Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia

2016-01-01 Asian Development Bank This publication is part of a series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key

issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

Tea and Tourism

2007-01-01 Lee Jolliffe 'Tea and Tourism' outlines the social, political and developmental contexts of using tea culture for tourism. Case studies of tea tourism destinations and products from around the world are included, from example from the United Kingdom, Sri Lanka, India, China, Taiwan, Kenya and Canada.

Recovering the Authority of Public Institutions

2009 Basil Fernando Thousands of persons were interviewed and hundreds of cases were pursued over the course of several years to create this book. It includes magistrates courts, high courts, the Court of Appeals, the Supreme Court and the United Nations Human Rights Committee. The book observes how the government of Sri Lanka and its agencies acted in the face of the serious complaints raised in these cases. The basis of the book is the detailed records of these cases. Two hundred cases of police torture, mostly

from the South, have been summarised. The cases are from the areas under government control and from places far away from ethnic conflict.

Competitive Cities in the 21st Century

2011-10-01 Kyeong Ae Choe Economic challenges in developing Asian countries have become more complex: urban populations are growing at great cost to the environment, climate change has increased risks of natural disasters, and income gaps within and between developing countries are widening. These factors threaten the sustainable growth and development of urban areas, the drivers of Asia's economy. A strategic approach for inclusive growth is needed. The City Cluster Economic Development approach provides a strategic framework and a set of analytical tools, which governments, businesses, and communities can use to support the inclusive and sustainable

development of competitive urban economies in Asia. Said approach was developed and tested by the Asian Development Bank to improve the basis for integrated planning and development of urban regions in Asia and the Pacific. It also helps urban managers and other city stakeholders identify action plans and determine priority investment areas.

Sri Lanka Education Sector Assessment

2017-06-16 Halil Dunder A country's education system plays a pivotal role in promoting economic growth and shared prosperity. Sri Lanka has enjoyed high school-attainment and enrollment rates for several decades. However, it still faces major challenges in the education sector, and these challenges undermine the country's inclusive growth goal and its ambition to become a competitive upper-middle-income country. The authors of Sri Lanka Education Sector Assessment: Achievements, Challenges,

and Policy Options offer a thorough review of Sri Lanka's education sector—from early childhood education through higher education. With this book, they attempt to answer three questions:

- How is Sri Lanka's education system performing, especially with respect to participation rates, learning outcomes, and labor market outcomes?
- How can the country address the challenges at each stage of the education process, taking into account both country and international experience and also best practices?
- Which policy actions should Sri Lanka make a priority for the short and medium term? The authors identify the most critical constraints on performance and present strategic priorities and policy options to address them. To attain inclusive growth and become globally competitive, Sri Lanka needs to embark on integrated reforms across all levels of education. These reforms must address both short-term skill shortages and long-term productivity. As Sri Lanka moves up the development ladder, the

priorities of primary, secondary, and postsecondary education must be aligned to meet the increasingly complex education and skill requirements.

Enhancing the Role of SMEs in Global Value Chains

2008-10-23 OECD This report identifies the ways in which governments, the business community, and international organisations can facilitate SMEs' gainful participation in global value chains through policies, practices and targeted support programmes.
