Creating a synthesis paper involves bringing together data from multiple sources to present a comprehensive argument on a subject. Here are the stages to write a perfect outline for a synthesis paper:

1. **Choose a Appropriate Topic:** Select a subject that matches with your interests and the task needs.
2. **Carry out Thorough Study:** Explore different sources, such as articles, books, and academic journals, to collect information.
3. **Outline Your Format:** Start with an intro that grabs the readers attention and states your argument - what your paper will argue. After that, outline what each of your body paragraphs will talk about. Be certain to include information from different sources.
4. **Write Paragraphs with Subject Lines:** Dedicate each section to a unique sub-topic or source. Begin with a distinct topic sentence directly related to your argument. Introduce the source youre combining and plan its key points. Support your arguments with proof from the source, using quotes, paraphrases, or summaries.
5. **Revise, Edit, and Proofread:** Check your work for any errors or inconsistencies.

The book “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, originally released in 1997, develops a organized model for the study and depiction of casual conversation in English. The scholars assert that despite its sometimes aimless look and seemingly unstructured substance, casual conversation is a very structured task and plays a crucial role in the social building of reality. The work goes through real samples of casual conversations including participants diverging in age, gender, ethnicity, and socio-economic class¹². Deriving on perspectives from sociology, linguistics, and critical semiotics, the work furnishes readers with the analytic skills to depict the layers of structure and critical interpretive frameworks to clarify the ‘social work’ that occurs on through chat.
