Dunn, the evaluation is made to evaluate receptive vocabulary for American English. It is quick and effortless to administer, preserving precious time so that concentration can be placed on applying effective interventions.

The evaluation provides two identical editions which include different vocabulary terms, making sure that the test-taker has not “mastered” the evaluation. One version can be employed before intervention to assess test-takers’ vocabulary knowledge and the other edition can be utilized for re-testing to assess and note advancement. The PPVT-4 also features a unique Growth Scale Value (GSV) which is responsive to slight changes over time.
