The True History of Allah and His 5% 2019-03-16 The Gods & Earths Who Were There! This book is based on the true history of Allah "the Father" and His great Nation of Gods and Earths known as the Five Percenters. This is the greatest story that was never told by the Gods and the Earths during their younger years with Allah "the Father" from the early 1960s up until the time of his assassination on June 13, 1969. This was a time of struggle for the Black Man, Woman, and Child (the Universal Family). This was the time of "the Big Five", who were: Allah "the Father", who brought about the Nation of Gods and Earths known as the Five Percenters; the Honorable Elijah Muhammad, who was the last and greatest messenger of Allah, also the leader and teacher of the Black Muslims; Malcolm X of the new arrival; Dr. Martin Luther King, Jr., the civil rights leader; and the Black Panther Party on the East and West coasts. These five groups were called the Big Five, because they had the attention of every Black Man, Woman, and Child in the wilderness of North America and other parts of our planet. There was a host of other Black groups as well. This was a time when the Five Percenter's teachings were being taught/spoken so plain and simple that even a child could understand. Black people were on the rise, and it was a time for a change--for Black Man, Woman, and Child to take their place on earth. Peace!

So Far from Allah, So Close to Mexico 2009-06-03 Theresa Alfaro-Velcamp Middle Eastern immigration to Mexico is one of the intriguing, untold stories in the history of both regions. In So Far from Allah, So Close to Mexico, Theresa Alfaro-Velcamp presents the fascinating findings of her extensive fieldwork in Mexico as well as in Lebanon and Syria, which included comprehensive data collection from more than 8,000 original immigration cards as well as studies of decades of legal publications and the collection of historiographies from descendants of Middle Eastern immigrants living in Mexico today. Adding an important chapter to studies of the Arab diaspora, Alfaro-Velcamp's study shows that political instability in both Mexico and the Middle East kept many from fulfilling their dreams of returning to their countries of origin after realizing wealth in Mexico, in a few cases drawing on an imagined Phoenician past to create a class of economically powerful Lebanese Mexicans. She also explores the repercussions of xenophobia in Mexico, the effect of religious differences, and the impact of key events such as the Mexican Revolution. Challenging the post-revolutionary definitions of mexicanidad and exposing new aspects of the often contradictory attitudes of Mexicans toward foreigners, So Far from Allah, So Close to Mexico should spark timely dialogues regarding race and ethnicity, and the essence of Mexican citizenship.

Tripping with Allah 2013-03-01 Michael Muhammad Knight If Tripping with Allah is a road book, it's a road book in the tradition of 2001: A Space Odyssey, rather than On the Road. Amazonian shamanism meets Christianity meets West African religion meets Islam in this work of reflection and inward adventure. Knight, the "Hunter S. Thompson of Islamic literature" seeks reconciliation between his Muslim identity and his drinking of ayahuasca, a psychedelic tea that has been used in the Amazon for centuries. His experience becomes an opportunity to investigate complex issues of drugs, religion, and modernity. Though essential for readers interested in Islam or the growing popularity of ayahuasca, this book is truly about neither Islam nor ayahuasca. Tripping with Allah provides an accessible look into the construction of religion, the often artificial borders dividing these constructions, and the ways in which religion might change in an increasingly globalized world. Finally, Tripping with Allah not only explores Islam and drugs, but also Knight's own process of creativity and discovery.

Knowledge of Self 2009-07-30 Supreme Understanding Do you know who - and what - you are? Do you know who you're meant to be? Do you know how to find the answers to questions like these? Knowledge of Self is the result of a process of self-discovery, but few of us know where to begin when we're ready to start looking deeper. Although self-actualization is the highest of all human needs, it is said that only 5% of people ever attain this goal. In the culture of the Nation of Gods and Earths, commonly known as the Five Percent, students are instructed that they must first learn themselves, then their worlds, and then what they must do in order to transform their world for the better. This often intense process has produced thousands of revolutionary thinkers in otherwise desperate environments, where poverty and hopelessness dominate. Until now, few mainstream publications have captured the brilliant yet practical perspectives of these luminary men and women. Knowledge of Self: A Collection of Writings on the Science of Everything in Life presents the thoughts of Five Percenters, both young and old, male and female, from all over the globe, in their own words. Through essays, poems, and even how-to articles, this anthology presents readers with an accurate portrait of what the Five Percent study and teach, as well as sound direction on how to answer timeless questions like: Who am I, and why am I here? Why is there so much injustice in the world, and what can be done about it? Who is God and where on Earth is he? How do I improve myself without losing myself? Why are people of color in the situations they're in? What can we do about the global problems of racism and poverty?

Allah's Angels 2010-11-15 Paul J Murphy In this comprehensive portrait of the women of Chechnya in modern war, Paul Murphy challenges conventional thinking on why they fight and are willing to kill themselves in the name of Allah. His book covers the two wars with Russia in 1994 and 1999 and the present conflict with Islamic Jihadists. It argues that these wars forced Chechen women to venture far beyond their traditional roles and advance their human rights but that the current movement championing traditional Islam is taking those rights away. Drawing on personal interviews, insider resources, and other materials, Murphy presents powerful portrayals of women who fight in the Chechen Jihad, including snipers, suicide bombers and the mysterious "Black Widows," as well as women who collect intelligence, hide arms, and perform other non-combatant roles.

The Wind in My Hair 2018-05-29 Masih Alinejad An extraordinary memoir from an Iranian journalist in exile about leaving her country, challenging tradition and sparking an online movement against compulsory hijab. A photo on Masih's Facebook page: a woman standing proudly, face bare, hair blowing in the wind. Her crime: removing her veil, or hijab, which is compulsory for women in Iran. This is the self-portrait that sparked 'My Stealthy Freedom,' a social media campaign that

went viral. But Masih is so much more than the arresting face that sparked a campaign inspiring women to find their voices. She's also a world-class journalist whose personal story, told in her unforgettably bold and spirited voice, is emotional and inspiring. She grew up in a traditional village where her mother, a tailor and respected figure in the community, was the exception to the rule in a culture where women reside in their husbands' shadows. As a teenager, Masih was arrested for political activism and was surprised to discover she was pregnant while in police custody. When she was released, she married quickly and followed her young husband to Tehran where she was later served divorce papers to the shame and embarrassment of her religiously conservative family. Masih spent nine years struggling to regain custody of her beloved only son and was forced into exile, leaving her homeland and her heritage. Following Donald Trump's notorious immigration ban, Masih found herself separated from her child, who lives abroad, once again. A testament to a spirit that remains unbroken, and an enlightening, intimate invitation into a world we don't know nearly enough about, The Wind in My Hair is the extraordinary memoir of a woman who overcame enormous adversity to fight for what she believes in, and to encourage others to do the same.

The Rose Hotel 2015-05-12 Rahimeh Andalibian In this searing memoir, Rahimeh Andalibian struggles to make sense of two brutal crimes: a rape, avenged by her father, and a murder, of which her beloved oldest brother stands accused. Her journey, eloquently and intimately told, is a tribute to the resilience of families everywhere. Andalibian takes us first into her family's tranquil, jasmine-scented days of prosperity in Mashhad. Iran, where she and her brothers grow up in luxury at the Rose Hotel, owned by her father. In the aftermath of hte 1979 revolution the family is forced to flee: first to the safety of a mansion in Tehran, next to a squalid one-room flat in London, and finally to California, where they discover they are not free from the weight of their own secrets. Caught between their parents' traditional values and their desire to embrace and American way of life, Andalibian and her brothers struggle to find peace in the wake of tragedy. In the tradition of The Kite Runner, House of Sand and Fog, and Reading Lolita in Tehran, this is a universal story of healing and rebirth. From the Trade Paperback edition.

Hizb-Ut-Tahrir 2023-04-13 Reza Pankhurst Although Hizb ut-Tahrir, an international pan-Islamic political party, regularly holds conferences from Jakarta to Ramallah attended by tens of thousands of people, little is known about the organisation, which was founded in 1953, beyond generalities and conjecture. Its members are repeatedly arrested in Russia, Central Asia, Turkey and across the Middle East, and since the Arab uprisings it has emerged as an influential political actor in Tunisia, has a growing profile in Egypt, and is making a visible impact in the Syrian revolution. It is also paradoxically often dismissed as inconsequential despite its call for the implementation of Islam and the establishment of a universal caliphate across the Muslim world. 'Hizb ut-Tahrir: The Untold History of the Liberation Party' uncovers the history of the global Islamic political party, based upon a diverse array of archival research, internal documents, multiple interviews and other sources to build an authoritative account of the party as told from inside and out. From coup attempts in Jordan, sending delegations to meet Sadat, al-Gaddafi and Khomeini, and the execution of hundreds of its members in Libya and Iraq, Pankhurst's book blends political, intellectual and personal history, moving from global, regional and local perspectives.

When the World was Black Part Two 2013-02-02 Supreme Understanding When the World Was Black: The Untold History of the World's First Civilizations (Volume Two of The Science of Self series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell - from the southern tip of Chile to the northernmost isles of Europe - and you can't do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world's original people. Part One covers the Black origins of all the world's oldest cultures and societies, spanning more than 200,000 years of human history. Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. "In this book, you'll learn about the history of Black people. I don't mean the history you learned in school, which most likely began with slavery and ended with the Civil Rights Movement. I'm talking about Black history BEFORE that. Long before that. In this book, we'll cover over 200,000 years of Black history. For many of us, that sounds strange. We can't even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back 200,000 years or more." "Part Two covers history from 20,000 years ago to the point of European contact. This is the time that prehistoric cultures grew into ancient urban civilizations, a transition known to historians as the "Neolithic Revolution."

The Five Percenters 2013-10-01 Michael Muhammad Knight From Malcom X to the Wu Tang Clan, the first in-depth account of this fascinating black power movement With a cast of characters ranging from Malcom X to 50 Cent, Knight's compelling work is the first detailed account of the movement inextricably linked with black empowerment, Islam, New York, and hip-hop. Whether discussing the stars of Five Percenter rap or 1980s crack empires, this fast-paced investigation uncovers the community's icons and heritage, and examines its growing influence in urban American youth culture.

How to Hustle and Win 2008-06-19 Supreme Understanding Likened to a 48 Laws of Power for young Black men, this book presents Black biographies, history, and current events in a language that the Hip-Hop generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several How To sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban Encyclopedia Africana. Others have called it a Blueprint for Black Power for a generation struggling with materialism and short attention spans. This book is guaranteed to change the world by changing the way millions of people think and live. In How to Hustle and Win, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley "Tookie" Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling 48 Laws of Power used iconic figures from classical history to illustrate the guidelines for personal success, How to Hustle and Win is filled with the exploits of rappers, gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: "Unfortunately, few authors actively target this audience, and those who do are either not speaking their language, or not interested in pushing for change. This is why How to Hustle and Win was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world." Revolutionary aspirations aside, How to Hustle and Win's

groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success, including obtaining a doctorate in education at the age of 26.

Beneath the Tamarind Tree 2019-07-09 Isha Sesay "It is no accident that the places in the world where we see the most instability are those in which the rights of women and girls are denied. Isha Sesay's indispensable and gripping account of the brutal abduction of Nigerian schoolgirls by Boko Haram terrorists provides a stark reminder of the great unfinished business of the 21st century: equality for girls and women around the world."— Hillary Rodham Clinton The first definitive account of the lost girls of Boko Haram and why their story still matters—by celebrated international journalist Isha Sesay. In the early morning of April 14, 2014, the militant Islamic group Boko Haram violently burst into the small town of Chibok, Nigeria, and abducted 276 girls from their school dorm rooms. From poor families, these girls were determined to make better lives for themselves, but pursuing an education made them targets, resulting in one of the most high-profile abductions in modern history. While the Chibok kidnapping made international headlines, and prompted the #BringBackOurGirls movement, many unanswered questions surrounding that fateful night remain about the girls' experiences in captivity, and where many of them are today. In Beneath the Tamarind Tree, Isha Sesay tells this story as no one else can. Originally from Sierra Leone, Sesay led CNN's Africa reporting for more than a decade, and she was on the front lines when this story broke. With unprecedented access to a group of girls who made it home, she follows the journeys of Priscilla, Saa, and Dorcas in an uplifting tale of sisterhood and survival. Sesay delves into the Nigerian government's inadequate response to the kidnapping, exposes the hierarchy of how the news gets covered, and synthesizes crucial lessons about global national security. She also reminds us of the personal sacrifice required of journalists to bring us the truth at a time of growing mistrust of the media. Beneath the Tamarind Tree is a gripping read and a story of resilience with a soaring message of hope at its core, reminding us of the ever-present truth that progress for all of us hinges on unleashing the potential of women.

A Thematic Commentary on the Qur'an 2000 Muhammad Ghazali In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur'an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

The Koran in English 2020-10-06 Bruce B. Lawrence The untold story of how the Arabic Qur'an became the English Koran For millions of Muslims, the Qur'an is sacred only in Arabic, the original Arabic in which it was revealed to the Prophet Muhammad in the seventh century. To many Arab and non-Arab believers alike, the book literally defies translation, yet English translations are growing in both number and importance. Bruce Lawrence tells the remarkable story of the centuries-long quest to translate the Qur'an's lyrical verses—and to make English itself an Islamic language. A translation saga like no other, this panoramic book looks at cyber Korans, versions by feminist translators, and even a graphic Qur'an by the acclaimed visual artist Sandow Birk.

The Meursault Investigation 2015-06-02 Kamel Daoud A New York Times Notable Book of 2015 "A tour-de-force reimaging of Camus's The Stranger, from the point of view of the mute Arab victims." —The New Yorker He was the brother of "the Arab" killed by the infamous Meursault, the antihero of Camus's classic novel. Seventy years after that event, Harun, who has lived since childhood in the shadow of his sibling's memory, refuses to let him remain anonymous: he gives his brother a story and a name—Musa—and describes the events that led to Musa's casual murder on a dazzlingly sunny beach. In a bar in Oran, night after night, he ruminates on his solitude, on his broken heart, on his anger with men desperate for a god, and on his disarray when faced with a country that has so disappointed him. A stranger among his own people, he wants to be granted, finally, the right to die. The Stranger is of course central to Daoud's story, in which he both endorses and criticizes one of the most famous novels in the world. A worthy complement to its great predecessor, The Meursault Investigation is not only a profound meditation on Arab identity and the disastrous effects of colonialism in Algeria, but also a stunning work of literature in its own right, told in a unique and affecting voice.

The First Muslim 2014-02-04 Lesley Hazleton The extraordinary life of the man who founded Islam, and the world he inhabited—and remade. Lesley Hazleton's new book, Agnostic: A Spirited Manifesto, is out now from Riverhead Books. Muhammad's was a life of almost unparalleled historical importance; yet for all the iconic power of his name, the intensely dramatic story of the prophet of Islam is not well known. In The First Muslim, Lesley Hazleton brings him vibrantly to life. Drawing on early eyewitness sources and on history, politics, religion, and psychology, she renders him as a man in full, in all his complexity and vitality. Hazleton's account follows the arc of Muhammad's rise from powerlessness to power, from anonymity to renown, from insignificance to lasting significance. How did a child shunted to the margins end up revolutionizing his world? How did a merchant come to challenge the established order with a new vision of social justice? How did the pariah hounded out of Mecca turn exile into a new and victorious beginning? How did the outsider become the ultimate insider? Impeccably researched and thrillingly readable, Hazleton's narrative creates vivid insight into a man navigating between idealism and pragmatism, faith and politics, nonviolence and violence, rejection and acclaim. The First Muslim illuminates not only an immensely significant figure but his lastingly relevant legacy.

Daughters Of Arabia 2010-12-15 Jean Sasson Readers of Princess Sultana's extraordinary biography Princess were gripped by her powerful indictment of women's lives behind the veil within the royal family of Saudi Arabia. They were every bit as fascinated by the sequel, Daughters of Arabia. Here, the princess turns the spotlight on her two daughters, Maha and Amani, both teenagers. Surrounded by untold opulence and luxury from the day they were born, but stifled by the unbearably restrictive lifestyle imposed on them, they reacted in equally desperate ways. Their dramatic and shocking stories, together with many more which concern other members of Princess Sultana's huge family, are set against a rich backdrop of Saudi Arabian culture and social mores which she depicts with equal colour and authenticity. We learn, for example, of the fascinating ritual of the world-famous annual pilgrimage to Makkah as we accompany the princess and her family to this holiest of cities. Throughout, however, she never tires of her quest to expose the injustices which her society levels against women. In her courageous campaign to improve the lot of her own daughters of Arabia, Princess Sultana once more strikes a chord amongst all women who are lucky enough to have the freedom to speak out for themselves.

The Forty Rules of Love 2010-02-18 Elif Shafak In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of The Island of Missing Trees (a Reese's Book Club Pick), incarnates Rumi's timeless message of love The Forty Rules of Love unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on Sweet Blasphemy, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

Besa 2008-12-12 Norman H. Gershman Besa is a code of honor deeply rooted in Albanian culture and incorporated in the faith of Albanian Muslims. It dictates a moral behavior so absolute that nonadherence brings shame and dishonor on oneself and one's family. Simply stated, it demands that one take responsibility for the lives of others in their time of need. In Albania and Kosovo, Muslims sheltered, at grave risk to themselves and their families, not only the Jews of their cities and villages, but thousands of Jews fleeing the Nazis from other European countries. Over a five-year period, photographer Norman H. Gershman sought out, photographed, and collected these powerful and moving stories of heroism in Besa: Muslims Who Saved Jews in World War II. The book reveals a hidden period in history, slowly emerging after the fall of an isolationist communist regime, and shows the compassionate side of ordinary people in saving Jews. They acted within their true Muslim faith.

The Truth Unveiled 2016-06-01 Hazrat Mirza Ghulam Ahmad Islam is a religion that inculcates the importance of being loyal to the country in which one lives. Hazrat Mirza Ghulam Ahmad, peace be upon him, the Promised Messiah and Mahdi, and Founder of the Ahmadiyya Muslim Community, always taught the same to his followers. However, Maulvi Muhammad Husain of Batala, a staunch opponent, sought to defame the author by sending false reports to the government alleging that the Promised Messiah, peace be upon him, was a man who secretly conspired against the state. Against this backdrop, the author was moved to pen this treatise, in which he outlines his own family background and the long-standing services of his family in support of the British government. He also presents a succinct summary of the teachings of his community. Moreover, the author explains that Muslims who believe in the return of a violent Mahdi who would forcibly convert the world to Islam could not be further from the truth.
