It moves beyond men's prescriptive pronouncements about female nature to women's lived experiences, replacing the singular woman with plural women and illuminating female agency. The contributors show that women's lives changed over the life course and differed according to region and social class. They also demonstrate that in the early modern period the largely private spaces in women's lives were not enclosed worlds isolated from the public spaces in which men operated. Contributors to this important collection are leading international scholars and offer strong, substantial, and archival-based research.

Why I Write 2021-01-01 George Orwell George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

All Art Is Propaganda 2009-10-14 George Orwell The essential collection of critical essays from a twentieth-century master and author of 1984. As a critic, George Orwell cast a wide net. Equally at home discussing Charles Dickens and Charlie Chaplin, he moved back and forth across the porous borders between essay and journalism, high art and low. A frequent commentator on literature, language, film, and drama throughout his career, Orwell turned increasingly to the critical essay in the 1940s, when his most important experiences were behind him and some of his most incisive writing lay ahead. All Art Is Propaganda follows Orwell as he demonstrates in piece after piece how intent analysis of a work or body of work gives rise to trenchant aesthetic and philosophical commentary. With masterpieces such as "Politics and the English Language" and "Rudyard Kipling" and gems such as "Good Bad Books," here is an unrivaled education in, as George Packer puts it, "how to be interesting, line after line." With an Introduction from Keith Gessen.

The End of the End of the Earth 2018-11-13 Jonathan Franzen A sharp and provocative new essay collection from the award-winning author of Freedom and The Corrections The essayist, Jonathan Franzen writes, is like "a fire-fighter, whose job, while everyone else is fleeing the flames of shame, is to run straight into them." For the past twenty-five years, even as his novels have earned him worldwide acclaim, Franzen has led a second life as a risk-taking essayist. Now, at a moment when technology has inflamed tribal hatreds and the planet is beset by unnatural calamities, he is back with a new collection of essays that recall us to more humane ways of being in the world. Franzen's great loves are literature and birds, and The End of the End of the Earth is a passionate argument for both. Where the new media tend to confirm one's prejudices, he writes, literature "invites you to ask whether you might be somewhat wrong, maybe even entirely wrong, and to imagine why someone else might hate you." Whatever his subject, Franzen's essays are always skeptical of received opinion, steeped in irony, and frank about his own failings. He's frank about birds, too (they kill "everything imaginable"), but his reporting and reflections on them—on seabirds in New Zealand, warblers in East Africa, penguins in Antarctica—are both a moving celebration of their beauty and resilience and a call to action to save what we love. Calm, poignant, carefully argued, full of wit, The End of the End of the Earth provides a welcome breath of hope and reason.

What Are We Doing Here? 2018-02-20 Marilynne Robinson New essays on theological, political, and contemporary themes, by the Pulitzer Prize winner Marilynne Robinson has plumbed the human spirit in her renowned novels, including Lila, winner of the National Book Critics Circle Award, and Gilead, winner of the Pulitzer Prize and the National Book Critics Circle Award. In this new essay collection she trains her incisive mind on our modern political climate and the mysteries of faith. Whether she is investigating how the work of great thinkers about America like Emerson and Tocqueville inform our political consciousness or discussing the way that beauty informs and disciplines daily life, Robinson's peerless prose and boundless humanity are on full display. What Are We Doing Here? is a call for Americans to continue the tradition of those great thinkers and to remake American political and cultural life as "deeply impressed by obligation [and as] a great theater of heroic generosity, which, despite all, is sometimes palpable still."

Myth and Literature 1969-01-01 John B. Vickery This collection of thirty-four major essays devoted to the theories, methods, and problems of myth criticism offers a convenient and substantial introduction to one of the most distinctive trends in contemporary literary study. The essays (many of them previously uncollected) are arranged to lead from general considerations to analyses of specific authors. The four Part I selections constitute an informal survey of the views of myth and ritual taken by disciplines other than literature. In Part II the first six essays relate the concept of myth and ritual to general literary theory, while the final three evaluate the uses of myth in critical theory and practice. The twenty-one Part III essays, which apply myth criticism to individual literary works or authors, afford a representative sampling of the mythopoeic patterns discerned in literature from Homer to Faulkner. Among the contributors are: David Bidney, Göza Rçheim, Joseph Campbell, Clyde Kluckhohn, Stanley Hyman, Philip Wheelwright, Richard Chase, Harold Watts, Northrop Frye, Andrew Lytle, Philip Rahv, Francis Fergusson, Marvin Magalaner, John Lydenberg, and Harry Slochower.

The Art of Slow Writing 2014-10-07 Louise DeSalvo In a series of conversational observations and meditations on the writing process, The Art of Slow Writing examines the benefits of writing slowly. DeSalvo advises her readers to explore their creative process on deeper levels by getting to know themselves and their stories more fully over a longer period of time. She writes in the same supportive manner that encourages her students, using the slow writing process to help them explore the complexities of craft. The Art of Slow Writing is the antidote to self-help books that preach the idea of fast-writing, finishing a novel a year, and quick revisions. DeSalvo makes a case that more mature writing often develops over a longer period of time and offers tips and techniques to train the creative process in this new experience. DeSalvo describes the work habits of successful writers (among them, Nobel Prize laureates) so that readers can use the information provided to develop their identity as writers and transform their writing lives. It includes anecdotes from classic American and international writers such as John Steinbeck, Henry Miller, Virginia Woolf and D. H. Lawrence as well as contemporary authors such as Michael Chabon, Junot Diaz, Jeffrey Eugenides, Ian McEwan, and

Salman Rushdie. DeSalvo skillfully and gently guides writers to not only start their work, but immerse themselves fully in the process and create texts they will treasure.

The Limits of Critique 2015-10-20 Rita Felski Why do critics feel impelled to unmask and demystify the works that they read? What is the rationale for their conviction that language is always withholding some important truth, that the critic's task is to unearth what is unsaid, naturalized, or repressed? These are the features of critique, a mode of thought that thoroughly dominates academic criticism. In this book, Rita Felski brilliantly exposes critique's more troubling qualities and proposes alternatives to it. Critique, she argues, is not just a method but also a sensibility—one best captured by Paul Ricoeur's phrase "the hermeneutics of suspicion." As the characteristic affect of critique, suspicion, Felski shows, helps us understand critique's seductions and limitations. The questions that Felski poses about critique have implications well beyond intramural debates among literary scholars. Literary studies, says Felski, is facing a legitimation crisis thanks to a sadly depleted language of value that leaves the field struggling to find reasons why students should care about Beowulf or Baudelaire. Why is literature worth bothering with? For Felski, the tendencies to make literary texts the object of suspicious reading or, conversely, impute to them qualities of critique, forecloses too many other possibilities. Felski offers an alternative model that she calls "postcritical reading." Rather than looking behind the text for its hidden causes, conditions, and motives, she suggests that literary scholars place themselves in front of a text, reflecting on what it calls forth and makes possible. Here Felski enlists the work of Bruno Latour to rethink reading as a co-production between actors, rather than an unraveling of manifest meaning, a form of making rather than unmaking. As a scholar with an abiding respect for theory who has long deployed elements of critique in her own work, Felski is able to provide an insider's account of critique's limits and alternatives that will resonate widely in the humanities.

Trust Me, I'm Lying 2013-07-02 Ryan Holiday The cult classic that predicted the rise of fake news—revised and updated for the post-Trump, post-Gawker age. Hailed as "astonishing and disturbing" by the Financial Times and "essential reading" by TechCrunch at its original publication, former American Apparel marketing director Ryan Holiday's first book sounded a prescient alarm about the dangers of fake news. It's all the more relevant today. Trust Me, I'm Lying was the first book to blow the lid off the speed and force at which rumors travel online—and get "traded up" the media ecosystem until they become real headlines and generate real responses in the real world. The culprit? Marketers and professional media manipulators, encouraged by the toxic economics of the news business. Whenever you see a malicious online rumor costs a company millions, politically motivated fake news driving elections, a product or celebrity zooming from total obscurity to viral sensation, or anonymously sourced articles becoming national conversation, someone is behind it. Often someone like Ryan Holiday. As he explains, "I wrote this book to explain how media manipulators work, how to spot their fingerprints, how to fight them, and how (if you must) to emulate their tactics. Why am I giving away these secrets? Because I'm tired of a world where trolls hijack debates, marketers help write the news, opinion masquerades as fact, algorithms drive everything to extremes, and no one is accountable for any of it. I'm pulling back the curtain because it's time the public understands how things really work. What you choose to do with this

information is up to you."

The Evolution of Sibling Rivalry 1997 Douglas W. Mock One of the main tenets of evolutionary biology is that organisms behave so as to maximize the number of their genes that will be passed on to future generations. Parents often produce more offspring than they can rear in case special opportunities or calamities occur. This frequently leads to deprivations and even death of some offspring. This book is about the evolutionary diversity, importance, and consequences of such squeezes. The authors, experts in their field, review the theory, field experiments, and natural history of sibling rivalry across a broad sweep of organisms, in a clear and accessible style that should appeal to both academics and natural historians.
