And now, in THE HEART OF THE SOUL, Zukav, together with his coauthor and spiritual partner, Linda Francis, takes the next important step in showing us how to actually apply these crucial concepts in our daily lives. Zukav reveals how true emotional awareness can transform the human experience. Although it is challenging and difficult, because it means becoming aware of suppressed pain, it is also enormously rewarding. But first the determination to explore every aspect of consciousness, and to cultivate those that contribute the most to life, must replace the desire to bury painful emotions. Ultimately emotional awareness can free us from the compulsions, fixations, obsessions and addictions

Words Of Gratitude Mind Body & Soul 2009-07-27 Robert A. Emmons "The test of all happiness," said G.K. Chesterton, "is gratitude." Learning to experience gratitude involves being grateful as an attitude, not as a reaction when good things occur. To be grateful, one does not need to wait until things are perfect. In fact, practicing gratitude makes one receptive to life's blessings, and these blessings continue as we continue to be thankful. In one study, described

participants who wrote about five things for which they were grateful experienced more positive emotional states and were more likely to help others over a period of ten weeks than were participants who wrote about the hassles and stressors they experienced during the same time. "Love wholeheartedly," says Brother David Steindl-Rast, "be surprised, give thanks and praise—then you will discover the fullness of your life." Gratitude provides gifts to both the giver and the receiver, and this illuminating book will inspire readers to recognize just how truly blessed we are.

study, Donna Mack perceived an essential missing link from the age-old battle of God vs. Satan. While other books have attempted to discuss human sexuality, none have done so with as many biblical and scholarly-backed references as *Our Godly Sexual Beings*. One fascinating revelation in scripture is just how sacred human sexuality exists for God. The Bible sings with this truth, and Donna dives into this mystery to reveal the greatest love story ever told! With the help of over 1,300 references, Donna uncovers God's design for sex and Satan's influence that morphed this gift into a lie of lust. This book is full of many revelations and truths that will allow the reader to experience freedom from sexual sin, shame, and bondage.

He shows how the pursuit of external power has produced our survival-of-the-fittest understanding of evolution, generated conflict between lovers, communities, and superpowers, and brought us to the edge of destruction. Using his scientist's eye and philosopher's heart, Zukav shows how infusing the activities of life with reverence, compassion, and trust makes them come alive with meaning and purpose. He illustrates how the emerging values of the spirit are changing marriages into spiritual partnerships, psychology into spiritual psychology, and transforming our everyday lives. Our thoughts, feelings, emotions and attitudes are just frequencies that we can learn to change -- once we put our heart into our intention. Heart Intelligence provides practices to replace fear with the attitude of intelligent concern (managed concern) which leaves us in charge and more attuned to intuitive direction. We learn the benefits of practicing simple coherence techniques a few times a day for boosting resilience and emotional balance; making appropriate choices; and clearing our mind from anxiety or overwhelm when needed. nature and function of the intellect. **With the Heart in Mind** asks readers to consider an alternative understanding of intelligence in which the primary function of the intellect is to know God and lead others to Him as well. The author suggests that by studying the Emotional Intelligence of the Prophet Muhammad (s.a.w.), we improve the quality of our relationships with the people around us and we, like the Prophet (s.a.w.), can become catalysts for change around us. Emotional Intelligence within the author's model of intelligence is a tool by which the message of God is transferred to humanity. **With the Heart in Mind** reminds us that "To be loved by people is half of intelligence."

healed." The centre it refers to is located deep in the sensed interiority of our belly, that abode of the soul known in Japanese as hara. 'Depression' (a word with no equivalent in Japanese) is, in essence, a lack of hara. With hara awareness we not only recontact our own innermost soul depths and soul centre. We learn to make contact with others from that centre - to experience true intimacy of soul. Hara awareness is both an alternative to medical and psychiatric 'cures' and the basis for a genuinely psychological medicine - an anatomy of the soul-body. Head, Heart and Hara contrasts the head- and heart-centred culture of the West with the hara culture of Japan. It also shows how hara awareness can unite the primordial wisdom of both East and West. Peter Wilberg brings together the dao of Lao Tse and the logos of Heraclitus in a new spiritual anatomy of the soul.
