Essential Statistics, Global Edition

2016-11-14 Robert N. Gould Exploring the World through Data We live in a data-driven world, and the goal of this text is to teach students how to access and analyse these data critically. Authors Rob Gould, Colleen Ryan, and Rebecca Wong want students to develop a "data habit of mind" because learning statistics is an essential life skill that extends beyond the classroom. Regardless of their math backgrounds, students will learn how to think about data and how to reason using data. With a clear, unthreatening writing style and carefully chosen pedagogy, this text makes data analysis accessible to all students. Drugs and Behavior

2012-07 William A. McKim An up-to-date overview of behavioral pharmacology. Drugs & Behavior starts with descriptions of basic pharmacological concepts of drug administration and pharmacokinetics, research methodology including clinical trials, tolerance and withdrawal, drug conditioning, addiction processes, and the neuroscience of drug action. Each chapter applies these concepts to different classes of recreational and therapeutic drugs. Each chapter also includes a section on the history of the drug class being described to place the drugs in their historical and social context. The text is written to be understandable to students without a background in pharmacology, neuroscience, or psychology. Learning Goals Upon completing this book, readers should be able to: * Understand the behaviors of people who use drugs as medicine and for recreation * Understand new trends and developments in pharmacology * Identify the subjective, behavioral, and neurological differences between the use of both classes of drug Note: MySearchLab does not come automatically packaged with this text.
