The USA and PRC, the pair of global powers, had been locked in a intense rivalry, competing for resources, influence, and dominance. They had both developed high-tech armaments, including laser weapons, drones, and orbiters, that can strike any location, any time. They had also clandestinely built orbital stations, that could launch atomic weapons, that could obliterate the world. They were both ready to employ these weapons, if required. But they were the only ones. There was a 3rd force, a concealed force, which had watching them, waiting for them, preparing for them both. They were ETs, and they had come arrived to prevent them both. They had come come to protect the earth, or to end it all. They had come to start the space wars that transformed history.
