[Cloud](#) Ginger Kathrens 2012-11-06 Published as a companion volume for public television's Nature series, Cloud: The Wild Stallion of the Rockies is documentary filmmaker Ginger Kathrens's personal retelling of her years following the wild horse she named Cloud. Beautifully designed, the book is elaborately photographed and divided into seventeen chapters that follow the life of a wild stallion, just one of hundreds of horses that have roamed wild in the Rocky Mountains for two hundred years. The book begins with the author and filmmaker witnessing the birth of a helpless white colt, that will soon capture her heart and imagination. Each subsequent chapter documents Cloud's interaction with his mare Raven, his brother Diamond, and other colts in the wild as well as his adventures encountering dangerous predators, older stallions, and human trappers. The author follows Cloud over the course of five years, taking note of his physical and behavioral development, as his begins to take on more of a leadership role in the band of wild bachelors he's joined, to become a fighter, a survivor, and a father. Kathrens's emotional involvement in Cloud's story is palpable, such as when she tearfully watches the young stallion get captured by trappers. Due to his unusual coloration, he is set free, though the other members of his band and sisters are removed and sold. Returning to the mountains every season, the author continues to look for Cloud in the vast wild habitat, always relieved to find him still living, despite fights, predators, and encounters with trappers. She is later is touched to see how Cloud, the five-year-old mare, grazes with his yearling son, the first of his new family. Kathrens's gripping observations of wild horses of the Arrowheads, their fights, struggles, and alliances, give the reader much insight into the fascinating behavior of these wild horses.

Using and programming the Epson HX-20 portable computer E. Balkan 2012-12-06 Why this book? Other than the fact that I like writing about computers more than just about anything else, this book fills several real needs. No matter how many manuals a computer manufacturer puts out to accompany a syste- and some of Epson America's are very good - not everything can be covered. This book fills in the gaps. This book is unbiased, having been written independently of Epson. So, I won't be telling you to drop everything and run out to buy an HX-20. The HX- 20 is good for some uses, not so good for some others. This book is a guide to out of the machine and/or pointing you towards a different getting the most machine that might better suit your needs. At the start of this project I had to decide who was my target audience: novices, experts, or those in between? Because HX-20 owners and prospective owners don't fall into neat categories, I tried to 'cover all the bases'. Or at least as many as possible. As with any attempt to do everything, I didn't always succeed. But I did succeed in providing at least something for everyone. For those who haven't yet bought a portable - or are unsure if buying an HX-20 was the right move - there are descriptions of 20 other portables on the market. For those who have used other computers before, there's information on how Epson BASIC differs from other BASICS, with tips on converting programs.

Vision 2020 Clifford Madsen 2020-10-28 The Housewright Symposium on the Future of Music Education, held at Florida State University in Tallahassee in 1999, assembled 175 music educators, industry representatives, community arts leaders, and students to speculate about what music education might look like in 2020 and the directions the field might take.

Participant presentations were published in 2000 as the book Vision 2020, and the current reprint shares the ideas of the likes of Wiley Housewright, Clifford Madsen, Judith Jellison, and other illuminati of music teaching and learning. The contributors to this book asked leading questions about the value of music education, its place in the curriculum, and its possible futures. Many preservice music teachers in the intervening twenty years read chapters like "Why Study Music?" or "How Can All People Continue to Be Involved in Music Education?"—questions whose answers are as relevant today as they were at the end of the last century. As music education moves into a new phase with the current pandemic, the topics considered in this publication are of increasing importance to the discussion. An introduction by two successive presidents of the National Association for Music Education, Kathleen D. Sanz of Florida and Mackie V. Spradley of Texas, place this places this reprint edition in the context of the present day and looks at future directions of the profession.

The Ghetto Swinger Coco Schumann 2018 Jazz in Nazi-era and postwar Germany, as lived by a Jewish prodigy who survived the horrors of Theresienstadt and Auschwitz. "Coco, it's not important what you play. It's important how you play it," said Louis Armstrong to jazz and swing guitarist Coco Schumann during a break between sessions. Recalling this episode Schumann reminds readers that even in the midst of real-world nightmares, music is alive and musicians experience this essential freedom and hope, which they can, in turn, give to their audiences. Throughout his remarkable life, Coco Schumann (b. 1924) would accumulate accolades, including the Order of Merit from the Federal Republic of Germany in 1989 and the prestigious Ehrenpreise Lifetime Achievement Award in 2015, and play with jazz greats Toots Thielemans, Dizzy Gillespie, Louis Armstrong, Ella Fitzgerald, and others. But few knew he relied on composing music and performing for live audiences to ease the burden of his wartime memories. After forty years of silence Schumann's memoir opened a rare window into the previously unknown life of one of Germany's most renowned musicians, who was a member of the vibrant and illegal Berlin club scene, a part of the cultural revival of postwar Berlin, and a survivor of Theresienstadt (Terezin) and the horrors of Auschwitz. Shortlisted for the 2017 A.R.S.C. Awards for Excellence in Historical Research in Jazz. Includes over 50 historical documents and rare photographs.
