How the Other Half Lives Jacob Riis 2012-04-27 This famous journalistic record of the filth and degradation of New York's slums at the turn of the century is a classic in social thought and of early American photography. Over 100 photographs.

Adoniram Judson 1894

The Franciscan Saints Robert Ellsberg 2017-08-30 Reading Robert Ellsberg's profiles of holy men and women is like throwing open a window in a stuffy old church and taking in great gulps of fresh air. Henri Nouwen has described his writing as "evocative without being pious." He broadens the traditional vision of sanctity and calls modern readers of all stripes to claim their potential for moral and spiritual growth, courage and action. By choosing relevant models and contemporary heroes, he makes holiness accessible and attractive to ordinary people. These 101 spiritual trailblazers span the centuries from Francis and Clare to Solanus Casey and Mychal Judge, with representatives from every walk of life and corner of the world. Each entry features the essential biographical facts and adds the insight and depth only Ellsberg can provide. The author's sharp eye for signs and stories of holiness in the gritty, messy real world informs his selections, making his work unique. Obscure lay peasants, married activists, and controversial social reformers take pride of place alongside better-known theologians, founders, and canonized saints.

John Chrysostom Dayspring MacLeod 2019 One of the Early Church Fathers Biography for young teenagers Part of the Trail Blazers series

Crystal Eastman Amy Aronson 2019-11-01 In 1910, Crystal Eastman was one of the most conspicuous progressive reformers in America. By the 1920s, her ardent suffragism, insistent anti-militarism, gregarious internationalism, and uncompromising feminism branded her "the most dangerous woman in America" and led to her exile in England. Yet a century later, her legacy in shaping several defining movements of the modern era—labor, feminism, free speech, peace—is unquestioned. A founder of the ACLU and Woman's Peace Party, Eastman was a key player in a constellation of high-stakes public battles from the very beginning of her career. She first found employment investigating labor conditions—an endeavor that would produce her iconic publication, *Work Accidents* and the Law, a catalyst for the first workers' compensation law. She would go on to fight for the rights of women, penning the Equal Rights Amendment with Alice Paul. As a pacifist in the First World War era, she helped to found the Civil Liberties Bureau, which evolved into the ACLU. With her brother, the writer Max Eastman, she frequented the radical, socialist circles of Greenwich Village. She was also a radical of the politics of private life, bringing attention to cutting-edge issues such as reproductive rights, wages for housework, and single motherhood by choice. As the first biography of Eastman, this book gives renewed voice to a woman who spoke freely and passionately in debates still raging today -- gender equality and human rights, nationalism and globalization, political censorship and media control, worker benefits and family balance, and the monumental questions of war, sovereignty, and freedom.

Woman Lawyer Barbara Babcock 2011-01-05 Woman Lawyer tells the story of Clara Foltz, the first woman admitted to the California Bar. Famous in her time as a public intellectual, leader of the women's movement, and legal reformer, Foltz faced terrific prejudice and well-organized opposition to women lawyers as she tried cases in front of all-male juries, raised five children as a single mother, and stumped for political candidates. She was the first to propose the creation of a public defender to balance the public prosecutor. Woman Lawyer uncovers the legal reforms and societal contributions of a woman celebrated in her day, but lost to history until now. It casts new light on the turbulent history and politics of California in a period of phenomenal growth and highlights the interconnection of the suffragists and other movements for civil rights and legal reforms.

Prophetic Lament Soong-Chan Rah 2015-09-03 The American church avoids lament. But lament is a missing, essential component of Christian faith. Soong-Chan Rah's prophetic exposition of the book of Lamentations provides a biblical and theological lens for examining the church's relationship with a suffering world. Hear the prophet's lament as the necessary corrective for Christianity's future.

Trailblazer Reformers & Activists Box Set 4 Various 2015-09-20 This giftbox collection of colorful trailblazer stories makes a perfect present that will delight young minds. Features some of the great Christian reformers and activists who will inspire young and old alike. This edition includes William Wilberforce, the man fought to bring freedom and relief from the terrors of the slave trade and John Knox, who went from being a bodyguard to a preacher of God's Word. John Knox went from being a bodyguard to a preacher of God's Word. He stood with his convictions - biblical and political. John Calvin's ideas were radical, his life was filled with dramatic events and dangers. Find out how this great teacher changed the church. William Wilberforce fought to bring freedom and relief from the terrors of the slave trade; it took him forty-five years. John Welch fell in with the wrong crowd - then he met God. Find out how this adventurous preacher couldn't be stopped even by a canon ball. John Newton travelled the oceans to make money from slaves. Find out how God changed his heart and life so that the slave ship captain sought to free slaves instead.

Fire in the Minds of Men James H. Billington 1999 This book traces the origins of a faith—perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries—the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries.

When this book originally appeared The New Republic hailed it as "remarkable, learned and lively," while The New Yorker noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Paving the Way Herma Hill Kay 2021-04-13 The first wave of trailblazing female law professors and the stage they set for American democracy. When it comes to breaking down barriers for women in the workplace, Ruth Bader Ginsburg's name speaks volumes for itself—but, as she clarifies in the foreword to this long-awaited book, there are too many trailblazing names we do not know. Herma Hill Kay, former Dean of UC Berkeley School of Law and Ginsburg's closest professional colleague, wrote *Paving the Way* to tell the stories of the first fourteen female law professors at ABA- and AALS-accredited law schools in the United States. Kay, who became the fifteenth such professor, labored over the stories of these women in order to provide an essential history of their path for

Trailblazer Reformers Activists Box Set 4 Trail Blazers Pdf Pdf upload Herison q Williamson

the more than 2,000 women working as law professors today and all of their feminist colleagues. Because Herma Hill Kay, who died in 2017, was able to obtain so much first-hand information about the fourteen women who preceded her, *Paving the Way* is filled with details, quiet and loud, of each of their lives and careers from their own perspectives. Kay wraps each story in rich historical context, lest we forget the extraordinarily difficult times in which these women lived. *Paving the Way* is not just a collection of individual stories of remarkable women but also a well-crafted interweaving of law and society during a historical period when women's voices were often not heard and sometimes actively muted. The final chapter connects these first fourteen women to the "second wave" of women law professors who achieved tenure-track appointments in the 1960s and 1970s, carrying on the torch and analogous challenges. This is a decidedly feminist project, one that Justice Ruth Bader Ginsburg advocated for tirelessly and admired publicly in the years before her death.

When Abortion Was a Crime Leslie J. Reagan 1997-01-30 As we approach the thirtieth anniversary of *Roe v. Wade*, it's crucial to look back to the time when abortion was illegal. Leslie J. Reagan traces the practice and policing of abortion, which although illegal was nonetheless widely available, but always with threats for both doctor and patient. In a time when many young women don't even know that there was a period when abortion was a crime, this work offers chilling and vital lessons of importance to everyone. The linking of the words "abortion" and "crime" emphasizes the difficult and painful history that is the focus of Reagan's important book. Her study is the first to examine the entire period during which abortion was illegal in the United States, beginning in the mid-nineteenth century and ending with *Roe v. Wade* in 1973. Although illegal, millions of abortions were provided during these years to women of every class, race, and marital status. The experiences and perspectives of these women, as well as their physicians and midwives, are movingly portrayed here. Reagan traces the practice and policing of abortion. While abortions have been typically portrayed as grim "back alley" operations, she finds that abortion providers often practiced openly and safely. Moreover, numerous physicians performed abortions, despite prohibitions by the state and the American Medical Association. Women often found cooperative practitioners, but prosecution, public humiliation, loss of privacy, and inferior medical care were a constant threat. Reagan's analysis of previously untapped sources, including inquest records and trial transcripts, shows the fragility of patient rights and raises provocative questions about the relationship between medicine and law. With the right to abortion again under attack in the United States, this book offers vital lessons for every American concerned with health care, civil liberties, and personal and sexual freedom.

Trailblazers: Martin Luther King, Jr. Christine Platt 2020-12-08 Bring history home and meet some of the world's greatest game changers! Get inspired by the true story of the civil rights leader whose peaceful fight for justice still motivates people today. This biography series is for kids who loved *Who Was?* and are ready for the next level. On August 28, 1963, Martin Luther King Jr. spoke to more than 250,000 people in Washington, DC about his dream of racial equality. His message of peaceful protest inspired a generation to stand up for their rights. Find out how a boy who was not allowed to go to school or the movies with white people blazed a trail in civil rights. Trailblazers is a biography series that celebrates the lives of amazing pioneers, past and present, from all over the world. Get inspired by more Trailblazers: Neil Armstrong, Jackie Robinson, Jane Goodall, Harriet Tubman, Albert Einstein, Beyoncé, and Simone Biles. What kind of trail will you blaze?

The Queen's Smuggler Dave Jackson 1991 Sarah tries to smuggle a New Testament into England in order to save the life of William Tyndale, a man imprisoned for translating the Bible into English.

The Secret History of Wonder Woman Jill Lepore 2015-07-07 Within the origin of one of the world's most iconic superheroes hides a fascinating family story—and a crucial history of feminism in the twentieth-century. "Everything you might want in a page-turner ... skeletons in the closet, a believe-it-or-not weirdness in its biographical details, and something else that secretly powers even the most "serious" feminist history—fun." —Entertainment Weekly The Secret History of Wonder Woman is a tour de force of intellectual and cultural history. Wonder Woman, Jill Lepore argues, is the missing link in the history of the struggle for women's rights—a chain of events that begins with the women's suffrage campaigns of the early 1900s and ends with the troubled place of feminism a century later. Lepore, a Harvard historian and New Yorker staff writer, has uncovered an astonishing trove of documents, including the never-before-seen private papers of Wonder Woman's creator, William Moulton Marston. The Marston family story is a tale of drama, intrigue, and irony. In the 1920s, Marston and his wife brought into their home Olive Byrne, the niece of Margaret Sanger, one of the most influential feminists of the twentieth century. Even while celebrating conventional family life in a regular column that Marston and Byrne wrote for *Family Circle*, they themselves pursued lives of extraordinary nonconformity. Marston, internationally known as an expert on truth—he invented the lie detector test—lived a life of secrets, only to spill them on the pages of *Wonder Woman*. Includes a new afterword with fresh revelations based on never before seen letters and photographs from the Marston family's papers, and 161 illustrations and 16 pages in full color.

The Making of Japanese Settler Colonialism Sidney Xu Lu 2019-07-25 Shows how Japanese anxiety about overpopulation was used to justify expansion, blurring lines between migration and settler colonialism. This title is also available as Open Access.

Standard-Setting at UNESCO Abdulqawi A. Yusuf 2007-10-15 Standard-setting represents one of the main constitutional functions of UNESCO and an important tool for realizing the goals for which the Organization was created. In addition to conventions and recommendations, the declarations adopted by the General Conference promulgate principles and norms intended to inspire the action of Member States in specific fields of activity. This first of a two-volume work on Standard-setting in UNESCO contains the essays presented at a symposium held on the occasion of its sixtieth anniversary. Topics addressed in Normative Action in Education, Science and Culture include methods of elaboration and implementation; constitutional objectives and legal commitments; international collaboration; and impact. Co-publication with the UNESCO.

Sojourning for Freedom Erik S. McDuffie 2011-06-27 Illuminates a pathbreaking black radical feminist politics forged by black women leftists active in the U.S. Communist Party between its founding in 1919 and its demise in the 1950s.

Robert Moffat Irene Howat 2014-03-20 Part of Popular Trailblazer Series Precursor and father-in-law of David Livingstone Scottish minister in 19th century Africa

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor 2020-06-18 "In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a

considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy.”_x000D_ Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

Elizabeth Blackwell, M.D. (1821-1910) Nancy Ann Sahlí 1974 Hobart and William Smith Colleges present a biographical sketch of the British-born American physician Elizabeth Blackwell (1821-1910). Blackwell was the first woman to be awarded a medical degree in the United States. Blackwell received her medical degree in 1849 from Geneva College in New York state. In 1853, Blackwell opened a dispensary in New York City, which later became the New York Infirmary for Women and Children in 1868. Blackwell was instrumental in the founding of the National Health Society. She was a pioneer in preventive medicine and in the promotion of antiseptics and hygiene. A portrait of Blackwell is provided.

Bill Bright Kim Twitchell 2004-05 Nobody would have thought a scruffy rancher's son would head one of the biggest missions that the world had ever known - Campus Crusade. Read the story of a man who loved Jesus above all else.

Reopening the Word Marie Noonan Sabin 2002-02-28 This book asks: How might the earliest gospel have been heard by those first followers of Jesus who were religious Jews? Assuming that the earliest Jesus traditions took their shape from forms familiar to Judaism, Sabin sets the composition of Mark in the context of the theological discourse of first-century Judaism. In that context, she notes, all theology was biblical. It took the form of an exchange between current events and Scripture: contemporary persons and happenings were understood through the lens of the Hebrew Bible, while at the same time, the biblical word was reopened—that is, reinterpreted—so as to reveal its relevance to the present faith-community. Applying this kind of compositional process to the Gospel of Mark, Sabin uncovers a fresh reading of the seed, fig tree, and vineyard parables; of the various Temple scenes; of the foolish disciples and the wise women; and of the controversial ending. She highlights the results of her findings by juxtaposing them with interpretations of the same passages given by various church fathers such as Origen, Irenaeus, and Bede, as well as by readings from the twentieth century. The results are provocative. Sabin sees Mark as an original theologian shaping his material out of two primary Jewish traditions: the Wisdom traditions, with their emphasis on God's presence in daily life, and Creation theology, which imagined the End Time not as a catastrophe but as a return to the Garden. She thus offers a new way of understanding Mark's use of Scripture, his eschatology, and his presentation of Jesus. In conclusion, she argues that retrieving Mark's voice in the context of Early Judaism brings with it insights much needed in our day: of God's presence in the ordinary; of God's image reflected in female as well as male; of watchfulness as the way of wisdom; of God's revelation as ongoing.

The Making of a Tory Evangelical David Furse-Roberts 2019-03-08 As one of Victorian Britain's pre-eminent social reformers, Lord Shaftesbury (1801-85) exerted a lasting impact surpassing all of his parliamentary contemporaries. Despite being born into one of England's aristocratic families, a combination of early childhood deprivation, an earnest Evangelical faith, and an abiding sense of noblesse oblige made him a champion of the poor. His seminal contribution to the Victorian factory reform movement represented just one of his manifold legacies. This contextual study of the Seventh Earl of Shaftesbury probes the mind behind the man to evaluate the religious and philosophical ideas, and their leading figures, that ignited his lifelong activism in the public sphere. This book reveals that far from representing a relic of the Victorian age, the Earl of Shaftesbury, whilst a conservative by predilection, was essentially a forward-looking and farsighted reformer. The principles that Shaftesbury espoused of industrial justice, class harmony, subsidiarity, volunteerism, selfless individualism, religious observance, strong families and private enterprise tempered by moderate state intervention are essentially those prized by liberal democracies today as the foundation for social cohesion, prosperity, and human flourishing.

Women Writers and Old Age in Great Britain, 1750-1850 Devoney Looser 2008-08-01 This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

The Way Up Is Down Marlana Graves 2020-07-14 For writer, professor, and activist Marlana Graves, formation and justice always intertwine on the path to a balanced life of both action and contemplation. Drawing on the rich traditions of Eastern and Western Christian saints, she describes the process of emptying herself that allows her to move upward toward God and become the true self that God calls her to.

The Unpublished Letters of William Wilberforce William Wiblerforce 2021-09-10 Record of Wilberforce's spiritual life

No Logo Naomi Klein 2000-01-15 "What corporations fear most are consumers who ask questions. Naomi Klein offers us the arguments with which to take on the superbrands." Billy Bragg from the bookjacket.

Hugo Grotius and International Relations Hedley Bull 1990-07-26 While the works of Hugo Grotius (1583-1645) have long been held in high esteem by international lawyers, this book addresses the broader, and neglected, theme of his contribution to the theoretical and practical aspects of international relations. It critically reappraises Grotius' thought, examining it in relation to his predecessors and in the context of the wars and controversies of his time, and assesses the strengths and weaknesses of the 'Grotian' tradition of thought - one which accepts the sovereignty of states but at the same time stresses the existence of shared values and the necessity of rules.

Hoosiers and the American Story Madison, James H. 2014-10-01 A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Promoting the Health of the Community Julie Ann St. John 2021-03-22 Community health workers (CHWs) are an increasingly important member of the healthcare and public health professions who help build primary care capacity. Yet, in spite of the exponential growth of CHW interventions, CHW training programs, and CHW certification and credentialing by state agencies, a gap persists in the literature regarding current CHW roles and skills, scope of practice, CHW job settings, and national standards. This collection of contributions addresses this gap by providing information, in a single volume, about CHWs, the roles CHWs play as change agents in their communities, integration of CHWs into healthcare teams, and support and recognition of the CHW profession. The book supports the CHW definition as defined by the American Public Health Association (APHA), Community Health Worker Section (2013), which states, "A community health worker is a frontline public health worker who is a trusted member of and/or has an unusually close understanding of the community served." The scope of the text follows the framework of the nationally recognized roles of CHWs that came out of a national consensus-building project called "The Community Health Worker (CHW) Core Consensus (C3) Project". Topics explored among the chapters include: Cultural Mediation Among Individuals, Communities, and Health and Social Service Systems Care Coordination, Case Management, and System Navigation Advocating for Individuals and Communities Building Individual and Community Capacity Implementing Individual and Community Assessments Participating in Evaluation and Research Uniting the Workforce: Building Capacity for a National Association of Community Health Workers Promoting the Health of the Community is a must-have resource for CHWs, those interested in CHW scope of practice and/or certification/credentialing, anyone interested in becoming a CHW, policy-makers, CHW payer systems, CHW supervisors, CHW employers, CHW instructors/trainers, CHW advocates/supporters, and communities served by CHWs.

Extraordinary Women In History Leah Gail 2021-04-12 Discover these remarkable women throughout history with their amazing contributions. Be inspired by their courage, tenacity, dedication, and unwavering resolve to make a difference in big and small ways. We've all heard stories about women who made history from all walks of life, but rarely have we heard about the female daredevils, pioneering innovators, radical reformers, dedicated activists, leaders, wordsmiths, artists, veterans, and others like the women highlighted in this book. Barriers aren't there to stop progress but are meant to be broken. Extraordinary Women in History: 70 Remarkable Women who Made a Difference, Inspired, & Broke Barriers showcases some of the greatest women in history, paying homage to these trailblazers and will encourage everyone from all walks of life to dream big, never give up, and believe that barriers aren't there to stop progress but are meant to be broken. Inside this book, you'll learn about these female role models including some of the following: Junko Tabei the first female to reach the summit of Mount Everest. Harriet Tubman an icon for anti-slavery. Empress Suiko the first female regnant in Japan's recorded history. Hattie McDaniel the first African American to win an Oscar. Irena Sendler rescued 2,500 Jewish children in World War II. Gudrid Thorbjarnardóttir was the most travelled woman of the Middle Ages. So what are you waiting for? Grab a copy now, scroll up, click "Buy Now" and be inspired, be encouraged by these women who made a difference.

Organic Church Neil Cole 2010-06-15 "Neil Cole is a true trailblazer for today's church. His story will inspire you and equip you to experience the living Christ in community." —Jonathan S. Campbell, author of The Way of Jesus Churches have tried all kinds of ways to attract new and younger members—revised vision statements, hipper worship, contemporary music, livelier sermons, bigger and better auditoriums. But there are still so many people who aren't being reached, who don't want to come to church. And the truth is that attendance at church on Sundays does not necessarily transform lives; God's presence in our hearts is what changes us. Leaders and laypeople everywhere are realizing that they need new and more powerful ways to help them spread God's Word. According to international church starter and pastor Neil Cole, if we want to connect with young people and those who are not coming to church, we must go where people congregate. Cole shows readers how to plant the seeds of the Kingdom of God in the places where life happens and where culture is formed—restaurants, bars, coffeehouses, parks, locker rooms, and neighborhoods. Organic Church offers a hands-on guide for demystifying this new model of church and shows the practical aspects of implementing it. "Neil Cole expertly places a thrilling invitation before us to join probably the most exciting spiritual pilgrimage going on today: the global migration of a church on the way back home. Come and dial in!" —Wolfgang Simson, author of Houses that Change the World **Trailblazers: Simone Biles** Sally J. Morgan 2020-05-05 Bring history home with you and meet some of the world's greatest game changers! Get inspired by the true story of the most award-winning American gymnast. This biography series is for kids who loved Who Was? and are ready for the next level. In August 2016, American gymnast Simone Biles won four Olympic gold medals! Her irresistible smile, fierce determination, and unbeatable strength have made her a favorite around the world. Find out how the girl who taught herself to flip on her backyard trampoline blazed a trail in gymnastics. Trailblazers is a biography series that celebrates the lives of amazing pioneers, past and present, from all over the world. Get inspired by more Trailblazers: Neil Armstrong, Jackie Robinson, Jane Goodall, Harriet Tubman, Albert Einstein, Beyoncé, and Simone Biles. What kind of trail will you blaze?

Charged Emily Bazelon 2020-05-05 NEW YORK TIMES BESTSELLER • A renowned journalist and legal commentator exposes the unchecked power of the prosecutor as a driving force in America's mass incarceration crisis—and charts a way out. "An important, thoughtful, and thorough examination of criminal justice in America that speaks directly to how we reduce mass incarceration."—Bryan Stevenson, author of Just Mercy "This harrowing, often enraging book is a hopeful one, as well, profiling innovative new approaches and the frontline advocates who champion them."—Matthew Desmond, author of Evicted **FINALIST FOR THE LOS ANGELES TIMES BOOK PRIZE • SHORTLISTED FOR THE J. ANTHONY LUKAS BOOK PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Public Library • Library Journal • Publishers Weekly • Kirkus Reviews** The American criminal justice system is supposed to be a contest between two equal adversaries, the prosecution and the defense, with judges ensuring a fair fight. That image of the law does not match the reality in the courtroom, however. Much of the time, it is prosecutors more than judges who control the outcome of a case, from choosing the charge to setting bail to determining the plea bargain. They often decide who goes free and who goes to prison, even who lives and who dies. In *Charged*, Emily Bazelon reveals how this kind of unchecked power is the underreported cause of enormous injustice—and the missing piece in the mass incarceration puzzle. *Charged* follows the story of two young people caught up in the criminal justice system: Kevin, a twenty-year-old in Brooklyn who picked up his friend's gun as the cops burst in and was charged with a serious violent felony, and Noura, a teenage girl in Memphis indicted for the murder of her mother. Bazelon tracks both cases—from arrest and charging to trial and sentencing—and, with her trademark blend of deeply reported narrative, legal analysis, and investigative journalism, illustrates just how criminal prosecutions can go wrong and, more important, why they don't have to. Bazelon also details the second chances they prosecutors can extend, if they choose, to Kevin and Noura and so many others. She follows a wave of reform-minded D.A.s who have been elected in some of our biggest cities, as well as in rural areas in every region of the country, put in office to do nothing less than reinvent how their job is done. If they succeed, they can point the country toward a different and profoundly better future.

Disenfranchised Joel Andreas 2019-09-02 In the decades following World War II, factories in many countries not only provided secure employment and a range of economic entitlements, but also recognized workers as legitimate stakeholders, enabling them to claim rights to participate in decision making and hold factory leaders accountable. In recent decades, as employment has become more precarious, these attributes of industrial citizenship have been eroded and workers have increasingly been reduced to hired hands. As Joel Andreas shows in *Disenfranchised*, no country has experienced these changes as dramatically as China. Drawing on a decade of field research, including interviews with both factory workers and managers, Andreas traces the changing political status of workers inside Chinese factories from 1949 to the present, carefully analyzing how much power they have actually had to shape their working conditions.

The Dual Penal State Markus D. Dubber 2018-09-04 In *The Dual Penal State*, Markus Dubber addresses the rampant use of penal power in Western liberal democracies. The interference with the autonomy of the very persons upon whose autonomy the legitimacy of state power is supposed to rest is systemically normalized, rather than continuously scrutinized. The fundamental challenge of the penal paradox—the prima facie illegitimacy of modern punishment—remains unaddressed and unresolved. Focusing on the United States and Germany, and drawing on his influential account of the patriarchal origins of police power, Dubber exposes the persistence of a two-sided criminal justice regime: the dual penal state. The dual penal state combines principled punishment of equals under the rule of law, on one side, with punitive discipline of others under the rule of police, on the other. Slavery has long played a central role in drawing the line between the two sides of the dual penal state. In Europe, the slave appears in the classic and still foundational accounts of liberal punishment (from Beccaria to Kant) as the paradigmatic other beyond the protection of law, not a legal subject but a mere object of the master's or the state's discretionary discipline. In America, the patriarchal power to police portrays the continuum from the antebellum slaveholder's whipping of his slaves in private and the racial terror perpetrated by slave patrols in public, to the apartheid regime of Jim Crow and the treatment of prisoners as "slaves of the state," and eventually to the late 20th century's systemic racial violence of the "war on crime" and the widespread killing of Black suspects by an increasingly militarized and armed police force that triggered the global Black Lives Matter movement.

King and the Other America Sylvie Laurent 2019-01-08 Shortly before his assassination, Martin Luther King Jr. called for a radical redistribution of economic and political power to transform the whole of society. In 1967, he envisioned and designed the Poor People's Campaign, an interracial effort that was carried out after his death. This campaign brought together impoverished Americans of all races to demand better wages, better jobs, better homes, and better education. *King and the Other America* explores this overlooked and obscured episode of the late civil rights movement, deepening our understanding of King's commitment to social justice and also of the long-term trajectory of the civil rights movement. Digging into earlier radical arguments about economic inequality across America, which King drew on throughout his entire political and religious life, Sylvie Laurent argues that the Poor People's Campaign was the logical culmination of King's influences and ideas, which have had lasting impact on young activists and the public. Fifty years later, growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign. This book draws the connections between King's perceptive thoughts on substantive justice and the ongoing quest for equality for all.

God's Bible Timeline Linda Finlayson 2020-11-06 With colour illustrations, pictures, and pull-out timelines, this history book brings the whole Bible to life! From Genesis to Revelation, from the beginning of time to the early church, from the first promise of a Saviour to the promise that one day that Saviour will return - this book spans all of time. Find out about how the God of all time spoke to his people and still speaks today through his Word.
