Creating Significant Learning

Experiences L. Dee Fink 2003-06-17
Dee Fink poses a fundamental question for all teachers: "How can I create courses that will provide significant learning experiences for my students?" In the process of addressing this question, he urges teachers to shift from a content-centered approach to a

learning-centered approach that asks "What kinds of learning will be significant for students, and how can I create a course that will result in that kind of learning?" Fink provides several conceptual and procedural tools that will be invaluable for all teachers when designing instruction. He takes important existing ideas in the literature on college teaching (active learning, educative assessment), adds some new ideas (a taxonomy of significant learning, the concept of a teaching strategy), and shows how to systematically combine these in a way that results in powerful learning experiences for students. Acquiring a deeper understanding of the design process will empower teachers to creatively design courses for significant learning in a variety of situations.

Sula Toni Morrison 2007-07-24 From the acclaimed Nobel Prize winner: Two girls who grow up to become women. Two friends who become something worse than enemies.

This brilliantly imagined novel brings us the story of Nel Wright and Sula Peace, who meet as children in the small town of Medallion, Ohio. Nel and Sula's devotion is fierce enough to withstand bullies and the burden of a dreadful secret. It endures even after Nel has grown up to be a pillar of the black community and Sula has become a pariah. But their friendship ends in an unforgivable betrayal—or does it end? Terrifying, comic, ribald and tragic, Sula is a work that overflows with life.

decide whether or not he’s going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever

actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly

March: Book One John Lewis 2013-08-12
Congressman John Lewis (GA-5) is an
American icon, one of the key figures of the
civil rights movement. His commitment to
justice and nonviolence has taken him from
an Alabama sharecropper's farm to the halls
of Congress, from a segregated schoolroom
to the 1963 March on Washington, and from
receiving beatings from state troopers to
receiving the Medal of Freedom from the

first African-American president. Now, to
share his remarkable story with new
generations, Lewis presents March, a
graphic novel trilogy, in collaboration with
co-writer Andrew Aydin and New York Times
best-selling artist Nate Powell (winner of the
Eisner Award and LA Times Book Prize
finalist for Swallow Me Whole). March is a
vivid first-hand account of John Lewis'
lifelong struggle for civil and human rights,
meditating in the modern age on the
distance traveled since the days of Jim Crow
and segregation. Rooted in Lewis' personal
story, it also reflects on the highs and lows
of the broader civil rights movement. Book
One spans John Lewis' youth in rural
Alabama, his life-changing meeting with
Martin Luther King, Jr., the birth of the
Nashville Student Movement, and their
battle to tear down segregation through
nonviolent lunch counter sit-ins, building to
a stunning climax on the steps of City Hall.

Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book Martin Luther King and the Montgomery Story. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.
