"The work of Giorgio Caproni has been translated into French, German, and Chinese, among others, but this collection is his first book-length English publication. His works are finely tuned to modern man's preoccupations with existence in a world deprived of certainties (for example, the existence or inexistence of God). Most are touched by experiences such as the Second World War and its atrocities, the Resistance Movement, or the death of loved ones, events that represent the conviction of a subject that will do its best to survive all adversity, uncompromised" -- from

illegitimate son of a fortune teller, Ezio Comparoni (1920-52) never knew his father, rarely left his home town, and admitted no one to his home. His deliberate obscurity was compounded by his use of many pseudonyms, including Silvio d'Arzo, under which he wrote the remarkable novella and three stories collected in *The House of Others*. The novella *The House of Others* is among the rare perfect works of twentieth century fiction. In a desolate mountain village an old woman visits the parish priest, ostensibly to ask about dissolving a marriage. Gradually, as she probes for information on "special cases"--cases in which what is obviously wrong can also be irrefutably right--it becomes clear her true question is whether or not she might take her own life. The

question is metaphysical, involving not only the woman's life but the priest's; and to it he has no answer.

The Devout Hand

After the Counter-Reformation, the Papal State of Bologna became a hub for the flourishing of female artistic talent. The eighteenth-century biographer Luigi Crespi recorded over twenty-eight women artists working in the city, although many of these, until recently, were ignored by modern art criticism, despite the fame they attained during their lifetimes. What were the factors that contributed to

Bologna's unique confluence of women with art, science, and religion? The Devout Hand explores the work of two generations of Italian women artists in Bologna, from Lavinia Fontana (1552–1614), whose career emerged during the aftermath of the Counter Reformation, to her brilliant successor, Elisabetta Sirani (1638–1665), who organized the first school for women artists. Patricia Rocco further sheds light on Sirani's students and colleagues, including the little-known engraver Veronica Fontana and the innovative but understudied etcher Giuseppe Maria Mitelli. Combining analysis of iconography, patronage, gender, and reception studies, Rocco integrates painting, popular prints, book illustration, and

that was based on a civilizing mission toward the Slavs. The book argues that the Enlightenment within the [Adriatic Empire] of Venice was deeply concerned with exploring the economic and social dimensions of backwardness in Dalmatia, in accordance with the evolving distinction between [Western Europe] and [Eastern Europe] across the continent. It further argues that the primitivism attributed to Dalmatians by the Venetian Enlightenment was fundamental to the European intellectual discovery of the Slavs. The book begins by discussing Venetian literary perspectives on Dalmatia, notably the drama of Carlo Goldoni and the memoirs of Carlo Gozzi. It then studies the work that brought the subject of Dalmatia to the attention of the

European Enlightenment: the travel account of the Paduan philosopher Alberto Fortis, which was translated from Italian into English, French, and German. The next two chapters focus on the Dalmatian inland mountain people called the Morlacchi, famous as [savages] throughout Europe in the eighteenth century. The Morlacchi are considered first as a concern of Venetian administration and then in relation to the problem of the [noble savage], anthropologically studied and poetically celebrated. The book then describes the meeting of these administrative and philosophical discourses concerning Dalmatia during the final decades of the Venetian Republic. It concludes by assessing the legacy of the Venetian Enlightenment.

Bridges to Scandinavia
2020-01-15 Collectif
This volume is the final output of a project started in 2013 on the occasion of the fortieth anniversary of the Scandinavian Section of the University of Milan. A group of scholars working on different European and non-European cultural and literary traditions come together here to discuss the relationships between their areas of study and the Nordic countries. The range of the contributions

expands over time and space, from the Middle Ages to the present day, from Poland in the east to the United States in the west, across various European countries.

Through various kinds of expertise and different perspectives, this intercultural discourse deals with diverse themes, including the perception of Nordic culture(s) by foreign writers as well as the image of other cultures in Scandinavian works. In particular, the literary and cultural interchange of models and ideas between the North and other areas is investigated in a number of essays devoted to numerous authors, including, among others, Klaus Böldl, Carmen de Burgos, Carlo Emilio Gadda, Gerhart Hauptmann, Henrik Ibsen, Stieg Larsson, Carl von Linné, Rainer Maria Rilke, J.D. Using Italian 2004-07 J. J. Kinder This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian

that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Marking the Jews in Renaissance Italy 2017-08-03 Flora Cassen It is a little known fact that as early as the thirteenth century, Europe's political and religious powers tried to physically mark and distinguish the Jews from the rest of society. During the Renaissance, Italian Jews first had to wear a yellow round badge on their chest, and then later, a yellow beret. The discriminatory marks were a widespread phenomenon with origins

consequences for Jewish communities and their relations with Christians. Beginning with a sartorial study - how the Jews were marked on their clothing and what these marks meant - the book offers an in-depth analysis of anti-Jewish discrimination across three Italian city-states: Milan, Genoa, and Piedmont. Moving beyond Italy, it also examines the place of Jews and Jewry law in the increasingly interconnected world of Early Modern European politics.

period, and the changing relationship of the patricians to the state apparatus. His discussion of this largely neglected period of Italian history shows that the elite of the Florentine Renaissance Republic continued as the main component of the urban office-holding aristocracy under the Grand Dukes of Tuscany, and that they had an important role in the transition from Renaissance communal institutions to those of a regional state. The Hospitallers, the Mediterranean and Europe 2016-03-09 Nikolas Jaspert Modern study of the Hospitallers, of other military-religious orders, and of their activities both in the Mediterranean and in Europe has been deeply influenced by the work of Anthony Luttrell. To mark his 75th birthday in October 2007 twenty-three colleagues from ten different countries have contributed to this volume. The first section focuses on the crusading period in the Holy Land, considering the Hospital in

Jerusalem, relations with the Assassins, finances, indulgences, transportation and the careers of the brothers and knights. The second and third sections move to the later Middle Ages, when the Hospitallers had their centre on Rhodes, and military and charitable activities in the East had to be supported with men and money from the West. The papers in the second section consider the Hospitallers on Rhodes, relations between Rhodes and the West and plans for crusades, while the third section includes papers on the Hospitallers in the Iberian Peninsula and in Hungary, the territorial administration of the Order of Montesa in Valencia, a plan to transfer the headquarters of the Teutonic Order from Prussia to France, and from

Hospitaller reconsideration of warfare and learning on the eve of the council of Trent. The final paper proposes new definitions and guidelines for future work on the military-religious orders. The authors include both well-known experts and younger scholars who promise to follow in the footsteps of Anthony Luttrell and to continue research into the Hospitallers and their fellow orders, these peculiar European communities *avant la lettre*.

Discourse on Sacred and Profane Images 2012 Gabriele Paleotti In the wake of the Counter-Reformation, Cardinal Gabriele Paleotti, the archbishop of Bologna, wrote a remarkable treatise on art during a time when the Church feared rampant abuse in the arts. Crime and Justice in Late Medieval Italy 2007-08-02 Trevor Dean In this important study, Trevor Dean examines the history of crime and criminal justice in Italy from the mid-thirteenth to the end of the fifteenth century. The book contains

studies of the most frequent types of prosecuted crime such as violence, theft and insult, along with the rarely prosecuted sorcery and sex crimes. Drawing on a diverse and innovative range of sources, including legislation, legal opinions, prosecutions, chronicles and works of fiction, Dean demonstrates how knowledge of the history of criminal justice can illuminate our wider understanding of the Middle Ages. Issues and instruments of criminal justice reflected the structure and operation of state power; they were an essential element in the evolution of cities and they provided raw material for fictions. Furthermore, the study of judicial records provides insight into a wide range of social situations, from

domestic violence to the oppression of ethnic minorities.

The Triplex Confinium, as an area and experience of living on the crossroads of different civilizations, cultures and religions in a long historical perspective, inspired an international research from

Her large and renowned body of work encompasses several genres, including altarpieces, history paintings, and portraits. This extensively illustrated book is the first comprehensive study of Fontana in the English language. Art historian Caroline P. Murphy assesses the relation of Fontana's native city of Bologna to the artist's work and career, proposing that the unique attributes of the city, its religious and social climate and the citizens who became Fontana's patrons contributed importantly to her success as an artist." Global Neorealism
2011-10-11 Saverio
Giovacchini
Intellectual, cultural, and film historians have long considered neorealism the founding block of post-World War II Italian cinema. Neorealism, the traditional story goes, was an Italian film style born in the second postwar period and aimed at recovering the reality of Italy after

the sugarcoated moving images of Fascism. Lasting from 1945 to the early 1950s, neorealism produced world-renowned masterpieces such as Roberto Rossellini's *Roma, città aperta* (Rome, Open City, 1945) and Vittorio De Sica's *Ladri di biciclette* (Bicycle Thieves, 1947). These films won some of the most prestigious film awards of the immediate postwar period and influenced world cinema. This collection brings together distinguished film scholars and cultural historians to complicate this nation-based approach to the history of neorealism. The traditional story notwithstanding, the meaning and the origins of the term are problematic. What does neorealism really mean, and how Italian is it? Italian filmmakers were wary of using the word from

and Rossellini preferred "realism." Many filmmakers confessed to having greatly borrowed from other cinemas, including French, Soviet, and American.

Divided into three sections, *Global Neorealism* examines the history of this film style from the 1930s to the 1970s using a global and international perspective. The first section examines the origins of neorealism in the international debate about realist esthetics in the 1930s. The second section discusses how this debate about realism was "Italianized" and coalesced into Italian "neorealism" and explores how critics and film distributors participated in coining the term. Finally, the third section looks at neorealism's success outside of Italy and examines how film

cultures in Latin America, Africa, Asia, and the United States adjusted the style to their national and regional situations.

History of Law and Other Humanities. Views of the legal world across the time 2019-07-09 Valerio Massimo Minale The collection of essays presented here examines the links forged through the ages between the realm of law and the expressions of the humanistic culture. We collected thirty-five essays by international scholars and organized them into sections of ten chapters based around ten different themes. Two main perspectives emerged: in some articles the topic relates to the conventional approach of law and/in humanities (iconography, literature, architecture, ~~Documented from~~

music), other articles are about more traditional connections between fields of knowledge (in particular, philosophy, political experiences, didactics). We decided not to confine authors to one particular methodological framework, preferring instead to promote historiographical openness. Our intention was to create a patchwork of different approaches, with each article drawing on a different area of culture to provide a new angle to the history being told. The variety of authorial nationalities gives the collection a multicultural character and the breadth of the chronological period it deals with from antiquity to the contemporary age adds further depth of insight. As the element

that unites the collection is historiographical interpretation, we wanted to bring to the fore its historical depth. Thus for every chapter we organized the articles in chronological order according to the historical context covered. Looking at the final outcome, it was interesting to learn that more often than not the connection between law and humanities is not simply a relation between a specific branch of the law and a single field of the humanities, but rather a relation that could be developed in many directions at once, involving different fields of knowledge, and of arts and popular culture. We are grateful to Luigi Lacchè for his contribution to this collection. His essay outlines the

of the law and humanities world, laying out the instruments necessary for an understanding of the origins of a complex methodology and the different approaches that exist within it. The Criminal Law System of Medieval and Renaissance Florence 1994 Laura Ikens Stern Historians of medieval and Renaissance Italy have long held that the Florentine republic fell victim to rule by oligarchy in the early fifteenth century. Now, in the first complete analysis of the criminal law system of Florence during this crucial period, Laura Ikens Stern argues that the vitality of Florentine legal institutions gives evidence of a centralized state bureaucracy strong enough to thwart the early development of a ruling oligarchy. Exploring the changing roles played by judicial officials as well as the

evolution of Florentine government, Stern shows how these developments reflected broad-based change in society at large. From such primary documents as legal statutes and actual trial records, she provides a step-by-step explanation of trial procedure to offer a rare glimpse of inquisition methods in the secular world--from public fame initiation, through the weighing of various levels of proof, to the complex process of sentencing. And she explores the links between implementation of inquisition procedure, the development of the territorial state, and the struggle between republican institutions and the emerging oligarchy. The Iguana 1987 Anna Maria Ortese In this magical novel a count from Milan stumbles upon a desolate community of lost noblemen on an uncharted island off the coast of Portugal. When he discovers, to his astonishment, that their ill-treated servant is in fact a maiden iguana, and then proceeds to fall in love with her, the reader is given a fantastic tale of tragic love and delusion that ranks among the most affecting in contemporary literature. "The reptilian servant is only the first in a series of fantastic touches that transform the narrative into a satiric fable dense with the echoes of Shakespeare's 'Tempest' and Kafka's 'Metamorphosis.' . . . The Iguana is a superb performance." "€"New York Times Book Review
