It was the first History of Psychology text to include basic pedagogy—elements such as summaries and study questions that several current alternatives still lack. It engages students with interesting biographical tidbits—the fun facts that readers fondly remember after other details fade. Grounded in original source material and contemporary scholarship, the book provides breadth and depth of analysis unrivaled by works of similar length. *A History of Western Music* Burkholder, J. Peter 2019-02-08 The definitive survey, combining current scholarship with a vibrant narrative. Carefully informed by feedback from dozens of scholars, it remains the book that students and teachers trust to explain what's important, where it fits, and why it matters. Peter Burkholder weaves a compelling story of people, their choices, and the western musical tradition that emerged. From chant to hip-hop, he connects past to present to create a context for tomorrow's musicians.

*Music as an Art* Roger Scruton 2018-08-23 Music as an Art begins by examining music through a philosophical lens, engaging in discussions about tonality, music and the moral life, music and cognitive science and German idealism, as well as recalling the author's struggle to encourage his students to distinguish the qualities of good music. Scruton then explains - via erudite chapters on Schubert, Britten, Rameau, opera and film - how we can develop greater judgement in music, recognising both good taste and bad, establishing musical values, as well as musical pleasures. As Scruton argues in this book, in earlier times, our musical culture had secure foundations in the church, the concert hall and the home; in the ceremonies and celebrations of ordinary life, religion and manners. Yet we no longer live in that world. Fewer people now play instruments and music is, for many, a form of largely solitary enjoyment. As he shows in Music as an Art, we live at a critical time for classical music, and this book is an important contribution to the debate, of which we stand in need, concerning the place of music in Western civilization.
