period of grave self-doubt—were based on well-known figures of the era. Their existential crises are portrayed with an honesty that shocked the publishing establishment and helped give rise to one of the most significant literary movements in American history. As relevant today as it was more than half a century ago, *Who Walk in Darkness* is the masterwork of an author far ahead of his time and a captivating character study whose influence can be felt in novels as wide-ranging as Jack Kerouac's *On the Road* and Philip Roth's *The Human Stain*.

A Dictionary of Maqiao Han Shaogong 2005-09-27 From the daring imagination of one of China's greatest living novelists comes a work of startling power and originality—the story of a young man "displaced" to a small village in rural China during the 1960s. Told in the format of a dictionary, with a series of vignettes disguised as entries, *A Dictionary of Maqiao* is a novel of bold invention—and a fascinating, comic, deeply moving journey through the dark heart of the Cultural Revolution. Entries trace the wisdom and absurdities of Maqiao: the petty squabbles, family grudges, poverty, infidelities, fantasies, lunatics, bullies, superstitions, and especially the odd logic in their use of language—where the word for "beginning" is the same as the word for "end"; "little big brother" means older sister; to be "scientific" means to be lazy; and "streetsickness" is a disease afflicting villagers visiting urban areas. Filled with colorful characters—from a weeping ox to a man so poisonous that snakes die when they bite him—*A Dictionary of Maqiao* is both an important work of Chinese literature and a probing inquiry into the extraordinary power of language.

Bats of the Republic Zachary Thomas Dodson 2015-10-06 "Archetypes of the cowboy story, tropes drawn from sci-fi, love letters, diaries, confessions all abound in this relentlessly engaging tale. Dodson has quite brilliantly exposed the gears and cogs whirring in the novelist's imagination. It is a mad and beautiful thing." --Keith Donohue, The Washington Post Winner of Best of Region for the Southwest in PRINT's 2016 Regional Design Awards *Bats of the Republic* is an illuminated novel of adventure, featuring hand-drawn maps and natural history illustrations, subversive pamphlets and science-fictional diagrams, and even a nineteenth-century novel-within-a-novel—an intrigue wrapped in innovative design. In 1843, fragile naturalist Zadock Thomas must leave his beloved in Chicago to deliver a secret letter to an infamous general on the front lines of the war over Texas. The fate of the volatile republic, along with Zadock's future, depends on his mission. When a cloud of bats leads him off the trail, he happens upon something impossible... Three hundred years later, the world has collapsed and the remnants of humanity cling to a strange society of paranoia. Zeke Thomas has inherited a sealed envelope from his grandfather, an esteemed senator. When that letter goes missing, Zeke engages a fomenting rebellion that could free him—if it doesn't destroy his relationship, his family legacy, and the entire republic first. As their stories overlap and history itself begins to unravel, a war in time erupts between a lost civilization, a forgotten future, and the chaos of the wild. *Bats of the Republic* is a masterful novel of adventure and science fiction, of elliptical history and dystopian struggle, and, at its riveting core, of love.

The Jews of Khazaria Kevin Alan Brook 2006-09-27 The Jews of Khazaria chronicles the history of the Khazars, a people who, in the early Middle Ages, founded a large empire in eastern Europe (located in present-day Ukraine and Russia). The Khazars played a pivotal role in world history. Khazaria was one of the largest-sized political formations of its time, an economic and cultural superpower connected to several important trade routes. It was especially notable for its religious tolerance, and in the 9th century, a large portion of the royal family converted to Judaism. Many of the nobles and commoners did likewise shortly thereafter. After their conversion, the Khazars were ruled by a succession of Jewish kings that began to adopt the hallmarks of Jewish civilization, including the Torah and Talmud, the Hebrew script, and the observance of Jewish holidays. In this thoroughly revised edition of a modern classic, *The Jews of Khazaria* explores many exciting new discoveries about the Khazars' religious life, economy, military, government, and culture. It builds upon new studies of the Khazars, evaluating and incorporating recent theories, along with new documentary and archaeological findings. The book gives a comprehensive accounting of the cities, towns, and fortresses of Khazaria, and features a timeline summarizing key events in Khazar history.

Alphabetical Africa Walter Abish 1974 "Walter Abish has dovetailed his novel within a Procrustean scheme that has the terrifying and irrefutable logic of the alphabet. *Alphabetical Africa* is in the line of writers such as Raymond Roussel, Raymond Queneau, Georges Perec and Harry Mathews, who have used constrictive forms to penetrate the space on the other side of poetry." -- John Ashbery

The Printed Book in Contemporary American Culture Heike Schaefer 2019-08-28 This essay collection explores the cultural functions the printed book performs in the digital age. It examines how the use of and attitude toward the book form have changed in light of the digital transformation of American media culture. Situated at the crossroads of American studies, literary studies, book studies, and media studies, these essays show that a sustained focus on the medial and material formats of literary communication significantly expands our accustomed ways of doing cultural studies. Addressing the changing roles of authors, publishers, and readers while covering multiple bookish formats such as artists' books, bestselling novels, experimental fiction, and zines, this

Dictionary of the Khazars (M) Milorad Pavic 1989-10-23 A national bestseller, *Dictionary of the Khazars* was cited by The New York Times Book Review as one of the best books of the year. Written in two versions, male and female (both available in Vintage International), which are identical save for seventeen crucial lines, *Dictionary* is the imaginary book of knowledge of the Khazars, a people who flourished somewhere beyond Transylvania between the seventh and ninth centuries. Eschewing conventional narrative and plot, this lexicon novel combines the dictionaries of the world's three major religions with entries that leap between past and future, featuring three unruly wise men, a book printed in poison ink, suicide by mirrors, a chimerical princess, a sect of priests who can infiltrate one's dreams, romances between the living and the dead, and much more.

Expressive Processing Noah Wardrip-Fruin 2012-02-10 From the complex city-planning game *SimCity* to the virtual therapist *Eliza*: how computational processes open possibilities for understanding and creating digital media. What matters in understanding digital media? Is looking at the external appearance and audience experience of software enough—or should we look further? In *Expressive Processing*, Noah Wardrip-Fruin argues that understanding what goes on beneath the surface, the computational processes that make digital media function, is essential. Wardrip-Fruin looks at "expressive processing" by examining specific works of digital media ranging from the simulated therapist *Eliza* to the complex city-planning game *SimCity*. Digital media, he contends, offer particularly intelligible examples of things we need to understand about software in general; if we understand, for instance, the capabilities and histories of artificial intelligence techniques in the context of a computer game, we can use that understanding to judge the use of similar techniques in such higher-stakes social contexts as surveillance. *The Search for the Mythical State of Innocence* Ivan Cvetanovic, Ph.d. 2006-06-25

The Inner Side of the Wind, Or The Novel of Hero and Leander Milorad Pavić 1993 From the author of the international phenomenon *Dictionary of the Khazars* comes his most personal and intimate work to date. This novel parallels the myth of *Hero and Leander*, telling of two lovers in Belgrade, one from the turn of the 18th century, the other from early in the 20th, who reach out to each other across the gulf of time.

Caviar Inga Saffron 2002-10-08 In the tradition of *Cod and Olives*: a fascinating journey into the hidden history, culture, and commerce of caviar. Once merely a substitute for meat during religious fasts, today caviar is an icon of luxury and wealth. In *Caviar*, Inga Saffron tells, for the first time, the story of how the virgin eggs of the prehistoric-looking, bottom-feeding sturgeon were transformed from a humble peasant food into a czar's delicacy—and ultimately a coveted status symbol for a rising middle class. She explores how the glistening black eggs became the epitome of culinary extravagance, while taking us on a revealing excursion into the murky world of caviar on the banks of the Volga River and Caspian Sea in Russia, the Elbe in Europe, and the Hudson and Delaware Rivers in the United States. At the same time, Saffron describes the complex industry caviar has spawned, illustrating the unfortunate consequences of mass marketing such a rare commodity. The story of caviar has long been one of conflict, crisis, extravagant claims, and colorful characters, such as the Greek sea captain who first discovered the secret method of transporting the perishable delicacy to Europe, the canny German businessmen who encountered a wealth of untapped sturgeon in American waters, the Russian Communists who created a sophisticated cartel to market caviar to an affluent Western clientele, the dirt-poor poachers who eked out a living from sturgeon in the aftermath of the Soviet collapse and the "caviar Mafia" that has risen in their wake, and the committed scientists who sacrificed their careers to keep caviar on our tables. Filled with lore and intrigue, *Caviar* is a captivating work of culinary, natural, and cultural history.

Landscape Painted with Tea Milorad Pavic 1991-10-01 By the author of the highly acclaimed literary bestseller *Dictionary of the Khazars*, this is a tale of a mysterious quest that is part modern *Odyssey* and part crossword puzzle. It begins with the story of a brilliant but failed architect in Belgrade and his search for his father, an officer who vanished in Greece during World War II. The truth about his fate—some

of it set in motion 2,000 years ago and some of it by the Nazis—is raveled in the history and secrets of Mount Athos, the most ancient of all monasteries, perched atop its inaccessible mountain on the Aegean. “A hugely ambitious, playful, inventive, demanding, magical, linguistically sensuous reading experience.”—The Washington Post “A brilliantly playful and haunting novel.”—The New York Times Book Review
Comparing the Literatures David Damrosch 2020-04-07 “The discipline of comparative literature has long sought to develop effective theories and methods of broad-based study, but ideas based on national canons in a handful of Western European countries no longer seem adequate even for the study of national literatures themselves. Comparing the Literatures integrates comparative, postcolonial, and world-literary perspectives and seeks common ground. Looking both at institutional forces and at key episodes in the life and work of comparatists who have struggled to define and to redefine the fundamental terms of literary analysis, from language to literature to theory to comparison itself, Damrosch offers a comprehensive overview of the history and current prospects of comparative studies in a globalizing world”--

Astounding Alec Nevala-Lee 2018-10-23 Hugo and Locus Award Finalist An Economist Best Book of the Year A Milwaukee Journal Sentinel Best Book of 2018 “An amazing and engrossing history...Insightful, entertaining, and compulsively readable.” — George R. R. Martin
 Astounding is the landmark account of the extraordinary partnership between four controversial writers—John W. Campbell, Isaac Asimov, Robert A. Heinlein, and L. Ron Hubbard—who set off a revolution in science fiction and forever changed our world. This remarkable cultural narrative centers on the figure of John W. Campbell, Jr., whom Asimov called “the most powerful force in science fiction ever.” Campbell, who has never been the subject of a biography until now, was both a visionary author—he wrote the story that was later filmed as *The Thing*—and the editor of the groundbreaking magazine best known as *Astounding Science Fiction*, in which he discovered countless legendary writers and published classic works ranging from the *I, Robot* series to *Dune*. Over a period of more than thirty years, from the rise of the pulps to the debut of *Star Trek*, he dominated the genre, and his three closest collaborators reached unimaginable heights. Asimov became the most prolific author in American history; Heinlein emerged as the leading science fiction writer of his generation with the novels *Starship Troopers* and *Stranger in a Strange Land*; and Hubbard achieved lasting fame—and infamy—as the founder of the Church of Scientology. Drawing on unexplored archives, thousands of unpublished letters, and dozens of interviews, Alec Nevala-Lee offers a riveting portrait of this circle of authors, their work, and their tumultuous private lives. With unprecedented scope, drama, and detail, *Astounding* describes how fan culture was born in the depths of the Great Depression; follows these four friends and rivals through World War II and the dawn of the atomic era; and honors such exceptional women as Doña Campbell and Leslyn Heinlein, whose pivotal roles in the history of the genre have gone largely unacknowledged. For the first time, it reveals the startling extent of Campbell’s influence on the ideas that evolved into Scientology, which prompted Asimov to observe: “I knew Campbell and I knew Hubbard, and no movement can have two Messiahs.” It looks unsparingly at the tragic final act that estranged the others from Campbell, bringing the golden age of science fiction to a close, and it illuminates how their complicated legacy continues to shape the imaginations of millions and our vision of the future itself. “Enthralling...A clarion call to enlarge American literary history.” — Washington Post “Engrossing, well-researched... This sure-footed history addresses important issues, such as the lack of racial diversity and gender parity for much of the genre’s history.” — Wall Street Journal “A gift to science fiction fans everywhere.” — Sylvia Nasar, New York Times bestselling author of *A Beautiful Mind*

The Manuscript Found in Saragossa Jan Potocki 1996-09 Alphonse, a young Walloon officer, is travelling to join his regiment in Madrid in 1739. But he soon finds himself mysteriously detained at a highway inn in the strange and varied company of thieves, brigands, cabbalists, noblemen, coquettes and gypsies, whose stories he records over sixty-six days. The resulting manuscript is discovered some forty years later in a sealed casket, from which tales of characters transformed through disguise, magic and illusion, of honour and cowardice, of hauntings and seductions, leap forth to create a vibrant polyphony of human voices. Jan Potocki (1761-1812) used a range of literary styles - gothic, picaresque, adventure, pastoral, erotica - in his novel of stories-within-stories, which, like the *Decameron* and *Tales from the Thousand and One Nights*, provides entertainment on an epic scale.

The persons who perceive these narratives are not simply readers or spectators but active agents with a range of choices at their disposal that will influence the very narrative they are experiencing: they are players. The narratives thus created are realizations of the multiple possibilities contained in the present of any given gameplay situation. Surveying the latest trends in the field, the volume discusses the complex relationship of narrative and gameplay.

The Unfortunates B S Johnson 2023-06-29 A sports journalist, sent to a Midlands town on a weekly assignment, finds himself confronted by ghosts from the past when he disembarks at the railway station. Memories of one of his best, most trusted friends, a tragically young victim of cancer, begin to flood through his mind as he attempts to go about the routine business of reporting a football match. B S Johnson’s famous ‘book in a box’, in which the chapters are presented unbound, to be read in any order the reader chooses, is one of the key works of a novelist now undergoing an enormous revival of interest. *The Unfortunates* is a book of passionate honesty and dark, courageous humour: a meditation on death and a celebration of friendship which also offers a remarkably frank self-portrait of its author.

Last Love in Constantinople Milorad Pavić 1998 In 1988 Milorad Pavić burst upon the literary scene with his critically acclaimed, international best seller, *Dictionary of the Khazars*. In it he asked his readers to experience his book in a new and exciting way, as he challenged their traditional concepts of the reading process. In his next two novels, *Landscape Painted With Tea* and *The Inner Side of the Wind*, he continued to challenge as he joined a modern *Odyssey* with a crossword puzzle, and then he told the same tale of two lovers from two perspectives -- male and female -- and asked us to read it from either front or back. His new novel, *Last Love in Constantinople*, does not disappoint, as Pavić once again demonstrates himself to be a master of

Unlanguage Michael Cisco 2018-04 From Michael Cisco, one of the most innovative and subversive writers working today, comes the long-awaited, ground-breaking novel of a suicide survivor trying in vain to write himself back into existence. *Unlanguage* is the story of a man transformed by death and by language change. The language, once understood, transforms him, and transforms learning itself. One day, he looks down at the hand resting on his thigh and sees that it's just an ordinary hand. What had been composed of colored light made solid goes back to being meat and blood. His body reverts to the ordinary sloshing heaviness of a regular body. The exalted vision of his eyes becomes the filmy, blurred vision of the usual kind. He slumps back into his former self. Whirlwinds of shame close on him. With a violent, monkey-like energy he wracks his brains for a way back. Then it occurs to him, he can still write that language. He must write his way back. Told as a structural guide to impossible grammar, Michael Cisco's *Unlanguage* is a brilliant, thought-provoking novel that not only pushes the boundaries of literature but of language itself.

Writing Machines N. Katherine Hayles 2002 Tracing a journey from the 1950s through the 1990s, N. Katherine Hayles uses the autobiographical persona of Kaye to explore how literature has transformed itself from inscriptions rendered as the flat durable marks of print to the dynamic images of CRT screens, from verbal text to the diverse sensory modalities of multimedia works, from books to technotexts. Weaving together Kaye's pseudo-autobiographical narrative with a theorization of contemporary literature in media-specific terms, Hayles examines the ways in which literary texts in every genre and period mutate as they are reconceived and rewritten for electronic formats. As electronic documents become more pervasive, print appears not as the sea in which we swim, transparent because we are so accustomed to its conventions, but rather as a medium with its own assumptions, specificities, and inscription practices. Hayles explores works that focus on the very

inscription technologies that produce them, examining three writing machines in depth: Talan Memmott's groundbreaking electronic work *Lexia to Perplexia*, Mark Z. Danielewski's cult postprint novel *House of Leaves*, and Tom Phillips's artist's book *A Humument*. Hayles concludes by speculating on how technotexts affect the development of contemporary subjectivity. *Writing Machines* is the second volume in the *Media Work Pamphlets* series.

Doomi Golo—The Hidden Notebooks Boubacar Boris Diop 2016-11-01 The first novel to be translated from Wolof to English, *Doomi Golo—The Hidden Notebooks* is a masterful work that conveys the story of Nguirane Faye and his attempts to communicate with his grandson before he dies. With a narrative structure that beautifully imitates the movements of a musical piece, Diop relates Faye's trauma of losing his only son, Assane Tall, which is compounded by his grandson Badou's migration to an unknown destination. While Faye feels certain that his grandson will return one day, he also is convinced that he will no longer be alive by then. Faye spends his days sitting under a mango tree in the courtyard of his home, reminiscing and observing his surroundings. He speaks to Badou through his seven notebooks, six of which are revealed to the reader, while the seventh, the "Book of Secrets," is highly confidential and reserved for Badou's eyes only. In the absence of letters from Badou, the notebooks form the only possible means of communication between the two, carrying within them tunes and repetitions that give this novel its unusual shape: loose and meandering on the one hand, coherent and tightly interwoven on the other. Translated by Vera Wülfing-Leckie and El Hadji Moustapha Diop.

The Man of Feeling Javier Marías 2014-10-07 A story of love and memory. On a train journey from Paris to Madrid a young opera singer becomes fascinated by those in his compartment: a middle-aged businessman, his alluring wife and their male traveling companion. Soon his life of constant travel, luxury hotels, rehearsal and performance will become entangled with these three people, and the singer will find himself fatefully consumed by Natalia's beauty. *The Man of Feeling* is the haunting story of the birth and death of a passion, told in retrospect. Intricately interweaving desire and memory, it explores the nature of love, and asks whether we can ever truly recall something that no longer exists.
