Like a Thief in the Night 2015-02-25 Stafford North Dr. Stafford North answers many common questions about the end of time. - What and when are the "last days"? - What does the Bible teach about the end of time? - Do Old Testament prophets predict an earthly reign of Christ? Will it last a thousand years? - Will there be a rapture? - Are there signs which signal the coming of the end of time? - Do Bible prophets foretell of a great war just before the end of the world? - Will one or two antichrists plunge the earth into that final war? Drawing from a lifetime of study, North explores biblical teaching about the last days, Book of Revelation and second-coming of Christ, while addressing many of the popular end times theories and myths. Like a Thief in the Night serves as an excellent companion study to North's book, Unlocking Revelation, and contains teaching outlines for each chapter. Dr. Stafford North is a distinguished professor of Bible at Oklahoma Christian University, where he has taught for more than half a century. He has also been a frequent lectureship speaker, served as a local minister, and has been an elder for more than thirty years at the Memorial Road Church of Christ. Since 1975, Dr. North has become well-known for a popular series on the Book of Revelation, which he has presented hundreds of times throughout the United States and around the world. It is the basis for his book, Unlocking Revelation.

Analysis and Control of Electric Drives 2020-08-27 Ned Mohan A guide to drives essential to electric vehicles, wind turbines, and other motor-driven systems Analysis and Control of Electric Drives is a practical and comprehensive text that offers a clear understanding of electric drives and their industrial applications in the real-world including electric vehicles and wind turbines. The authors—noted experts on the topic—review the basic knowledge needed to understand electric drives and include the pertinent material that examines DC and AC machines in steady state using a unique physics-based approach. The book also analyzes electric machine operation under dynamic conditions, assisted by Space Vectors. The book is filled with illustrative examples and includes information on electric machines with Interior Permanent Magnets. To enhance learning, the book contains end-of-chapter problems and all topics covered use computer simulations with MATLAB Simulink® and Sciamble® Workbench software that is available free online for educational purposes. This important book: Explores additional topics such as electric machines with Interior Permanent Magnets Includes multiple examples and end-of-chapter homework problems Provides simulations made using MATLAB Simulink® and Sciamble® Workbench, free software for educational purposes Contains helpful presentation slides and Solutions Manual for Instructors; simulation files are available on the associated website for easy implementation A unique feature of this book is that the simulations in Sciamble® Workbench software can seamlessly be used to control experiments in a hardware laboratory Written for undergraduate and graduate students, Analysis and Control of Electric Drives is an essential guide to understanding electric vehicles, wind turbines, and increased efficiency of motor-driven systems.

Defenseless Under the Night 2016-06-02 Matthew Dallek In his 1933 inaugural address, Franklin D. Roosevelt declared that "the only thing we have to fear is fear itself." Yet even before Pearl Harbor, Americans feared foreign invasions, air attacks, biological weapons, and, conversely, the prospect of a dictatorship being established in the United States. To protect Americans from foreign and domestic threats, Roosevelt warned Americans that "the world has grown so small" and eventually established the precursor to the Department of Homeland Security - an Office of Civilian Defense (OCD). At its head, Roosevelt appointed New York Mayor Fiorello La Guardia; First Lady Eleanor Roosevelt became assistant director. Yet within a year, amid competing visions and clashing ideologies of wartime liberalism, a frustrated FDR pressured both to resign. In Defenseless Under the Night, Matthew Dallek reveals the dramatic history behind America's first federal office of homeland security, tracing the debate about the origins of national vulnerability to the rise of fascist threats during the Roosevelt years. While La Guardia focused on preparing the country against foreign attack and militarizing the civilian population, Eleanor Roosevelt insisted that the OCD should primarily focus on establishing a wartime New Deal, what she and her allies called "social defense." Unable to reconcile their visions, both were forced to leave the OCD in 1942. Their replacement, James Landis, would go on to recruit over ten million volunteers to participate in civilian defense, ultimately creating the largest volunteer program in World War II America. Through the history of the OCD, Dallek examines constitutional questions about civil liberties, the role and power of government propaganda, the depth of militarization of civilian life, the quest for a wartime New Deal, and competing liberal visions for American national defense - questions that are still relevant today. The result is a gripping account of the origins of national security, which will interest anyone with a passion for modern American political history and the history of homeland defense.

Anna could never forget her first love, Leo. Their paths had crossed when they were both 16, at a magical summer camp. They were drawn to each other like magnets, spending every day exchanging lighthearted banter, exchanging heartfelt thoughts, and experiencing the thrill of first love. Their bond was indestructible, and they vowed to keep in touch, to wait for each other, and to love each other forever. But life, as it often does, had different plans in store for them. They lost track of each other, they moved on with their lives, and they eventually married other people. Years passed, and the turmoil of life took them in different directions. But fate, it seems, had not forgotten their unwavering connection. At a chance encounter, at a long-awaited reunion, their paths crossed once again. The moment they laid eyes on each other, the embers of their affection rekindled. The same electric spark that had drawn them together years ago was still potent. They felt the same joy that had fueled their teenage romance, but they also felt the weight of time. Their hearts yearned for the deep connection they had shared, but their minds grappled with the tangled web of their current lives. They were caught in a tug-of-war, torn between the alluring memories of their first love and the comfort and familiarity of their present. They stood at a critical juncture, forced to make a difficult choice. Would they choose the intense connection of their first love, risking the uncertainty that lay ahead, or would they hold onto the predictability of their current lives, forever wondering what could have been? Only time would tell if their unwavering connection would find a way to prevail.
