**Ione** Euripides 1948

**Staging 'Euridice'** Tim Carter 2021-12-02 Newly-discovered evidence underpins this comprehensive account of the creation and staging of the earliest surviving 'opera', Euridice.

**La dotta lira** Paolo Isotta 2018-10-18T00:00:00+02:00 Ovidio morì duemila anni fa relegato da Augusto sul Mar Nero. Non riuscì mai a comprenderne il perché. Forse Le Metamorfosi, il suo più ampio poema, spaventarono il

Principe: ispirato com'è all'idea, modernissima, che nulla nell'universo è stabile, ma tutto dall'eternità muta e muterà. La materia incessantemente si trasforma, non è stata creata e non si distrugge. Gli dèi divengono uomini, gli uomini dèi, oppure animali, piante, aria, acqua: fiumi, laghi. Il poema è insieme il più grande racconto del mito, di tutti i miti, che la letteratura abbia mai tentato. Nessun poeta, nemmeno Omero e Virgilio, ha tanto ispirato la pittura e la scultura. Ma la dotta lira ha creato musica, da Poliziano a Strauss, attraverso Monteverdi, Cavalli, Scarlatti, Bach, Händel, Pergolesi, Porpora, Dittersdorf, Haydn, Cherubini, Clementi, Berlioz, Liszt, Offenbach, Massenet, e tanti altri, più di ogni altra voce poetica: voce poi echeggiata e variata per l'ultima volta nel Novecento dall'arte di D'Annunzio. Il teatro musicale nasce nel nome di Ovidio, e nei secoli Opere, Drammi Musicali, Cantate, Sinfonie e Concerti traggono alimento dalla sua poesia; poi, dai grandi ritratti di donne eroiche, innamorate, fedeli, infedeli, abbandonate presenti nelle Metamorfosi e, con i loro Lamenti, nelle Eroidi; dalle favole del calendario pagano nel poema dei Fasti. Apollo, Dafne, Orfeo, Euridice, Arianna, Medea, Teseo, Giunone, Giove, Dioniso, Venere, Amore, Mercurio, Cibele, Latona, Diana, Morfeo, Persefone, Plutone, Pan, Ercole, Fetonte, Atteone, Ie Baccanti, Perseo, Galatea, Polifemo, Fedra, il Minotauro, Icaro, Glauco, Pigmalione, Danae, Semele, Marsia, Ulisse, sempre rinascono in note. Con loro le favole del Caos, della Notte, degli Inferi, dell'Olimpo, dell'origine dell'universo, del diluvio.

Questo libro racconta il mito nella metamorfosi della musica.

**The History of Money** Jack Weatherford 2009-09-23 “If you’re interested in the revolutionary transformation of the meaning and use of money, this is the book to read!”—Charles R. Schwab Cultural anthropologist Jack Weatherford traces our relationship with money, from primitive man’s cowrie shells to the electronic cash card, from the markets of Timbuktu to the New York Stock Exchange. The History of Money explores how money and the myriad forms of exchange have affected humanity, and how they will continue to shape all aspects of our lives—economic, political, and personal. “A fascinating book about the force that makes the world go round—the dollars, pounds, francs, marks, bahts, ringits, kwansas, levs, biplwelles, yuans, quetzales, pa’angas, ngultrums, ouguiyas, and other 200-odd brand names that collectively make up the mysterious thing we call money.”—Los Angeles Times

**Roman Mosaics in the J. Paul Getty Museum** Alexis Belis 2016-05-01 The mosaics in the collection of the J. Paul Getty Museum span the second through the sixth centuries AD and reveal the diversity of compositions found throughout the Roman Empire during this period. Elaborate floors of stone and glass tesserae transformed private dwellings and public buildings alike into spectacular settings of vibrant color, figural imagery, and geometric design. Scenes from mythology, nature, daily life, and spectacles in the arena enlivened interior spaces and reflected the cultural ambitions of wealthy patrons. This online catalogue documents all of the mosaics in the Getty Museum’s collection, presenting their artistry in new color photography as well as the contexts of their discovery and excavation across Rome’s expanding empire—from its center in Italy to provinces in southern Gaul, North Africa, and ancient Syria. The free online edition of this open-access catalogue, available at [www.getty.edu/publications/romanmosaics/](http://www.getty.edu/publications/romanmosaics/), includes zoomable high-resolution photography, embedded glossary terms and additional comparative images, and interactive maps drawn from the Digital Atlas of the Roman Empire. Also available are free PDF, EPUB, and Kindle/MOBI downloads of the book, CSV and JSON downloads of the object data from the catalogue, and JPG and PPT downloads of the main catalogue images.

*Ancient Terracottas from South Italy and Sicily in the J. Paul Getty Museum* Maria Lucia Ferruzza 2016-01-25 In the ancient world, terracotta sculpture was ubiquitous. Readily available and economical—unlike stone suitable for carving—clay allowed artisans to craft figures of remarkable variety and expressiveness. Terracottas from South Italy and Sicily attest to the prolific coroplastic workshops that supplied sacred and decorative images for sanctuaries, settlements, and cemeteries. Sixty terracottas are investigated here by noted scholar Maria Lucia Ferruzza, comprising a selection of significant types from the Getty’s larger collection—life-size sculptures, statuettes, heads and busts, altars, and decorative appliqués. In addition to the comprehensive catalogue entries, the publication includes a guide to the full collection of over one thousand other figurines and molds from the region by Getty curator of antiquities Claire L. Lyons. Reflecting the Getty’s commitment to open content, Ancient Terracottas from South Italy and Sicily in the J. Paul Getty Museum is available online at [www.getty.edu/publications/terracottas](http://www.getty.edu/publications/terracottas) and may be downloaded free of charge in multiple formats. For readers who wish to have a bound reference copy, this paperback edition has been made available for sale.

**Il principato di Apollo** Maria José Strazzulla 1990

**Apollo** Margherita Guarducci 1963

**Opera** Marco Girolamo Vida 1547

**A Companion to Ancient Greek and Roman Music** Tosca A. C. Lynch 2020-07-08 A COMPANION TO ANCIENT GREEK AND ROMAN MUSIC A comprehensive guide to music in Classical Antiquity and beyond Drawing on the latest research on the topic, A Companion to Ancient Greek and Roman Music provides a detailed overview of the most important issues raised by the study of ancient Greek and Roman music. An international panel of contributors, including leading experts as well as emerging voices in the field, examine the ancient 'Art of the Muses' from a wide range of methodological, theoretical, and practical perspectives. Written in an engaging and accessible style, this book explores the pervasive presence of the performing arts in ancient Greek and Roman culture—ranging from musical mythology to music theory and education, as well as archaeology and the practicalities of performances in private and public contexts. But this Companion also explores the broader roles played by music in the Graeco-Roman world, examining philosophical, psychological, medical and political uses of music in antiquity, and aspects of its cultural heritage in Mediaeval and Modern times. This book debunks common myths about Greek and Roman music, casting light on yet unanswered questions thanks to newly discovered evidence. Each chapter includes a discussion of the tools or methodologies that are most appropriate to address different topics, as well as detailed case studies illustrating their effectiveness. This book Offers new research insights that will contribute to the future developments of the field, outlining new interdisciplinary approaches to investigate the importance of performing arts in the ancient world and its reception in modern culture Traces the history and development of ancient Greek and Roman music, including their Near Eastern roots, following a thematic approach Showcases contributions from a wide range of disciplines and international scholarly traditions Examines the political, social and cultural implications of music in antiquity, including ethnicity, regional identity, gender and ideology Presents original diagrams and transcriptions of ancient scales, rhythms, and extant scores that facilitate access to these vital aspects of ancient music for scholars as well as practicing musicians Written for a broad range of readers including classicists, musicologists, art historians, and philosophers, A Companion to Ancient Greek and Roman Music provides a rich, informative and thought-provoking picture of ancient music in Classical Antiquity and beyond.

*The Museum of Augustus* Peter Heslin 2015-05-01 In the Odes, Horace writes of his own work, “I have built a monument more enduring than bronze,”—a striking metaphor that hints at how the poetry and built environment of ancient Rome are inextricably linked. This fascinating work of original scholarship makes the precise and detailed argument that painted illustrations of the Trojan War, both public and private, were a collective visual resource for selected works of Virgil, Horace, and Propertius. Carefully researched and skillfully reasoned, the author’s claims are bold and innovative, offering a strong interpretation of the relationship between Roman visual culture and literature that will deepen modern readings of Augustan poets. The Museum of Augustus first provides a comprehensive reconstruction of paintings from the remaining fragments of the cycle of Trojan frescoes that once decorated

the Temple of Apollo in Pompeii. It then finds the echoes of these paintings in the Augustan-dated Portico of Philippus, now destroyed, which was itself a renovation of Rome's de facto temple of the Muses—in other words, a museum, both in displaying art and offering a meeting place for poets. It next examines the responses of the Augustan poets to the decorative program of this monument that was intimately connected with their own literary aspirations. The book concludes by looking at the way Horace in the Odes and Virgil in the Georgics both conceptualized their poetic projects as temples to rival the museum of Augustus.

*Orfeo ed Euridice. An opera, in verse. By R. de'Calsabigi Ranieri de'. CALSABIGI 1808*

**Apollo 11 Flight Plan** National Aeronautics and Space Administration 2019-05-02 The original "final edition" of the Apollo 11 flight plan, restored and reprinted for the 50th Anniversary of the moon landing that took place in 1969.

**Rockets and People Volume I (NASA History Series. NASA Sp-2005-41 110)** Boris Chertok 2005-01-01 Much has been written in the West on the history of the Soviet space program, but few Westerners have read direct first-hand accounts of the men and women who were behind the many Russian accomplishments in exploring space. The memoir of academician Boris Chertok, translated from the original Russian, fills that gap. Chertok began his career as an electrician in 1930 at an aviation factory near Moscow. Thirty years later, he was deputy to the founding figure of the Soviet space program, the mysterious "Chief Designer" Sergey Korolev. Chertok's 60-year-long career and the many successes and failures of the Soviet space program constitute the core of his memoirs, *Rockets and People*. In these writings, spread over four volumes (volumes two through four are forthcoming), academician Chertok not only describes and remembers, but also elicits and extracts profound insights from an epic story about a society's quest to explore the cosmos. This book was edited by Asif Siddiqi, a historian of Russian space exploration, and General Tom Stafford contributed a foreword touching upon his significant work with the Russians on the Apollo-Soyuz Test Project. Overall, this book is an engaging read while also contributing much new material to the literature about the Soviet space program.

*Opera* Publius Vergilius Maro 1684

Ione Euripides 1962

**Bootleg! The Rise And Fall Of The Secret Recording Industry** Clinton Heylin 2010-03-04 An absorbing account of the record industry's worst nightmare. In the summer of 1969, Great White Wonder, a collection of unreleased Bob Dylan recordings appeared in Los Angeles. It was the first rock bootleg and it spawned an entire industry dedicated to making unofficial recordings available to true fans. Bootleg! tells the whole fascinating saga, from its underground infancy through the CD 'protection gap' era, when its legal status threatened the major labels' monopoly, to the explosion of trading via Napster and Gnutella on MP-3 files. Clinton Heylin provides a highly readable account of the busts, the defeats and victories in court; the personalities – many interviewed for the first time for this book. This classic history has now been updated and revised to include today's digital era and the emergence of

a whole new bootleg culture.

**Luxury Arts of the Renaissance** Marina Belozerskaya 2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence.

This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

La Lira d’Orfeo Niccolò Minato 1683

**Istoria di Orfeo, della dolce lira. In verse** 1815

**Apollo** 2005

*The Tuning of the World* R. Murray Schafer 1980
