Gunyah, Goondie + Wurley

2007 Paul Memmott "When Europeans first reached Australian shores, a long-held and expedient perception developed that Australian Aboriginal people did not have houses or settlements, that they occupied temporary camps, sheltering in makeshift huts or lean-tos of grass and bark. This book redresses that notion, exploring the range and complexity of Aboriginal-designed structures, spaces and territorial behaviour, from minimalist shelters to permanent houses and villages. 'Gunyah, Goondie and Wurley' encompasses Australian Aboriginal

The Biggest Estate on Earth

2011-10-01 Bill Gammage Publisher's description: Across Australia, early Europeans commented again and again that the land looked like a park. With extensive grassy patches and pathways, open woodlands and abundant wildlife, it evoked a country estate in England. Bill Gammage has discovered this was because

Aboriginal people managed the land in a far more systematic and scientific fashion than we have ever realised. For over a decade, Gammage has examined written and visual records of the Australian landscape. He has uncovered an extraordinarily complex system of land management using fire and the life cycles of native plants to ensure plentiful wildlife and plant foods throughout the year. We know Aboriginal people spent far less time and effort than Europeans in securing food and shelter, and now we know how they did it. With details of land-management strategies from around Australia, *The Biggest Estate on Earth* rewrites the history of this continent, with huge implications for us today. Once Aboriginal people were no longer able to tend their country, it became overgrown and vulnerable to the hugely damaging bushfires we now experience. And what we think of as virgin bush in a national park is nothing of the kind.

Aboriginal Australians

2019-11-05 Richard Broome The vast sweeping story of Aboriginal Australia from 1788 is told in Richard Broome's typical lucid and imaginative style. This is an important work of great scholarship, passion and imagination.' - Professor Lynette Russell, Centre for Australian Indigenous Studies, Monash University In the creation of any new society, there are winners and losers. So it was with Australia as it grew from a colonial outpost to an affluent society. Richard Broome tells the history of Australia from the standpoint of the original Australians: those who lost most in the early colonial struggle for power. Surveying over two centuries of Aboriginal-European encounters, he shows how white settlers steadily supplanted the original inhabitants, from the shining coasts to inland deserts, by sheer force of numbers, disease, technology and violence. He also tells the story of Aboriginal survival through resistance and accommodation, and traces the continuing Aboriginal struggle to move from the

margins of a settler society to a more central place in modern Australia. Broome's Aboriginal Australians has long been regarded as the most authoritative account of black-white relations in Australia. This fifth edition continues the story, covering the impact of the Northern Territory Intervention, the mining boom in remote Australia, the Uluru Statement, the resurgence of interest in traditional Aboriginal knowledge and culture, and the new generation of Aboriginal leaders. 'Richard Broome's historical analysis breaks the back of every theoretical argument about colonialism and establishes a clear pathway to understanding the present situation.' - Sharon Meagher, Aboriginal Education Development Officer, Women's and Children's Hospital, Adelaide

Australians. The evidence insists that Aboriginal people right across the continent were using domesticated plants, sowing, harvesting, irrigating and storing - behaviors inconsistent with the hunter-gatherer tag. Gerritsen and Gammage in their latest books support this premise but Pascoe takes this further and challenges the hunter-gatherer tag as a convenient lie. Almost all the evidence comes from the records and diaries of the Australian explorers, impeccable sources.

Mojo

2010-02-02 Marshall Goldsmith Mojo is the moment when we do something that's purposeful, powerful, and positive and the rest of the world recognizes it. This book is about that moment--and how we can create it in our lives, maintain it, and recapture it when we need it. In his follow-up to the New York Times bestseller What Got You Here Won't Get You There, #1 executive coach Marshall Goldsmith shares the

ways in which to get--and keep--our Mojo. Our professional and personal Mojo is impacted by four key factors: identity (who do you think you are), achievement (what have you done lately?), reputation (who do other people think you are--and what have you've done lately?), and acceptance (what can you change--and when do you need to just "let it go"?). Goldsmith outlines the positive actions leaders must take, with their teams or themselves, to initiate winning streaks and keep them coming. Mojo is: that positive spirit--towards what we are doing--now--that starts from the inside--and radiates to the outside. Mojo is at its peak when we are experiencing both happiness and meaning in what we are doing and communicating this experience to the world around us. The Mojo Toolkit provides fourteen practical tools to help you achieve both happiness and meaning--not only in business, but in life.
