Muhammad: A Very Short Introduction Jonathan A.C. Brown 2011-03-24 Drawing on traditional Muslim sources, Michael Cook describes Muhammad's life and teaching. He also attempts to stand back from this traditional picture to show how far it is historically justified.

Philosophy in the Islamic World: A Very Short Introduction Peter Adamson 2015-09-24 In the history of philosophy, few topics are so relevant to today's cultural and political landscape as philosophy in the Islamic world. Yet, this remains one of the lesser-known philosophical traditions. In this Very Short Introduction, Peter Adamson explores the history of philosophy among Muslims, Jews, and Christians living in Islamic lands, from its historical background to thinkers in the twentieth century. Introducing the main philosophical themes of the Islamic world, Adamson integrates ideas from the Islamic and Abrahamic faiths to consider the broad philosophical questions that continue to invite debate: What is the relationship between reason and religious belief? What is the possibility of proving God's existence? What is the nature of knowledge? Drawing on the most recent research in the field, this book challenges the assumption of the cultural decline of philosophy and science in the Islamic world by demonstrating its rich heritage and overlap with other faiths and philosophies.

Religion in Education Joyce Miller 2013 This volume explores numerous themes (including the influence of ethnography on religious education research and pedagogy, the interpretive approach to religious education, the relationship between research and classroom practice in religious education), providing a critique of contemporary religious education and exploring the implications of this critique for initial and continuing teacher education.

The Vision of Islam Sachiko Murata 2017-05-24 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that

operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi`a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!

Islam Malise Ruthven 2000 Islam, Muslims and Islamism - The Quran or Koran and the prophet - The Shari'a and its consequences - Women and family - The two jihads - Sufis.

Civil Democratic Islam Cheryl Benard 2004-03-25 In the face of Islam's own internal struggles, it is not easy to see who we should support and how. This report provides detailed descriptions of subgroups, their stands on various issues, and what those stands may mean for the West. Since the outcomes can matter greatly to international community, that community might wish to influence them by providing support to appropriate actors. The author recommends a mixed approach of providing specific types of support to those who can influence the outcomes in desirable ways.

The Koran: A Very Short Introduction Michael Cook 2000-02-24 This Very Short Introduction explores the significance of the Koran both in the modern world and in traditional Muslim culture. Michael Cook provides a lucid and direct account of the Koran as codex, as scripture, as liturgy, and as the embodiment of truth, and examines its means of formation and dissemination. He also discusses issues of interpretation for certain key verses, demonstrating that fecundity of the text for readers throughout the world.

Egyptian Myth: A Very Short Introduction Geraldine Pinch 2004-04-22 This text explains the cultural and historical background to the fascinating and complex

world of Egyptian myth, with each chapter dealing with a particular theme.

African History: A Very Short Introduction John Parker 2007-03-22 Intended for those interested in the African continent and the diversity of human history, this work looks at Africa's past and reflects on the changing ways it has been imagined and represented. It illustrates key themes in modern thinking about Africa's history with a range of historical examples.

The Tenacity of Unreasonable Beliefs Solomon Schimmel 2008-08-15 The Tenacity of Unreasonable Beliefs is a passionate yet analytical critique of Jewish, Christian, and Muslim scriptural fundamentalists. Schimmel examines the ways in which otherwise intelligent and bright Jews, Christians, and Muslims defend their belief in the divine authorship of the Bible or of the Koran, and other religious beliefs derived from those claims, against overwhelming evidence and argument to the contrary from science, scholarship, common sense, and rational analysis. He also examines the motives, fears, and anxieties of scriptural fundamentalists that induce them to cling so tenaciously to their unreasonable beliefs. Schimmel begins with reflections on his own journey from commitment to Orthodox Judaism, through doubts about its theological dogmas and doctrines, to eventual denial of their truth. He follows this with an examination of theological and philosophical debates about the proper relationships between faith, reason, and revelation. Schimmel then devotes separate chapters to Jewish, Christian, and Muslim scriptural fundamentalism, noting their similarities and differences. He analyzes in depth the psychological and social reasons why people acquire, maintain, and protect unreasonable religious beliefs, and how they do so. Schimmel also discusses unethical and immoral consequences of scriptural fundamentalism, such as gender inequality, homophobia, lack of intellectual honesty, self-righteousness, intolerance, propagation of falsehood, and in some instances, the advocacy of violence and terrorism. He concludes with a discussion of why, when, and where it is appropriate to critique, challenge, and combat scriptural fundamentalists. The Tenacity of Unreasonable Beliefs is thoughtful and provocative, written to encourage self-reflection and self-criticism, and to stimulate and to enlighten all who are interested in the psychology of religion and in religious fundamentalism.

Political Thought in Islam Nelly Lahoud 2013-01-11 This book is a study of political thought in Islam from the viewpoint of the history of ideas and the relevance of these ideas to contemporary Arabic political discourse. The author examines the use of the classical Islamic tradition (turath) and its religious and philosophical components by the three dominant Arabic political discourses: the Islamists, apologists and intellectuals. The book analyzes the different assumptions advanced by these discourses and the way they propose to apply or restore the turath in the present. Exploring connections between the medieval Islamic tradition and current debates, this book is essential reading for advanced students and researchers of Islam and political thought.

Russell on Religion Bertrand Russell 1999 Bertrand Russell's religious convictions were controversial, and one of his best selling titles is 'Why I am not a Christian'. This is a comprehensive and coherent survey of Russell on religion, with notes for students.

The Wiley Blackwell Companion to the Qur'an Andrew Rippin 2017-05-30 Fully revised and updated, the second edition of The Wiley Blackwell Companion to the Qur'an offers an ideal resource for anyone who wishes to read and understand the Qur'an as a text and as a vital component of Muslim life. While retaining the literary approach to the subject, this new edition extends both the theological and philosophical approaches to the Qur'an. Edited by the noted authority on the Qur'an, Andrew Rippin, and Islamic Studies scholar Jawid Mojaddedi, and with contributions from other internationally renowned scholars, the book is comprehensive in scope and written in clear and accessible language. New to this edition is material on modern exegesis, the study of the Qur'an in the West, the relationship between the Qur'an and religions prior to Islam, and much more. The Wiley Blackwell Companion to the Qur'an is a rich and wide-ranging resource, exploring the Qur'an as both a religious text and as a work of literature.

Faith Schools, Tolerance and Diversity Helen Everett 2018-03-28 This book examines the effects of faith schools on social cohesion and inter-ethnic relations. Faith schools constitute approximately one third of all state-maintained schools and two fifths of the independent schools in England. Nevertheless, they have historically been, and remain, controversial. In the current social climate, questions have been raised about the ability of faith schools to promote Community Cohesion and, included within that, their ability to promote tolerance. This book explores one aspect of the debate by examining the effect that faith schools have on their students' attitudes of tolerance. As well as asking what differences exist between students in faith and non-faith schools, it also looks at which aspects of the schools might be affecting the students and their attitudes towards different minorities. The book is a must-read for students and researchers in the fields of education and religious studies, as well as anyone with an interest in the place of faith schools in a modern multicultural society.

The Bible: a Very Short Introduction John Riches 2021 This study explores the importance of the Bible in different communities and cultures and attempts to explain why it has such a variety of uses and interpretations.

Islamic History: A Very Short Introduction Adam J. Silverstein 2010-01-21 Does history matter? This book argues not that history matters, but that Islamic history does. This Very Short Introduction introduces the story of Islamic history; the controversies surrounding its study; and the significance that it holds - for Muslims and for non-Muslims alike. Opening with a lucid overview of the rise and spread of Islam, from the seventh to twenty first century, the book charts the evolution of what was originally a small, localised community of believers into an international religion with over a billion adherents. Chapters are also dedicated to the peoples - Arabs, Persians, and Turks - who shaped Islamic history, and to three representative institutions - the mosque, jihad, and the caliphate - that highlight Islam's diversity over time. Finally, the roles that Islamic history has played in both religious and political contexts are analysed, while stressing the unique status that history enjoys amongst Muslims, especially compared to its lowly place in Western societies where history is often seen as little more than something that is not to be repeated. Some of the questions that will be answered are: · How did Islam arise from the obscurity of seventh century Arabia to the headlines of twenty first century media? · How do we know what we claim to know about Islam's rise and development? · Why does any of this matter, either to Muslims or to non-Muslims? ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Bin Laden Papers Nelly Lahoud 2022-04-12 An inside look at al-Qaeda from 9/11 to the death of its founder—told through the words of Bin Laden and his closest circle Usama Bin Laden's greatest fear was not capture or death, but the exposure of al-Qaeda's secrets. At great risk to themselves and the entire mission, the U.S. Special Operations Forces, who carried out the Abbottabad raid that killed Bin Laden, took an additional eighteen minutes to collect Bin Laden's hard drives and thereby expose al-Qaeda's secrets. In this ground-breaking book, Nelly Lahoud dives into Bin Laden's files and meticulously distills the nearly 6,000 pages of Arabic private communications. For the first time, al-Qaeda's closely guarded secrets are laid bare, shattering misconceptions and revealing how and what Bin Laden communicated with his associates, his plans for future attacks, and al-Qaeda's hostility toward countries such as Saudi Arabia, Iran, and Pakistan. Lahoud presents firsthand accounts of al-Qaeda from 9/11 until the elimination of Bin Laden, as told through his own words and those of his family and closest associates.

Sophie's World Jostein Gaarder 2007-03-20 One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Philosophy in the Islamic World Peter Adamson 2015 In this introduction, Peter Adamson sheds light on the philosophical ideas that emerged in the Islamic world. From the beginnings of the tradition to the twenty first century, he traces the history of philosophy among those living in Islamic lands, highlighting its key themes and ongoing relevance to contemporary concerns.

Magic: A Very Short Introduction Owen Davies 2012-01-26 A wide-ranging overview of how magic has been defined, understood and practiced over the millennia introduces it in today's world as a real force that helps people overcome misfortune, poverty and illness. By the author of Grimoires: A History of Magic Books. Original.

Islam in the World Malise Ruthven 2000 This work is an introduction to the Islamic world - past and present -and to the challenges it presents to western society. Fully revised for this second edition, it includes chapters on the spiritual richness of the religion, the law and how it reflects attitudes to society and to women in particular, as well as an incisive analysis of various Muslim sects, their links and conflicts. A new chapter discusses such issues as the Rushdie affair, the reinterpretation of the doctrine of Jihad to encompass terrorism, and the internal strife that countries such as Algeria, Iran, Israel and Egypt are experiencing, bringing this stimulating analysis up to the present day.

The New Testament as Literature: A Very Short Introduction Kyle Keefer 2008-10-24 The words, phrases, and stories of the New Testament permeate the

English language. Indeed, this relatively small group of twenty-seven works, written during the height of the Roman Empire, not only helped create and sustain a vast world religion, but also have been integral to the larger cultural dynamics of the West, above and beyond particular religious expressions. Looking at the New Testament through the lens of literary study, Kyle Keefer offers an engrossing exploration of this revered religious text as a work of literature, but also keeps in focus its theological ramifications. Unique among books that examine the Bible as literature, this brilliantly compact introduction offers an intriguing double-edged look at this universal text--a religiously informed literary analysis. The book first explores the major sections of the New Testament--the gospels, Paul's letters, and Revelation--as individual literary documents. Keefer shows how, in such familiar stories as the parable of the Good Samaritan, a literary analysis can uncover an unexpected complexity to what seems a simple, straightforward tale. At the conclusion of the book, Keefer steps back and asks questions about the New Testament as a whole. He reveals that whether read as a single document or as a collection of works, the New Testament presents readers with a wide variety of forms and viewpoints, and a literary exploration helps bring this richness to light. A fascinating investigation of the New Testament as a classic literary work, this Very Short Introduction uses a literary framework--plot, character, narrative arc, genre--to illuminate the language, structure, and the crafting of this venerable text. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

A Little History of the World E. H. Gombrich 2014-10-01 E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

Fundamentalism Malise Ruthven 2005-03-24 Since the end of the Cold War fundamentalism has been seen as the major threat to world peace and prosperity, a concern that was exacerbated by the events of 9/11, and the 'War against Terrorism'. But what does 'fundamentalism' really mean? Since it was coined by American Protestant evangelicals in the 1920s, the word has expanded its meaning to include radical conservatives or ideological purists in many spheres of activity, not all of them religious. Modern applications of fundamentalism include Islamist radicals in the Muslim world, the militant Israeli settlers who oppose them as well as Sikh, Hindu and even Buddhist nationalists who seek to justify their political agendas by reference to divine edicts or religious tradition. This exciting new book tackles the polemic and stereotypes surrounding this fascinating subject.

Textual Criticism and Qur'an Manuscripts Keith E. Small 2011-04-22 This unique work takes a method of textual analysis commonly used in studies of ancient Western and Eastern manuscripts and applies it to twenty-one early Qur'an manuscripts. Keith Small analyzes a defined portion of text from the Qur'an with two aims in view: to recover the earliest form of text for this portion, and to trace the historical development of this portion to the current form of the text of the Qur'an. Small concludes that though a significantly early edited form of the consonantal text of the Qur'an can be recovered, its original forms of text cannot be obtained. He also documents the further editing that was required to record the Arabic text of the Qur'an in a complete phonetic script, as well as providing an explanation for much of the development of various recitation systems of the Qur'an. This controversial, thought-provoking book provides a rigorous examination into the history of the Qur'an and will be of great interest to Quranic Studies scholars.

Thinking Biblically about Islam Ida Glaser 2016-02-14 In this careful double exposition of the Bible and Islam, Ida Glaser and Hannah Kay emphasise godly attitudes, loving action and a deep appreciation of God's grace and goodness as essential traits of any Christian. The authors walk the reader through two underlying frameworks necessary to think biblically about Islam. The first is to understand the dynamic of religion in people's lives through Genesis 4-11's account of the world after 'the fall', and hence to understand Bible stories within the religious contexts in which they occurred. The second is at the heart of the book - the idea that Islam inverts the exaltation of Christ above the prophets in the narrative of the transfiguration in Luke 9 and 10. Examining the themes of the land, zeal, law and the cross in these chapters of Luke's Gospel and the Old Testament stories of Moses and Elijah, we are led to better understand the Bible, Islam and God's heart towards Muslims.

Archaeology: A Very Short Introduction Paul Bahn 2012-08-30 This entertaining Very Short Introduction reflects the enduring popularity of archaeology - a subject which appeals as a pastime, career, and academic discipline, encompasses the whole globe, and surveys 2.5 million years. From deserts to jungles, from deep caves to mountain tops, from pebble tools to satellite photographs, from excavation to abstract theory, archaeology interacts with nearly every other discipline in its attempts to reconstruct the past. In this new edition, Paul Bahn brings the text up to date, including information about new discoveries and interpretations in the field, and highlighting the impact of developments such as the potential use of DNA and stable isotopes in teeth, as well the effect technology and science are having on archaeological exploration. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Islamic Law Mashood A. Baderin 2021 Islamic law is one of the major legal systems in the world today, yet it is often misunderstood, particularly in the West. This book provides a critical overview of the theory, scope, and practice of Islamic law, taking into account both classical and modern scholarly perspectives in examining the various facets of this key legal system.

Classical Islam Lecturer in Arabic and Islamic Studies Norman Calder 2004-03 This sourcebook presents more than fifty new translations of key Islamic texts. Edited and translated by three leading specialists it illustrates the growth of Islamic thought from its seventh-century origins to the end of the medieval period.

The Koran: A Very Short Introduction Michael Cook 2000-02-25 The Koran has constituted a remarkably strong core of identity and continuity for a religious tradition that is now in its fifteenth century. This Very Short Introduction explores the significance of the Koran both in the modern world and in traditional Muslim culture. Michael Cook provides a lucid and direct account of the Koran as codex, as scripture, as liturgy, and as the embodiment of truth, and examines its means of formation and dissemination. He also discusses issues of interpretation for certain key verses, demonstrating that fecundity of the text for readers throughout the world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Muhammad Michael Cook 1983 Just over a sixth of the world's population subscribes to the Muslim belief that `there is no god but God, and Muhammad is his Messenger'. Michael Cook gives an incisive account of the man who inspired this faith, drawing on the traditional Muslim sources to describe Muhammad's life andteaching. He also attempts to stand back from this traditional picture to question how far it is historically justified.

The Tenth Parallel Eliza Griswold 2010-08-17 A riveting investigation of the jagged fault line between the Christian and Muslim worlds The tenth parallel—the line of latitude seven hundred miles north of the equator—is a geographical and ideological front line where Christianity and Islam collide. More than half of the world's 1.3 billion Muslims live along the tenth parallel; so do sixty percent of the world's 2 billion Christians. Here, in the buzzing megacities and swarming jungles of Africa and Asia, is where the two religions meet; their encounter is shaping the future of each faith, and of whole societies as well. An award-winning investigative journalist and poet, Eliza Griswold has spent the past seven years traveling between the equator and the tenth parallel: in Nigeria, the Sudan, and Somalia, and in Indonesia, Malaysia, and the Philippines. The stories she tells in The Tenth Parallel show us that religious conflicts are also conflicts about land, water, oil, and other natural resources, and that local and tribal issues are often shaped by religious ideas. Above all, she makes clear that, for the people she writes about, one's sense of God is shaped by one's place on earth; along the tenth parallel, faith is geographic and demographic. An urgent examination of the relationship between faith and worldly power, The Tenth Parallel is an essential work about the conflicts over religion, nationhood

and natural resources that will remake the world in the years to come.

Exploring the Qur'an Muhammad Abdel Haleem 2017-04-21 The teachings, style and impact of the Qur'an have always been matters of controversy, among both Muslims and non-Muslims. But in a modern context of intercultural sensitivity, what the Qur'an says and means are perhaps more urgent questions than ever before. This major new book by one of the world's finest Islamic scholars responds to that urgency. Building on his earlier groundbreaking work, the author challenges misinterpretations of particular Qur'anic verses from whatever quarter. He addresses the infamous 'sword' verse, frequently cited as a justification for jihad. He also questions the 'tribute' verse, associated with the Muslim state subjugating Jews and Christians; and the idea of Paradise in the Qur'an, often viewed by the West as emphasising merely physical pleasures, or used by Islamic fighters as their just reward for holy war. The author argues that wrenching the verses out of the context of the whole has led to dangerous ideologies being built on isolated phrases which have then assumed afterlives of their own. This nuanced, holistic reading has vital interfaith ramifications.

Introduction to Information Retrieval Christopher D. Manning 2008-07-07 Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

The Syro-Aramaic Reading of the Koran Christoph Luxenberg 2007 No Marketing Blurb

The Bible John Kenneth Riches 2000 This study explores the importance of the Bible in different communities and cultures and attempts to explain why it has such a variety of uses and interpretations.

A History of Islamic Societies Ira M. Lapidus 2014-10-13 An accessible worldwide history of Muslim societies provides updated coverage of each country and region, in a volume that discusses their origins and evolution while offering insight into historical processes that shaped contemporary Islam and surveying its growing influence. Simultaneous. (Social Science)

Following Muhammad Carl W. Ernst 2005-10-12 Avoiding the traps of sensational political exposes and specialized scholarly Orientalism, Carl Ernst introduces readers to the profound spiritual resources of Islam while clarifying diversity and debate within the tradition. Framing his argument in terms of religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important contemporary issues such as gender and veiling, state politics, and science and religion.

Atheism: A Very Short Introduction Julian Baggini 2003-06-26 Do you think of atheists as immoral pessimists who live their lives without meaning, purpose, or values? Think again! Atheism: A Very Short Introduction sets out to dispel the myths that surround atheism and show how a life without religious belief can be positive, meaningful, and moral.

A Brief Illustrated Guide to Understanding Islam I. A. Ibrahim 1997 The book provides information on the evidence for the truth of Islam, some benefits of Islam, and general information on Islam.
