**Croz Larrikin Kiwi Biker** Graeme Crosby 2012-02-01 The Larrikin Kiwi Biker tells his story. In 1979 Graeme Crosby arrived in Britain with his worldly possessions in a carry-bag. His racing suit draped over his left shoulder, a scratched helmet in his right hand and just £150 in his wallet, he was ready to take on the world. I lifted up my cracked UV visor with my thumb. 'Which way does the track go and what's the lap record?' I called out over the noise of the valve gear rattling and clanging between my legs. the flag marshal's eyebrows raised in disbelief. I could see him muttering, 'And who the hell do you think you are - Mike Hailwood?' Four years later 'Croz', as he is affectionately known to millions of fans, walked away from the glamour of world championship Grand Prix racing, taking with him a bag full of trophies and his ever-present sense of humour. In

that short time he had achieved more than most riders could ever hope for in a lifetime of racing. Become his pillion passenger as he takes you on a fast and furious journey from the grassroots of New Zealand motorcycle racing through Australia, Japan, the UK and Europe. Experience with him the crashes, the pain, the elation of winning and the international controversies. While the politics, boycotts and tragic fatalities make enthralling reading, the common thread is his determination to enjoy life and have fun. And win a few world championships.

**Motorcycle Engineering** P. E. Irving 2017-01-07 328 pages, 186 black & white illustrations, size 5.5 x 8.5 inches. This is a faithful reproduction of the 1962 Floyd Clymer U.S.A. Edition of the same title. While the primary focus of this publication utilizes 1960's and prior motorcycles as examples, the reader is reminded that engineering theory and the laws of physics do not change and as such, the information it contains is still relevant today. Consequently, this publication is indispensable to those either contemplating modification to a current model or the construction of a 'special' for any form of motorcycle competition. Predominantly a technical work, it is written in terms easily understood by the layman. While it includes geometry and math formulae the reader will be aptly rewarded if they take a moment to comprehend the significance of the examples. Consequently, 'Motorcycle Engineering' is considered by many knowledgeable motorcycle enthusiasts to be the best book ever written on how to construct, improve, modify and fine tune a motorcycle from the 'ground up'. It is our pleasure to offer this reprint to all motorcycle enthusiasts worldwide.

*The Pied Piper of Tucson* Don Moser 1967 It was Life and Time magazines that turned a local story from Tucson, Arizona, into a national abomination. Reporters came from all over, to be sure, but on March 4, 1966, Life printed an ominous photo of the desert landscape where three girls had disappeared and the story of Charles Howard Schmid, Jr., or "Smitty," became international news. He had been arrested four months earlier on November 11, just after marrying a fifteen-year-old girl whom he'd met on a blind date. The article was published even before the juries in two separate trials had decided his fate. Dubbed "The Pied Piper of Tucson," for his ability to get girls to fall for him, he stood five feet, four inches tall, but added three more inches by padding his stack-heeled cowboy boots with rags and tin cans. He also dyed his reddish-brown hair black, used pancake make-up, whitened his lips, and applied a fake mole to his left cheek—a "beauty" mark. Arrogant and narcissistic, he came from a wealthy family, so he used the niceties he could buy to impress young high school girls. He adopted the droopy-eyed look associated with Elvis, his idol, and acquired a rock musician's mystique. His tiny house on his parents' property was the scene of many parties. Tucson society was not merely shaken by the murders of three of their young women but by what the details of those murders revealed about its adolescent population—sex clubs, drinking parties, blackmail, cover-ups for murder, and even connections with the crime underworld. Parents suddenly became more strict, more aware now that their kids weren't safe and maybe weren't even behaving properly. When kids looked to someone like Charles Schmid for answers, there was something terribly wrong.

*Death Waits in the Dark* Mark Edward Langley 2020-08-04 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

*The Forgotten Rohingya: Their Struggle for Human Rights in Burma* Habib Siddiqui 2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia

and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
