Routledge Handbook of International Environmental Law Erika J. Techera 2020-12-30 This book critically explores the legal tools, concepts, principles and instruments, as well as cross-cutting issues, that comprise the field of

international environmental law. Commencing with foundational elements, progressing on to discrete sub-fields, then exploring regional cooperative approaches, cross-cutting issues and finally emerging challenges for international environmental law, it features chapters by leading experts in the field of international environmental law, drawn from a range of countries in order to put forward a truly global approach to the subject. The book is split into five parts: - The foundations of international environmental law covering the principles of international environmental law, standards and voluntary commitments, sustainable development, issues of public participation and environmental rights and compliance, state responsibility, liability and dispute settlement. - The key instruments and governance arrangements across the most critical areas of international environmental law: biodiversity, wildlife, freshwater, forestry and soils, fisheries, marine pollution, chemicals and waste, air and

atmospheric pollution and climate change. - Crucial developments in seven distinct regions of the world: Africa, Europe, North America, Latin America, South East Asia, the polar regions and small island states. - Cross-cutting issues and multidisciplinary developments, drawing from multiple other fields of law and beyond to address human rights and Indigenous rights, war and armed conflict, trade, financing, investment, criminology, technology and energy. - Contemporary challenges and the emerging international environmental law regimes which address these: the changing climate, forced migration, marine plastic debris and future directions in international environmental law. Containing chapters on the most critical developments in environmental law in recent years, this comprehensive and authoritative book makes for an essential reference work for students, scholars and practitioners working in the field.

Wetlands Deskbook Margaret N. Strand 2015 Wetlands law operates at the junction of private property rights and natural resource protection. While wetlands provide rich and diverse species habitat, protecting and promoting water quality, the vast majority of U.S. wetlands are on private property. Federal law addresses wetlands protection and development in a complex manner. Those interested in protecting wetlands or developing wetland property must navigate challenging legal waters. The "Wetlands Deskbook" organizes wetlands law for the novice and experts. This must-have reference book combines insights from one of the nation's premier wetlands experts and provides all the background materials needed. This Fourth Edition includes updates on the most recent

court decisions, agency policies, and regulations, such as implications for endangered species and the U.S. Department of the Interior mitigation strategies. The authors have also added a new section identifying practical tips and pitfalls in wetlands law. Margaret Peggy Strand is a partner at Venable, LLP in Washington, D.C. Ms. Strand has substantial experience advising on the regulatory requirements of federal and state law, including wetlands, natural resources, protected species, climate change, and pollution control. She was Chief of the Environmental Defense Section in the U.S. Justice Department, Environmental and Natural Resources Division, from 1984 to 1991, and served as a Justice Department trial attorney and supervisor since 1976. She is past chair of the American Bar Association's Water Quality and Wetlands Committee, Section on Environment, Energy, and Resources Law and serves on the ALI-ABA Advisory Committee on Environmental Law. She is a regular chair and speaker on wetlands and

species protection topics for ALI-ABA and other bar organizations. Lowell Rothschild, Senior Counsel at Bracewell & Giuliani LLP, is an environmental litigator focusing on natural resource issues such as wetlands, endangered species, and environmental review. For over 20 years, he has represented private, public, governmental and quasi-governmental clients working in the oil and gas, natural resource extraction, and infrastructure development sectors in obtaining and defending permits and responding to allegations of legal noncompliance, through both internal investigations and litigation. Mr. Rothschild's practice has included cases before the U.S. Supreme Court, multiple federal circuit and district courts, and EPA and Department of the Interior administrative tribunals."
