The Rape of Nanking Iris Chang 2014-03-11

The New York Times bestselling account of one of history's most brutal—and forgotten—massacres, when the Japanese army destroyed China's capital city on the eve of World War II, "piecing together the abundant eyewitness reports into an undeniable tapestry of horror". (Adam Hochschild, Salon) In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were

systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode.

Buffalo Nationalism Kanha Ilaiah Shepherd 2019-01-25 'O Mother Lachumamma, your blouse is torn, Your hair is soiled, your sari in rags . . . Even in that condition what have you done? You planted saplings, walking backwards like a bull, In order to produce food from the mud.' Kanha Ilaiah Shepherd translates these words of the Telugu poet, singer, activist Gaddar to emphasize the productivity of the ordinary people, the Dalit-Bahujans of India, who receive so little in return. Arguing forcefully against spiritual fascism, which refuses equality or freedom to the majority, he commends the buffalo as a productive animal that epitomizes the qualities of the Dalit-Bahujans. This book contains a

selection from Ilaiah Shepherd's columns in The Hindu, Deccan Herald, Deccan Chronicle, Hindustan Times among others, and journals such as Mainstream and Economic and Political Weekly. Of particular interest is the new Afterword that discusses his political and social programme for the Sudras of India, presenting his vision of a more just society.

Tarology Enrique Enriquez 2011-11 In TAROLOGY Enrique Enriquez sees the Tarot de Marseille through the prism and science of pataphysics, the science of imaginary solutions. By following into the footsteps of Oulipian writers, he applies the idea of constraint and the rule of restriction to the surprisingly visual and gestural nature of Tarot. The result is not only illuminating but also enriching for all those interested in the history of Tarot and its divinatory practices. Enriquez develops a whole new method of reading cards, which combines careful considerations of chance with choice. By using a phenomenological and constructivist approach to the cards, Enriquez shows how the Tarot de Marseille speaks poetry and thus reveals some of our deepest concerns with language, with what we can say when we are at a loss for words. --- "In TAROLOGY, going from pataphysics to poetry, Enrique Enriquez PERFORMS tarot in a way that is marvelously free of cultural preconditioning to the workings of myth and symbol, while at the same time proposing following the rules of 'watch and learn', 'keep it simple', 'stay on track', 'be surprised', 'be fearless', and 'let the image talk the walk'. This is no small achievement." (Camelia Elias, Professor of American Studies and Tarot de Marseille Reader)

Marseille Tarot Camelia Elias 2014-12-26 This book aims to cover four basic questions: Why do we read cards? What's so special about the Marseille Tarot? How can the cards uncover our blind spots? The book is also the first to introduce the readers to the wonderful and strange cards of Carolus Zoya, a most rare and unseen Tarot de Marseille deck made in Turin at the end of 1700.

Educating Everybody's Children Robert W. Cole W. Cole 2008-06-15 Designed to promote reflection, discussion, and action among the entire learning community,

Educating Everybody's Children encapsulates what research has revealed about successfully addressing the needs of students from economically, ethnically, culturally, and linguistically diverse groups and identifies a wide range of effective principles and instructional strategies. Although good teaching works well with all students, educators must develop an extensive repertoire of instructional tools to meet the varying needs of students from diverse backgrounds. Those tools and the knowledge base behind them are the foundation of this expanded and revised second edition of *Educating Everybody's Children*. Each strategy discussed in the book includes classroom examples and a list of the research studies that support it. The most important thing we have learned as a result of the education reform movement is that student achievement stands or falls on the motivation and skills of teachers. We must ensure that all teachers are capable of delivering a standards-based curriculum that describes what students should know and be able to do, and that these standards are delivered by means of a rich and engaging "pedagogy of plenty." By these two acts we can ensure that all schools will be ready and able to educate everybody's children.

Leading in the Digital World Amit S. Mukherjee 2020-02-25 The definitive book on leadership in the digital era: why digital technologies call for leadership that emphasizes creativity, collaboration, and inclusivity. Certain ideas about business leadership are held to be timeless, and certain characteristics of leaders—often including a square jaw, a deep voice, and extroversion—are said to be universal. In *Leading in the Digital World*, Amit Mukherjee argues that since digital technologies are changing everything else, how could they not change leadership ideologies and styles? As more people worldwide participate equally in business, those assumptions of a leader's ideal profile have become irrelevant. Offering a radical rethinking of leadership, Mukherjee shows why digital technologies call for a new kind

of leader—one who emphasizes creativity, collaboration, and inclusivity. Drawing on a global survey of 700 mid-tier to senior executives and interviews with C-level executives from around the world, Mukherjee explains how digital technologies are already reshaping organizations and work and what this means for leaders. For example, globally dispersed businesses can't reserve key leadership roles for people from exclusive groups; leadership must become inclusive, or fail. Leaders must learn to collaborate in a multipolar world of networked organizations, working with co-located and non-co-located colleagues. Leaders must lead for creativity rather than productivity. Focusing on practice, Mukherjee outlines goals and strategies, warns against unthinking assumptions, and explains how leaders can identify the mindsets, behaviors, and actions they need to pursue. With *Leading in the Digital World*, Mukherjee offers the definitive book on leadership for the digital era.

RFK Robert F. Kennedy 2018-05-01 In honor of the fiftieth anniversary of Robert Francis Kennedy's death, an inspiring collection of his most famous speeches accompanied by commentary from notable historians and public figures. Here, too, is evidence of the impact of those he knew and worked with, including his brother John F. Kennedy, Lyndon Johnson, Martin Luther King, Jr., and Cesar Chavez, among others. The tightly curated collection also includes commentary about RFK's legacy from major historians and public figures, among them Barack Obama, Bill Clinton, Eric Garcetti, William Manchester, Elie Wiesel, and Desmond Tutu. Assembled with the full cooperation of the Kennedy family, *RFK: His Words for Our Times* is a potent reminder of Robert Kennedy's ability to imagine a greater America—a faith and vision we could use today.

American Independent Cinema Geoff King 2014-09-08 The independent sector has produced many of the most distinctive films to have appeared in the US in recent decades. From 'Sex, Lies and Videotape' in the 1980s to 'The Blair Witch Project' and New Queer Cinema in the 1990s and the ultra-low budget digital video features of the 2000s, indie films have thrived, creating a body of work that stands out from the dominant Hollywood mainstream. But what exactly is 'independent' cinema? This, the first book to examine the question in detail, argues that independence can be defined partly in industry terms but also according to formal and aesthetic strategies and by distinctive attitudes towards social and political issues, suggesting that

independence is a dynamic rather than a fixed quality. Chapters focus on distribution and relationships with Hollywood studios; narrative ('Clerks' and 'Slacker' to 'Pulp Fiction', 'Magnolia' and 'Memento') and other formal dimensions (from 'Blair Witch's' 'authenticity' to expressive and stylized camerawork and editing in work from Harmony Korine to the Coen brothers); approaches to genre and alternative socio-political visions.

EVOLUTION OF GOD "Leonardo") Wolfe

2022-10-10 EVOLUTION OF GOD: How the Christ-like God Revealed Himself to Mankind This is a book about God, a particular and specific vision and version of God: the Christian God. This is more like an apologetic or "explanation" book than a scientific study, though every relevant field of science has been diligently searched for the evidence, clues or insight related to the central premise. That central theme is contained in a verse in the Christian Bible: "On many past occasions and in many different ways, God spoke to our fathers through the prophets. But in these last days He has spoken to us by His Son." (Hebrews 1:1) This is the simple proclamation of Christianity: God was revealed, fully and clearly, in Jesus Christ. In the centuries and millennia in the past God exposed and unveiled bits and pieces of Himself as the human mind developed and was able to grasp new ideas about the unseen world of the spirit.

Be Still and Know Norris J. Chumley 2014 Early Christian spirituality is a topic of enduring fascination today among scholars and general readers alike. Stories of hermits living in the desert in their pursuit of God catch our fancy. What motivated them and drew them to silence on their path to God? In this gracious tour, Norris J. Chumley introduces us to Hesychasm, or the practice of silence and contemplative prayer, and to the lives of its early practitioners. The reader is introduced to St. Anthony, St. Pachomius, Evagrius, St. John Climacus, and many others. Then, as only a teacher and mentor can, he opens up the important possibilities the practice has for today.
