[The Great Tradition of Hopi Katsina Carvers](#) Barry Walsh 2019 "Hopi Katsina carvings have long fascinated diverse audiences due to their spiritual meaning, their colorful artistry, and their connection to Hopi Indian culture. This book reviews the evolution of katsinam from 1880 to the present. The emphasis is on the life stories of the carvers in relation to their katsina art. The book begins with work from the 1880s, which is anonymous. By the 1920s and 30s, certain artists, such as Wilson Tawaquaptewa and Otto Pentewa, developed such distinctive styles that their work became easily identifiable. Their fascinating life stories are told with details provided by surviving relatives. In the 1940s, Jimmie Kewanwytewa began signing his work, which set a precedent most others have since followed. His biography, and those of his contemporaries, are reviewed with examples of their seminal work provided. The katsina carving tradition is very much alive today. This book features many of the finest living carvers. Some work in a very time-honored traditional style; others are innovators, moving in strikingly new directions. All of these katsina artists shared their autobiographies with Barry Walsh; they had full control over what was published. Dr. Walsh's daughter, Anna, a professional photographer and videographer, took the majority of the more than 150 photographs in the book"--

**A Fiery Gospel** Richard M. Gamble 2019-05-15 Since its composition in Washington's Willard Hotel in 1861, Julia Ward Howe's "Battle Hymn of the Republic" has been used to make America and its wars sacred. Few Americans reflect on its violent and redemptive imagery, drawn freely from prophetic passages of the Old and New Testaments, and fewer still think about the implications of that apocalyptic language for how Americans interpret who they are and what they owe the world. In *A Fiery Gospel*, Richard M. Gamble describes how this camp-meeting tune, paired with Howe's evocative lyrics, became one of the most effective instruments of religious nationalism. He takes the reader back to the song's origins during the Civil War, and reveals how those political and military circumstances launched the song's incredible career in American public life. Gamble deftly considers the idea behind the song—humming the tune, reading the music for us—all while reveling in the multiplicity of meanings of and uses to which Howe's lyrics have been put. "The Battle Hymn of the Republic" has been versatile enough to match the needs of Civil Rights activists and conservative nationalists, war hawks and peaceniks, as well as Europeans and Americans. This varied career shows readers much about the shifting shape of American righteousness. Yet it is, argues Gamble, the creator of the song herself—her Abolitionist household, Unitarian theology, and Romantic and nationalist sensibilities—that is the true conductor of this most American of war songs. *A Fiery Gospel* depicts most vividly the surprising genealogy of "The Battle Hymn of the Republic," and its sure and certain position as a cultural piece in the uncertain amalgam that was and is American civil religion.

[The Rise of Liberal Religion](#) Matthew Hedstrom 2013 Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise-most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture-particularly the religious middlebrow of mid-century-as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book culture not only shows how reading

and book buying were critical twentieth-century religious practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

[My Treasured Classic Story Collection](#) 2018-06 My Treasured Classic Story Collection features 6 classic stories including Peter Pan, The Wind in the Willows, Black Beauty, Treasure Island, Alice in Wonderland and The Wizard of Oz. These stories are accompanied by beautiful illustrations that will make this collection a new story time favourite for everyone! There are lots of great reasons to read the classics of literature. As well as knowing that you're reading a great book, proven by the test of time, you're also expanding your vocabulary, improving your intellect, and learning about history and what life used to be like for people just like us. Reading a classic means you're listening directly to a voice from the past, speaking straight to you and other readers today. Enjoy these classic tales and become part of a great tradition of reading and sharing stories that have entertained and captivated readers for generations!

[Phonics from A to Z](#) Wiley Blevins 1998 Provides an explanation of phonics, a method of reading instruction that focuses on the relationship between sounds and their spellings, and features over one hundred activities for the classroom, as well as sample lessons, word lists, and teaching strategies.

[On Reading Well](#) Karen Swallow Prior 2018-09-04 □ Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue, says acclaimed author Karen Swallow Prior. In this book, she takes readers on a guided tour through works of great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O'Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. The book includes end-of-chapter reflection questions geared toward book club discussions, original artwork throughout, and a foreword by Leland Ryken. The hardcover edition was named a Best Book of 2018 in Religion by Publishers Weekly. "[A] lively treatise on building character through books."-- Publishers Weekly (starred review)

**Norms & Nobility** David V. Hicks 1999 A reissue of a classic text, *Norms and Nobility* is a provocative reappraisal of classical education that offers a workable program for contemporary school reform. David Hicks contends that the classical tradition promotes a spirit of inquiry that is concerned with the development of style and conscience, which makes it an effective and meaningful form of education. Dismissing notions that classical education is elitist and irrelevant, Hicks argues that the classical tradition can meet the needs of our increasingly technological society as well as serve as a feasible model for mass education.

[The Liberal Arts Tradition](#) Bruce A. Kimball 2010-05-13 Ranging from Plato in antiquity to Martha Nussbaum in the present era, the authors of the seventy readings included in *The Liberal Arts Tradition* present significant and exemplary views addressing liberal arts education over the course of its history, particularly in the United States. Most of the documents are newly translated or no longer available in print. Arranged chronologically, each selection is accompanied by an informative introduction and extensive explanatory notes discussing its place within the liberal arts tradition. Based upon the author's twenty-five years of experience leading seminars concerning the history of liberal education, this collection presents a uniquely comprehensive and salient set of documents, while incorporating the neglected portrayal and discussion of women within the history of the liberal arts.

[The Great Tradition](#) Richard M. Gamble 2009-01-15 Frustrated with the continuing educational crisis, concerned parents, teachers, and students sense that true reform requires more than innovative classroom technology, standardized tests, or skills training. This anthology reconstructs a centuries-long conversation

about the goals, conditions, and ultimate value of true education.

**Great Books of the Christian Tradition** Terry W. Glaspey 1996-01-01 Recommends both religious writings and books that reflect Christian values, and lists books suited to discussion groups and sharing with children

*Forgotten Heroes of American Education* J. Wesley Null 2006-01-01 This book is titled Forgotten Heroes of American Education because it contains representative writings by significant educators who challenged mainstream thinking. The editors of this volume believe that the work of these thoughtful and important educators deserves to be remembered. They have been forgotten because in the great pedagogical battles of the twentieth century, they lost. Time and again, they battled with their Progressivist colleagues over the purpose and goals of elementary and secondary education. Because they lost the arguments, their role as leaders and thinkers was almost completely ignored by historians of education, who identified with the winners. We think this was a grand mistake. To honor the legacy of these eight educators, we have written this book and entitled it Forgotten Heroes of American Education.

*The Liberal Arts Tradition* Kevin Wayne Clark 2013 "This book introduces readers to a paradigm for understanding classical education that transcends the familiar three-stage pattern of grammar, logic, and rhetoric. Instead, this book describes the liberal arts as a central part of a larger and more robust paradigm of classical education that should consist of piety, gymnastic, music, liberal arts, philosophy, and theology. The book also recovers the means by which classical educators developed more than just intellectual virtue (by means of the seven liberal arts) by holistically cultivating the mind, body, will, and affections."--Back cover.

[The Critical Tradition](#) David H. Richter 1998 02 The most comprehensive and up-to-date anthology of major documents in literary criticism and theory from Plato to the present, with a highly praised critical apparatus, including introductions, headnotes, bibliographies, and glosses.

**Stories Behind the Great Traditions of Christmas** Ace Collins 2010-05-04 Ever wonder where some of our unique and meaningful Christmas traditions come from? Why are red and green popular colors of the season? Why is exchanging gifts a family tradition? Stories Behind the Great Traditions of Christmas reveals the people, places, and events that shaped the best-loved customs of this merriest of holidays and how they all point to Christ. Stories Behind the Great Traditions of Christmas includes insights about: Gift giving Christmas trees Caroling Nativity scenes Yule logs Stockings Advent wreaths Mistletoe Holly, and more! This is the perfect gift to infuse your celebration with spiritual insights, true-life tales, and captivating legends to intrigue you and your family. Bring new luster and depth to your modern traditions while you celebrate Jesus' birth. The traditions of Christmas lend beauty, awe, and hope to the holiday, causing people all over the world to anticipate it with joy. Warm your heart as you rediscover the true and eternal significance of Christmas.

*Contemplating God with the Great Tradition* Craig A. Carter 2021-04-20 Southwestern Journal of Theology 2021 Book of the Year Award (Theological Studies) 2021 Book Award, The Gospel Coalition (Honorable Mention, Academic Theology) Following his well-received *Interpreting Scripture with the Great Tradition*, Craig Carter presents the biblical and theological foundations of trinitarian classical theism. Carter, a leading Christian theologian known for his provocative defenses of classical approaches to doctrine, critiques the recent trend toward modifying or rejecting classical theism in favor of modern "relational" understandings of God. The book includes a short history of trinitarian theology from its patristic origins to the modern period, and a concluding appendix provides a brief summary of classical trinitarian theology. Foreword by Carl R. Trueman.

**Trash Culture** Richard Keller Simon 1999-11-23 Seinfeld as a contemporary adaptation of Etherege's Restoration comedy of manners *The Man of Mode?* Friends as a reworking of Shakespeare's romantic comedy *Much Ado About Nothing?* Star Wars as an adaptation of Spenser's epic poem, *The Faerie Queene?* The popular culture that surrounds us in our daily lives bears a striking similarity to some of the great works of literature of the past. In television, movies, magazines, and advertisements we are exposed to many of the same stories as those critics who study the great books of Western literature, but we have simply been encouraged to look at those stories differently. In *Trash Culture*, Richard K. Simon examines the ways in which the great literature and cultural work of the past has been rewritten for today's consumer society, with supermarket tabloids such as *The National Enquirer* and celebrity gossip magazines like *People* serving as contemporary versions of the great dramatic tragedies of the past. Today's advertising repeats the tale of the Golden Age, but inverts the value system of a classic utopia; the shopping mall combines bits and pieces of the great garden styles of Western history, and now adds consumer goods; *Playboy* magazine revises Castiglione's Renaissance courtesy book, *The Book of the Courtier*; and *Cosmopolitan* magazine revises the women's coming-of-age novels of Jane Austen, Gustave Flaubert, and Edith Wharton. *Trash Culture* concludes that the great books are alive and well, but simply hidden from the critics. It argues for the linking of high and low for the study and appreciation of each form of literature, and the importance of teaching popular culture alongside books of the great tradition in order to understand the critical context in which the books appear.

[The Classical Tradition](#) Anthony Grafton 2010-10-25 The legacy of ancient Greece and Rome has been imitated, resisted, misunderstood, and reworked by every culture that followed. In this volume, some five hundred articles by a wide range of scholars investigate the afterlife of this rich heritage in the fields of literature, philosophy, art, architecture, history, politics, religion, and science.

[The great tradition : classic readings on what it means to be an educated human being](#) Richard M. Gamble (ed) 2007

**On Education, Formation, Citizenship and the Lost Purpose of Learning** Joseph Clair 2017-11-30 Reading Augustine presents concise, personal readings of St. Augustine of Hippo from leading philosophers and religion scholars. The looming crisis in higher education appears to be a matter of soaring costs and crushing student debt, but the problem is actually much deeper. It is a crisis of soul; a question of the very purpose of learning and the type of people that our educational system produces. Today, in the age of academic hyper-specialization and professional knowledge, the moral and spiritual purposes of learning have been eclipsed by a shallow view of career and success. On *Education, Formation, Citizenship, and the Lost Purpose of Learning* turns to the influential figure Augustine of Hippo to explore how he saved the liberal arts at the end of the Roman Empire and how his inspiring vision can do the same for higher education today. It offers a roadmap for reviving the soul of education - presenting concrete ways that the intellectual practices and economic enterprise of learning can lead once more to a fulfilled life of knowing God and loving others.

**The Great Tradition** F. R. Leavis 2011-11-03 'The great English novelists are Jane Austen, George Eliot, Henry James and Joseph Conrad.' So begins F. R. Leavis's most controversial book, *The Great Tradition*, an uncompromising critical-polemical survey of English fiction, first published in 1948. Leavis makes his case for moral seriousness as the necessary criterion for an author's inclusion in any list of the finest novelists. In the course of his argument he adds D. H. Lawrence to the pantheon, and singles out *Hard Times* as Dickens' one 'completely serious work of art'; while Lawrence Sterne, Henry Fielding, and James Joyce are among those weighed in the balance and found wanting. '[Leavis] gave one a new idea of what it meant to read... the whole business of criticism acquired a new and exhilarating quality.' Frank Kermodé, *London Review of Books*

**In Search of the City on a Hill** Richard M. Gamble 2012-05-31 The American history of the 'city on a hill' metaphor from its Puritan beginnings to its role in Reagan's American civil religion and beyond.

**Library Journal** Melvil Dewey 2007 Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

**Classical Education** Gene Edward Veith (Jr.) 2015-04-30 New Third Edition *Classical Education: The Movement Sweeping America* examines the decline of American education and offers a solution. It is not more spending or a new and innovative program. Rather the solution, according to authors Gene Edward Veith Jr. and Andrew Kern, is classical education. Whether you are a parent anxious about your child's education, a family considering homeschooling, or a young person contemplating a career as a teacher, this book will help you think through what a true education involves. After a brief survey of where education in America has gone wrong, including a glance at controversial efforts like Common Core and Race to the Top, the authors describe the alternative to today's failed fashions in learning: a classical education. "Classical education," they explain, "cultivates wisdom and virtue by nourishing the soul on truth, goodness, and beauty." Succeeding chapters sketch how this approach has been applied by a wide variety of educators, including Christians (Protestant and Catholic), Great Books enthusiasts, and social entrepreneurs who serve poor and minority students at home and abroad. Chapters are also devoted to homeschooling and higher education. In an epilogue, the authors honestly confront the weaknesses to which classical educators are prone and offer hope for an even stronger future for this growing movement. With a New Introduction by Dr. Brian Phillips.

[Tending the Heart of Virtue: How Classic Stories Awaken a Child's Moral Imagination](#) Vigen Guroian  
[The Great Tradition Classic Readings On What It Means To Be An Educated Human Being](#)  
[Richard Gamble Pdf upload Donald s Boyle](#)

2002-01-14 As the popularity of William Bennetts Book of Virtues attests, parents are turning more and more to childrens literature to help instill values in their kids. Now, in this elegantly written and passionate book, Vigen Guroian provides the perfect complement to books such as Bennetts, offering parents and teachers a much-needed roadmap to some of our finest childrens stories. Guroian illuminates the complex ways in which fairy tales and fantasies educate the moral imagination from earliest childhood. Examining a wide range of stories—from Pinocchio and The Little Mermaid to Charlottes Web, The Velveteen Rabbit, The Wind in the Willows, and the Chronicles of Narnia—he argues that these tales capture the meaning of morality through vivid depictions of the struggle between good and evil, in which characters must make difficult choices between right and wrong, or heroes and villains contest the very fate of imaginary worlds. Character and the virtues are depicted compellingly in these stories; the virtues glimmer as if in a looking glass, and wickedness and deception are unmasked of their pretensions to goodness and truth. We are made to face the unvarnished truth about ourselves, and what kind of people we want to be. Throughout, Guroian highlights the classical moral virtues such as courage, goodness, and honesty, especially as they are understood in traditional Christianity. At the same time, he so persuasively evokes the enduring charm of these familiar works that many readers will be inspired to reread their favorites and explore those they may have missed.

*Rescuing Socrates* Roosevelt Montás 2021-11-16 A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to people of all backgrounds What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Montás tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Montás emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University's renowned Core Curriculum, one of America's last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia's Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Montás's life. In doing so, the book drives home what it's like to experience a liberal education—and why it can still remake lives.

*A Broadening Conversation* Melody Layton McMahon 2006 The American Theological Library Association has served libraries, librarians, and academic institutions with distinction for sixty years. A *Broadening Conversation* offers a means of listening in on the rich and vivid conversation of this community over the course of its history so far.

*The War for Righteousness* Richard M. Gamble 2014-05-06 "They died to save their country and they only saved the world." This line, the final one in G. K. Chesterton's poem "The English Graves," serves for Richard M. Gamble as an interpretive key to a peculiarly important moment in American history: the time of the First World War, when progressive Christian leaders in America transformed themselves from principled pacifists to crusading interventionists. The consequence of this momentous shift, says Gamble, was the triumph of the idea that America has been destined by divine Providence to bring salvation to the less enlightened nations of the world. In *The War for Righteousness*, Gamble reconstructs the inner world of the social gospel clergy, tracing the evolution of the clergy's interventionist ideology from its roots in earlier efforts to promote a modern, activist Christianity. He shows how these clergy eventually came to see their task as world evangelization for the new creed of democracy and internationalism, and ultimately for the redemption of civilization itself through the agency of total war. World War I thus became a transcendent moment of fulfillment. In the eyes of the progressive clergy, the years from 1914 to 1918 presented an unprecedented opportunity to achieve their vision of a world transformed—the ancient dream of a universal and everlasting kingdom of peace, justice, and righteousness. American sacrifice was necessary not only to save the country, but to save the entire world. Vividly narrating how the progressive clergy played a surprising role in molding the public consensus in favor of total war, Gamble engages the broader question of religion's role in shaping the modern American mind and the development, at the deepest levels, of the logic of messianic interventionism both at home and abroad. This timely book not only fills a significant gap in our collective memory of the Great War, it also helps demonstrate how and why that war heralded the advent of a different American self-understanding.

[The Critical Tradition: Shorter Edition](#) David H. Richter 2016-02-26 "The most comprehensive and up-to-date anthology of major documents in literary criticism and theory from Plato to the present, with a highly praised critical apparatus, including introductions, headnotes, bibliographies, and glosses." --Publisher.

**The Soul of Christianity** Huston Smith 2009-10-13 "I have tried to describe a Christianity which is fully compatible with everything we now know, and to indicate why Christians feel privileged to give their lives to it." —Huston Smith In his most personal and passionate book on the spiritual life, renowned author, scholar, and teacher of world religions Huston Smith turns to his own life-long religion, Christianity. With stories and personal anecdotes, Smith not only presents the basic beliefs and essential teachings of Christianity, but argues why religious belief matters in today's secular world. Though there is a wide variety of contemporary interpretations of Christianity—some of them conflicting—Smith cuts through these to describe Christianity's "Great Tradition," the common faith of the first millennium of believers, which is the trunk of the tree from which Christianity's many branches, twigs, and leaves have grown. This is not the exclusivist Christianity of strict fundamentalists, nor the liberal, watered-down Christianity practiced by many contemporary churchgoers. In exposing biblical literalism as unworkable as well as enumerating the mistakes of modern secularists, Smith presents the very soul of a real and substantive faith, one still relevant and worth believing in. Smith rails against the hijacked Christianity of politicians who exploit it for their own needs. He decries the exercise of business that widens the gap between rich and poor, and fears education has lost its sense of direction. For Smith, the media has become a business that sensationalizes news rather than broadening our understanding, and art and music have become commercial and shocking rather than enlightening. Smith reserves his harshest condemnation, however, for secular modernity, which has stemmed from the misreading of science—the mistake of assuming that "absence of evidence" of a scientific nature is "evidence of absence." These mistakes have all but banished faith in transcendence and the Divine from mainstream culture and pushed it to the margins. Though the situation is grave, these modern misapprehensions can be corrected, says Smith, by reexamining the great tradition of Christianity's first millennium and reaping the lessons it holds for us today. This fresh examination of the Christian worldview, its history, and its major branches provides the deepest, most authentic vision of Christianity—one that is both tolerant and substantial, traditional and relevant.

**Conservatism** Roger Scruton 2018-06-19 "...one of the most eloquent and even moving evocations of the conservative tradition in Western politics, philosophy and culture I have ever read...the ideal primer for those who are new to conservative ideas..." —Richard Aldous, *Wall Street Journal* A brief magisterial introduction to the conservative tradition by one of Britain's leading intellectuals. In *Conservatism*, Roger Scruton offers the reader an invitation into the world of political philosophy by explaining the history and evolution of the conservative movement over the centuries. With the clarity and authority of a gifted teacher, he discusses the ideology's perspective on civil society, the rule of law, freedom, morality, property, rights, and the role of the state. In a time when many claim that conservatives lack a unified intellectual belief system, this book makes a very strong case to the contrary, one that politically-minded readers will find compelling and refreshing. Scruton analyzes the origins and development of conservatism through the philosophies and thoughts of John Locke, Thomas Hobbes, Adam Smith and Milton Friedman, among others. He shows how conservative ideas have influenced the political sector through the careers of a diverse cast of politicians, such as Thomas Jefferson, Benjamin Disraeli, Ronald Reagan and Margaret Thatcher. He also takes a close look at the changing relationship between conservative politics, capitalism, and free markets in both the UK and the US. This clear, incisive guide is essential reading for anyone wishing to understand Western politics and policies, now and over the last three centuries.

**Classic Readings in Urban Planning** Jay Stein 2018-02-06 This new edition of "the best anthology in planning" includes 33 selections by many of the profession's most respected thinkers and eloquent writers. Returning editor Jay M. Stein chose the articles, about half of them new to this edition, based on suggestions from colleagues and students who used the first edition, recommendations from planning scholars, awards for writing in the field of planning, and his own review of recent planning literature. *Classic Readings in Urban Planning* offers an unparalleled depth of coverage and range of perspectives on traditional aspects of planning as well as on important contemporary issues. This is an exceptional main or supplementary textbook for advanced undergraduate or beginning graduate level students in urban and

regional planning. As a general overview of the field of urban planning, it is also an excellent choice for planning commissioners, practicing planners, and professionals in related fields such as environmental and land use law, architecture, and government. An abstract introduces each reading, and each section includes suggestions for additional readings suitable for more extensive study. Many of these are also "classics" that could not be included as a main selection.

*Awakening Wonder* 2015

**The Great Tradition** Richard M. Gamble 2023-03-28 Frustrated with the continuing educational crisis of our time, concerned parents, teachers, and students sense that true reform requires more than innovative classroom technology, standardized tests, or skills training. An older tradition—the Great Tradition—of education in the West is waiting to be heard. Since antiquity, the Great Tradition has defined education first and foremost as the hard work of rightly ordering the human soul, helping it to love what it ought to love, and helping it to know itself and its maker. In the classical and Christian tradition, the formation of the soul in wisdom, virtue, and eloquence took precedence over all else, including instrumental training aimed at the inculcation of "useful" knowledge. Edited by historian Richard Gamble, this anthology reconstructs a centuries-long conversation about the goals, conditions, and ultimate value of true education. Spanning more than two millennia, from the ancient Greeks to contemporary writers, it includes substantial excerpts from more than sixty seminal writings on education. Represented here are the wisdom and insight of such figures as Xenophon, Plato, Aristotle, Seneca, Cicero, Basil, Augustine, Hugh of St. Victor, Bonaventure, Thomas Aquinas, Martin Luther, John Calvin, Erasmus, Edmund Burke, John Henry Newman, Thomas Arnold, Albert Jay Nock, Dorothy Sayers, C. S. Lewis, and Eric Voegelin. In an unbroken chain of giving and receiving, The Great Tradition embraced the accumulated wisdom of the past and understood education as the initiation of students into a body of truth. This unique collection is designed to help parents, students, and teachers reconnect with this noble legacy, to articulate a coherent defense of the liberal arts tradition, and to do battle with the modern utilitarians and vocationalists who dominate educational theory and practice.

*The Classical Tradition : Greek and Roman Influences on Western Literature* Gilbert Highet 1949-12-31 A reissue in paperback of a title first published in 1949.

*Now That's a Good Question!* Erik M. Francis 2016-07-22 In this book, Erik M. Francis explores how one of the most fundamental instructional strategies—questioning—can provide the proper scaffolding to deepen student thinking, understanding, and application of knowledge. You'll learn: \*Techniques for using questioning to extend and evaluate student learning experiences. \*Eight different kinds of questions that challenge students to demonstrate higher-order thinking and communicate depth of knowledge. \*How to rephrase the performance objectives of college and career readiness standards into questions that engage and challenge students. Francis offers myriad examples of good questions across content areas and grade levels, as well as structures to help teachers create and use the different kinds of questions. By using this book to fine-tune your approach to questioning, you can awaken the spirit of inquiry in your classroom and help students deepen their knowledge, understanding, and ability to communicate what they think and know.

*Once There Were Greenfields* F. Kaid Benfield 1999 Is pursuit of the American dream becoming a

nightmare? *Once There Were Greenfields* presents the story of one of America's most challenging social problems, sprawl development. Community downtowns are being replaced with strip malls. Farmland is giving way to parking lots. Meanwhile, inner cities are losing jobs and the tax base necessary to support public schools. This book meticulously documents the consequences of sprawling growth patterns and proposes guiding principles for a new kind of "smart" growth that combines economic progress with environmental protection and social goals. Book jacket.

**The Black Intellectual Tradition** Derrick P. Alridge 2021-08-03 Considering the development and ongoing influence of Black thought From 1900 to the present, people of African descent living in the United States have drawn on homegrown and diasporic minds to create a Black intellectual tradition engaged with ideas on race, racial oppression, and the world. This volume presents essays on the diverse thought behind the fight for racial justice as developed by African American artists and intellectuals; performers and protest activists; institutions and organizations; and educators and religious leaders. By including both women's and men's perspectives from the U.S. and the Diaspora, the essays explore the full landscape of the Black intellectual tradition. Throughout, contributors engage with important ideas ranging from the consideration of gender within the tradition, to intellectual products generated outside the intelligentsia, to the ongoing relationship between thought and concrete effort in the quest for liberation. Expansive in scope and interdisciplinary in practice, *The Black Intellectual Tradition* delves into the ideas that animated a people's striving for full participation in American life. Contributors: Derrick P. Alridge, Keisha N. Blain, Cornelius L. Bynum, Jeffrey Lamar Coleman, Pero Gaglo Dagbovie, Stephanie Y. Evans, Aaron David Gresson III, Claudrena N. Harold, Leonard Harris, Maurice J. Hobson, La TaSha B. Levy, Layli Maparyan, Zebulon V. Miletsky, R. Baxter Miller, Edward Onaci, Venetria K. Patton, James B. Stewart, and Nikki M. Taylor

**Interpreting Scripture with the Great Tradition** Craig A. Carter 2018-04-17 The rise of modernity, especially the European Enlightenment and its aftermath, has negatively impacted the way we understand the nature and interpretation of Christian Scripture. In this introduction to biblical interpretation, Craig Carter evaluates the problems of post-Enlightenment hermeneutics and offers an alternative approach: exegesis in harmony with the Great Tradition. Carter argues for the validity of patristic christological exegesis, showing that we must recover the Nicene theological tradition as the context for contemporary exegesis, and seeks to root both the nature and interpretation of Scripture firmly in trinitarian orthodoxy.

**Middlemarch** George Eliot 2009-02-13 An extraordinary masterpiece written from personal experience, *Middlemarch* is a deep psychological observation of human nature that revolves around the issues of love, jealousy, and obligation. Eliot's feminist views are apparent through the novel: she stresses the fact that women should control their own lives...

**Aesthetics** Dabney Townsend 2001 This anthology is a collection of basic readings for beginning students, chosen to illustrate the major movements in the history, development and nature of aesthetics. Selections of major importance are drawn from the period of the Greeks to the mid-twentieth century. Every section introduction includes an historical overview of each period, biographical information, and a brief analysis of key concepts. The editor designed this anthology to be of sufficient length for use as the sole text in a one quarter course, yet brief enough to invite the use of additional materials in longer courses.
