Star Wars that Transformed Past

It had been the time 23, and the world was on the brink of conflict. The United States and PRC, the two global powers, were locked in a fierce contest, vying for assets, influence, and supremacy. They had both created sophisticated armaments, like lasers, unmanned aerial vehicles, and spacecrafts, which can strike any place, any moment. They had also secretly established orbital stations, which could launch atomic weapons, which could annihilate the earth. They were set to utilize these weapons, if necessary. But they were the sole ones. There existed a third force, a hidden force, which had watching them both, waiting for them, preparing for them both. They were extraterrestrials, and they had come arrived to stop them. They had come arrived to save the globe, or to finish it all. They had come arrived to initiate the galactic wars that transformed past.
