entrepreneur or a small business owner, creating a marketing plan is very important because the better prepared you are, the better your marketing campaigns will do. In this book, you get a marketing plan template and two examples of marketing plans. You also get practical advice on how to plan and fill out every section of a marketing plan document. Go ahead and get this book, and let's help you create better marketing plans which will improve your company's overall marketing success. For what kind of businesses can you create a marketing plan using this book? With the strategies in this marketing book, you can create a business plan for a restaurant or diner, coffee shop, barbershop, nightclub, local event, business selling t-shirts, most

freelancer or a local concierge. Also recently added in the last update of this book is a marketing plan sample since many people commented that they wanted a marketing plan example. Although for my taste as an entrepreneur, I rather give you lots of practical planning strategies and theory that you can use in the real world instead of having a marketing plan template or workbook to write your marketing plan from. After all, a marketing plan is just a document. But to make your business a success, you will have to do it in the real world. So when you try to figure out how to create a business plan, don't just focus on the marketing plan document. Instead, focus on a plan for the real world with actionable and effective strategies.

businesses, and how to steer you clear of pitfalls and give you the proper fundamentals to maximize your chances of success. This book will help you by giving you step by step advice on almost every step you must take as you go from business ideas to eventually start your business. In my research, I noted every question entrepreneurs ever asked (my apps allow entrepreneurs to ask me questions) as they were going from business ideas and starting their businesses. I grouped those questions into general topics and subtopics. Those topics and subtopics became the chapters and subchapters of this book. The book starts by covering business idea fundamentals such as: - How to get business ideas - How to protect business ideas, and
