WebPiketty's Capital in the Twenty-First Century stands for a threefold return: capital, inequality and ambitious political economy are back. Piketty shows that wealth and capital are as concentrated at the beginning of the 21st century as they were a hundred years ago; he argues that the egalitarian trend in the distribution of wealth and

WebIn Capital in the 21st Century, Thomas Piketty uses the market value of tradeable assets to measure both productive capital and wealth. As a measure of wealth this is problematic because it ignores the value of human capital and transfer wealth, which have grown enormously over the last 300 years.
