"In his first journal, middle schooler Rowley Jefferson, Greg Heffley's sidekick, records his experiences and misguided decision to write a biography of Greg, who, in his own mind, is destined to become rich and famous."-- The Boy Who Harnessed the Wind 2015-02-05 William Kamkwamba Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

The Boy Who Harnessed the Wind LP 2009-10-13 William Kamkwamba William Kamkwamba was born in Malawi, a land withered by drought and hunger, a place where hope and opportunity were hard to find. But William had read about windmills and dreamed of building one that would bring his family electricity and running water, luxuries that only two percent of Malawians could afford. He used scrap metal, tractor parts, and bicycle halves to forge a crude machine that eventually powered four lights, complete with homemade switches and a circuit breaker made from nails and wire. A second windmill turned a water pump that could battle the drought and famine looming with every season. The Boy Who Harnessed the Wind will inspire anyone who doubts the power of one individual's ability to change his community and better the lives of those on an entire continent.

All Things Must Fight to Live 2011-01-08 Bryan Mealer In All Things Must Fight to Live, Bryan Mealer takes readers on a harrowing two-thousand mile journey through Congo, where gun-toting militia still rape and kill with impunity. Amidst burnt-out battlefields where armies still wrestle for control, into the dark corners of the forests, and along the high savanna, where thousands have been slaughtered and quickly forgotten, Mealer searches for signs that Africa's most troubled state will soon rise from ruin. At once illuminating and startling, All Things Must Fight to Live is a searing portrait of an emerging country facing unimaginable upheaval and almost impossible odds, as well as an unflinching look at the darkness that continues to exist in the hearts of men. It is non-fiction at its finest-powerful, moving, necessary.

The Boy Who Harnessed the Wind 2009-09-29 William Kamkwamba William Kamkwamba was born in Malawi, a country where magic ruled and modern science was mystery. It was also a land withered by drought and hunger, and a place where hope and opportunity were hard to find. But William had read about windmills in a book called Using Energy, and he dreamed of building one that would bring electricity and water to his village and change his life and the lives of those around him. His neighbors may have mocked him and called him misala--crazy-but William was determined to show them what a little grit and ingenuity could do. Enchanted by the workings of electricity as a boy, William had a goal to study science in Malawi's top boarding schools. But in 2002, his country was stricken with a famine that left his family's farm devastated and his parents destitute. Unable to pay the eighty-dollar-a-year tuition for his education, William was forced to drop out and help his family forage for food as thousands across the country starved and died. Yet William refused to let go of his dreams. With nothing more than a fistful of cornmeal in his stomach, a small pile of once-forgotten science textbooks, and an army of curiosity and determination, he embarked on a daring plan to bring his family a set of luxuries that only two percent of Malawians could afford and what the West considers a necessity--electricity and running water. Using scrap metal, tractor parts, and bicycle halves, William forged a crude yet operable windmill, an unlikely contraption and small miracle that eventually powered four lights, complete with homemade switches and a circuit breaker made from nails and wire. A second machine turned a water pump that could battle the drought and famine that loomed with every season. Soon, news of William's magetsi a mphapo--his "electric wind"--spread beyond the borders of his home, and the boy who was once called crazy became an inspiration to those around the world. Here is the remarkable story about human inventiveness and its power to overcome crippling adversity. The Boy Who Harnessed the Wind will inspire anyone who doubts the power of one individual's ability to change his community and better the lives of those around him.

The boy who harnessed the wind 2015 William Kamkwamba William Kamkwamba grew up in a tiny farming village in Malawi, Africa, without electricity. When a drought destroyed the crops and famine resulted, William's family could no longer afford his school tuition. He continued to study on his own, though, painstakingly translating an English science textbook and figuring out how to build a windmill out of old bike parts and other scraps. To the wonder of his community, he brought electricity to his home, and later to his whole village and thus water as well. Includes an eight-page insert of photographs.

Muck City 2013-08-13 Bryan Mealer In a town deep in the Florida Everglades, where high school football is the only escape, a haunted quarterback, a returning hero, and a scholar struggle against terrible odds. The loamy black "muck" that surrounds Belle Glade, Florida once built an empire for Big Sugar and provided much of the nation's vegetables, often on the backs of roving, destitute migrants. Many of these were children who honed their skills along the field rows and started one of the most legendary football programs in America. Belle Glade's high school team, the Glades Central Raiders, has sent an extraordinary number of players to the National Football League – 27 since 1985, with five of those drafted in the first round. The industry that gave rise to the town and its team also spawned the chronic poverty, teeming migrant ghettos, and violence that cripples futures before they can ever begin. Muck City tells the story of quarterback Mario Rowley, whose dream is to win a championship for his deceased parents and quiet the ghosts that haunt him; head coach Jessie Hester, the town's first NFL star, who returns home to "win kids, not championships"; and Jonteria Williams, who must build her dream of becoming a doctor in one of the poorest high schools in the nation. For boys like Mario, being a Raider is a one-shot window for escape and a college education. Without football, Jonteria and the rest must make it on brains and fortitude alone. For the coach, good intentions must battle a town's obsession to win above all else. Beyond the Friday night lights, this book is an engrossing portrait of a community mired in a shameful past and uncertain future, but with the fierce will to survive, win, and escape to a better life.

My Journey to the Stars (Step into Reading) 2020-08-04 Scott Kelly An easy-to-read autobiography of NASA astronaut Scott Kelly, in jacketed hardcover, that takes readers on his awe-inspiring journey from childhood to his record-breaking year among the stars. A autobiography of NASA astronaut Scott Kelly! Scott wasn't sure what he wanted to be when he grew up. He struggled in school and often got in trouble with his twin brother, Mark. Then one day Scott discovered a book about test pilots and astronauts that set him on a new path. His new focus led him to fly higher and higher, becoming first a pilot and then an astronaut, along with his brother--the first twin astronauts in history. But his greatest accomplishment of all was commanding the International Space Station and spending nearly a year in space, which set the record for the longest spaceflight by an American. This story of an ordinary boy who grew up to do extraordinary things will amaze and inspire young readers.

Two Roads 2019-08-27 Joseph Bruchac A boy discovers his Native American heritage in this Depression-era tale of identity and friendship by the author of Code Talker It's 1932, and twelve-year-old Cal Black and his Pop have been riding the rails for years after losing their farm in the Great Depression. Cal likes being a "knight of the road" with Pop, even if they're broke. But then Pop has to go to Washington, DC--some of his fellow veterans are marching for their government checks, and Pop wants to make sure he gets his due--and Cal can't go with him. So Pop tells Cal something he never knew before: Pop is actually a Creek Indian, which means Cal is too. And Pop has decided to send Cal to a government boarding school for Native Americans in Oklahoma called the Challagi School. At school, the other Creek boys quickly take Cal under their wings. Even in the harsh, miserable conditions of the Bureau of Indian Affairs boarding school, he begins to learn about his people's history and heritage. He learns their language and customs. And most of all, he learns how to find strength in a group of friends who have nothing beyond each other.

A Boy Is Not a Bird 2019-09-01 Edeet Raveh A young boy named Natt finds his world overturned when his family is

uprooted and exiled to Siberia during the occupation of the Soviet Ukraine by Nazi Germany. In 1941, life in Natt's small town of Zastavna is comfortable and familiar, even if the grownups are acting strange, and his parents treat him like a baby. Natt knows there's a war on, of course, but he's glad their family didn't emigrate to Canada when they had a chance. His mother didn't want to leave their home, and neither did he. He especially wouldn't want to leave his best friend, Max. Max is the ideas guy, and he hears what's going on in the world from his older sisters. Together the boys are two brave musketeers. Then one day Natt goes home and finds his family huddled around the radio. The Russians are taking over. The churches and synagogues will close, Hebrew school will be held in secret, and there are tanks and soldiers in the street. But it's exciting, too. Natt wants to become a Young Pioneer, to show outstanding revolutionary spirit and make their new leader, Comrade Stalin, proud. But life under the Russians is hard. The soldiers are poor. They eat up all the food and they even take over Natt's house. Then Natt's father is arrested, and even Natt is detained and questioned. He feels like a nomad, sleeping at other people's houses while his mother works to free his father. As the adults try to protect him from the reality of their situation, and local authorities begin to round up deportees bound for Siberia, Natt is filled with a sense of guilt and grief. Why wasn't he brave enough to look up at the prison window when his mother took him to see his father for what might be the last time? Or can just getting through war be a heroic act in itself? Whooosh! 2016-05-03 Chris Barton Celebrate the inventor of the Super Soaker in this inspiring picture book biography about Lonnie Johnson, the maker behind one of the world's favorite toys. You know the Super Soaker. It's one of top twenty toys of all time. And it was invented entirely by accident. Trying to create a new cooling system for refrigerators and air conditioners, impressive inventor Lonnie Johnson instead created the mechanics for the iconic toy. A love for rockets, robots, inventions, and a mind for creativity began early in Lonnie Johnson's life. Growing up in a house full of brothers and sisters, persistence and a passion for problem solving became the cornerstone for a career as an engineer and his work with NASA. But it is his invention of the Super Soaker water gun that has made his most memorable splash with kids and adults.

Nikola Tesla for Kids 2019-07-02 Amy O'Quinn Nikola Tesla was a physicist, scientist, electrical engineer, and world-renowned inventor whose accomplishments faded into oblivion after his death in 1943. Tesla was undeniably eccentric and compulsive; some considered him to be somewhat of a "mad" scientist. But in reality, he was a visionary. Many of his ideas and inventions that were deemed impossible during his lifetime have since become reality. He was the first to successfully use rotating magnetic fields to create an AC (alternating current) electrical power supply system and induction motor. He is now acknowledged to have invented the radio ahead of Marconi. Among other things, he developed the Tesla coil, an oscillator, generators, fluorescent tubes, neon lights, and a small remote-controlled boat. He helped design the world's first hydroelectric plant at Niagara Falls. Nikola Tesla for Kids is the story of Nikola Tesla's life and ideas, complete with a time line, 21 hands-on activities, and additional resources to better understand his many accomplishments.

The Hungry Ocean 2001-08-01 Linda Greenlaw The term fisherwoman does not exactly roll trippingly off the tongue, and Linda Greenlaw, the world's only female swordfish boat captain, isn't flattered when people insist on calling her one. "I am a woman. I am a fisherman. . . . I am not a fisherwoman, fisherlady, or fishergirl. If anything else, I am a thirty-seven-year-old tomboy. It's a word I have never outgrown." Greenlaw also happens to be one of the most successful fishermen in the Grand Banks commercial fleet, though until the publication of Sebastian Junger's The Perfect Storm, "nobody cared." Greenlaw's boat, the Hannah Boden, was the sister ship to the doomed Andrea Gail, which disappeared in the mother of all storms in 1991 and became the focus of Junger's book. The Hungry Ocean, Greenlaw's account of a monthlong swordfishing trip over 1,000 nautical miles out to sea, tells the story of what happens when things go right--proving, in the process, that every successful voyage is a study in narrowly averted disaster. There is the weather, the constant danger of mechanical failure, the perils of controlling five sleep-, women-, and booze-deprived young fishermen in close quarters, not to mention the threat of a bad fishing run: "If we don't catch fish, we don't get paid, period. In short, there is no labor union." Greenlaw's straightforward, uncluttered prose underscores the qualities that make her a good captain, regardless of gender: fairness, physical and mental endurance, obsessive attention to detail. But, ultimately, Greenlaw proves that the love of fishing--in all of its grueling, isolating, suspenseful glory--is a matter of the heart and blood, not the mind. "I knew that the ocean had stories to tell me, all I needed to do was listen." --Svenja Soldovieri

Headstrong 2015-04-07 Rachel Swaby Fifty-two inspiring and insightful profiles of history's brightest female scientists. "Rachel Swaby's no-nonsense and needed Headstrong dynamically profiles historically overlooked female visionaries in science, technology, engineering, and math."--Elle In 2013, the New York Times published an obituary for

Yvonne Brill. It began: “She made a mean beef stroganoff, followed her husband from job to job, and took eight years off from work to raise three children.” It wasn’t until the second paragraph that readers discovered why the Times had devoted several hundred words to her life: Brill was a brilliant rocket scientist who invented a propulsion system to keep communications satellites in orbit, and had recently been awarded the National Medal of Technology and Innovation. Among the questions the obituary—and consequent outcry—prompted were, Who are the role models for today’s female scientists, and where can we find the stories that cast them in their true light? Headstrong delivers a powerful, global, and engaging response. Covering Nobel Prize winners and major innovators, as well as lesser-known but hugely significant scientists who influence our every day, Rachel Swaby’s vibrant profiles span centuries of courageous thinkers and illustrate how each one’s ideas developed, from their first moment of scientific engagement through the research and discovery for which they’re best known. This fascinating tour reveals 52 women at their best—while encouraging and inspiring a new generation of girls to put on their lab coats.

There are two subcategories of eating disorders, anorexia nervosa and bulimia nervosa. Anorexia nervosa is the restrictive form, where the intake of food is limited severely. In bulimia nervosa is the eating disorder where the adolescent binges on food and then tries to minimize the effects by forcibly vomiting, fasting, and catharsis or over exercising. When handling adolescence eating disorders, they must be handled differently from adult eating disorders. Adolescents face problems such as growth retardation, suppressed height, abnormal weight, pubertal delay, menstrual periods absence, and menses unpredictability. When the adolescent is growing there will be critical tissue components loss like loss of body fat, muscle mass and bone mineral.

Nutritional imbalance is also caused which reflect abnormalities in the levels of vitamins, mineral and other trace elements. The problem is that these abnormalities cannot be recognized clinically. But since protein and calories are essential to the growth of the adolescent, it is important to trace their abnormalities. Because of the problems, healthy adulthood is not a possible thing. Because of all these reasons, it is important to diagnose adolescence eating disorders as early as possible. Eating disorders give rise to peak bone mass impaired acquisition in case of adolescents. When they turn into adults, this problem aggravates to osteoporosis. Even internal organs get affected due to eating disorders. All this can be prevented by early intervention so as to limit, prevent and ameliorate medical complications, which can turn become life threatening. Adolescents who practice unhealthy weight control practices and are obsessive about figure, weight, food or exercise should be treated clinically. Not only should the symptoms be checked, but their duration, intensity and frequency should also be checked. Although most of the physical complications caused due to eating disorders get solved with the help of nutritional rehabilitation some of the conditions become irreversible and the long term consequences of this are very dangerous. It is best if the eating disorders are recognized in the early stages as it won't result in irreparable damage. The medical monitoring should be pursued till the adolescent returns back to appropriate psychological and medical health.

Fight the boy who harnessed the wind young-Diabetes is a disease where the human body is incapable of producing or utilizing insulin. Insulin is a hormone produced by the body in order to get energy by converting starches, sugar and other items. Since the insulin isn't used properly in diabetic people, the blood sugar level increases. This glucose buildup is found in blood and is then passed onto the urine and comes out of the body and the major source of body energy is lost. Diabetes is a serious chronic disease and should be handled at proper time; otherwise it can create serious problems. It can pose a risk and can damage parts of the human body such as eyes, teeth, gums, blood vessels, nerves, and kidneys. This is the reason why diabetes is responsible in most of the cases of adult blindness, kidney failure and lower limb amputations. And if left untreated, it can cause stroke, heart disease and eventually, death. These problems are not only faced by adults, but also adolescents who get diabetes in their childhood. The important factor in treatment of diabetes is to keep the blood sugar level normal at all times.

Results have showed that of 30 respondents in the test, majority showed functional improvement of various degrees depending on the age and severity of their disabilities. Some improvement was noticeable within a few TAC sessions, especially for drooling, spasticity (scissoring or tiptoeing), ataxia, and poor balance in walking. Functional improvement was noted after one to two courses of TAC. Most children tolerated TAC well, with only occasional pain and minor bleeding in some

patients.

The reason why tongue acupuncture is being experimented with is because there is a connection between the tongue and the heart through the meridians that spread to all the organs in the body. It is believed that the points on the tongue can influence the state of the other body organs thus giving relief to the one suffering from autism.

But many believe that acupuncture alone cannot help autism sufferers. It has to be combined with other things like maintaining a certain diet to help improve one's mood and communication skills. Although it is only short term, it is better than nothing until a cure is found.

The needles used helps the body balance the serotonin levels since it is a neurotransmitter that affects blood vessels and has a role to play in migraines. In fact the more frequent these sessions are the better. It may even come to a point where the specific point of contact is no longer needed but the general stimulation itself.

The end result of undergoing acupuncture is amazing. If you experience 15 to 20 days of agonizing pain, this may be count down to only 8 days. You won't even need to use that much medication anymore as before.

For those who are working, this is good so that they are not absent from work that much and there won't be that much deductions in their salary.

Power the boy who harnessed the wind young...Once he or she knows the reason, this is the time that the needles are inserted into different parts of the body. One way is called the multi-targeted approach which is designed to lower the body's weight by increasing the output of the pituitary gland.

The areas where the needles will be inserted will be in the ear and in two of three body points. These areas could also include the mouth, the stomach, the lung, the endocrine, the spleen, kidney or thyroid.

During the initial treatment, the "Four Gate" points would be used to circulate energy throughout the entire body. It is also possible that electro stimulation will also be done to increase endorphin release and stimulate metabolism.

Space Battles which Changed Past

It had been the time 2023, and the globe was at the brink of battle. The USA and Peoples Republic of China, the two world powers, were locked in a ferocious rivalry, competing for supplies, dominance, and dominance. They had both developed sophisticated arms, including laser weapons, drones, and satellites, which can hit any place, any moment. They had secretly built space stations, which could launch nuclear missiles, that could obliterate the earth. They were ready to use these weapons, if required. But they were not the only ones. There was a third power, a secret power, which had monitoring them, waiting patiently for them both, preparing for them both. They were the ETs, and they had come come to prevent them. They had come arrived to protect the earth, or to terminate it all. They had come come to initiate the galactic wars that changed chronicle.

Life Lessons from the boy who harnessed the wind young

Periodontal disease can be diagnosed by a dentist or a periodontist after reviewing the complete medical history and also physical examination of the teenager's mouth. Usually x-ray of the teeth is taken to evaluate the disease. Periodontal disease is classified into different types based on what stage the disease is in. The mildest form of gum disease is known as "gingivitis" in which gums become swollen, red and tender resulting in bleeding while daily brushing and flossing. Gingivitis is again divided into 4 groups primarily acute, sub-acute, recurrent and chronic. Acute gingivitis is nothing but sudden appearance which lasts for shorter duration and could be painful. Sub-acute gingivitis is less severe type of gingivitis. Recurrent gingivitis is the one that comes back after treatment. Chronic gingivitis is the one that onsets slowly, lasts longer and is generally painless. A dentist's treatment and proper and continuous care can easily solve the problem of gingivitis but if left untreated could result in periodontitis.

Periodontitis is further classified into mild and moderate to advance. Periodontitis results from untreated gingivitis. In this stage the deterioration of the bone in the vicinity of the tooth becomes evident. The common symptoms include red gums that bleed; mouth tastes bad; loose teeth; tooth loss. Proper treatment is a must to control the disease and prevent further deterioration. Periodontitis which is in moderate to advanced stage shows signs of major loss of tissue and bone loss near the teeth.

There are various treatments available for periodontal disease which is decided by the dentist depending on teenager's age, medical history and health in general. The method of treatment also depends on the extent to which disease has reached. The tolerance of the teenager to certain medicines, therapies and procedures are also taken into consideration. Expectations and opinion of the parents or teenager is also the criteria in deciding the type of treatment. The treatment usually involves plaque removal, medication and in worse cases a surgery.

As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

What typically happens when you go to an acupuncturist?

When you go to an acupuncturist, you would typically first be asked about your medical history, how you're feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue.

According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturist's diagnosis.

A lot of people are unaware that acupuncture is not yet legal in every state. You can find work or start your own practice in California, New York, Texas, Hawaii and Oregon with 8 more states that are still pending legislation.

We mentioned that you have to study in a school certified by the Council of Colleges of Acupuncture and Oriental Medicine (CCAOM). One more hurdle you have to face before getting your license is passing an exam given by them except in the state of California which has its own regulating body and board certification exam in order for you to practice your profession.

An acupuncturist degree is just the first step in becoming your own boss. To become a master, you have to learn everything there is to know as a student so those who entrust themselves to you in the future will not have any problems.

Miracle the boy who harnessed the wind young-Advanced Accounting Career Training

Are you satisfied with your career right now? Don't you wish to move upwards or be promoted? One way to develop your accounting career is by taking an advanced accounting career training. You can even try taking up a different field if you like but always remember to remain motivated in your present career.

When you finally decide to undergo advanced accounting career training, you only have positive reasons in your mind. So what are these positive reasons? There are various reasons but the most common are the following:

High chance of promotion. As mentioned earlier, one way to get promoted is through training. You shouldn't stop learning even if you're already old. You can expect career promotion to come your way after undergoing advanced career training. By then, you will be ready to take new responsibilities.

Opportunity the boy who harnessed the wind young:It doesn't matter if you are still in high school or if you are already working because a shift in your career could let you achieve your true calling.

The best way to start though is to talk with an acupuncturist about what it takes to become one so he or she will be able to give you an idea of what happens in the job.

If you haven't picked a school, talk to students about the curriculum so you get your money's worth should you decide to attend this college.

The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to ¼ or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

Liberation the boy who harnessed the wind young__Given that this has been practiced for more than 2000 years, various styles of acupuncture have been developed. So, before you decide to go for a session, you should know what technique is used so they can explain to you what happens.

When looking for an acupuncturist, you should also ask where they got their training, how long they have been in the practice and most importantly, what experience the specialist has had in treating the condition you are experiencing.

They should also be able to present their credentials like where they graduated and their state board license. If you live in a state that does not require a license, make sure they have something to show which certifies that they can practice their profession like a document from the National Commission for the Certification of Acupuncturists.

Guide the boy who harnessed the wind young:Every business aims to get a good and positive figure because that would mean profit to them; if not, the business is at a loss. Societies and economies are built on profit. However, there are times when a certain business incurs losses. Consumer behaviors and economic trends change. Because of this fact, it is not possible to foresee the company's future performance at all times.

How can you tell if a business is at a loss? That is understandable and even those who have no background in accounting know what it means. All liabilities will be deducted from the assets and if results to a negative amount, then the business is at a loss. The accounting staff of the company can still pursue effective measures to revive the business. If the business has efficient and effective accounting staffs, the business can improve in the near future.

Acupressure is another example and here, the fingers are used to relieve the pain. This can be used by itself or with other manual healing techniques.

Impulses of electromagnetic energy are used because our bodies generate tiny but electrical discharges which influence the function, growth and maturity of certain types of cells. By inserting the needles in these areas, it stimulates and alters the neurotransmitters in the body thus making the patient feel better after treatment. This is also sometimes used for diagnosis and testing.

According to the World Health Organization or WHO, here is a list of some illnesses where acupuncture is used. These include acute bronchitis, the common cold, cataract, toothaches, gingivitis, hiccups, ulcers, constipation, diarrhea, headache and migraine, Meniere's disease, osteoarthritis and a lot more. In the US, acupuncture is often used to treat chronic pain conditions and mind body disorders.

The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth. It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity. Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge. Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit. Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

example the boy who harnessed the wind young...There are basically 14 pathways throughout the body where chi flows continuously. These are called the meridian points. In order for chi to course through the body unobstructed, there has to be a balance between the strengths of yin and yang. In ancient Chinese philosophy, yin and yang represent the forces of the universe- yin is for feminine, while yang is for masculine. Every single thing in the universe is believed to contain both yin and yang for harmony.

When the yin and yang are not balanced, chi cannot stream through the body liberally. Therefore, the meridian points through which chi courses through need to be stimulated. This is done by the insertion of hair-thin, disposable needles in specific areas on a person's body to induce bodily harmony and bring about healing. A certified and trained acupuncturist will be able to carry out an excellent therapy session for the patient. Trainings for acupuncturists are given in order for them to obtain their licenses. A poor practitioner may not be proficient enough with the practice and could end up jeopardizing the results of the entire procedure. Nowadays, it is wise to verify on a practitioner's credentials to ensure a safe and effective acupuncture treatment.

Concepts the boy who harnessed the wind young-Variations of Conventional Acupuncture

Auriculotherapy or ear acupuncture is one of the variations of conventional acupuncture. In this practice, it is believed that the ear provides a map for all the major bodily organs. A specific area or point on the ear corresponds to a particular organ, such as the heart, kidneys, or liver. Thus, the needles are placed in particular points around the ear and on the ear cartilage. Stapleupuncture is a method used in smoking cessation, wherein staples are placed for a certain period anywhere on the ear area to provide stimulation. Indeed there is growing evidence that this traditional Oriental practice can rival any modern forms of treatment. If you are one of the many people who are looking for a widely recognized and time honored therapeutic practice, acupuncture may just be the alternative treatment for you.

Modern acupuncturists nowadays use disposable fine stainless steel needles that are 0.007 to 0.020 inches in diameter which are sterilized with either ethylene oxide or by autoclave. Since they are way finer than hypodermic syringe needles, being poked by these needles are relatively painless. The upper third of the needle is covered with either a thicker bronze wire or plastic to make the needle sturdier and easier to handle. The length of the needle and how far they are inserted is all up to the acupuncturist and his practised style of acupuncture.

Example Of Treatment

If a patient has a headache, he/she is diagnosed and is treated by stimulating the sensitive points located at the webs between the thumbs and palms. In acupuncture theory, these points are connected to the face and head and can be used for treatment of headaches and other ailments involved. Needles are then carefully inserted into the skin until the patient feels a twinge, which is usually accompanied by a slight involuntary twitching of the area. During this treatment, a number of things may occur.

- Sensitivity to pain in where needles are inserted.
- A hint of nausea during treatment in case of bad headaches.
- Near-immediate headache relief.

There is a great consensus among the parents whether their children would outgrow asthma as they grow up. But the truth is it depends from child to child. While some children experience improvement in their teens others see asthma becoming even more severe. But almost half of the children who have asthma outgrow asthma as they grow although some symptoms may come back later.

Many parents have questions like whether their children can take part in sport activities. The answer is both yes and no. Some kids may get an asthma attack when they participate in exercises like running. But with proper management a teenager suffering from asthma can actively participate in sports. Special aerobic exercises can improve airway function. This strengthens the breathing muscles. Some of the ways that one can participate in sports is to follow the regimen of stretching the muscles prior to and after exercising, nose-breathe instead of breathing through the mouth and make sure that humidified air passes through the airways. Also parents should make sure that the adolescent has taken all prescribed medication supposed to be taken before they begin exercising. Carrying a reliever is a must for asthmatic teens which would come handy if asthma attack occurs. Asthmatic teenagers should make sure that they wear something over their mouth and nose to stop cold air from entering.

It is not easy for adolescent teens to attend school when they have asthma but it is not difficult also at the same time if proper coordination is made among the teenager, doctor, family and school employees. It is a good idea to consult teachers, nurses and other pertaining employees of the school and let them know that the teenager has asthma and may have special requirements. Also, let the school management know on medications the teenager regularly takes and how to help the teenager when an attack occurs. The school staff should be asked to treat the teen normally once the attack subsides. The physical education coach should also be informed about the condition so that he/she can let the kid stretch the muscles before any exercises or to deal with asthma attack induced due to exercises. Also, before admitting the teenager to a new school care must be taken to check the quality of air, irritants and allergens if any present in the school. The school staff should take considerations to avoid symptoms which could hamper the energy level kids. Also asthmatic teens should be assured from time to time that they are no different from others and asthma in any way does not slow them down, They need this emotional confidence otherwise they may have personality problems.

Legend the boy who harnessed the wind young:The bone marrow replaces small amounts of blood is lost due to some reason without making a person anemic. But in cases where considerable amount of blood flows in small amount of time as a result of an injury due to a serious example for instance, it may not be possible for bone marrow to replace RBCs so quickly resulting in anemia. Also, losing small amounts of blood over long periods of time may also lead to anemia. Example of this situation can be seen in girls who get heavy periods attributed mainly to deficiency of iron in the diet.

Anemia due to iron deficiency is the most common kind of anemia in the United States. It occurs mainly due to lack of iron in a person's diet. A teen with iron deficiency would have lower hemoglobin production and consequently lower RBCs. When the production of RBCs is low the person is regarded as anemic. The signs of anemia are paleness and tiredness. There can be other reasons as to why enough RBCs are not produced in the body. Folic acid and Vitamin B-12 are also essential to produce RBCs. Getting these in adequate quantities is this important too. There can be a problem with bone marrow's working too resulting in anemia.

Hemolytic anemia occurs when a person has RBCs whose lifespan is shorter. The bone marrow may not be able to produce new blood cells if the blood cells die too early. This can result due to many reasons including person having disorders like sphenocytosis or sickle cell anemia. In some cases the immune system of the body may itself destroy the RBCs. In some cases certain antibodies can form in the blood as a result of reaction to certain drugs or infections and may attack the RBCs.

It sounds like a made-up explanation with no basis in reality, but there are numerous scientific studies which support the effects of acupuncture. Although the exact scientific basis is still unknown, recent theories seem to suggest involvement of complicated neurochemical effects in the brain, nerve to spinal cord impulse modulation, and microscopic connective tissue changes.

What risks and side effects are of concern?

The use of things not completely understood for the treatment of medical conditions is nothing new. Penicillin and aspirin were used for decades solely on the basis of their beneficial effects, without doctors knowing exactly how they worked. Results are what are truly important. However, it is equally important is to ensure that the technique is used safely.
