Magic to the Bone Devon Monk 2011-10-13 "Using magic, meant it used you back. Forget the fairytale hocus pocus, sparkles and pixie dust crap. Magic, like booze, sex, and drugs, gave as good as it got" Everything has a cost. And every act of magic exacts a price from its user, maybe a two-day migraine, or losing the memory of your first kiss. But some people want to use magic without paying and they Offload the cost onto innocents. When that happens, it falls to a Hound to identify the spell's caster - and Allie Beckstrom is the best there is. Daughter of a prominent Portland businessman, Allie would rather moonlight as a Hound than accept the family fortune - and the strings that come with it. But when she discovers a little boy dying from a magic Offload that has her father's signature all over it, Allie is thrown into the high stakes world of corporate espionage and black magic ...

Dragon Sky Matt Smith 2022-02-28 Dragon Sky By: Matt Smith and Cliff Wise Dragon Sky, while it stands alone, is only one half of a much larger story. The core of the book focuses on the struggles of three strangers: Crystal, Alicia, and Assan. All three undergo growth in their own way. Crystal begins as a point of calm in a world of chaos. Is she the only one who has answers to unanswerable questions? But over time her companions learn the truth that they must come to trust their own insights. And Crystal sees that she can't stand alone. Separately, Crystal, Alicia, and Assan, create three elemental beings. While the setting could be referred to as post-apocalyptic, there are many aspects of it that make it unique. What had caused the Apocalypse is still present, lurking in the background: a constant threat more felt than consciously aware of. The "Shades," as they are known, are incarnations of pure terror and only become more terrifying the more the characters learn. The lesson I hope my readers learn from my characters is that perseverance can see you through everything. Try to surround yourself with people who will inspire you.

[Henry Barton-Jones - Ice Dragon Rising](#) Robert Denton 2018-06-12 The legend of the Ice Dragon and its master began over 6,000 years ago. The lead up story began many years before the Ice Dragon was created due to the fact the right people had to be born, grow and evolve so they could be challenged in the right way to have the leadership to know that such evil has to be contained. This required them to have the foresight, intuition and destiny to do all that is required. Pucut was perhaps the worst of all historical warlords only to be equalled by horrific modern day events. Back six millennia there were no allied forces to fight what was a terrible army of unprecedented size, disregard for humanity and ferocity. Pucut and his entire army had to be stopped in one action that would take great courage and the ultimate sacrifice of many. The Ice Dragon got its name from a massive diamond found in a quarry to produce the rock needed to build the great citadel. The diamond was naturally formed in the shape of an Asian dragon and was named the Ice Dragon diamond. The fact this diamond was so perfectly formed, indeed sculpted the creators of the citadel fully understood they were on a destiny predetermined far beyond their imagination. While the citadel was to become the place of the destruction of Pucut and his army, on its own and with the few men known as monks had at their disposal, they were certainly not going to do the job on their own. They needed a power of unheard of force. That came by virtue of a stranger in search of herbs to make up healing potions and ointments. While staying with the monks in the early stages of building their primitive refuge from Pucut, this stranger accidentally made a compound that caught alight and devastated the stone hut used as his workshop. This was to become known as dragon powder and after some development it had been perfected to a high level of effectiveness. This dragon powder became the key to ending Pucut but also creating the Ice Dragon field of energy and thus needing a human Master to control it. After the first 4,000 year of an evolving Master's dynasty it was broken. In early 2012 a new Master had been created. The Story of The Ice Dragon Rising takes us through the first stages of the original Ice Dragon creation. This finishes with a brief introduction to the principle players of the modern Ice Dragon Master and their joint adventures. As Pucut and his army with the inhabitants of the great citadel were all destroyed, the soul energy field of all those that died that day rose high in the sky taking the shape of the Ice Dragon diamond. The first chosen Master has been the only person to see the Ice Dragon energy field in this form.

Every other master since then is inducted into the force field on the appearance of the Ice Dragon diamond, which is a proxy. This is necessary due to the Ice Dragon force field now being so large thus impossible for any one person to see it all. This proxy process occurs in the form of coloured ribbons of light emerging from the diamond and pass through the new Master's body. Eventually they withdraw returning to the diamond, which then disappears in a bright ball of light. When this happens the force field's entire history and the necessary intelligence upgrades the Master's DNA coding, enabling him to interact with the Ice Dragon energy. All this is because there has to be a balance within the light and the dark forces. Without any constraints Pucut had pushed the balance so far into the dark field there was little chance of recovering the peace for a very long time. The higher power, which oversees this planet, had to devise the Ice Dragon to restore the balance, bringing about a new period of confidence and calm in order that the population could recover and develop a new order. Now another dark energy has appeared that is intent on worldwide domination and a return to Pucut's barbarism. Perhaps this is why a new Ice Dragon Master has appeared at this time to control again and stop further potential damage.
