**Sixguns** Elmer Keith 1961 "Over half a century has passed since I cut my teeth on an old .36 Navy Colt. For 40 years I have almost never been out of easy reach of a good sixgun. Thirty years I spent in the saddle, packing, punching cows and breaking saddle brones. The sixgun was worn just as regularly as my pants and many times was much more important to my existence. It pulled me out of several tight scrapes with wild horses, wilder cattle and some big game. Though I have witnessed several gun fights, have had guns pulled on me and have been shot at several times, I have never had to use my gun on a man. Several times it was touch-and-go and perhaps only the current knowledge that I was both fast and accurate with a sixgun saved me from being embroiled. Though I do not recommend a sixgun for big game, thirty head of big game have fallen to mine, including elk, bear, deer, cougar, mountain goat and javelina. I have also trailed up a great many big game animals of various species that were wounded by sportsmen and then I finished them off. No record was kept of these or the many coyotes, bobcats and lesser game, or the livestock I have had to kill." This classic includes the following chapters: Introduction I. History of the Sixgun II. Selecting the Handgun III. Learning To Shoot IV. Sixgun Sights V. Long Range Shooting VI. Game Shooting VII. Double Action Shooting VIII. Gun Rigs and Holsters IX. Quick Draw and Hip

*American Engraved Powder Horns* Stephen V. Grancsay 1946-01-01 This catalogue deals primarily with the collection of American powder horns and primers formed by J. H. Grenville Gilbert, of Ware, Massachusetts, and generously presented to The Metropolitan Museum of Art in 1937. An essay on American engraved powder horns and a résumé of the Gilbert collection precede the catalogue, which consists of detailed descriptions of the individual pieces and notes of genealogical or historical interest. Each horn in the collection is illustrated by a colotype reproduction and, with one exception (an undecorated horn), by a line drawing of the engraved area. An indexed checklist of the collections records the pertinent details of each powder horn.

terrifyingly real possibilities- learn how to prepare for the worst Global financial collapse, a terrorist attack, a natural catastrophe-all it takes is one event to disrupt our way of life. We could find ourselves facing myriad serious problems from massive unemployment to a food shortage to an infrastructure failure that cuts off our power or water supply. If something terrible happens, we won't be able to rely on the government or our communities. We'll have to take care of ourselves. In *How to Survive the End of the World as We Know It*, James Rawles, founder of SurvivalBlog.com, clearly explains everything you need to know to protect yourself and your family in the event of a disaster-from radical currency devaluation to a nuclear threat to a hurricane. Rawles shares essential tactics and techniques for surviving completely on your own, including how much food is enough, how to filter rainwater, how to protect your money, which seeds to buy for your garden, why goats are a smart choice for livestock, and how to secure your home. It's the ultimate guide to total preparedness and self-reliance in a time of need.

Russell 1980-01-01 "Here is a book for the historian, the student, the gun collector or aficionado. . . . It approaches understatement to call *Guns on the Early Frontiers* an outstanding contribution to firearms literature. It sets its own standard."--New York Times. "A Glossary of Gun Terms, ample footnotes most skillfully arranged and illustrations beyond the dreams of avarice complement the text, which achieves the miracle of scholarship without tedium."--W.H. Hutchinson, San Francisco Chronicle. "Not the least interesting portions of the book are the notes and glossary and the excellent bibliography. Here [is] a book designed primarily for the serious collector or gun historian, but whose readable style should appeal even to the casual amateur. The collecting of old guns, whether privately or by a public institution, involves a certain responsibility. These guns, whose history is inextricably linked with the history of settlement, require something more than careful preservations. They require--and the present volume goes far to supply--accurate documentation."--Canadian Historical Review. Carl P. Russell, a leading authority on firearms of the American frontier, was coordinator of planning for the science and history museums and other interpretive facilities of the National Park Service in the Western United States. *Custom Firearms Engraving* Tom Turpin 1999 This reference provides the time-saving tools medical transcriptionists need to confirm or determine which drug is being referred to in dictation, cross reference a generic or brand name drug, and find specialized information about groups of drugs.
