Greta's Story 2019-11-26 Valentina Camerini The inspiring true story of Greta Thunberg, a young eco-activist whose persistence sparked a global movement. You are never too young to make a difference. Ever since she learned about climate change, Greta Thunberg couldn't understand why politicians weren't treating it as an emergency. In August 2018, temperatures in Sweden reached record highs, fires raged across the country, and fifteen-year-old Greta decided to stop waiting for political leaders to take action. Instead of going to school on Friday, she made a sign and went on strike in front of Stockholm's parliament building. Greta's solo protest grew into the global Fridays for Future—or School Strike 4 Climate—movement, which millions have now joined. She has spoken at COP24 (the UN summit on climate change) and has been nominated for the Nobel Peace Prize. This timely, unofficial biography is her story, but also that of many others around the world willing to fight against the indifference of the powerful for a better future.

In the Eyes of Mr Fury 2016-12-06 Philip Ridley On the day Concord Webster turned eighteen, the Devil died. The Devil's real name was Judge Martin, but Concord's mother called him the Devil. She said he boiled babies for dinner and made lampshades out of human skin. So why did she, who hated him so venomously, have a key to his house? The key will unlock more than just Judge's front door. It will also unlock a multitude of stories - where magic children talk to crows, men disappear in piles of leaves, and James Dean lookalikes kiss in dark alleys - and reveal a secret history that will change Concord's life forever. Philip Ridley's second novel (following the sexually charged tour de force *Crocodilia*) was an instant cult classic when originally published in 1989. Now, for this new edition, Ridley has reimagined the story, expanding the original short novel into the world's first LGBT magical realist epic. A vast, labyrinthine, hall-of-mirrors saga, its breathtaking imagery and stunning plot twists – covering over a hundred years – reveal Ridley to be one of the most distinctive and innovative voices in contemporary fiction.

It is the distant future. The world known as Virga is a fullerene balloon three thousand kilometers in diameter, filled with air, water, and aimlessly floating chunks of rock. The humans who live in this vast environment must build their own fusion suns and "towns" that are in the shape of enormous wood and rope wheels that are spun for gravity. Young, fit, bitter, and friendless, Hayden Griffin is a very dangerous man. He's come to the city of Rush in the nation of Slipstream with one thing in mind: to take murderous revenge for the deaths of his parents six years ago. His target is Admiral Chaison Fanning, head of the fleet of Slipstream, which conquered Hayden's nation

of Aerie years ago. And the fact that Hayden's spent his adolescence living with pirates doesn't bode well for Fanning's chances . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Ethics of Writing 2010-07-02 Carlo Sini In this groundbreaking work, Carlo Sini, one of Italy's leading contemporary philosophers, brings American pragmatism to the Milan school of phenomenology. Appearing in English for the first time, this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world (philosophy, mathematics, science, and historiography). Taking stock of the contingent nature of what are held as logical truths, he offers an ethical framework for considering different ways of thinking about writing, focusing on possibilities involving "practice" as a basis for a renewal of theoretical philosophy. Such a framework, Sini argues, opens the door for more productive and ethical communication with non-Western cultures, and indeed for a reconsideration of forms of knowledge beyond mere writing.

As users of social media we have willingly submitted to a vast social, economic and cultural experiment. By critically examining the theories of Californian right-libertarians, Ippolita show the thread connecting Facebook to the European Pirate Parties, WikiLeaks and beyond. An important task today is to reverse the logic of radical transparency and apply it to the technologies we use on a daily basis.

First Love that Never Fades

Anna never forgot her first love, Leo. They met when they were both 16, at a summer camp. They spent every day together, laughing, talking, kissing. They promised to stay in touch, to wait for each other, to love each other forever. But life had other plans. They lost contact, they moved on, they married other people. Years later, they met again, by chance, at a reunion. They felt the same spark, the same connection, the same love. But they also felt the same pain, the same guilt, the same regret. They had to make a choice, between their past and their present, between their hearts and their minds, between their first love and their last.
